

## ***Latest Fixes to ASAP.gov Application Implemented the Week of 05/29/2004***

### **Account:**

- The Requestor ID find dropdown menu now includes Wyoming (WY) in selection list.

### **Account Settlement Report:**

- The word Settlement is now spelled correctly when displaying CSV format.

### **Book Entry Adjustments:**

- When the cumulative draw limit on an account is zero, the user will not receive an error message, when making an adjustment to that account.

### **Modify Account:**

- The Requestor ID can be changed without an application error.

### **Interstate Authorization Transfer:**

- The Total Amount Entered now calculates correctly to equal the actual transfer amount.

### **INQUIRY:**

#### **Account Balance Inquiry:**

- The short name for ALC and Recipient were reversed. This has been corrected.

#### **Account Statement Inquiry:**

- The dollar amount for Return Payments will be displayed.
- The Return Payment Type will be displayed as "RP" not "CL".
- The Beginning and Ending Balances will display zero instead of blanks.
- The Increases and Decreases will now reflect returned payments in the same as the mainframe.

#### **Authorization Transaction Detail Inquiry:**

- The time is now formatted correctly (00:00:00).

#### **Payment Requestor Inquiry:**

- The Fedwire (Funds) ABA (RTN) number now appears for all bank relationships.

**Recipient Organization Inquiry:**

- The PDF display now shows complete contact name.
- The HTML display now shows the correct phone number format.
- The missing country code is now included.

**Returned Payment Inquiry:**

- The missing sender reference number is now included.

**Voice Response Inquiry:**

- When making an inquiry using the ALC as the only search criteria, only data with
- VRS Accounts will be displayed.
- When making an inquiry you can now use the VRS account number as the only search criteria.
- The VRS account number now displays as 6 digits.
