	Letters 00NL1102/1182/1183 - Go/FI

I. INN LIST 83

1. After the publication of Doc. NS0016E1, the Secretariat received, from the WHO, a new INN list (List 83) which contains 50 products. As the INN list will be incorporated in the WTO Agreement on Trade in Pharmaceuticals, it is necessary to determine the HS classification as soon as possible.
2. INN List 83 is reproduced in the Annex to this document, together with the Secretariat's proposal concerning the classification of these products. In respect of certain products, the Secretariat has proposed more than one classification (placed in square brackets) in the absence of required information.

II. CONCLUSION

3. The Sub-Committee is invited to examine the classification of the 50 products in INN List 83 when considering this Agenda item.

File No. 2549

INN LIST 83

INN	Proposed HS code	Remarks
Adekalant	2933.39	
Alemtuzumab	3002.10	
Aliskiren	2924.29	
Amiloxate	2918.90	
Atrasentan	2932.99	
Bevacizumab	3002.10	
Bivatuzumab	3002.10	
Capravirine	2933.39	
Capromorelin	2933.90	
Cridanimod	2933.90	
Dabigatran	2933.39	
Doripenem	2933.79	
Ecraprost	2918.90	
Elarofiban	2933.39	
Ensulizole	2933.90	
Enzacamene	2914.29	
Eptaplatin	2843.90	
Ezetimibe	2933.79	

Annex to Doc NS0027E1
(SSC/16/Jan. 01)

Fosamprenavir	2935.00	
Fosfluconazole	2933.90	
Fosveset	2922.50	
Gadofosveset	2922.50	
Gemtuzumab	3002.10	
Idraparinux sodium	2932.99	
Isatoribine	2934.90	
labradimil	2934.90	
Ladirubicin	2941.90	
Lerdelimumab	3002.10	
Levmetamfetamine	2921.49	
Lixivaptan	2933.90	
Melevodopa	2922.50	
Meradimate	2922.49	
Norelgestromin	2928.00	
Ocinoxate	2918.90	
Octisalate	2918.29	
Opaviriline	2933.59	
Opebacan	2934.90	
Oritavancin	2941.90	

Ozogamicin	[2932.90] [2941.90]	Need for more information as to whether it is an antibiotic of heading 29.41.
Paliperidone	2934.90	
Ravuconazole	2934.10	
Rimonabant	2933.39
