

In This Issue

Volume 2: Issue 1

4 FIELD WORK

By Kristen Coyne

Magnet research push goes global.

8 RAT RACE

By Amy Mast

Meet some of the lab's smallest researchers.

12 EXTREME SCIENCE

By Susan Ray

The Magnet Lab uses extremes of cold, size and power – all at the same time.

26 MORE THAN MEETS THE EYE

Staff report

Super close views of common materials.

28 BUILDING A RESISTIVE MAGNET

By Kristen Coyne

See the guts of the lab's workhorse magnet.

34 COMING UP

Staff report

A look at what's available for visitors – from large groups to small.

Magnet Milestones

16

By Kristen Coyne
and Amy Mast

Making a more
powerful plate.

Scientist Spotlight

18

By Amy Mast

David
Larbalastier

What is This?

22

By Amy Mast

Check out our
"bus room."

Kitchen Table Science

24

By Amy Mast

Pull iron from
your food.

Science Starts Here

30

By Amy Mast

Jason Kitchen,
employee and
undergrad.

Magnet Fact or Fiction

32

By Kristen Coyne
and Amy Mast

Can I get stuck to
the magnet?
