

of the full 108 AUMs will be contingent upon the location of the offered base water and the applicants' proposed management of the allotment.

The following qualifications are required of applicants:

1. Applicant must be engaged in the livestock business.
2. Applicant must own or control the offered water base property.
3. Applicant must be a citizen of the United States.
4. If the applicant is a group or association—they must be authorized to conduct business in New Mexico, and all members must qualify under No. 3 above.
5. If applicant is a corporation—they must be authorized to conduct business in New Mexico.

In addition, the applicant who receives the grazing preference will be required to accept maintenance responsibilities for the boundary fences and the detention dams on the allotment.

Dated: March 24, 1994.

**Stephanie Hargrove,**  
Associate District Manager.

### Minerals Management Service

#### Information Collection Submitted to the Office of Management and Budget for Review Under the Paperwork Reduction Act

The justification for the collection of information listed below has been submitted to the Office of Management and Budget for renewed approval under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35). Copies of the justification and related information may be obtained by contacting Jeane Kalas at 303-231-3046. Comments and suggestions on the requirement should be made directly to the bureau clearance officer at the telephone number listed below and to the Office of Management and Budget, Paperwork Reduction Project (1010-0087), Washington, DC 20503, telephone 202-395-7340.

*Title:* Information Collection Related to Cooperative Agreements.

*Abstract:* States and Indian Tribes may voluntarily request the Director of the Minerals Management Service (MMS) for the opportunity to enter into cooperative agreements allowing the State or Tribe to carry out royalty audits for MMS. The State or Indian Tribe must submit an application to MMS detailing the activities to be undertaken, the term of the agreement, and the

estimated budget, and also present evidence that the State or Tribe can meet the standards established by the Secretary of the Interior for audits to be conducted under the agreement. Eligible audit activities are 100 percent reimbursable upon the submission of a quarterly progress report and a voucher summarizing quarterly costs. Annual work plans and budgets are required each year the cooperative agreement is in effect.

*Bureau Form Number:* None.

*Frequency:* On occasion.

*Description of Respondents:* States and Indian Tribes.

*Estimated Completion Time:* 144 hours first year; 72 hours subsequent years.

*Annual Responses:* 2 first-time applicants; 5 established agreements.

*Annual Burden Hours:* 288 hours for applicants; 360 hours for established agreements.

*Bureau Clearance Officer:* Arthur Quintana, 703-787-1101.

Dated: January 19, 1994.

**Donald L. Sant,**

Acting Associate Director for Royalty Management.

### National Park Service

#### Big Thicket National Preserve; Revision of Preserve Boundary at Lance Rosier Unit

Section 1 of the Act of October 11, 1974 (88 Stat. 1254) provides for the establishment of Big Thicket National Preserve and authorizes the United States to accept title to any lands, or interests in lands, located outside the boundaries of the preserve which any private person, organization, or public or private corporation may offer to donate to the United States, if the Secretary finds that such lands would make a significant contribution to the purposes for which the preserve was created and he may administer such lands as part of the preserve. The owners of 8.11 acres of land adjoining and 6.51 acres of land located nearby the Lance Rosier Unit have offered to donate this property for incorporation into the preserve, along with approximately \$50,000 in cash. The property consists of three tracts of land. Two of the tracts, denoted as Tract 158-49 and 158-50, contain 6.25 and 1.86 acres, respectively, are located adjacent to the boundary of the Lance Rosier Unit, and have frontage on the south side of FM Road 770. Most of the property would be considered wetlands

with a predominance of oak and palmetto, a scattering of other hardwoods, and some large pine. The property has been utilized as a park by the Big Thicket Association since its acquisition by donation from the Hooks family in 1972. A gray granite monolith is located near the northeast corner of the property to commemorate the Hooks family donation. This is the only improvement on the property and will remain as a condition of the donation to the preserve. The remaining tract, denoted as Tract 158-51, contains 6.51 acres and is located on the north side of FM Road 770 and approximately 2,000 feet from Tract 158-50. This tract is landscaped with grass and a variety of mature trees. It is improved with a small outdoor pavilion, eight new recreation vehicle hookups, a new restroom facility, a former high school gymnasium building, a former high school cafeteria building, a small log cabin, and a small two bedroom house. The gymnasium building is in very poor repair and will be demolished. The frame house will be utilized as an opportunity to house a commissioned Park Ranger at the remote Lance Rosier Unit for resource and visitor protection. The cafeteria building houses the present Big Thicket Museum and will be utilized as a visitor information and environmental education center. The other improvements will be utilized in conjunction with this facility. It is considered that the wetlands and biological resources contained in the existing Lance Rosier Park, Tracts 158-49 and 158-50, and the scenic beauty of the landscaped grounds and beneficial improvements located on Tract 158-51 will make a significant contribution to the preserve. The specific lands proposed for addition are described as follows: Tract No. 158-49.

All that certain tract or parcel of land lying and situated in the County of Hardin, Texas, being 6.25 acres, more or less, out of Lot No. 1 of the partition of the West one-half (1/2) of the Epsy Hart Survey, A-777 and being more particularly described as follows:

Beginning at an iron pin, being the Southwest corner of the lands of grantor, also being on the West line of the Epsy Hart Survey, said corner being North 02°57'21" West 60.00 feet, more or less from a 1 1/2" iron pin, marking the Southwest corner of said Hart Survey, from which a Government marker bears North 86°28'40" East 2.00 feet; said Point of Beginning having Texas Central Zone Grid Coordinates of N 271523.04 and E 3829583.51;

Thence with the West line of said Hart Survey and the boundary line of Big Thicket National Preserve North
