19. Certification for Paperwork Reduction Act Submissions

On behalf of this Federal Agency, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9

NOTE: The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320.8(b)(3), appear at the end of the instructions. *The certification is to be made with reference to those regulatory provisions as set forth in the instructions.*

The following is a summary of the topics, regarding the proposed collection of information, that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It used plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention period for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
 - (i) Why the information is being collected;
 - (ii) Use of information;
 - (iii) Burden estimate;
 - (iv) Nature of response (voluntary, required for a benefit, mandatory);
 - (v) Nature and extent of confidentiality; and
 - (vi) Need to display currently valid OMB control number;
- (h) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected (see note in Item 19 of instructions);
- (i) It uses effective and efficient statistical survey methodology; and
- (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of the provisions, identify the item below and explain the reason in Item 18 of the Supporting Statement.

**SUPPORTING STATEMENT
INFORMATION FOR SHARE TRANSFER IN THE WRECKFISH FISHERY
OMB CONTROL NO.: 0648-0262**

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary.

The legislative authority to collect data from the various sectors of the economy that harvest marine resources in the exclusive economic zone is the Magnuson-Stevens Fishery Conservation and Management Act (Act). The individual transferable quota (ITQ) system as defined at CFR 622.15 (attached) for the Wreckfish fishery is based on percentage shares. The size of a person's percentage share and the available total allowable catch (TAC) determine how many pounds of wreckfish a shareholder may harvest each year. Percentage shares in the Wreckfish fishery are issued for an indefinite duration and can be sold. Sales of percentage shares are not final until the sale had been recorded by the Regional Administrator, Southeast Region, National Marine Fisheries Service (NMFS).

2. Explain how, by whom, how frequently, and for what purpose the information will be used. If the information collected will be disseminated to the public or used to support information that will be disseminated to the public, then explain how the collection complies with all applicable Information Quality Guidelines.

This submission is to request the extension of the Wreckfish share transfer data collection program. The purpose of this data collection is to provide the information necessary to transfer ownership of percentage shares. The transfer form is printed on the back of the percentage shares certificate. With each transfer of ownership, the certificate will be reissued. The certificate identifies the seller, but the buyer's name, address, corporate (employer's) Federal tax identification number, and telephone number must be provided. The sale price is necessary for economic analysis. The signatures of buyer, seller, and witness will secure the transaction. If the party purchasing shares is a shareholder, the share certificate must be surrendered so that it can be reissued.

It is anticipated that the information collected will be disseminated to the public or used to support publicly-disseminated information. NMFS will retain control over the information and safeguard it from improper access, modification, and destruction, consistent with National Oceanic and Atmospheric Administration (NOAA) standards for confidentiality, privacy, and electronic information. See response #10 of this Supporting Statement for more information on confidentiality and privacy. The information collection is designed to yield data that meet all applicable information quality guidelines. Prior to dissemination, the information will be subjected to quality control measures and a pre-dissemination review pursuant to Section 515 of Public Law 106-554.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.

The transfer process requires the signatures of witnesses. With only four respondents, it is not cost effective to set up an information technology system to handle this.

4. Describe efforts to identify duplication.

NMFS is confident that it would be aware of similar collections if they existed. The information proposed to be collected is not being collected elsewhere; therefore, this data collection would not cause duplication. This is the only program designed to provide the data necessary to transfer percentage shares.

5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.

Because all respondents are considered small businesses, separate requirements based on size of business have not been developed. Only the minimum data to meet the current and future needs of NMFS' fisheries management are requested under this collection.

6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.

If the collection is not conducted or is conducted less frequently, the Secretary cannot properly implement the limited access system. This would, in turn, prevent proper management of the wreckfish fishery as intended by the Council.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

There are no special circumstances that require the collection to be conducted in a manner inconsistent with Office of Management of the Budget (OMB) guidelines.

8. Provide a copy of the PRA Federal Register notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

A Federal Register Notice (copy attached) solicited public comment on this data collection. No comments were received.

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

There are no payments or other remunerations to respondents.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.

CFR 622.15 requires that the shareholder's name, address, and number of shares be reported to the industry. Based on recent court decisions, the Freedom of Information Act serves as the basis for release of confidential name and address information via a NOAA Internet website for informational purposes. All other data submitted will be handled as confidential material in accordance with NOAA Administrative Order 216-100, Protection of Confidential Fishery Statistics.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

The only question that could be deemed sensitive is the value paid for the shares. Values are confidential and only released in aggregate form. This information is necessary for economic analysis for the purpose of managing the ITQ. No one has ever objected to providing any of the information on the form.

12. Provide an estimate in hours of the burden of the collection of information.

The total estimated burden time for this submission is 1 hour. This estimate is based on each of the four applicants needing an average of 15 minutes to provide the information.

13. Provide an estimate of the total annual cost burden to the respondents or record-keepers resulting from the collection (excluding the value of the burden hours in #12 above).

Public cost for each application is estimated at \$40 in transfer administrative fees. The total cost for the expected 4 sales transactions is \$160. In addition, the public pays mailing costs for the various responses. Those mailing costs are estimated at \$0.39 average per each of the responses. Therefore, the estimated total annual cost to the public is \$162.

14. Provide estimates of annualized cost to the Federal government.

There will be no cost to the Federal government from this collection. The regulations provide for the collection of a fee to cover the administrative cost of executing the transaction. The amount of the fee is calculated in accordance with the procedures of the NOAA Finance Handbook for determining the costs of each special product or service provided by NOAA to non-federal recipients. The fee may not exceed such costs and is specified on each application form. It is estimated that a fee of \$40 will be collected for each sales transaction.

15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14 of the OMB 83-I.

There are no program changes or adjustments, and therefore no changes in burden hours and costs. This request represents the continuation of an ongoing program.

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other suggestions for reducing this burden to Jason Rueter, National Marine Fisheries Service, F/SER24, 263 13th Avenue S., St. Petersburg, FL 33701. The National Marine Fisheries Service requires this information for the conservation and management of marine fishery resources. The data reported will be used to develop, implement, and monitor fishery management activities for a variety of other uses. Responses to this collection are required to obtain or retain a fisheries permit under the Magnuson - Stevens Act. Information submitted will be submitted as confidential in accordance with NOAA Administrative Order 216-100, Protection of Confidential Fishery Statistics. Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subjected to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

16. For collections whose results will be published, outline the plans for tabulation and publication.

The results from this collection are not planned for statistical publication.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.

The OMB number will be displayed.

18. Explain each exception to the certification statement identified in Item 19 of the OMB 83-I.

There are no exemptions to the certification statement identified in Item 19 of OMB 83-I.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

The collection does not employ statistical methods at present.

§ 622.15 Wreckfish individual transferable quota (ITQ) system.

The provisions of this section apply to wreckfish in or from the South Atlantic EEZ.

(a) *Percentage shares.* (1) In accordance with the procedure specified in the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region, percentage shares of the quota for wreckfish have been assigned. Each person has been notified by the RA of his or her percentage share and shareholder certificate number.

(2) All or a portion of a person's percentage shares may be transferred to another person. Transfer of shares must be reported on a form available from the RA. The RA will confirm, in writing, each transfer of shares. The effective date of each transfer is the confirmation date provided by the RA. The confirmation date will normally be not later than 3 working days after receipt of a properly completed transfer form. A fee is charged for each transfer of shares. The amount of the fee is calculated in accordance with the procedures of the NOAA Finance Handbook, available from the RA, for determining the administrative costs of each special product or service provided by NOAA to non-Federal recipients. The fee may not exceed such costs and is specified with each transfer form. The appropriate fee must accompany each transfer form.

(b) *Lists of wreckfish shareholders and permitted vessels.* Annually, on or about March 1, the RA will provide each wreckfish shareholder with a list of all wreckfish shareholders and their percentage shares, reflecting share transactions on forms received through February 15. Annually by April 15, the RA will provide each dealer who holds a dealer permit for wreckfish, as required under §622.4(a)(4), with a list of vessels for which wreckfish permits have been issued, as required under §622.4(a)(2)(vii). Annually, by April 15, the RA will provide each wreckfish shareholder with a list of dealers who have been issued dealer permits for wreckfish. From April 16 through January 14, updated lists will be provided when required. Updated lists may be obtained at other times or by a person who is not a wreckfish shareholder or wreckfish dealer permit holder by written request to the RA.

(c) *ITQs.* (1) Annually, as soon after March 1 as the TAC for wreckfish for the fishing year that commences April 16 is known, the RA will calculate each wreckfish shareholder's ITQ. Each ITQ is the product of the wreckfish TAC, in round weight, for the ensuing fishing year, the factor for converting round weight to eviscerated weight, and each wreckfish shareholder's percentage share, reflecting share transactions reported on forms received by the RA through February 15. Thus, the ITQs will be in terms of eviscerated weight of wreckfish.

(2) The RA will provide each wreckfish shareholder with ITQ coupons in various denominations, the total of which equals his or her ITQ, and a copy of the calculations used in determining his or her ITQ. Each coupon will be coded to indicate the initial recipient.

(3) An ITQ coupon may be transferred from one wreckfish shareholder to another by completing the sale endorsement thereon (that is, the signature and shareholder certificate

number of the buyer). An ITQ coupon may be possessed only by the shareholder to whom it has been issued, or by the shareholder's employee, contractor, or agent, unless the ITQ coupon has been transferred to another shareholder. An ITQ coupon that has been transferred to another shareholder may be possessed only by the shareholder whose signature appears on the coupon as the buyer, or by the shareholder's employee, contractor, or agent, and with all required sale endorsements properly completed.

(4) Wreckfish may not be possessed on board a fishing vessel—

(i) In an amount exceeding the total of the ITQ coupons on board the vessel;

(ii) That does not have on board a commercial vessel permit for wreckfish, as required under §622.4(a)(2)(vii); or

(iii) That does not have on board logbook forms for that fishing trip, as required under §622.5(a)(1)(iv)(B).

(5) Prior to termination of a trip, a signature and date signed must be affixed in ink to the “Fisherman” part of ITQ coupons in denominations equal to the eviscerated weight of the wreckfish on board. The “Fisherman” part of each such coupon must be separated from the coupon and submitted with the logbook forms required by §622.5(a)(1)(iv)(B) for that fishing trip.

(6) The “Fish House” part of each such coupon must be given to the dealer to whom the wreckfish are transferred in amounts totaling the eviscerated weight of the wreckfish transferred to that dealer. A wreckfish may be transferred only to a dealer who holds a dealer permit for wreckfish, as required under §622.4(a)(4).

(7) A dealer may receive a wreckfish only from a vessel for which a commercial permit for wreckfish has been issued, as required under §622.4(a)(2)(vii). A dealer must receive the “Fish House” part of ITQ coupons in amounts totaling the eviscerated weight of the wreckfish received; enter the permit number of the vessel from which the wreckfish were received, enter the date the wreckfish were received, enter the dealer's permit number, and sign each such “Fish House” part; and submit all such parts with the dealer reports required by §622.5(c)(5)(i).

(8) An owner or operator of a vessel and a dealer must make available to an authorized officer all ITQ coupons in his or her possession upon request.

(d) *Wreckfish limitations.* (1) A wreckfish taken in the South Atlantic EEZ may not be transferred at sea, regardless of where the transfer takes place; and a wreckfish may not be transferred in the South Atlantic EEZ.

(2) A wreckfish possessed by a fisherman or dealer shoreward of the outer boundary of the South Atlantic EEZ or in a South Atlantic coastal state will be presumed to have been

harvested from the South Atlantic EEZ unless accompanied by documentation that it was harvested from other than the South Atlantic EEZ.

(3) A wreckfish may be offloaded from a fishing vessel only between 8 a.m. and 5 p.m., local time.

(4) If a wreckfish is to be offloaded at a location other than a fixed facility of a dealer who holds a dealer permit for wreckfish, as required under §622.4(a)(4), the wreckfish shareholder or the vessel operator must advise the NMFS, Office of Enforcement, Southeast Region, St. Petersburg, FL, by telephone (1-800-853-1964), of the location not less than 24 hours prior to offloading.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Information for Share Transfer in the Wreckfish Fishery

AGENCY: National Oceanic and Atmospheric Administration (NOAA).
ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before September 25, 2006.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Jason Rueter, (727) 824-5350 or jason.rueter@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service (NMFS) Southeast Region manages the wreckfish fishery of the Exclusive Economic Zone (EEZ) in or from the South Atlantic under the Fishery Management Plan for Snapper/Grouper (FMP). The South Atlantic Fishery Management Council prepared the FMP pursuant to the Magnuson-Stevens Fishery Conservation & Management Act. The regulations implementing the FMPs are at 50 CFR part 622.

The recordkeeping and reporting requirements at 50 CFR part 622 form the basis for this collection of information. NMFS Southeast Region requests information from participating wreckfish participants. This information, upon receipt, results in an increasingly more efficient and accurate database for management and monitoring of the wreckfish fishery in or from the South Atlantic EEZ.

II. Method of Collection

Paper applications, electronic reports, and telephone calls are required from

participants, and methods of submittal include Internet and facsimile transmission of paper forms.

III. Data

OMB Number: 0648-0262.
Form Number: None.
Type of Review: Regular submission.
Affected Public: Not-for-profit institutions; and business or other for-profit organizations.
Estimated Number of Respondents: 4.
Estimated Time per Response: 15 minutes per transfer.
Estimated Total Annual Burden Hours: 1.
Estimated Total Annual Cost to Public: \$161.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: July 20, 2006.
