**Check one:**      Same as that in bill as introduced.  
                   Different from that in bill as introduced (see Technical comments section).

**Product information, including uses/applications and source(s) of imports:**

This bill covers yarns made wholly of carded camel hair and those of carded camel hair blends in which the camel hair predominates by weight over any other single textile fiber. The yarns have undergone carding. Carding serves to disentangle the fibers to prepare them for spinning and is done by passing the fibers between rollers covered with fine teeth. This step produces camel hair in the form of a loose, untwisted rope-like sliver, ready for spinning into carded yarn. Such yarns are typically woven into fabrics for use in outerwear and sport coats.

The subject yarns are provided for in HTS subheading 5108.10.80, which covers yarns of carded fine animal hair, other than Angora rabbit hair and mohair (including alpaca, vicuna, cashmere, and other fine animal hair). In 2007, dutiable U.S. imports under HTS subheading 5108.10.80 totaled just under \$2.0 million (21,000 kilograms). Italy was the primary supplier of such yarns, followed by China and the United Kingdom.

**Technical comments:**<sup>4</sup>

It is suggested that the second instance of the word “yarn” be deleted from the article description, because it is redundant.

<sup>4</sup> The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.
