

UNITED STATES INTERNATIONAL TRADE COMMISSION
Washington, DC 20436

**MEMORANDUM ON PROPOSED TARIFF LEGISLATION
of the 110th Congress¹**

[Date approved: August 8, 2008]²

Bill No. and sponsor: H.R. 5366 (Mr. Gary L. Ackerman of New York).

Proponent name,³ location: Leviton Manufacturing Co., Inc., Little Neck, NY.

Other bills on product (110th Congress only): None.

Nature of bill: Temporary duty suspension through December 31, 2011.

Retroactive effect: None.

Suggested article description(s) for enactment (including appropriate HTS subheading(s)):

Ground fault circuit interrupters, the foregoing rated not over 15 A (provided for in subheading 8536.30.80).

Check one: Same as that in bill as introduced.
 Different from that in bill as introduced (see Technical comments section).

Product information, including uses/applications and source(s) of imports:

Ground fault circuit interrupter electrical power outlets and plug-in ground fault circuit interrupters rated not over 15 amperes (A) are types of ground fault circuit interrupter, or GFCI. A GFCI is a safety device used to reduce or prevent electrical shock with the ground or ground equipment by interrupting the electrical current loading to a device that is set with a predetermined value. If the value of the ground current exceeds the predetermined value, then the GFCI will automatically turn off the electrical current to the device to prevent electrical shock.

GFCIs are most commonly used in areas where there is water, such as kitchens and bathrooms. GFCI plug-in devices rated not over 15 A fit into standard electrical outlets and are most commonly used with kitchen appliances or appliances such as a hair dryer, electric shaver, or radio. Most municipal or county electrical codes require the inclusion in residences, particularly in outlets in kitchens and bathrooms, of a GFCI electrical power outlet, where the GFCI is part of the power outlet wired into the electrical system and includes a push button that will “pop” if the predetermined current value is exceeded.

The principal U.S. import sources of this product are China, Indonesia,⁴ and Mexico.⁵ Dutiable U.S. imports of all products classified in subheading 8536.30.80 (a broader group than is covered by this bill) totaled \$326.1 million in 2007, of which China supplied \$214.5 million and Mexico \$20.6 million.

¹ Industry analyst preparing report: Falan Yinug (202-205-2160); Tariff Affairs contact: Jan Summers (202-205-2605).

² Access to an electronic copy of this memorandum is available at http://www.usitc.gov/tata/hts/other/rel_doc/bill_reports/.

³ The sponsor/proponent did not identify any additional beneficiaries of this bill.

⁴ Eligible products of Indonesia may be imported free of duty under the Generalized System of Preferences.

⁵ Only originating goods of Mexico are eligible for duty-free entry under the North American Free Trade Agreement.

Estimated effect on customs revenue:

HTS subheading: 8536.30.80					
	2009	2010	2011	2012	2013
Col. 1-General rate of duty	2.7%	2.7%	2.7%	2.7%	2.7%
Estimated value <i>dutiable</i> imports	\$29,059,000	\$30,053,000	\$31,087,000	\$32,163,000	\$33,284,000
Customs revenue loss	\$784,593	\$811,431	\$839,349	\$868,401	\$898,668

Source of estimated dutiable import data: Industry and Commission estimates.

Technical comments:⁶

The proposed article description should be amended as shown on page 1, to be more consistent with normal tariff nomenclature drafting practices. We defer to Customs and Border Protection officials to determine if the proposed description may present interpretative difficulties; the language may represent industry usage for the subject goods.

⁶ The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.

110TH CONGRESS
2D SESSION

H. R. 5366

To suspend temporarily the duty on ground fault circuit interrupter receptacles of 15 amps or less.

IN THE HOUSE OF REPRESENTATIVES

FEBRUARY 12, 2008

Mr. ACKERMAN introduced the following bill; which was referred to the Committee on Ways and Means

A BILL

To suspend temporarily the duty on ground fault circuit interrupter receptacles of 15 amps or less.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. CERTAIN GROUND FAULT CIRCUIT INTER-**
4 **RUPTER RECEPTACLES OF 15 AMPS OR LESS.**

5 (a) IN GENERAL.—Subchapter II of chapter 99 of
6 the Harmonized Tariff Schedule of the United States is
7 amended by inserting in numerical sequence the following
8 new heading:

“	9902.85.30	Ground fault circuit interrupter receptacles of 15 amps or less (provided for in sub-heading 8536.30.80)	Free	No change	No change	On or before 12/31/2011	”.
---	------------	--	------	-----------	-----------	-------------------------	----

1 (b) **EFFECTIVE DATE.**—The amendment made by
2 subsection (a) applies to goods entered, or withdrawn from
3 warehouse for consumption, on or after the 15th day after
4 the date of the enactment of this Act.
