

UNITED STATES INTERNATIONAL TRADE COMMISSION

WASHINGTON, D.C. 20436

November 9, 2004

MEMORANDUM

TO: Chairman
Commissioners
Director, Office of Administration
Director, Office of External Relations
Director, Office of Operations
Director, Office of Facilities Management
Secretary
General Counsel

FROM: Inspector General 

SUBJECT: Inspector General's Independent Audit Report of the U.S. International Trade Commission's FY 2004 Financial Performance and Statement on the Commission's Management Challenges
Audit Report Number: OIG-AR-02-05

I am pleased to provide you with the attached audit report, which presents an unqualified opinion on the U.S. International Trade Commission's FY 2004 financial statements. We engaged the independent public accounting firm of O'Connor & Drew, P.C. to perform the audit of the Commission's financial statements as of the year ended September 30, 2004. The contract required that the audit be done in accordance with U.S. generally accepted government auditing standards and OMB Bulletin 01-02, Audit Requirements for Federal Financial Statements.

Additionally, as reported in our October 2004 Semiannual Report to the Commission and to the Congress, the Office of Inspector General (OIG) considers the following to be the top management challenges facing the Commission as identified by the OIG—as well as recent OIG activities relating to each challenge.

Management Challenge: Competitive Sourcing. The Commission has competitively contracted for information technology services, preparation of financial statements, human capital planning, certain editing and publishing services, mailroom and general labor services, cleaning and building maintenance services, and security services. Private sector contract employees comprise more than 10 percent of on-site personnel. In addition, other services are acquired on an as-needed basis, such as virtually all equipment maintenance services, application systems design and development, and certain audit and financial services.

Management Challenge: Improved Financial Performance. Our July 2003 audit of the Commission's financial management controls found that the Commission's accounting records reasonably and fairly represented financial transactions and internal controls were in place. We found no instances of fraud. However, we made four recommendations to strengthen internal controls related to property, cash, payroll, and accounts receivable. The Assistant Inspector General for Audit coordinated with the Director, Office of Administration, and his staff to ensure that the Commission prepared financial statements in accordance with OMB provisions. The Commission contracted for assistance in preparing the financial statements in FY 2004.

Management Challenge: Budget and Performance Integration. Since FY 2000, the Commission has accelerated efforts to link budgeting with strategic planning. Budget formulation and execution activities have been restructured to permit the allocation of virtually all costs to one of the five operations set forth in the Strategic Plan. Specifically, because personnel costs are more than 72 percent of total costs, the Commission uses the labor cost reporting system to collect work years and cost information and attribute it directly to strategic operations when feasible. Since FY 2001, the Commission's Budget Justification has presented cost and workload information in a format that aligns direct and indirect costs with operations in the Strategic Plan.

Management Challenge: Expanded Electronic Government. Agency Inspectors General are to conduct an annual independent evaluation of agency information security programs and practices. Accordingly, we conducted comprehensive audits of the Commission's information security program in FY 2001, FY 2002, and FY 2003. The FY 2003 evaluation completed during the prior period found that the Commission must take further action in order to achieve consistency with OMB Circular No. A-130, Appendix III *Security of Federal Automated Information Resources* (February 1996). We identified 7 findings in the areas of management, operational, and technical controls and made 18 recommendations to improve the Commission's IT security. Although problems persist, the Commission made sufficient progress in addressing them that they neither in part nor in sum constitute a material weakness. In addition to information security measures, the Commission has committed significant resources to electronic government initiatives.

Management Challenge: Strategic Management of Human Capital. Human capital is the Commission's largest resource, with salaries and personnel benefits representing approximately 72 percent of the FY 2004 budget. The Commission maintains an expert staff of professional international trade and nomenclature analysts, investigators, attorneys, economists, computer specialists and administrative support personnel. More than one third of the Commission's workforce is eligible to retire in the next 5 years. The Commission may realign resources as priorities shift, but the cost of the current staffing level is increasing at a rate faster than appropriation levels as the number of Civil Service Retirement System employees decreases and the number of Federal Employees Retirement System employees increases. Thus, the Commission must streamline human resource processes, review how it utilizes staff, and develop a better understanding of the relationship between human resources and financial resources to ensure that the Commission builds, deploys, and sustains a skilled, flexible, high-performing workforce. In FY 2005, the Commission will focus on: leadership and knowledge management, workforce planning and deployment, and strategic alignment.

INDEPENDENT AUDITORS' REPORT

Office of Inspector General, U.S. International Trade Commission

We have audited the accompanying balance sheet of the United States International Trade Commission (USITC/Commission) as of September 30, 2004, and the related statements of net cost, changes in net position, budgetary resources, financing, and custodial activity (hereinafter referred to as the financial statements) for the year then ended. The objective of our audit was to express an opinion on the fair presentation of the financial statements. In connection with our audit, we also considered the Commission's internal control over financial reporting and tested the Commission's compliance with certain provisions of applicable laws and regulations that could have a direct and material effect on its financial statements.

SUMMARY

We found the following:

- The financial statements referred to above are fairly presented, in all material respects, in conformity with accounting principles generally accepted in the United States of America,
- The Commission had effective internal control over financial reporting (including safeguarding of assets) and compliance with laws and regulations,
- The Commission's financial management systems substantially complied with the applicable requirements of the Federal Financial Management Improvement Act of 1996 (FFMIA), and
- No reportable noncompliance with laws and regulations we tested.

The following sections discuss in more detail (1) these conclusions and our conclusions on Management's Discussion and Analysis and (2) the scope of our audit.

Opinion on Financial Statements

We have audited the accompanying balance sheet of the Commission as of September 30, 2004 and the related statements of net cost, changes in net position, financing, budgetary resources, reconciliation of net costs to budgetary obligations, and custodial activity for the year then ended.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the USITC as of September 30, 2004, and its net costs, changes in net position, budgetary resources, reconciliation of net costs to budgetary obligations, and custodial activity for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

We have compiled the accompanying balance sheet of the Commission as of September 30, 2003 and the related statements of net cost, changes in net position, financing, budgetary resources, reconciliation of net costs to budgetary obligations, and custodial activity for the year then ended in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. A compilation is limited to presenting in the form of financial statement information that is the representation of management. We have not audited or reviewed the 2003 statements and, accordingly, do not express an opinion or any other assurance on them.

The information in the Management Discussion and Analysis section is not a required part of the financial statements, but is supplementary information required by accounting principles generally accepted in the United States of America or OMB Bulletin No. 01-09, *Form and Content of Agency Financial Statements*. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of this information. However, we did not audit this information and, accordingly, we express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The Management Challenges identified by the Inspector General is presented for purposes of additional analysis and is not a required part of the financial statements. This information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

Internal Control Over Financial Reporting

Our consideration of internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses under standards issued by the American Institute of Certified Public Accountants. Material weaknesses are conditions in which the design or operation of one or more of the internal control components does

not reduce to a relatively low level the risk that misstatements caused by error or fraud, in amounts that would be material in relation to the financial statements being audited, may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control and its operation that we considered to be material weaknesses as defined above.

However, we noted other matters involving internal control financial reporting and its operation that we have reported to the management of USITC in a separate restricted use report.

Compliance with Laws and Regulations

The results of our tests of compliance with other laws and regulations, exclusive of the *Federal Financial Management Improvement Act* (FFMIA), disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards* or OMB Bulletin No. 01-02, *Audit Requirements for Federal Financial Statements*. However, the objective of our audit was not to provide an opinion on overall compliance with laws and regulations. Accordingly, we do not express such an opinion.

Opinion on FFMIA Compliance

In our opinion, the Commission's financial management systems substantially complied with the three FFMIA requirements: (1) Federal financial management system requirements, (2) Federal accounting standards, and (3) the U.S. Government Standard General Ledger (SGL) at the transaction level, as of September 30, 2004.

Management's Responsibility

The Accountability of Tax Dollars Act of 2002 requires each federal agency to report annually to Congress on its financial status and any other information needed to fairly present its financial position and results of operations. To meet the reporting requirements, the USITC prepares annual financial statements.

Management is responsible for the financial statements, including:

- Preparing the financial statements in conformity with accounting principles generally accepted in the United States of America,
- Establishing and maintaining internal controls over financial reporting, and preparing the Management Discussion and Analysis (including performance measures), and
- Implementing, maintaining, and assessing financial management systems to provide reasonable assurance of substantial compliance with the requirements of FFMIA, and
- Complying with applicable laws and regulations.

In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control policies. Because of inherent limitations in internal control, misstatements, due to error or fraud may nevertheless occur and not be detected.

Auditors' Responsibility and Methodology

Our responsibility is to express an opinion on the fiscal year 2004 financial statements of USITC based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, and OMB Bulletin No. 01-02. Those standards and OMB Bulletin No. 01-02 require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit includes:

- Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements;
- Assessing the accounting principles used and significant estimates made by management, and
- Evaluating the overall financial statement presentation.

We believe that our audit provides a reasonable basis for our opinion.

In planning and performing our fiscal year 2004 audit, we considered the USITC's internal control over financial reporting by obtaining an understanding of the Commission's internal control, determining whether internal controls had been placed in operation, assessing control risk, and performing tests of controls in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements. We limited our internal control testing to those controls necessary to achieve the objectives described in OMB Bulletin No. 01-02 and *Government Auditing Standards*. We did not test all internal controls relevant to operating objectives as broadly defined by the Federal Managers' Financial Integrity Act of 1982. The objective of our audit was not to provide assurance on internal control over financial reporting. Consequently, we do not provide an opinion thereon.

As required by OMB Bulletin No. 01-02, with respect to internal control related to performance measures determined by management to be key and reported in the Management Discussion and Analysis, we obtained an understanding of the design of significant internal controls relating to the existence and completeness assertion. Our procedures were not designed to provide assurance on internal control over performance measures and, accordingly, we do not provide an opinion thereon.

As part of obtaining reasonable assurance about whether the Commission's fiscal year 2004 financial statements are free of material misstatement, we performed tests of the Commission's compliance with certain provisions of laws and regulations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts, and certain provisions of other

laws and regulations specified in OMB Bulletin No. 01-02, including certain provisions referred to in FFMIA. We limited our tests of compliance to the provisions described in the preceding sentence, and we did not test compliance with all laws and regulations applicable to the Commission. Providing an opinion on compliance with laws and regulations was not an objective of our audit, and, accordingly, we do not express such an opinion.

Under OMB Bulletin No. 01-02 and FFMIA, we are required to report whether the Commission's financial management systems substantially comply with (1) federal financial management systems requirements, (2) applicable Federal accounting standards, and (3) the United States Government Standard General Ledger at the transaction level. To meet this requirement, we performed tests of compliance with FFMIA Section 803(a) requirements.

Distribution

This report is intended solely for the information and use of USITC's management, the USITC's Office of the Inspector General, OMB, and the U.S. Congress, and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

UNITED STATES INTERNATIONAL TRADE COMMISSION

Notes to the Financial Statements

September 30, 2004 and 2003

Note 1. Significant Accounting Policies

- A. *Reporting Entity* – The United States International Trade Commission (USITC) is an independent agency of the U.S. Government created by an act of Congress and is headed by six commissioners, appointed by the President and confirmed by the U.S. Senate for nine-year terms. The President designates the chairman and vice chairman, each of whom serve two-year terms.

The USITC conducts investigations and reports findings relating to imports and the effect of imports on industry, and unfair import practices. The USITC advises the President on the probable economic effect of proposed trade agreements with foreign countries. The USITC also conducts analytical studies and provides reports on issues relating to international trade and economic policy on behalf of both the Congress and President.

- B. *Basis of Accounting and Presentation* – USITC's financial statements conform to U.S. Generally Accepted Accounting Principles (GAAP) as promulgated by the Federal Accounting Standards Advisory Board (FASAB). The American Institute of Certified Public Accountants (AICPA) recognizes FASAB Standards as GAAP for federal reporting entities. These principles differ from budgetary reporting principles. The differences relate primarily to the capitalization and depreciation of property and equipment, as well as, the recognition of other long-term assets and liabilities. The statements were prepared in conformity with OMB Bulletin 01-09, *Form and Content of Agency Financial Statements*.

The financials have been prepared from the books and records of the USITC and include all accounts of all funds under the control of the USITC. Accounting principles generally accepted in the United States of America encompass both accrual and budgetary transactions. Under the accrual method, revenues are recognized when earned and expenses are recognized when a liability is incurred, without regard to receipt or payment of cash. Budgetary accounting facilitates compliance with legal constraints and controls over the use of federal funds. The accompanying financial statements are prepared on the accrual basis of accounting. The USITC's fiscal year is October 1 to September 30. Fiscal year 2004 financials are audited, and 2003 financials are compiled, to allow comparison.

UNITED STATES INTERNATIONAL TRADE COMMISSION

Notes to the Financial Statements

September 30, 2004 and 2003

Note 1. Significant Accounting Policies – Continued

Assets – Intragovernmental assets are those assets that arise from transactions with other federal entities. Funds with the U.S. Treasury composed the majority of intragovernmental assets on USITC's balance sheet.

Financing Sources – The USITC has received a no-year appropriation for operations since fiscal year 1993. Appropriations are recognized as revenue and expensed when related operating expenses are incurred. Differences between appropriations received and expensed are included as unexpended appropriations. Congress appropriated to the USITC \$58,295,000 and \$54,000,000 for salaries and expenses in fiscal years 2004 and 2003, respectively. Congress also rescinded funds in the amount of \$613,341 and \$351,000 for fiscal years 2004 and 2003, respectively.

- C. *Fund Balances with the U.S. Treasury* – Cash receipts and disbursements are processed by the Treasury. Fund balance with the Treasury represents appropriated entity funds in the custody of the U.S. Treasury and is available to pay current liabilities and finance authorized purchase commitments. The USITC's obligated and unobligated fund balances are carried forward until goods or services are received and payments are made, or until such time as funds are deobligated.
- D. *General Property, Plant, and Equipment* – USITC capitalizes acquisitions with costs exceeding \$50,000 and useful lives of two or more years. Property and equipment consist of equipment and software. Depreciation expense is calculated using the straight-line method over its estimated economic useful life as follows: software, 7 years; and equipment ranges from 5 to 7 years.

Internal use software development and acquisition costs of \$100,000 or more are capitalized as software development in progress until the development stage has been completed and the software successfully tested. Upon completion and testing, software development-in-progress costs are reclassified as internal use software costs and amortized using the straight-line method over the estimated useful life. Purchased commercial software which does not meet the capitalization criteria is expensed.

UNITED STATES INTERNATIONAL TRADE COMMISSION

Notes to the Financial Statements

September 30, 2004 and 2003

Note 1. Significant Accounting Policies – Continued

- E. *Accrued Annual Leave* – Annual leave is accrued quarterly, although it is not funded until it is used by employees. To the extent current and prior-year appropriations are not available to fund annual leave earned but not taken; funding will be obtained from future salaries and expenses appropriations. Sick, compensatory, and certain other types of leave are not accrued and are expensed when used by the employee.
- F. *Net Position* – Net position is the residual difference between assets and liabilities and is composed of unexpended appropriations and cumulative results operations. Unexpended appropriations represent the amount of unobligated and unexpended budget authority. Unobligated balances are the amount of appropriations or other authority remaining after deducting the cumulative obligations from the amount available for obligation. Cumulative results of operations are the net result of USITC's operations since inception.
- G. *Intergovernmental Activities* – The USITC records and reports only those Government-wide financial matters for which it is responsible and identifies only those financial matters that the USITC has been granted budget authority and resources to manage.
- H. *Use of Estimates* – The preparation of the accompanying financial statements requires management to make estimates and assumptions about certain estimates included in the financial statements. Actual results will invariably differ from those estimates.
- I. *Tax Status* – USITC, as a federal agency, is not subject to federal, state, or local income taxes and accordingly, no provision for income taxes is recorded.

UNITED STATES INTERNATIONAL TRADE COMMISSION

Notes to the Financial Statements

September 30, 2004 and 2003

Note 2. Non-Entity Assets – Continued

Non-Entity funds include copier fees collected from the public for Freedom of Information Act (FOIA), civil penalty fees, and other collections which will be turned over to the U.S. Treasury and are not available for use by the USITC. Non-entity assets are assets that the USITC holds, but does not have authority to use. A part of the fund balance with Treasury is non-entity and the remaining is entity. Entity assets are those assets which the reporting entity holds and has the authority to use in its operations.

Note 3. Fund Balances with Treasury

	2004	2003 (Compiled)
A. Fund Balances:		
Appropriated Funds	\$ 10,996,653	\$ 7,421,125
Other Fund Types	<u>253,036</u>	<u>1,347</u>
Total	<u>\$ 11,249,689</u>	<u>\$ 7,422,472</u>
B. Status of Fund Balance with Treasury		
Unobligated Balance		
Available	777,300	375,256
Unavailable	408	-
Obligated Balance not yet Disbursed	<u>7,892,157</u>	<u>5,223,992</u>
Total	<u>\$ 8,669,865</u>	<u>\$ 5,599,248</u>

Fund Balances with Treasury is the sole intragovernmental asset. The entity fund balance represents funds appropriated by Congress for use by the USITC. No entity funds are restricted; however, in accordance with Section 605 of Title 5 of Public Law 105-277, Congressional approval is required under certain reprogramming or transfer actions.

Notes to the Financial Statements

September 30, 2004 and 2003

Note 4. Accounts Receivable, Net

The balance of funds receivable from USITC employees for the parking program is \$ 6,981 and \$ 0 on September 30, 2004, and September 30, 2003, respectively.

A civil penalty was imposed by the USITC in the amount of \$ 1,000,000 in fiscal year 2003. A receivable was set up in fiscal year 2004, and \$ 250,000 was collected. As a result, there were balances of \$ 750,000 and \$0 at September 30, 2004 and 2003, respectively.

Note 5. General Property, Plant, and Equipment, Net

Major classes of general property, plant, and equipment include: 1) office furniture, fixtures, and equipment, and 2) information systems and data handling equipment. Depreciation is recorded annually, at the end of the fiscal year using straight-line method, based on estimated useful lives of seven years and five years, respectively, with a ten percent residual value.

<u>Fiscal Year 2004</u>	<u>Acquisition Value</u>	<u>Accumulated Depreciation</u>	<u>Net Book Value</u>
Office Furniture, Fixtures, and Equipment	\$ 1,223,453	\$ 796,452	\$ 427,001
Software	<u>2,650,499</u>	<u>584,051</u>	<u>2,066,448</u>
	\$ <u>3,873,952</u>	\$ <u>1,380,503</u>	\$ <u>2,493,449</u>
<u>Fiscal Year 2003 (Compiled)</u>	<u>Acquisition Value</u>	<u>Accumulated Depreciation</u>	<u>Net Book Value</u>

UNITED STATES INTERNATIONAL TRADE COMMISSION

Notes to the Financial Statements

September 30, 2004 and 2003

Note 6. Liabilities Not Covered by Budgetary Resources - Continued

Intragovernmental: Other liabilities consist of a civil penalty imposed by the USITC which, upon collection, are held in trust for the U.S. Treasury. Other liabilities also include copier fees collected from the public for FOIA and other collections.

Unfunded Leave: Accrued Annual Leave is the value of leave accumulated by USITC employees which is funded when used. The current portion is dependent upon such use and is, therefore, not accurately determinable.

Liabilities Covered by Budgetary Resources: These current liabilities are accounts payable, employer contributions, payroll taxes, accrued funded payroll, withholdings payable, and liabilities payable to the public.

Note 7. Contingencies

USITC has certain claims and lawsuits pending against it. Provision has been made in USITC's financial statements for losses considered probable and estimable. These amounts are considered by management to be immaterial.

Management believes that losses, if any, from other claims and lawsuits would not be material to the fair presentation of USITC's financial statements.

Note 8. Gross Cost by Budget Functional Classification

The Statement of Net Cost for USITC uses a Budget Functional Classification (BFC) code. BFC codes are used to classify budget resources presented in the Budget of the United States Government per OMB. The Statement of Net Cost for financial purposes is designed to summarize Intragovernmental Costs, Costs with the Public, and Costs Not Assigned to Programs. The only cost that is included under the section "Costs Not Assigned to Programs" is the increase in Annual Leave Liability in the amount of \$40,925 and \$113,856 in fiscal years 2004 and 2003, respectively (see note 11). The total Net Cost was \$54,756,811 and \$52,083,976 at September 30, 2004, and September 30, 2003, respectively.

UNITED STATES INTERNATIONAL TRADE COMMISSION

Notes to the Financial Statements

September 30, 2004 and 2003

Note 9. Prior Period Adjustment

Prior to fiscal year 2003, many of the EDIS II costs were expensed. All costs were recognized as assets and adjusted accordingly in the software account as a prior period adjustment in 2004. Accumulated depreciation was calculated for all the costs from January 1, 2003 through September 30, 2003. It was recorded as a prior period adjustment included in Cumulative Results of Operations.

In addition, there was an acquisition of equipment which was to be recorded as a capital lease since fiscal year 2000, but the payments were expensed. In the fiscal year 2003, the equipment was bought out by USITC. Prior years were adjusted to book the equipment in the asset account and the necessary adjusting entries were made and accumulated depreciation was calculated. A prior period adjustment for fiscal year 2003 was made for the net addition.

Prior year fixed asset additions		\$ 2,908,014
Accumulated depreciation		<u>(500,089)</u>
		<u>\$ 2,407,925</u>

Note 10. Spending Authority from Offsetting Collections/Adjustments

Spending authority from offsetting collections consists of refunds of prior year expenditures reported to U.S. Treasury as collections. Adjustments include deobligation of prior year funds.

	2004	2003 (Compiled)
Spending authority from offsetting collections	\$ 14,536	\$ 12,414
Recovery of prior year obligations	<u>685,329</u>	<u>415,884</u>
	<u>\$ 699,865</u>	<u>\$ 428,298</u>

UNITED STATES INTERNATIONAL TRADE COMMISSION

Notes to the Financial Statements

September 30, 2004 and 2003

Note 11. Explanation of Differences Between Liabilities Not Covered by Budgetary Resources and Components Requiring or Generating Resources in Future Periods

This represents the net increase in accrued annual leave reflected on the balance sheet as a liability not covered by budgetary resources. Costs of this nature are incurred in this reporting period and are a component of net cost of operations. Other liabilities not covered by budgetary resources are not a part of net cost of operations or obligations incurred and are not reflected on the Statement of Financing.

Note 12. Non-Exchange Revenue – Custodial Activities

In fiscal year 2004, the USITC functions in a custodial capacity with respect to revenue transferred or transferable to recipient government entities or the public. These amounts are not reported as revenue to the USITC.

The USITC collects a civil penalty for the United States pursuant to 19 U.S.C. §1337(f)(2) in connection with violations of cease and desist orders. A person who violates a cease and desist order can be assessed a civil penalty of up to \$100,000 for each day on which a violation occurs or up to twice the domestic value of the goods imported or sold in violation of the order. Payments are made to USITC and held temporarily by USITC in a custodial capacity until remitted to the U.S. Department of the Treasury.

A civil penalty was imposed by the USITC for \$ 1,000,000 in fiscal year 2003. A receivable was set up in fiscal year 2004, and USITC collected \$ 250,000 that was remitted to Treasury. As of September 30, 2004, USITC has a long-term receivable of \$ 750,000.
