[OH73-1-6809, OH74-1-6810, OH75-1-6811; FRL-5174-9]

Approval and Promulgation of Implementation Plans; Ohio

AGENCY: United States Environmental Protection Agency (USEPA).

ACTION: Proposed rule; reopening of comment period.

SUMMARY: The USEPA is reopening the comment period for a proposed rule published on January 17, 1995 (60 FR 3361). On January 17, 1995, USEPA proposed to approve exemptions from the nitrogen oxides (NO_x) requirements as provided for in Section 182(f) of the Clean Air Act (Act) for the following ozone nonattainment areas in Ohio: Canton (Stark County); Cincinnati (Hamilton, Butler, Warren, and Clermont Counties); Cleveland (Ashtabula, Cuyahoga, Geauga, Lake, Lorain, Medina, Portage and Summit Counties); Columbus (Delaware, Franklin, and Licking Counties); Youngstown (Mahoning and Trumbull Counties); Steubenville (Jefferson and Columbiana Counties); Preble County; and Clinton County.

The USEPA is reopening the comment period for this action to honor a request from the Ohio Sierra Club. The original request was for an extension of the public comment period by 90 days. The USEPA believes that additional time may be necessary to develop comments, but feels that an extension of 90 days, at this time, is not appropriate since a total of two adverse comments were received (and one supporting); and that no additional adverse comments are expected to be submitted by other entities. Therefore, USEPA is extending the original comment period by 45 days (until April 2, 1995).

DATES: Written comments on this action must be received by April 2, 1995.

ADDRESSES: Written comments must be submitted to: William L. MacDowell, Chief, Regulation Development Section, Air Enforcement Branch (AE-17J), USEPA, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Richard Schleyer, Environmental Engineer, Regulation Development Section, Air Enforcement Branch (AE-17J), USEPA, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 353-5089.

Authority: 42 U.S.C. 7401-7601q.

Dated: March 9, 1995.

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 65

[Docket No. FEMA-7131]

Changes in Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Interim rule.

SUMMARY: This interim rule lists communities where modification of the base (100-year) flood elevations is appropriate because of new scientific or technical data. New flood insurance premium rates will be calculated from the modified base (100-year) flood elevations for new buildings and their contents.

DATES: These modified base flood elevations are currently in effect on the dates listed in the table and revise the Flood Insurance Rate Map(s) in effect prior to this determination for each listed community.

From the date of the second publication of these changes in a newspaper of local circulation, any person has ninety (90) days in which to request through the community that the Associate Director, Mitigation Directorate, reconsider the changes. The modified elevations may be changed during the 90-day period.

ADDRESSES: The modified base (100-year) flood elevations for each community are available for inspection at the Office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT: Michael K. Buckley, P.E., Chief, Hazard Identification Branch, Mitigation Directorate, 500 C Street SW., Washington, DC 20472, (202) 646-2756.

SUPPLEMENTARY INFORMATION: The modified base (100-year) flood elevations are not listed for each community in this interim rule.

However, the address of the Chief Executive Officer of the community where the modified base (100-year) flood elevation determinations are available for inspection is provided.

Any request for reconsideration must be based upon knowledge of changed conditions, or upon new scientific or technical data.

The modifications are made pursuant to Section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 et seq., and with 44 CFR Part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The modified base (100-year) flood elevations are the basis for the floodplain management measures that the community is required to either adopt or to show evidence of being already in effect in order to qualify or to remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities.

The changes in base flood elevations are in accordance with 44 CFR 65.4.
