## SCOPE AND CONTENT NOTE

The papers of Edward M. Glick span the years of 1953-1957, during which Glick was a speech writer for the Department of State and for the Department of Health, Education and Welfare. Arranged in chronological order, the papers consist of speech drafts prepared by Glick, including two delivered by President Eisenhower. The folder titles were assigned by the processing archivist.

From 1951-53, Glick wrote for the Department of State. Although written for different speakers and for a variety of occasions, the speeches in this collection contain similar themes. These include U.S. foreign policy, the Korean war, defense of the U.N., and the fear of communism.

Glick wrote for the Department of Health, Education and Welfare from 1953-1957. These speeches contained in the papers address the need for more medical research funds and relate the most recent advancements made in medicine.
