PRE-1980 ANTIDUMPING (AA1921) CASE SUMMARY

TOTALS--1955-79²

Cases instituted (including NEGATIVE inquiries)	223 ³
Final disposition:	
Affirmative (percent by cases)	101 (45 %)
Negative (percent by cases)	117 (53 %)
Terminated (percent by cases)	5 (2 %)
Countries most often cited (percent affirmative/percent negative):	
Japan	55 (47 %/49 %)
Canada	37 (35 %/62 %)
France	19 (47 %/53 %)
West Germany	18 (33 %/67 %)
United Kingdom	11 (55 %/45 %)
Belgium	9 (44 %/44 %)
Italy	8 (62 %/25 %)
Czechoslovakia	6 (33 %/67 %)
Mexico	6 (33 %/67 %)

² The Commission began making injury determinations in antidumping investigations in 1954. Prior to that time, injury determinations, as well as dumping determinations, were made by the Department of the Treasury. Statutory authority for conducting antidumping investigations under the Antidumping Act of 1921 ceased on January 1, 1980, when newly enacted Title VII of the Tariff Act of 1930 became effective.

³ Two early investigations were identified with a single number but covered more than one country (AA1921-2, involving West Germany and France, and AA1921-6, involving East Germany and Czechoslovakia). Accordingly, on the basis of countries cited, there were 225 cases, 101 (45 percent) of which were affirmative, 119 (53 percent) of which were negative, and 5 (2 percent) of which were terminated.
