SUPPLEMENTARY INFORMATION: Title: 30 CFR Part 220, Accounting Procedures for Determining Net Profit Share Payment for Outer Continental Shelf Oil and Gas Leases.

OMB Control Number: 1010-0073.

Bureau Form Number: None.

Abstract: The Department of the Interior (DOI) is responsible for the management of all mineral leasing activities on Federal and Indian lands. The Federal Oil and Gas Royalty Management Act of 1982 (30 U.S.C. 1701 *et seq.*) requires the Secretary of the Interior to establish a comprehensive fiscal accounting, auditing, and collection system to accurately determine oil and gas royalties and other payments, and to collect and account for those monies in a timely manner. The Secretary delegated the authority for royalty management to MMS to develop a net profit share bidding system to encourage exploration and development of oil and gas leases on submerged lands of the Outer Continental Shelf (OCS). Section 8(a) of the OCS Lands Act, as amended (43 U.S.C. 1331 *et seq.*), authorizes DOI to implement alternative bidding systems for the award of Federal oil and gas leases on the OCS. The net profit share lease (NPSL) system endeavors to balance the securing of a fair market return to the Federal Government for the

lease of its lands with a fair profit to companies risking their investment capital. The system provides an incentive for early and expeditious exploration and development and provides for a sharing of the risks by the lessee and the Government. The bidding system incorporates a fixed capital recovery system as the means through which the lessee recovers costs of exploration and development from production revenues, along with a reasonable return on investment.

The NPSL lessees are required to maintain an NPSL capital account and to provide either annual or monthly reports using data maintained in the capital account. In addition, NPSL lessees must file a report after each inventory of controllable material and following the cessation of production. Further, when nonoperators of an NPSL lease call for an audit, they must notify MMS, and when DOI calls for an audit, the lessee must notify all nonoperators on the lease. These requirements can be found in 30 CFR 220.010, 220.031, and 220.033.

The MMS is requesting an extension of OMB's approval to continue to collect this information. Submission of this information is required in order for MMS to determine when NPSL royalty payments are due and to determine the proper amount of payment. Proprietary information that is submitted is protected, and there are no questions of a sensitive nature included in this information collection.

Frequency: Annually before production; monthly after production.
