

Version P025 of VA-ONCE

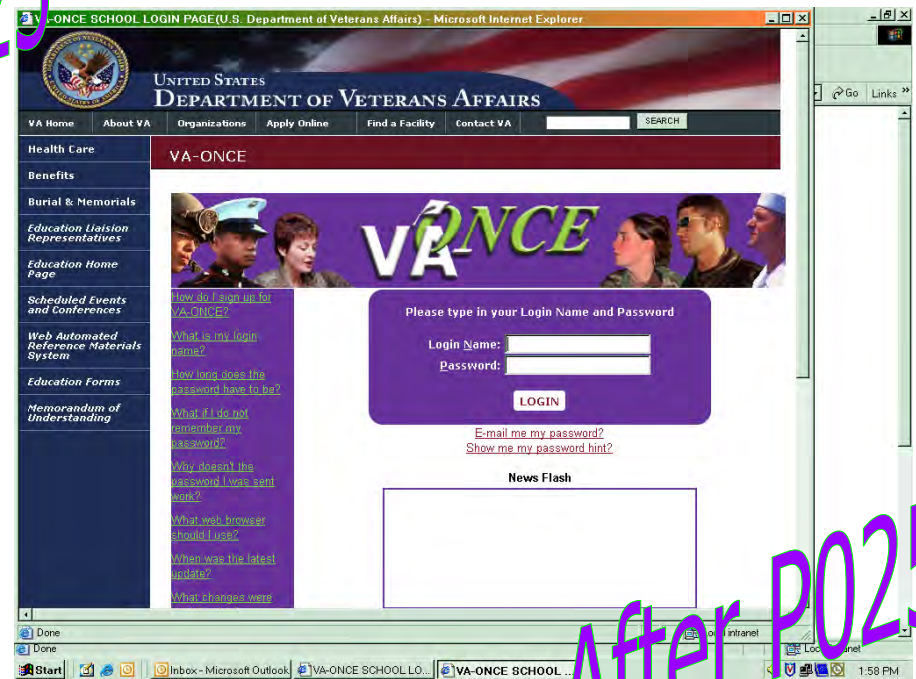

Installation Date 4/27/08

This allows the News Flash message to be viewed without having to use the vertical scroll bar or maximize the screen.

Changes made in version P025 include the following:

- 1) Once you click 'Start VA-ONCE' from the home page, the login page window pops up in a larger size.

2) A field has been added to the Bio page where an SCO can record if the Prior Training has been evaluated (PT Evaluated).

This is an optional field. It was added at the request of accredited schools who lost the ability to track whether or not prior training had been evaluated when the requirement to report the prior credit to VA was removed.

The screenshot shows a web form with tabs for Bio, Certs, VA Data, Log, and History. The Bio tab is active. The form includes fields for Salutation, First Name, Middle Name, Last Name, Suffix, Address, Location, SSN, Student ID, File Number, Payee#, Chapter, Training Type, School Short Name, Facility Code, Program, Prior Training Credit, PT Evaluated, Guest Student, Active Duty, Primary School Name, State, DD-214, Parking, and Meal card. The 'PT Evaluated' field is a dropdown menu with a red circle around it, showing 'NA' as the selected option.

The dropdown menu for 'PT Evaluated' is shown with three options: No, Yes, and Pending. The 'No' option is currently selected.

Options for this field are:

- No – Prior training has not been evaluated
- Yes – Prior training has been evaluated
- Pending – Prior training evaluation is pending

Before P025

This screenshot shows a search filter interface with the following elements:

- Row 1: Status and (All Active), Facility Code and (All), Chapter and (All), Training Type and (All), Program and (All), RPO (331 - circled in red).
- Row 2: Date Range or (empty), Days until Cert End or (ALL), Training Time (All), Prior Credit (ALL), Active Duty (ALL), Filter, Reset.

After P025

This screenshot shows the updated search filter interface with the following elements:

- Row 1: Status and (All Active), Facility Code and (All), Chapter and (All), Training Type and (All), Program and (All), PT Evaluated (All - circled in red).
- Row 2: Date Range or (empty), Days until Cert End or (ALL), Training Time (All), Prior Credit (ALL), Active Duty (ALL), Filter, Reset.

On the Select Student page, the RPO Filter, which was disabled, was replaced by a “PT Evaluated” filter. This allows the SCO to search for students based on whether or not prior training has been evaluated. The options here are Yes, No, Pending, or All.

Only students that have had the PT Evaluated field saved on the Bio page will be returned when selecting Yes, No, or Pending.

3) New Margin Text has been added to explain the PT Evaluated fields on the Select Student page and the Bio page.

If you would like to track whether or not the prior training has been evaluated for this student you can do so using this drop down.

The PT Evaluated Filter on the Select Student page will allow you to locate the students in each status.

- Yes - Prior Training has been Evaluated
- No - Prior Training has not been Evaluated
- Pending - Prior Training evaluation is pending
- All - All students with the PT Evaluated field populated

4) A change has been made to correct the format when printing historical Enrollment Certifications, 22-1999s. Previously when an SCO printed a historical 22-1999 after there had been adjustments or amendments the terms were appearing multiple times.

▶	5M SUMMER	☒	06/27/2005	08/05/2005	3				11901110	982907

Example: Two summer terms were submitted. SUM A was from 5-9-06 to 6-16-06 at 7 hours. SUM, B was from 6-26-06 to 8-4-06 at 6 hours. Both were sent at the same time - Certification ID 1873993. Each term had an adjustment. When going back to print the original enrollment certification after the adjustments, the 2 summer terms appear multiple times making it look like multiple terms for the same period were submitted. See the "Before" sample on the next page.

Remarks

After P025

5) Prior to P025 if an adjustment had been done and subsequently the SCO tried to do a termination for either "End of Term or Course" or "Graduation", the effective date would be pre-populated with the effective date of the previous adjustment and could not be changed.

The LDA/EFF Date is now enabled and can be changed to the correct date.

Before P025

6) Previously, when doing a termination the term dates could be changed.

The change in term dates prevented the termination information from being sent to The Image Management System (TIMS), causing cases to be processed incorrectly.

7) In addition to the status changing to a 5R when a certification is not found in CWINRS a Log will be generated. On the Student Select page, if the 'Show Logs' button is clicked and the student has an unread log entry an Alert will appear in the far right column.

You can access the log by selecting the student and then clicking on the Log tab. There will be a Log from the CWINRS User which states that the Student was not found in the CWINRS database.

To delete the Alert from the Select Student page, check the 'Read' box and click 'Save'. The Read indicator will appear in the left column and the Alert will no longer be shown on the Select Student page.

8) Additional data has been added to the History Tab. The Event Description will now contain the 5X or 5R status.

User Name	User Type	Date/Time	Facility Code	Event Type	Event Description
SYSTEM		4/3/2008 9:39:38 AM	2-2-2222-22	CVMNRS	Cert Id: 3937029 - Certification Status: 5R--Claimant's record not located in CVMNRS.

After P025

9) In cases where a student was deleted or inactivated prior to 4/29/07 (The date version P020 of VA-ONCE was installed. This change defaulted the prior credit to NA for accredited schools), errors were generated stating that the last name was a required field or that the prior credit must be NA. Since the student was “read only” because they were deleted or inactive, the prior credit field was not accessible. Users were stuck in a loop and had to close out of VA-ONCE and activate or undelete the student in order to view the complete record.

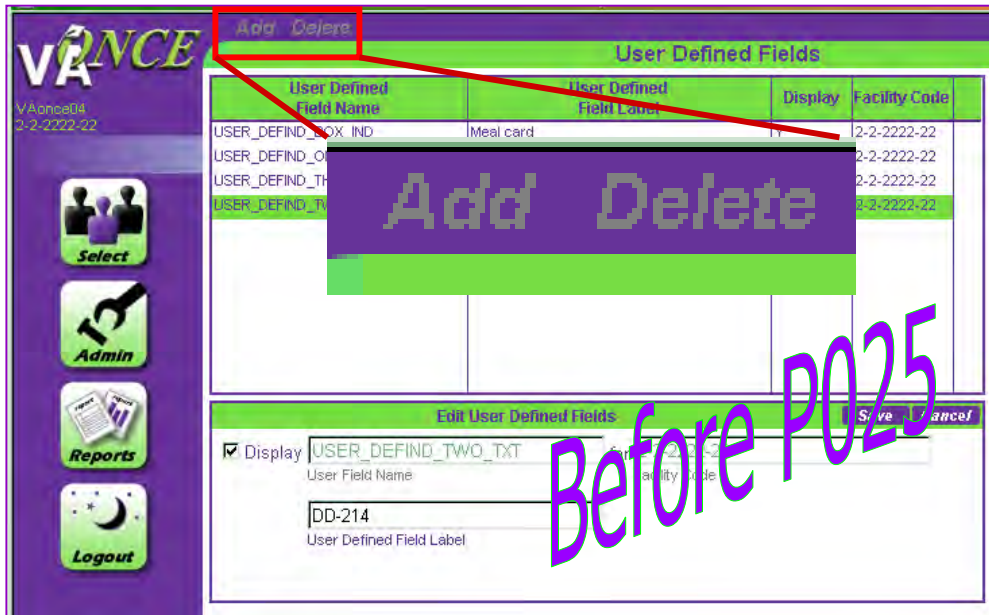

This has been corrected so that all deleted and inactive records can be viewed without errors.

The screenshot shows the VA-ONCE Student Bio web application. The main content area displays the following information for student REESE CUP BROWN:

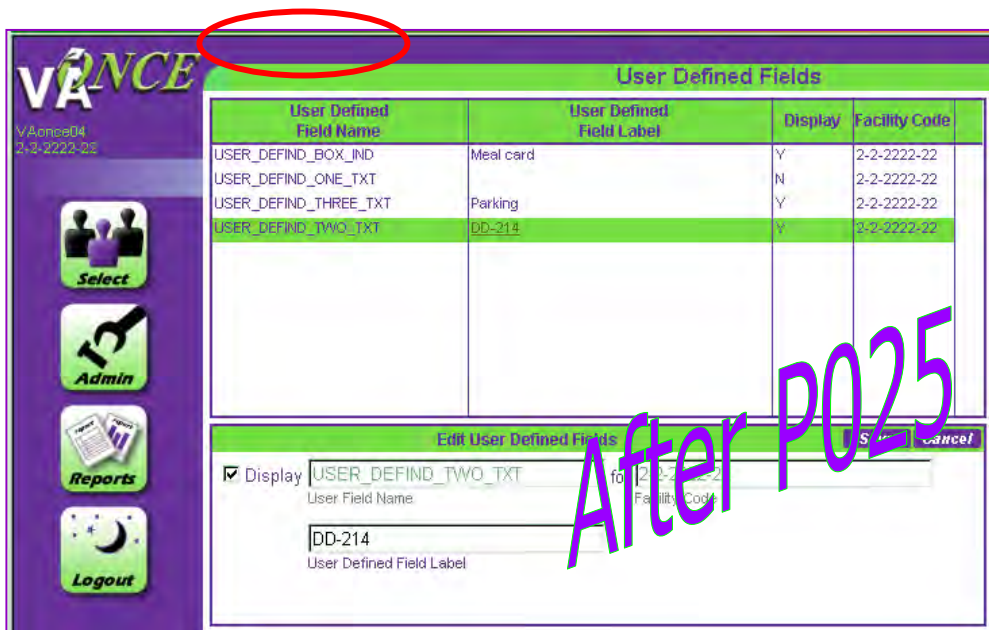

- Name: BROWN, REESE CUP
- SSN: 111-98-5555
- File/Payee: 111-98-5555/00
- Program: BS AS
- Chapter: 30
- Training Type: Undergraduate

The form fields are disabled, and an error message is shown: "Accredited Schools must have Prior Credit Training set to NA". A large purple watermark "Before P025" is overlaid on the right side of the screen.

NOTE: The fields are disabled since the record is read only.

10) The Add and Delete that were displayed as disabled at the top of the User Defined Fields screen have been removed since they are never active on this screen.

11) All 'Deleted' students will be deleted permanently from VA-ONCE. Note: This only applies to students who are in the Deleted status and have never had certifications submitted (Status 1, 2, and 3).
