

NOTICE OF OFFICE OF MANAGEMENT AND BUDGET ACTION

Date 11/07/2006

Department of Commerce
National Oceanic and Atmospheric Administration
FOR CERTIFYING OFFICIAL: Barry West
FOR CLEARANCE OFFICER: Diana Hynek

In accordance with the Paperwork Reduction Act, OMB has taken action on your request received 11/07/2006

ACTION REQUESTED: Revision of a currently approved collection
TYPE OF REVIEW REQUESTED: Regular
ICR REFERENCE NUMBER: 200611-0648-002
TITLE: Pacific Islands Logbook Family of Forms
LIST OF INFORMATION COLLECTIONS: See next page

OMB ACTION: Approved without change
OMB CONTROL NUMBER: 0648-0214

The agency is required to display the OMB Control Number and inform respondents of its legal significance in accordance with 5 CFR 1320.5(b).

EXPIRATION DATE: 11/30/2009

DISCONTINUE DATE:

BURDEN:	RESPONSES	HOURS	COSTS
Previous	1,032,132	2,483	4,000
New	1,032,216	2,490	4,400
Difference			
Change due to New Statute	0	0	0
Change due to Agency Discretion	84	7	400
Change due to Agency Adjustment	0	0	0
Change Due to Potential Violation of the PRA	0	0	0

TERMS OF CLEARANCE:

OMB Authorizing Official:

John F. Morrall III
Acting Deputy Administrator,
Office Of Information And Regulatory Affairs

19. Certification for Paperwork Reduction Act Submissions

On behalf of this Federal Agency, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9

NOTE: The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320.8(b)(3), appear at the end of the instructions. *The certification is to be made with reference to those regulatory provisions as set forth in the instructions.*

The following is a summary of the topics, regarding the proposed collection of information, that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It used plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention period for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
 - (i) Why the information is being collected;
 - (ii) Use of information;
 - (iii) Burden estimate;
 - (iv) Nature of response (voluntary, required for a benefit, mandatory);
 - (v) Nature and extent of confidentiality; and
 - (vi) Need to display currently valid OMB control number;
- (h) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected (see note in Item 19 of instructions);
- (i) It uses effective and efficient statistical survey methodology; and
- (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of the provisions, identify the item below and explain the reason in Item 18 of the Supporting Statement.

**SUPPORTING STATEMENT
PACIFIC ISLANDS LOGBOOK FAMILY OF FORMS
OMB CONTROL NO.: 0648-0214**

INTRODUCTION

This Supporting Statement describes a requirement to be added to the existing information collection under OMB Control No.: 0648-0214. The figures in OMB 83-I, blocks 13 and 14 are comprehensive for the collection.

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary.

The Magnuson-Stevens Fishery Conservation and Management Act ([Magnuson-Stevens Act](#)) established regional fishery management councils, such as the Western Pacific Fishery Management Council (WPFMC), to develop fishery management plans (FMPs) for fisheries in the U.S. exclusive economic zone (EEZ). These plans, if approved by the Secretary of Commerce (Secretary), are implemented by Federal regulations and enforced by the National Marine Fisheries Service (NMFS) and U.S. Coast Guard, in cooperation with State agencies to the extent possible. FMPs regulate fishing to ensure the long-term productivity and optimum yield of the resources for the benefit of the U.S.

The WPFMC has management jurisdiction over fisheries in the Pacific Ocean seaward of American Samoa, Guam, Hawaii, the Commonwealth of the Northern Mariana Islands (NMI), and the Pacific remote island areas (PRIA).¹ WPFMC has prepared, and the Secretary has approved and implemented through regulations, FMPs for crustacean, precious coral, pelagic, and bottomfish/seamount groundfish fisheries and coral reef ecosystems in the western Pacific region. The regulations include, but are not limited to, permit requirements, gear restrictions, temporal and spatial closures, harvest guidelines, reporting requirements, and protected species mitigation measures.

This clearance request is for a revision to the currently approved collection of information under the Pacific Islands Region Logbook Family of Forms (OMB Control No.: 0648-0214). It is necessitated by Amendment 9 to the Fishery Management Plan for the Bottomfish and Seamount Groundfish Fisheries of the western Pacific region: “Measures to limit large-vessel fishing effort in the bottomfish fishery in federal waters around Guam,” and Amendment 8 to the Bottomfish and Seamount Groundfish Fisheries Management Plan, Amendment 12 to the Crustaceans Fisheries Management Plan, and Amendment 6 to the Precious Corals Fisheries Management Plan of the western Pacific region entitled: “New Permit and Reporting Requirements Following the Inclusion of Fisheries under Federal Management Plans in the Western Pacific Region.” The latter three amendments are collectively referred to as the Omnibus amendment.

¹Howland, Baker, Jarvis, Wake and Palmyra Islands, Johnston Atoll and Kingman Reef

The objectives of Amendment 9 are to: ensure that adequate information is routinely collected on the bottomfish fishery taking place in federal waters around Guam, including the export-oriented activity targeting onaga (*Etelis coruscans*); maintain adequate opportunities for small-scale commercial, recreational, and subsistence bottomfish fishermen in the federal waters around Guam; provide for sustained community participation in the Guam bottomfish fishery; and encourage consistent availability of locally caught bottomfish products to Guam consumers. Clearance for the permit collection of information is being submitted under a separate request for OMB Control No.: 0648-0490.

The objectives of the Omnibus amendment include: improving the database for future bottomfish management decisions through data reporting requirements and cooperative Federal, State, Territory data collection programs (Bottomfish FMP); to collect and analyze biological and economic information about lobster fisheries and improve the statistical base for conservation and management (Crustaceans FMP); and to encourage the acquisition and analysis of new information concerning the distribution, abundance, and ecology of precious corals (Precious Corals FMP). Clearance for the permit collection of information is being submitted under a separate request for OMB Control No.: 0648-0490.

This collection of information is needed to monitor fisheries, determine whether the management measures are having the intended effects, and evaluate the benefits and costs of changes in management measures.

2. Explain how, by whom, how frequently, and for what purpose the information will be used. If the information collected will be disseminated to the public or used to support information that will be disseminated to the public, then explain how the collection complies with all applicable Information Quality Guidelines.

Logbooks are used to obtain information on daily fishing activity. Information in the Guam and PRIA bottomfish logbooks consists of catch, fishing effort, and other methods of fishing used. Information on wind speed and direction, wave height, current speed and direction, and depth range of fishing are collected because they reveal the condition of the ocean, i.e., sea state, and fishing strategy which may affect catch and catch per unit of effort. Information in the PRIA and NMI crustacean and the NMI precious coral logbooks include types of quantity of gear used, units of gear set, time at start and end of set, numbers and pounds of species kept, numbers released, catch from other methods of fishing used, area(s) fished, length of the trip, average weather conditions, depth of area fished, and observed damage to the coral reef. Also, the vessel operator, who is responsible for furnishing the information, must report protected species observations. The daily logbooks provide a heads up to NMFS on interactions between fishing operations and protected species.

Catch and effort information in the logbook must be completed within 24 hours of completing the daily fishing activities; completed logsheets must be submitted to NMFS within 72 hours following the vessel's return to port from each fishing trip. WPFMC annual reports on the bottomfish, crustacean, and precious coral fisheries depend on the availability of catch and effort data from the logbooks.

As explained in the preceding paragraphs, the information gathered has utility. NMFS will retain control over the information and safeguard it from improper access, modification, and

destruction, consistent with NOAA standards for confidentiality, privacy, and electronic information. See response #10 of this Supporting Statement for more information on confidentiality and privacy. The information collection is designed to yield data that meet all applicable information quality guidelines. Although the information collected is not expected to be disseminated directly to the public, results may be used in scientific, management, technical, or general informational publications. Should NMFS decide to disseminate the information, it will be subject to the quality control measures and pre-dissemination review pursuant to Section 515 of Public Law 106-554.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.

None of the information elements under this collection require sophisticated information technology. Currently, vessel operators must record and submit their logbook data on paper. However, in the future, Guam's large bottomfish vessels, the NMI's crustacean and precious coral vessels, and the PRIA's bottomfish and crustacean vessels, may become equipped with vessel monitoring systems (VMS) with on-board computers to report their daily logbook catch and effort data electronically to NMFS. Other than VMS, there are no known automated electronic, mechanical, or other technological techniques or other forms of information technology tools that would make the reporting easier at this time.

4. Describe efforts to identify duplication.

NMFS carefully considered whether there were other collections by other Federal agencies or state/territorial agencies that might meet the information needs presented above. It was concluded that no other collections, besides the requested collecting information, would meet the reporting requirements of the Bottomfish and Seamount Groundfish, the Crustacean, or the Precious Corals FMPs.

5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.

All of the vessels in the federally-managed fisheries in the western Pacific region, including the bottomfish, crustacean, and precious coral fisheries managed under these three FMPs, are small business entities of similar sizes and are affected comparably. No special measures are needed to accommodate different sized businesses.

6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.

Without this collection or if it is conducted less frequently, NMFS and the WPFMC will be unable to make management decisions effectively and in a timely manner to conserve bottomfish, crustacean, and precious coral resources sustainable, and economic health of the fisheries on a long-term basis may be compromised.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

This collection is considered to be consistent with the OMB guidelines.

8. Provide a copy of the PRA Federal Register notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

During the proposed rulemaking process, public comment will be solicited on this revised collection to OMB Control No.: 0648-0214, under proposed rules RIN 0648-AT94 and RIN 0648-AT95. Comments will be sought on the proposed information collection on Guam bottomfish large vessel logbooks, the NMI crustacean and precious coral logbooks, and the PRIA bottomfish and crustacean logbooks.

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

No payments or gifts are involved in this collection.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.

Under Section 402b of the Magnuson-Stevens Act and NOAA Administrative Order 216-100, information submitted in accordance with regulatory requirements under the Act is confidential. This includes confidential information contained in the logbooks. Personal and propriety information is not released to the public.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

No questions of a sensitive nature are asked.

12. Provide an estimate in hours of the burden of the collection of information.

Thirteen respondents will be added to the current 207 respondents, bringing the total to 220. The current number of responses per year is 1,032,132, for logbooks, sales and catch reports, dealer records, VMS monitoring, and pre-trip notices. An additional 84 responses per year will be added, bringing the total to 1,032,216.

For 5 vessels x 10 trips/vessel x 5 min per trip (Guam Bottomfish), and 34 total trips for 8 vessels x 5 min per trip (NMI Crustaceans and Precious Corals, and PRIA Bottomfish and Crustaceans), the annual additional burden will be 7 hours, bringing the total annualized burden

from 2,483 to 2,490 hours.

Estimate of Logbook and Reporting Burden Minutes/Hours

	Number of Trips	Minutes per Logsheet	Burden Minutes
Guam/Bottomfish	50	5	250
NMI/Crustaceans	5	5	25
NMI/Precious Corals	2	5	10
PRIA/Bottomfish	25	5	125
PRIA/Crustaceans	2	5	10
TOTAL	84		420
			Burden Hours = 7

The annual personnel cost for the new respondents is estimated at \$175 per year. This was derived by multiplying the number of hours of burden per year (74 hours) times an hourly cost rate of \$25, the estimated range of hourly wage rates for fishermen harvesting bottomfish, crustacean, or precious coral management unit species (MUS) in the western Pacific region.

13. Provide an estimate of the total annual cost burden to the respondents or record-keepers resulting from the collection (excluding the value of the burden hours in #12 above).

There is no “start up” capital cost for complying with this requirement. The estimated cost to the new respondents is about \$20/respondent per year. This cost includes telephone charges and other incidental costs associated with transmitting the logbook forms to NMFS after each trip, bringing the total annualized cost for new respondents to \$260. For all respondents, the total cost would be \$4,400.

14. Provide estimates of annualized cost to the Federal government.

The estimated annual cost to the Federal government to administer the collection of this additional information is \$1,680 per year, which includes the cost for printing daily bottomfish, crustacean and precious coral MUS catch log forms and the cost of staff time for receiving and transmitting the report forms to appropriate NMFS personnel for analysis (84 hours x \$20/hr).

15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14 of the OMB 83-I.

This is a revision to a currently approved collection OMB Control No.: 0648-0214, which requires responses, burden hours and costs in addition to those of the current collection.

16. For collections whose results will be published, outline the plans for tabulation and publication.

No formal scientific publications based on these collections are planned at this time. The data will be used for fisheries management and protected species reports, FMP amendments, and evaluations by NMFS and the WPFMC. However, subsequent use of the data collected over a series of years may include scientific papers and publications.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.

The expiration date will be shown on the report forms used under this collection.

18. Explain each exception to the certification statement identified in Item 19 of the OMB 83-I.

There are no exceptions.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

This collection does not employ statistical methods.

NMFS WESTERN PACIFIC DAILY BOTTOMFISH FISHING LOG

Paperwork Reduction Act Information

Public reporting burden for this collection is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Regional Administrator, Pacific Islands Region, NMFS, 1601 Kapiolani Blvd., Suite 1110, Honolulu, HI 96814.

This information is being collected to provide information needed by NMFS to regulate and monitor bottomfish management unit species under the Fishery Management Plan for Bottomfish in the Western Pacific Region (FMP) and to evaluate the effectiveness of management by assessing the status of stocks and the status of the fisheries. The information will provide a basis for determining whether changes in management are needed to sustain the productivity of the stocks or to respond to interactions between fishing vessels and protected species and to address economic problems in the fishery. The information is also used to provide a basis for evaluating the magnitude and distribution of impacts resulting from changes to the regulations. Responses to the collection are required under 50 CFR 660.14. Proprietary data provided concerning the vessel and/or business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec. 402(b)). Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

INSTRUCTIONS FOR DAILY BOTTOMFISH FISHING LOGBOOK FORM

DAILY BOTTOMFISH LOGBOOK INFORMATION

<u>VESSEL:</u>	Enter name of vessel.
<u>PERMIT NO.:</u>	Enter Federal Offshore fishing permit number (vessel's Official No.)
<u>DATE OF DEPARTURE FROM PORT/PORT:</u>	Enter date vessel left port. Enter port of departure.
<u>DATE OF RETURN TO PORT/PORT:</u>	Enter date vessel returned to port. Enter port of return.
<u>OBSERVER ON BOARD:</u>	Check (✓) if observer on board.
<u>FISHING DATE:</u>	Enter date (month/day/year) of fishing.
<u>NO. OF LINES:</u>	Enter number of fishing lines/line haulers.
<u>NO. of HOOKS/LINE:</u>	Enter typical number of hooks on each fishing line/rig.
<u>FISHING AREA/BANK:</u>	Enter name of fishing area/bank.
<u>FISHING LOCATION:</u>	Enter latitude and longitude of the fishing area/bank. Use degree ° and minute ' ; circle N for north and S for south latitude; W for west and E for east longitude, as appropriate.
<u>HOURS FISHED:</u>	Enter the total number of hours fished.
<u>BEGIN TIME:</u>	Enter time (using 24 hour clock - Local Time) of start of fishing.
<u>END TIME:</u>	Enter time (using 24 hour clock - Local Time) of end of fishing.
<u>ANCHOR/DRIFT:</u>	Circle the major type of bottomfishing activity.
<u>FISHING DEPTH RANGE (fathom):</u>	Enter the depth of fishing in fathoms. If the depth varies as while using a drift method of fishing then the range of depths fished should be entered.
<u>WIND SPEED(knots) /DIRECTION:</u>	Enter the estimated wind speed in knots. Enter the estimated wind direction-E, NE, N, NW, W, SW, S, SE.
<u>WAVE HEIGHT (feet):</u>	Enter the estimated wave height in feet.
<u>CURRENT SPEED(knots)/DIRECTION:</u>	Enter the estimated current speed in knots. Enter the estimated current direction- E, NE, N, NW, W, SW, S, SE.
<u>BAIT TYPE:</u>	Enter the type(s) of bait used.
<u>CHUM USED:</u>	Circle yes if chum was used and no if chum was not used.
<u>BOTTOMFISH SPECIES CATCH information:</u>	Enter the total Pounds Kept, No. Kept, and No. Release by species for all fish caught. If the species is not listed write the species name in the OTHER(specify) box and fill in the required information.
<u>INFORMATION ON OTHER FISHING METHODS:</u>	Additional information must be filled in when using a gear type other than bottomfish gear. Enter date of fishing, specify type of gear used, number of lines, fishing area/bank, fishing location, hours fished, begin time, and end time. Catch should be listed in the "CATCH FROM OTHER METHODS USED" section of the logbook page. Catch information instructions are identical to those required for the bottomfish species (see above).
<u>PROTECTED SPECIES:</u>	Enter the numbers of protected species released uninjured, injured, or dead.
<u>VESSEL CAPTAIN/ OPERATOR/DATE:</u>	Print name of the captain/operator. Enter date (month/day/year) when the log sheet was completed by the vessel captain/operator.

- **The Vessel Captain must record ALL catch and effort information in the logbook within 24 hours of completing the daily fishing activities.**
- **The Vessel Captain must submit completed Trip Level logbook sheets to the National Marine Fisheries Service within 72 hours following his or her return to port after each trip.**

DAILY PRECIOUS CORAL
HARVESTING LOG & SALES REPORT**

Paperwork Reduction Act Information

Public reporting burden for this collection is estimated to as much as 7 minutes (log) to 5 minutes (sales report) per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Regional Administrator, Pacific Islands Region, NMFS, 1601 Kapiolani Blvd., Suite 1110, Honolulu, HI 96814.

This information is being collected to ensure accurate and timely records about the fishing activity of persons licensed to participate in fisheries under Federal regulations in the Western Pacific Region. This will enable the National Marine Fisheries Service and the Western Pacific Fishery Management Council to (a) determine how these persons would be affected by changes in management; (b) ensure that they are informed about prospective changes in fishery regulations and the analysis of estimated impacts; and (c) determine whether the objectives of the fishery program are being achieved by monitoring the fishery and evaluating the impacts on stocks and the fishery participants and related businesses. Responses to the collection are required to obtain the benefit of a license for the fishery involved (ref. 50 CFR 665.13). Data provided concerning the activities and business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec. 402(b)). Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

WESTERN PACIFIC CRUSTACEAN FISHERIES

DAILY LOBSTER CATCH REPORT

NAME OF VESSEL _____

PERMIT NUMBER _____

PAPERWORK REDUCTION ACT INFORMATION

PUBLIC REPORTING BURDEN FOR THIS COLLECTION IS ESTIMATED AT 5 MINUTES PER RESPONSE, INCLUDING THE TIME FOR REVIEWING INSTRUCTIONS, SEARCHING EXISTING DATA SOURCES, GATHERING AND MAINTAINING THE DATA NEEDED, AND COMPLETING AND REVIEWING THE COLLECTION OF INFORMATION. SEND COMMENTS REGARDING THIS BURDEN ESTIMATE OR ANY OTHER ASPECT OF THIS COLLECTION OF INFORMATION, INCLUDING SUGGESTIONS FOR REDUCING THIS BURDEN, TO REGIONAL ADMINISTRATOR, SOUTHWEST REGION, NMFS, 501 W. OCEAN BOULEVARD, SUITE 4200, LONG BEACH, CALIFORNIA 90802.

This information is being collected to ensure accurate and timely records about the fishing activity of persons licensed to participate in fisheries under Federal regulations in the Western Pacific Region. This will enable the National Marine Fisheries Service and the Western Pacific Fishery Management Council to (a) determine how those persons would be affected by changes in management; (b) ensure that they are informed about prospective changes in fishery regulations and the analysis of estimated impacts; and (c) determine whether the objectives of the fishery program are being achieved by monitoring the fishery and evaluating the impacts on stocks and the fishery participants and related businesses. Responses to the collection are required to obtain the benefit of a license for the fishery involved (ref. 50 CFR 660.13). Data provided concerning the activities and business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec. 402(b)). Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.
