

Version P023 of VA-ONCE

Installation Date 10/28/07

P023 incorporates additional changes to interface with VR&E's CWINRS application.

- 1) Adds a new status code, 5R. This status code is returned from CWINRS when there is no matching record found in the CWINRS database. It is defined as a rejected record.
- 2) Updates the status chart to show the 5R status.

3) Updates the Status drop-down Filter to include '31 Rejected'. When this option is selected, all chapter 31 records that were not in the CWINRS database will be returned.

The screenshot shows the 'VA-ONCE Student Select' application. The 'Status' dropdown menu is open, and '31 Rejected' is selected. A red arrow points from the 'Filter' button to the '31 Rejected' option. The main table displays student records with the following columns: File #, Pay #, Last Name, First Name, Chapt, Program, Last Cert, and Facility Code.

Select '31 Rejected' and click Filter.

All records with the 5R status appear in the list.

The 22-1999 or 22-1999b that generated this status code will need to be printed and sent to the Regional Office with jurisdiction.
