Minerals Management Service

Meeting of Working Panel Established by the Royalty Management Advisory Committee

July 12, 1989.

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of meeting.

SUMMARY: The Minerals Management Service (MMS) hereby gives notice that the Royalty Management Advisory Committee (RMAC) Strategic Planning Work Panel will meet in Lakewood, Colorado, at the location and on the dates identified below. This panel was established by RMAC to provide recommendations for further program improvements and other changes to Royalty Management Program (RMP) mission and performance.

LOCATION AND DATES: The RMAC Strategic Planning Work Panel will meet at the Sheraton Hotel and Conference Center, 360 Union Blvd., Lakewood, Colorado, on July 26-28, 1989. The Panel will meet again on August 14-18, 1989, and August 28-31, 1989. The Panel will meet from 9:00 a.m. to 5:00 p.m. each day. If the meeting is completed in less than the days scheduled, the Panel will adjourn. For information on the location of the last two meetings and to conform each session in the event a date is changed, contact Ms. Deborah Gibbs at the telephone number shown below.

The public is invited to attend these meetings and make oral comments. A time will be set aside by the panel chairperson during which the public will be invited to make oral comments.

FOR FURTHER INFORMATION CONTACT: Ms. Deborah Gibbs, Mineral Management Service, Royalty Management Program, Denver Federal Center, Building 85, Box 25165, Mail Stop 660, Denver, Colorado 80225, Telephone Number (303) 231-3410, FTS 326-3410.

SUPPLEMENTARY INFORMATION: In November 1986, MMS initiated a comprehensive planning process aimed

at fostering steady improvements to its royalty program through internal assessment and external input. This process included an evaluation of the overall RMP mission and performance to determine if the program was generally "on track" or if fundamental changes were needed. The assessment was comprised of the following three components:

- Program Performance Standards;
- Selected Options for Change in the Royalty Management Mission;
- RMP Business System Improvement Plan;

An aggressive effort has been made to develop a consensus among RMP's constituents for the appropriate royalty management mission and performance levels to fulfill the needs and expectations of royalty recipients to the maximum practicable extent. In late 1988 and early 1989, the three strategic planning and improvements products listed above were sent to over 170 of RMP's constituents, including Indian tribes and associations, States, industry, RMAC members, Congress, and various review/oversight groups. Constituents were requested to comment on a spectrum of the most likely and historically persistent suggestions for change to the program mission and to provide recommendations on RMP's systems improvement plans and program performance standards.

As a result a Strategic Plan for Operations and Systems is being developed for RMP with emphasis on supporting mission requirement well into the 1990's.

A status report on the findings and input received from RMP constituents was presented to RMAC on June 22, 1989. The RMAC agreed to establish a working panel to review the findings and provide recommendations for further program improvements and other changes in mission and performance.

Recently, numerous issues related to Indian royalty management have been explored through testimony and exhaustively reviewed by the Senate Select Committee on Indian Affairs. The MMS is in the process of evaluating the concerns expressed by the Senate Select Committee relative to royalty management.

The Strategic Planning Work Panel is charged with reviewing the draft Strategic Plan for Operations and Systems and making recommendations as to conclusions drawn in the plan. The Panel will also provide to the Committee proposals on the extent to which the RMP mission and performance should be changed. In addition, the Panel will review and make recommendations on

any royalty management improvements being contemplated in response to concerns recently expressed by the Senate Select Committee. The RMAC will review the Panels' recommendations at a meeting tentatively scheduled for later this summer.

Dated: July 12, 1989.

Donald T. Sant,

Acting Associate Director for Royalty Management.
