Estimated effect on customs revenue:

HTS subheading: <u>4016.93.50</u>								
\land	2009	2010	2011	2012	2013			
Col. 1-General rate of duty	2.5%	2.5%	2.5%	2.5%	2.5%			
Estimated value <i>dutiable</i> imports 1/	\$500,000,000	\$500,000,000	\$500,000,000	\$500,000,000	\$500,000,000			
Customs revenue loss	\$12,500,000	\$12,500,000	\$12,500,000	\$12,500,000	\$12,500,000			

1/ The estimates are based on total dutiable U.S. imports under HTS subheading 4016.93.50 because the proponent did not provide estimates of future imports of the subject product. The estimates exceed the likely future imports of the subject product because subheading 4016.93.50 is a basket category that covers a wide range of products that are not covered by this bill. Therefore, the customs revenue loss that will result from this bill is likely to be lower than the amount shown in the table above. Source of estimated dutiable import data: Official U.S. Government statistics.

Technical comments:⁴

The Commission staff suggests that the article description on page 1 of this report be used in the proposed new heading in order to provide a clearer product description.

⁴ The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.
