# Modifications to the Harmonized Tariff Schedule of the United States to Implement the United States-Singapore Free Trade Agreement 

Pursuant to the letter of request from the United States Trade Representative of December 3, 2003, set forth in the Appendix hereto, and pursuant to section 1207(a) of the Ominibus Trade and Competitiveness Act of 1988, the Commission is publishing the following modifications to the Harmonized Tariff Schedule of the United States (HTS) to implement the United States-Singapore Free Trade Agreement, as approved in the United States-Singapore Free Trade Agreement Implementation Act.

The Honorable Deanna Tanner Okun
Chairman
U.S. International Trade Commission

DEC - 32003
500 E Street, SW
Washington, D.C. 20436
Dear Chairman Okun:
The U.S. International Trade Commission (ITC) has played an important role in supporting the negotiation of the United States-Singapore Free Trade Agreement and the United States-Chile Free Trade Agreement (FTAs). USTR appreciates the tremendous efforts the ITC made in connection with these Agreements.

President Bush will be proclaiming tariff cuts and other measures that are to enter into effect on January 1, 2004. Over the past few months, the ITC has been providing critical support to USTR in the preparation of the draft modifications to the Harmonized Tariff Schedule of the United States (HTSUS) that the President will proclaim. Although past practice has been to publish these changes in the Federal Register as an annex to a proclamation, we would prefer to use a different publication method for the proclamations implementing these FTAs.

Accordingly, we request that the ITC publish the documents that reflect the modifications to the HTSUS that the President will proclaim to implement the United States-Singapore FTA and the United States-Chile FTA. The President's proclamations will refer to the annexes that we are requesting the ITC to publish. We will supply the Commission with the texts for publication. We understand that the ITC has agreed to exercise its discretion under section 1207 (a) of the Omnibus Trade and Competitiveness Act of 1988 to make these publications available to the public and that the modifications to the HTSUS that the President proclaims will be posted to the ITC website. In addition, the Federal Depository Libraries will receive this information.

Please provide, as quickly as possible, a publication number for each document that can be referenced in the Presidential proclamation implementing the respective agreements. We would like to transmit the draft proclamations to the President for his consideration and approval as soon as possible.

The ITC's willingness to exercise its authority to use this cost effective means of informing the public of the changes to the HTSUS greatly assists our efforts to bring these agreements into effect.

Robert B. Zoellick

The Honorable Deanna Tanner Okun
Chairman
U.S. International Trade Commission

500 E Street, SW
Washington, D.C. 20436
Dear Chairman Okun:
Pursuant to Ambassador Zoellick's letter of December 3, 2003, we have enclosed the texts of the modifications to the Harmonized Tariff Schedules of the United States that the President will proclaim in connection with the entry into force of the United States-Singapore Free Trade Agreement and the United States-Chile Free Trade Agreement. We request that the U.S. International Trade Commission (ITC) publish these texts and transmit copies of the publications to the Office of the U.S. Trade Representative as quickly as possible.

We greatly appreciate the ITC's assistance on this matter. Please contact Catherine Field, of my staff, at 202-395-9621, if further information is required.

"25. United States-Singapore Free Trade Agreement.
(a) Originating goods under the terms of the United States-Singapore Free Trade Agreement (SFTA) are subject to duty as provided herein. For the purposes of this note, goods of Singapore, as defined in subdivisions (b) through (o) of this note, that are imported into the customs territory of the United States and entered under a provision for which a rate of duty appears in the "Special" subcolumn of column 1 followed by the symbol "SG" in parentheses are eligible for the tariff treatment and quantitative limitations set forth in the "Special" subcolumn, in accordance with sections 201 and 202 of the United StatesSingapore Free Trade Agreement Implementation Act (Pub.L.108-78; 117 Stat. 948).
(b) For the purposes of this note, subject to the provisions of subdivisions (c), (d), ( n ) and (o) thereof, goods imported into the customs territory of the United States are eligible for treatment as originating goods of a SFTA country under the terms of this note only if they-
(i) were wholly obtained or produced entirely in the territory of Singapore or of the United States, or both;

## Annex I (continued) <br> -3-

(ii) are goods that, in their condition as imported, are enumerated in subdivision (m) of this note and imported from the territory of Singapore; or
(iii) have been transformed in the territory of Singapore or of the United States, or both, so that each nonoriginating material:
(A) undergoes an applicable change in tariff classification set out in subdivision (o) of this note as a result of production occurring entirely in the territory of Singapore or of the United States, or both; or
(B) if no change in tariff classification is required, the good otherwise satisfies the applicable requirements set forth in such subdivision (o).

An importer may make a claim for preferential treatment under this note based on the importer's knowledge or on information in the importer's possession that the good qualifies as an originating good. For the purposes of this note, the term "SFTA country" refers only to Singapore or to the United States.
(c) (i) For purposes of subdivision (b)(i) of this note, except as otherwise provided in subdivision (d) of this note for textile and apparel articles, the expression "wholly obtained or produced" refers to goods that are-

(F) goods produced exclusively from products referred to in subdivision (E) on board factory ships registered or recorded with Singapore or the United States and flying its flag;
(G) goods taken by Singapore or the United States, or a person of Singapore or the United States, from the seabed or beneath the seabed outside territorial waters, provided that Singapore or the United States has rights to exploit such seabed;
(H) goods taken from outer space, provided they are obtained by Singapore or the United States or a person of Singapore or the United States and are not processed in the territory of a country other than Singapore or the United States;
(I) waste and scrap derived from-
(1) production in the territory of Singapore or of the United States, or both; or
(2) used goods collected in such territory, provided such goods are fit only for the recovery of raw materials;
(J) recovered goods derived in the territory of Singapore or of the United States, or both, from used goods; or

## Annex I (continued) <br> -4-

(K) goods produced in the territory of Singapore or of the United States, or both, exclusively from goods referred to in subdivisions (A) through (I) above, inclusive, or from the derivatives of such goods.
(ii) (A) For the purposes of subdivision (i)(J), the term "recovered goods" means materials in the form of individual parts that are the result of:
(1) the complete disassembly of used goods into individual parts; and
(2) the cleaning, inspecting, testing or other processing of those parts as necessary for improvement to sound working condition by one or more of the following processes: welding, flame spraying, surface machining, knurling, plating, sleeving and rewinding; the foregoing in order for such parts to be assembled with other parts, including other recovered parts, in the production of a remanufactured good as defined in subdivision (ii)(B).
(B) The term "remanufactured good" for purposes of this note means an industrial good assembled in the territory of Singapore or of the United State that is enumerated in subdivision ( m ) of this note and-
(1) is entirely or partially comprised of recovered goods;
(2) has the same life expectancy and meets the same performance standards as a new good; and
(3) enjoys the same factory warranty as such a new good.
(C) For the purposes of this note-
(1) the term "material" means a good that is used in the production of another good;
(2) the term "material that is self-produced" means a good, such as a part or ingredient, that is produced by a producer and used by such producer in the production of another good;
(3) the term "used" as it appears in this subdivision means used or consumed in the production of goods; and
(4) a "nonoriginating material" is a material that has not satisfied the requirements of this note.
(D) For the purposes of this note, the term "production" means growing, raising, mining, harvesting, fishing, trapping, hunting, manufacturing, processing, assembling or disassembling a good; and the term "producer" means a person who grows, raises, mines, harvests, fishes, traps, hunts, manufactures, processes, assembles or disassembles a good.
(iii) A good shall not be considered to be an originating good if, after it has undergone production that satisfies the requirements of this note, the good undergoes subsequent production or any other operation outside the territory of Singapore and of the United States, other than unloading, reloading or any other operation necessary to preserve it in good condition or to transport the good to the territory of Singapore or of the United States.

## Annex I (continued) <br> -5-

(d) Textile and apparel articles.
(i) Except as provided in subdivision (ii) below, a textile or apparel good provided for in chapters 50 through 63 of the tariff schedule that is not an originating good under the terms of this note because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in subdivision (o) of this note, shall nonetheless be considered to be an originating good if the total weight of all such fibers or yarns in that component is not more than seven percent of the total weight of that component. Notwithstanding the preceding sentence, a textile or apparel good containing elastomeric yarns in the component of the good that determines the tariff classification of the good shall be considered an originating good only if such yarns are wholly formed in the territory of Singapore or of the United States.
(ii) Notwithstanding any other provision of this note, an apparel good of chapter 61 or 62 of the tariff schedule shall be considered to be an originating good if it is both cut (or knit to shape) and sewn or otherwise assembled in the territory of Singapore or of the United States, or both, from fabric or yarn, regardless of the origin of such fabric or yarn, designated by the appropriate United States government authority as fabric or yarn not available in commercial quantities in a timely manner in the United States. Such designation must have been made in a notice published in the Federal Register on or before November 15, 2002, identifying apparel goods made from such fabric or yarn as eligible for entry into the United States under subheading 9819.11.24 or 9820.11 .27 of chapter 98 of the tariff schedule. For purposes of this subdivision, reference in such a notice to yarn or fabric formed in the United States is deemed to include yarn or fabric formed in Singapore.
(e) De minimis.
(i) A good, other than a textile or apparel good described in subdivision (d) of this note, that does not undergo a change in tariff classification pursuant to subdivision (o) of this note shall nonetheless be considered to be an originating good if-
(A) the value of all nonoriginating materials used in the production of the good that do not undergo the required change in tariff classification does not exceed 10 percent of the adjusted value of the good;
(B) if the good is subject to a regional value-content requirement under the terms of subdivision ( g ) or (o) of this note, the value of such nonoriginating materials is taken into account in calculating the regional value content of the good; and
(C) the good meets all other applicable criteria set forth in this note for qualifying as an originating good.
(ii) Subdivision (e)(i) does not apply to-
(A) a nonoriginating material provided for in chapter 4 or in subheading 1901.90 that is used in the production of a good provided for in chapter 4;
(B) a nonoriginating material provided for in chapter 4 or in subheading 1901.90 that is used in the production of a good provided for in the following provisions: subheadings $1901.10,1901.20$ or 1901.90; heading 2105 ; or subheadings $2106.90,2202.90$ or 2309.90;
(C) a nonoriginating material provided for in heading 0805 or subheadings 2009.11 through 2009.39 that is used in the production of a good provided for in subheadings 2009.11 through 2009.39 or in subheading 2106.90 or 2202.90 ;
(D) a nonoriginating material provided for in chapter 15 that is used in the production of a good provided for in headings 1501 through $1508,1512,1514$ or 1515 ;

## Annex I (continued) <br> -6-

(E) a nonoriginating material provided for in heading 1701 that is used in the production of a good provided for in headings 1701 through 1703;
(F) a nonoriginating material provided for in chapter 17 or heading 1805 that is used in the production of a good provided for in subheading 1806.10;
(G) a nonoriginating material provided for in headings 2203 through 2208 that is used in the production of a good provided for in headings 2207 or 2208; and
(H) a nonoriginating material used in the production of a good provided for in chapters 1 through 21, inclusive, unless the nonoriginating material is provided for in a different subheading than the good for which origin is being determined under this note.
(iii) For the purposes of this note, the term "adjusted value" means the value determined under articles 1 through 8, article 15 and the corresponding interpretative notes of the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade (the Customs Valuation Agreement), except that such value may be adjusted to exclude any costs, charges or expenses incurred for transportation, insurance and related services incident to the international shipment of the merchandise from the country of exportation to the place of importation.

## (f) Accumulation.

(i) For purposes of this note, originating materials from the territory of either Singapore or the United States that are used in the production of a good in the territory of the other country shall be considered to originate in the territory of such other country.
(ii) A good is an originating good when it is produced in the territory of Singapore or of the United States, or both, by one or more producers, provided that the good satisfies all of the applicable requirements of this note.
(g) Regional value content.
(i) Where a rule set forth in subdivision (o) of this note specifies a regional value content for a good, the regional value content of such good shall be calculated, at the choice of the person claiming the tariff treatment authorized by this note for such good, on the basis of one of the following methods, unless otherwise specified herein:
(A) For the build-down method, the regional value content may be calculated on the basis of the formula $\mathrm{RVC}=((\mathrm{AV}-\mathrm{VNM}) / \mathrm{AV}) \times 100$, where RVC is the regional value content, expressed as a percentage; $A V$ is the adjusted value; and VNM is the value of non-originating materials that are acquired and used by the producer in the production of the good; or
(B) For the build-up method, the regional value content may be calculated on the basis of the formula $\mathrm{RVC}=(\underline{\mathrm{VOM}} / \mathrm{AV}) \times 100$, where RVC is the regional value content, expressed as a percentage; AV is the adjusted value; and VOM is the value of originating materials that are acquired or self-produced and are used by the producer in the production of the good.
(ii) Value of materials.
(A) For purposes of calculating the regional value content of a good under subdivision (i) and for purposes of applying the de minimis provisions of subdivision (e) of this note, the value of a material is:
(1) in the case of a material imported by the producer of the good, the adjusted value of the material;

## Annex I (continued) <br> -7-

(2)
in the case of a material acquired in the territory where the good is produced, except for a material to which subdivision (3) below applies, the adjusted value of the material; or
(3) in the case of a material that is self-produced, or in a case in which the relationship between the producer of the good and the seller of the material influenced the price actually paid or payable for the material, including a material obtained without charge, the sum of-
(I) all expenses incurred in the production of the material, including general expenses; and
(II) an amount for profit.
(B) The value of materials may be adjusted as follows:
(1) for originating materials, the following expenses, if not included under subdivision (A) above, may be added to the value of the originating material:
(I) the costs of freight, insurance, packing and all other costs incurred in transporting the material to the location of the producer;
(II) duties, taxes and customs brokerage fees on the material paid in the territory of Singapore or of the United States, or both, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, including credit against duty or tax paid or payable; and
(III) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-product; and
(2) for non-originating materials, if included under subdivision (A) above, the following expenses may be deducted from the value of the nonoriginating material:
(I) the costs of freight, insurance, packing and all other costs incurred in transporting the material to the location of the producer;
(II) duties, taxes and customs brokerage fees on the material paid in the territory of Singapore or of the United States, or both, other than duties and taxes that are waived, refunded, refundable or otherwise recoverable, including credit against duty or tax paid or payable;
(III) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of renewable scrap or by-products;
(IV) the cost of processing incurred in the territory of Singapore or of the United States in the production of the non-originating material; and
(V) the cost of originating materials used in the production of the nonoriginating material in the territory of Singapore or of the United States.

## Annex I (continued) <br> -8-

(h) Accessories, spare parts and tools.

Accessories, spare parts or tools that are delivered with a good and that form part of the good's standard accessories, spare parts or tools shall be treated as originating goods for purposes of this note if the good is an originating good, and shall be disregarded in determining whether all the nonoriginating materials used in the production of the good undergo an applicable change in tariff classification specified in subdivision (o) of this note, provided that:
(i) the accessories, spare parts or tools are not invoiced separately from the good;
(ii) the quantities and value of the accessories, spare parts or tools are customary for the good; and
(iii) if the good is subject to a regional value-content requirement, the value of the accessories, spare parts or tools shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good under subdivision (g) of this note.
(i) Fungible goods and materials.
(i) A person claiming the treatment provided in this note for a good may claim that a fungible good or material is originating either based on the physical segregation of each fungible good or material or by using an inventory management method. For purposes of this subdivision, the term "inventory management method" means:
(A) averaging,
(B) "last-in, first-out,"
(C) "first-in, first out," or
(D) any other method that is recognized in the generally accepted accounting principles of the country in which the production is performed (whether Singapore or the United States) or otherwise accepted by that country.

The term "fungible goods" or fungible materials" means goods or materials, as the case may be, that are interchangeable for commercial purposes and the properties of which are essentially identical.
(ii) A person selecting an inventory management method under subdivision (i) above for particular fungible goods or materials shall continue to use that method for those fungible goods or materials throughout the fiscal year of that person.
(j) Packaging materials and containers.
(i) Packaging materials and containers in which a good is packaged for retail sale, if classified with the good for which the tariff treatment under the terms of this note is claimed, shall be disregarded in determining whether all the nonoriginating materials used in the production of the good undergo the applicable change in tariff classification set out in subdivision (o) of this note and, if the good is subject to a regional value-content requirement, the value of such packaging materials and containers shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.
(ii) Packing materials and containers in which a good is packed for shipment shall be disregarded in determining whether-
(A) the nonoriginating materials used in the production of the good undergo an applicable change in tariff classification set out in subdivision (o) of this note; and
(B) the good satisfies a regional value-content requirement.

## Annex I (continued) <br> -9-

Indirect materials.
An indirect material shall be considered to be an originating material for purposes of this note without regard to where it is produced, and its value shall be the cost registered in the accounting records of the producer of the good. The term "indirect material" means a good used in the production, testing or inspection of a good but not physically incorporated into the good, or a good used in the maintenance of buildings or the operation of equipment associated with the production of a good, including-
(i) fuel and energy;
(ii) tools, dies and molds;
(iii) spare parts and materials used in the maintenance of equipment or buildings;
(iv) lubricants, greases, compounding materials and other materials used in production or used to operate equipment and buildings;
(v) gloves, glasses, footwear, clothing, safety equipment and supplies;
(vi) equipment, devices and supplies used for testing or inspecting the goods;
(vii) catalysts and solvents; and
(viii) any other goods that are not incorporated into the good but the use of which in the production of the good can reasonably be demonstrated to be a part of that production.
(I) Record-keeping requirements and verification.
(i) An importer of a good, for which treatment as an originating good of a SFTA country is claimed under the provisions of this note, shall be prepared to submit, upon request by the appropriate customs officer, a statement setting forth the reasons that the good qualifies as an originating good under the provisions of this note, including pertinent cost and manufacturing information, as provided in pertinent regulations.
(ii) Importers shall maintain for a period of five years after the date of importation their records relating to the importation of the good and shall, upon request by the appropriate customs officer, make available records which are necessary to demonstrate that a good qualifies as an originating good under the provisions of this note, including records concerning:
(A) the purchase of, cost of, value of and payment for the good;
(B) the purchase of, cost of, value of and payment for all materials, including indirect materials, used in the production of the good; and
(C) the production of the good in the form in which the good is exported.
(iii) For purposes of determining whether a good imported into the customs territory of the United States from the territory of Singapore qualifies as an originating good under the provisions of this note, the appropriate customs officer may conduct a verification by means of-
(A) requests for information from the importer;
(B) written requests for information to an exporter or a producer in the territory of Singapore or of the United States;
(C) requests for the importer to arrange for the producer or exporter to provide information directly to the country conducting the verification;
(D) information received directly by the appropriate customs officer from an exporter or a producer as a result of a process described in subdivision (i) above;

## Annex I (continued) <br> -10-

(E) visits to the premises of an exporter or a producer in the territory of Singapore or of the United States, in accordance with any procedures that these countries jointly adopt pertaining to the verification, as set forth in pertinent regulations; or
(F) such other procedures as the United States and Singapore may agree, as set forth in pertinent regulations.
(m) Goods that shall be considered originating goods. For the purposes of subdivision (b)(ii) of this note, goods that, in their condition as imported, are classifiable in the tariff provisions enumerated in the first column and are described opposite such provisions, when such goods are imported into the customs territory of the United States from the territory of Singapore, shall be considered originating goods for the purposes of this note:

|  | Unless otherwise specified, and except for goods whose origin is determined under subdivision $(\mathrm{m})$ of this note, a rule in subdivision (o) of this note that is set out adjacent and is applicable to an 8-digit tariff item shall take precedence over a rule applicable to a 6-digit subheading superior thereto and covering the goods of such tariff item, and a rule set out adjacent and applicable to a subheading shall take precedence over a rule applicable to a 4-digit heading superior thereto and covering the goods of such subheading. For purposes of this subdivision and subdivision ( 0 ) of this note, a tariff provision is a "heading" if its article description is not indented; a provision is a "subheading" if no subordinate 8-digit rate lines appear below it. |  |
|  | (ii) References to in chapters 1 th the tariff sched | s set forth in subdivision (o) of this note for goods provided for ariff schedule mean dry weight, unless otherwise specified in |
|  | (iii) Except as prov this note applie | quirement of a change in tariff classification in subdivision (o) of inating materials except as follows: |

(A) agricultural and horticultural goods grown in the territory of a SFTA country shall be treated as originating in the territory of that country even if they are grown from seed, bulbs, rootstock, cuttings, slips or other live parts of plants imported from a country other than a SFTA country; and

## Annex I (continued) -19-

(B) goods of the provisions listed below which are exported from the territory of a SFTA country shall be treated as nonoriginating:
(I) heading 1202, if the goods were not harvested in the territory of a SFTA country;
(II) subheading 2008.11, if any material provided for in heading 1202 used in the production of such goods was not harvested in the territory of a SFTA country; or
(III) subheading 1806.10, if such goods contain 90 percent or more by dry weight of sugar and sugar syrups of subheading 2106.90, if any material provided for in subheading 1701.99 used in the production of such goods is not an originating good.
(iv) A good of chapters 1 through 40, inclusive, shall not be considered to be originating solely by reason of mere dilution with water or another substance that does not materially alter the characteristics of the good.
(v) For purposes of applying this note to goods of chapters 27 through 40, inclusive, of the tariff schedule, a "chemical reaction" is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. The following are not considered to be chemical reactions for purposes of this note:
(A) dissolving in water or other solvents;
(B) the eliminating of solvents including solvent water; or
(C) the addition or elimination of water of crystallization.

A chemical reaction as defined above is considered to result in an originating good for purposes of this note. Notwithstanding any of the change of tariff classification rules of subdivision (o) of this note, this "chemical reaction rule" may be applied to any good classified in chapters 27 through 40, inclusive.
(o) Change in tariff classification rules.
