CLASSIFICATION OPINION ARISING FROM THE CLASSIFICATION OF

A POTATO STARCH PRODUCT

(Item VII.2 on Agenda)

Reference documents :

- 41.294 (HSC/20)
- 41.586 (HSC/20)
- 42.100, Annex IJ/1 (HSC/21 – Report)
- 42.409 (HSC/22)
- 42.750, Annex G/35 (HSC/22 – Report)

I. BACKGROUND

1. The Committee, at its 22nd Session, re-examined the classification of a potato starch preparation consisting of potato starch (88.5%), maltodextrin (8.5%), monosodium glutamate (2%) and salt (1%) used for making bakers' wares. The Committee decided, by 24 votes, that the product at issue was classifiable in heading 19.01 (subheading 1901.90), as against 3 votes favouring heading 11.08.
2. To reflect this decision, the Committee instructed the Secretariat to prepare a Classification Opinion, for examination by the next preessional Working Party.

II. SECRETARIAT COMMENTS

3. Acting on the Committee's instructions, the Secretariat has drafted the appended Classification Opinion, which reflects the decision taken by the Committee at its last session that the product in question should be classified in subheading 1901.90.

File No. 2700

4. In this connection, the Secretariat would like to draw the attention of the Committee to subheading 1901.20, which reads "Mixes and doughs for the preparation of bakers' wares of heading No. 19.05". The Secretariat feels that subheading 1901.20 would be the appropriate subheading for the product given that it is used in the manufacture of bakers' wares.

III. CONCLUSION

5. The Committee is invited to approve the draft text set out in the Annex, once it has been finalized by the Working Party.
6. The Committee is also invited to express its views on the comments made by the Secretariat in paragraph 4 above.
