

UNITED STATES INTERNATIONAL TRADE COMMISSION  
Washington, DC 20436

**MEMORANDUM ON PROPOSED TARIFF LEGISLATION  
of the 110<sup>th</sup> Congress**<sup>1</sup>

[Date approved: May 5, 2008]<sup>2</sup>

**Bill No. and sponsor:** H.R. 4362 (Mr. Brian Baird of Washington).

**Proponent name,<sup>3</sup> location:** Solvay Chemicals Inc., Alpharetta, GA.

**Other bills on product (110<sup>th</sup> Congress only):** H.R. 4363 (Mr. Brian Baird of Washington).

**Nature of bill:** Clarification of temporary duty suspension.

**Retroactive effect:** From January 1, 2007.

**Suggested article description(s) for enactment (including appropriate HTS subheading(s)):**

Mixtures of 2-*tert*-amyl-9,10-anthraquinone (CAS No. 32588-54-8) and 2-isoamyl-9,10-anthraquinone (CAS No. 68892-28-4) (provided for in subheading 2914.69.90) or in organic solution (provided for in subheading 3824.90.28).

**Check one:**      Same as that in bill as introduced.  
                   Different from that in bill as introduced (see Technical comments section).

**Product information, including uses/applications and source(s) of imports:**

The subject products are used to produce hydrogen peroxide. They are imported from The Netherlands.

**Estimated effect on customs revenue:**

H.R. 4362 and H.R. 4363 are closely related because they each amend HTS heading 9902.24.05. H.R. 4362 would amend the article description of HTS heading 9902.24.05, but it would not extend the current duty suspension. Instead, it would provide retroactive duty-free treatment to imports of products covered by the amended article description that were entered after December 31, 2006 and before the date that is 15 days after the date of enactment. H.R. 4363 would extend the duty suspension that is provided under HTS heading 9902.24.05. It would not, however, amend the article description of HTS heading 9902.24.05. The revenue loss estimates assume that both bills would be enacted.

1/ Although there is an existing duty suspension under HTS heading 9902.24.05, the duty suspension has not been effective because the article description contained an incorrect CAS number. The estimated customs revenue loss for 2007 and 2008 would result from the enactment of H.R. 4362. The estimated customs revenue loss for 2009-2013 would result from the enactment of H.R. 4363 and the modification of the article description of HTS heading 9902.24.05 that is provided for in H.R. 4362.

**Technical comments:<sup>4</sup>**

The Commission staff suggests that the article description on page 1 of this report be used in HTS heading 9902.24.05 in order to provide the correct notation of chemical prefixes and to provide the correct HTS subheading reference. As noted above, H.R. 4362 and H.R. 4363 are closely related, and they should be considered together. If H.R. 4362 is enacted by itself, it would be effective for 2007 and 2008 only. If H.R. 4363 is enacted by itself, it would not be effective because the article description in HTS heading 9902.24.05 contains an incorrect CAS number. The modification and extension of the duty suspension could be accomplished by combining the modification of the article description that is provided for in H.R. 4362 and the change of the effective date that is provided for in H.R. 4363.

---

<sup>4</sup> The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.
