Title: 30 CFR Part 250, Subpart J, Pipelines and Pipeline Rights-of-Way
OMB approval number: 1010-0050

Abstract: The MMS proposes to amend the regulations at 30 CFR 250.158 to include various safety-related regulations regarding the design and operating procedures of production platforms and pipelines in the Outer Continental Shelf (OCS). The proposed rule will reduce or prevent the unintentional release of hydrocarbons from pipelines on or near offshore platforms during emergency situations to reduce the potential for explosions or fires.

Title: Payor Information Form (PIF) Oil and Gas

OMB Approval Number: 1010-0033

Abstract: Data collected on PIF's are used to establish payor accounts for all mineral leases on Federal and Indian lands using accounting identification numbers assigned by the Minerals Management Service (MMS). Changes in the paying responsibilities on the lease are also reported on the PIF. The MMS is then able to maintain, reconcile, and audit lease accounts through the use of its computerized Auditing and Financial System. This information will enable MMS to determine payors responsible for paying rentals and royalties to MMS and the percentage of sales or production on which royalties are to be paid.
