NOTICE OF OFFICE OF MANAGEMENT AND BUDGET ACTION

Date 08/26/2008

Department of Commerce

National Oceanic and Atmospheric Administration FOR CERTIFYING OFFICIAL: Suzanne Hilding FOR CLEARANCE OFFICER: Diana Hynek

In accordance with the Paperwork Reduction Act, OMB has taken action on your request received 04/15/2008

ACTION REQUESTED: Extension without change of a currently approved collection

TYPE OF REVIEW REQUESTED: Regular ICR REFERENCE NUMBER: 200804-0648-002

AGENCY ICR TRACKING NUMBER:

TITLE: Prohibited Species Donation Program

LIST OF INFORMATION COLLECTIONS: See next page

OMB ACTION: <u>Approved without change</u> OMB CONTROL NUMBER: <u>0648-0316</u>

The agency is required to display the OMB Control Number and inform respondents of its legal significance in

accordance with 5 CFR 1320.5(b).

EXPIRATION DATE: <u>08/31/2011</u> DISCONTINUE DATE:

BURDEN:	RESPONSES	HOURS	COSTS
Previous	1,980	229	0
New	3,781	535	2
Difference			
Change due to New Statute	0	0	0
Change due to Agency Discretion	0	0	0
Change due to Agency Adjustment	1,801	306	2
Change Due to Potential Violation of the PRA	0	0	0

TERMS OF CLEARANCE:

OMB Authorizing Official: Kevin F. Neyland

Deputy Administrator,

Office Of Information And Regulatory Affairs

19. Certification for Paperwork Reduction Act Submissions

On behalf of this Federal Agency, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9

NOTE: The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320.8(b)(3), appear at the end of the instructions. *The certification is to be made with reference to those regulatory provisions as set forth in the instructions.*

The following is a summary of the topics, regarding the proposed collection of information, that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It used plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention period for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
 - (i) Why the information is being collected;
 - (ii) Use of information;
 - (iii) Burden estimate;
 - (iv) Nature of response (voluntary, required for a benefit, mandatory);
 - (v) Nature and extent of confidentiality; and
 - (vi) Need to display currently valid OMB control number;
- (h) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected (see note in Item 19 of instructions);
- (i) It uses effective and efficient statistical survey methodology; and
- (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of the provisions, identify the item below and explain the reason in Item 18 of the Supporting Statement.

SUPPORTING STATEMENT PROHIBITED SPECIES DONATION PROGRAM OMB CONTROL NO.: 0648-0316

INTRODUCTION

The U.S. groundfish fisheries of the Gulf of Alaska (GOA) and the Bering Sea and Aleutian Islands management area (BSAI) in the exclusive economic zone off the coast of Alaska are managed by National Marine Fisheries Service (NMFS) under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1801 et. seq., as amended. The Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Management Area and the Fishery Management Plan for Groundfish of the Gulf of Alaska were prepared by the North Pacific Fishery Management Council and are implemented by regulations at 50 CFR part 679.26.

This action requests renewal of the Prohibited Species Donation (PSD) Program collection-of-information.

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary.

Prohibited species are defined at 50 CFR 679.2 to include all species of Pacific salmon, steelhead trout, Pacific halibut, Pacific herring, king crab and Tanner crab caught by a vessel regulated under part 679 while fishing for groundfish in the BSAI or GOA. All prohibited species catch (PSC) is to be avoided, but if caught while fishing for groundfish, prohibited species must be returned to the sea with a minimum of injury, under regulations at 50 CFR part 679.21.

Some groundfish fishing vessels are incapable of sorting their catch at sea, and deliver their entire catch to an onshore processor or a processor vessel. Sorting and discarding of prohibited species occurs at delivery. To reduce the amount of edible protein discarded in that process, NMFS implemented the PSD Program initially for salmon in 1996, and expanded it to include Pacific halibut in 1997.

The PSD Program allows PSC salmon and halibut to be processed and distributed through tax–exempt hunger relief organizations. The regulations prohibit authorized distributors and persons conducting activities supervised by authorized distributers from consuming or retaining prohibited species for personal use. They may not sell, trade or barter any prohibited species that are retained under the PSD Program.

However, processors may convert offal from salmon or halibut that has been prepared for the PSD Program into fish meal, fish oil, or bone meal, and retain the proceeds from the sale of these products.

2. Explain how, by whom, how frequently, and for what purpose the information will be used. If the information collected will be disseminated to the public or used to support information that will be disseminated to the public, then explain how the collection complies with all applicable Information Quality Guidelines.

The Regional Administrator may select one or more tax-exempt organizations to be authorized distributors under the PSD Program based on the information submitted by applicants under § 679.26(b)(1). The number of authorized distributors selected by the Regional Administrator will be based on the following criteria:

- The number and qualifications of applicants for PSD permits.
- The number of harvesters and the quantity of fish that applicants can effectively administer.
- The anticipated level of bycatch of prohibited species listed under paragraph (a) of this section.
- The potential number of vessels and processors participating in the groundfish trawl fisheries.

NMFS monitors the PSD Program through documentation that tracks retained salmon and halibut.

a. Application to become a NMFS Authorized Distributor

An organization seeking to distribute salmon and halibut under the PSD Program must submit an application to become a PSD distributor. Applicants must be tax-exempt organizations that have received a letter from the Internal Revenue Service recognizing tax exemption under 26 CFR part 1 (§§ 1.402 to 1.58). A PSD permit is valid for a 3-year period after the selection notice is published in the Federal Register.

NMFS uses the information on the PSD distributor application to determine an organization's nonprofit status. In addition the application provides information about the ability of the organization to arrange for and distribute donated salmon and halibut as a high quality food product. If the application requests to distribute more than one type of prohibited species, complete information must be supplied for each species, noting any differences in procedure.

A separate application must be submitted for each species that the applicant seeks to distribute. No application form is provided.

a. Application to be a NMFS Authorized Distributor

Proof of the applicant's tax-exempt status.

A description of the arrangements for processing, shipping, storing, and transporting donated fish and an estimate of the associated costs.

A statement describing the applicant's expertise in providing for the distribution of food product from remote Alaskan locations to hunger relief agencies, food bank networks, or food bank distributors, including arrangements for transportation, distribution costs, and product quality control.

Documentation of support from cold storage and transportation facilities.

A proposed operating budget that is adequate to ensure that fish donated under the PSD Program will be distributed to hunger relief agencies, food bank networks, or food bank distributors and that the fish will be maintained in a manner fit for human consumption.

Proof of the applicant's ability to obtain and maintain adequate funding for the distribution of fish under the PSD Program.

A copy of the applicant's articles of incorporation and bylaws showing that the purpose of the applicant includes providing food resources to hunger relief agencies, food bank networks, or food bank distributors.

Proof of the applicant's ability to take full responsibility for the documentation and disposition of fish received under the PSD Program, including sufficient liability insurance to cover public interests relating to the quality of fish distributed for human consumption.

Quality control criteria to be followed by vessels, processors, hunger relief agencies, food bank networks, and food bank distributors.

The number of vessels and processors that the applicant is capable of administering effectively.

A list of all vessels and processors, food bank networks, and food bank distributors participating in the PSD Program. For the halibut donation component of the PSD program, vessels are not active participants and do not need to be submitted on the list of program participants. The list of vessels and processors must include:

The vessel's Federal fisheries permit number or the processor's Federal processor permit number.

The name of the vessel owner or responsible operator or the name of the processor owner or plant manager.

The vessel's or processor's telephone number and fax number.

The signature of the vessel owner or responsible operator, or owner or plant manager of the processor.

A signed statement from the applicant and all persons listed, who would conduct activities pursuant to the PSD permit waiving any and all claims against the United States and its agents and employees for any liability for personal injury, death, sickness, damage to property directly or indirectly due to activities conducted under the PSD.

A list of locations where fish must be delivered by participating vessels and processors.

Only one participant has applied over the years. This participant is still the only distributor in the Program.

Application to become a NMFS Authorized Distributor, Respondent	
Number of respondents	1
Total annual responses (0.33)	1
Responses per respondent (1 every 3 yr)	
Total burden hours (13.33)	13 hr
Hours per response = 40 ; $40/3 = 13.33$	
Total personnel cost (\$25 x 13)	\$325
Total miscellaneous cost $(7/3 = 2.33)$	\$2
Mailing cost ($$5 x1=5$)	
Photocopy cost ($\$0.10 \times 1 \times 20 \text{ pages} = 2$)	

Application to become a NMFS Authorized Distributor, Federal Government	
Total annual responses	1
Total burden hours (13.2)	13 hr
Hours per response = 40	
Total personnel cost (\$25 x 13)	\$325
Total miscellaneous cost	0

b. Distributor's List of PSD Program Participants

A PSD Program distributor annually must maintain a list of all vessels and processors, food bank networks, and food bank distributors participating in the PSD Program. If the distributor modifies any information on the PSD permit application, the authorized distributor must submit a modified list of participants or a modified list of delivery locations to the Regional Administrator.

The following information must be retained for each processor and vessel on a list of vessels and processors:

Federal fisheries permit number or Federal processor permit number.

Name of the vessel owner or operator or the name of the owner or plant manager of the processor.

Vessel's or processor's telephone number and fax number.

Signature of the vessel owner or operator or the processor owner or plant manager.

Distributor's List of PSD Program Participants, Respondent	
Number of respondents	1
Total annual responses	90
Responses per respondent = 90	
Total burden hours (1 x 0.2 x 90)	18 hr
Hours per response $= 0.2$	
Total personnel cost (\$25 x 18)	\$450
Total miscellaneous cost	0

Distributor's List of PSD Program Participants, Federal Government	
Total annual responses	0
Total burden hours	0
Total miscellaneous cost	0

c. Distributor's tracking product and retention of records.

Distributors annually must keep on file and make available for inspection, receipts and cargo manifests that describe the origin, weight, and destination of all prohibited species bycatch. Receipts and cargo manifests are necessary to aid NMFS and United States Coast Guard (USCG) enforcement personnel, as well as the NMFS authorized distributor, to track salmon and halibut and to help ensure that the distribution of salmon and halibut is as intended and authorized by the PSD Program.

Distributor's Tracking of products & Retention of Records, Respondent	
Number of respondents	1
Total annual responses	90
Responses per respondent = 90	
Total burden hours (1 x 0.2 x 90 days)	18 hr
Hours per response $= 0.2$	
Total personnel cost (\$25 x 18 x 1)	\$450
Total miscellaneous cost	0

Distributor's Tracking of products & Retention of Records,	
Federal Government	
Total annual responses	0
Total burden hours	0
Total miscellaneous cost	0

d. Processor product tracking & retention of records

Processors in the PSD Program annually must keep on file and make available for inspection, receipts and cargo manifests describing the origin, weight, and destination of all prohibited species bycatch shipped from the processing facility. Receipts and cargo manifests are necessary to aid NMFS and USCG enforcement personnel, as well as the NMFS authorized distributor, to track the distribution of salmon and halibut and to help ensure that the distribution of salmon and halibut is as intended and authorized by the PSD Program.

Processor product tracking requirements, Respond	ent
Number of respondents	20
Total annual responses	1,800
Responses per respondent = 90	
Total burden hours	180 hr
Hours per response $= 0.1$	
Total personnel cost (\$25 x 180)	\$4,500
Total miscellaneous cost	0

Processor product tracking requirements, Federal Government	
Total annual responses	0
Total burden hours	0
Total miscellaneous cost	0

e. Packaging and labeling of PSD prohibited species

Prohibited species retained under the PSD Program must be packaged, and all packages must be labeled to describe the fish contained in the package with:

Date of processing,

Name of the processing facility,

Contents

Weight of the fish contained in the package, and the words

NMFS PROHIBITED SPECIES DONATION PROGRAM – NOT FOR SALE -

PERISHABLE PRODUCT – KEEP FROZEN

This description is new to the support statement but has been in the regulations since the start of the PSD Program. The addition here is a correction to an inadvertent error of previous support statements.

PSD fish package labeling, Respondent	
Number of respondents	20
Total annual responses	1,800
Responses per respondent = 90	
Total burden hours	306 hr
Hours per response = 0.17	
Total personnel cost (\$25 x 306)	\$7,650
Total miscellaneous cost	0

PSD fish package labeling, Federal Government	
Total annual responses	0
Total burden hours	0
Total miscellaneous cost	0

It is anticipated that the information collected will be disseminated to the public or used to support publicly disseminated information. As explained in the following paragraphs, the information gathered has utility. NMFS will retain control over the information and safeguard it from improper access, modification, and destruction, consistent with National Oceanic and Atmospheric Administration (NOAA) standards for confidentiality, privacy, and electronic information. See response #10 of this Supporting Statement for more information on confidentiality and privacy. The information collection is designed to yield data that meet all applicable information quality guidelines. Prior to dissemination, the information will be subjected to quality control measures and a pre-dissemination review pursuant to Section 515 of Public Law 106-554.

3. <u>Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.</u>

The application to become a PSD distributor is submitted to NMFS as a letter. The letter includes responses to the items detailed in 50 CFR part 679.26 and is not amenable to electronic submission of information, although this application could be submitted to NMFS as an attachment to an email. In addition, the changes or updates could be submitted to NMFS by email.

4. Describe efforts to identify duplication.

None of the information collected as part of this information collection duplicates other collections. This information collection is part of a specialized and technical program that is not like any other.

5. <u>If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.</u>

This collection of information does not impose a significant impact on small entities.

6. <u>Describe the consequences to the Federal program or policy activities if the collection is</u> not conducted or is conducted less frequently.

Without the specified permitting scheme described in this Supporting Statement, the PSD Program would be unable to proceed.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

No special circumstances exist.

8. Provide a copy of the PRA Federal Register notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

A *Federal Register* notice published November 14, 2007 (72 FR 64046) solicited public comment. No comments were received.

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

No payment or gift to respondents is provided under this program.

10. <u>Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.</u>

Information collected on the application for a PSD distributor is not considered confidential and will be released to the public upon request. Other information that may be collected from commercial operations may be considered confidential under section 402(b) of the Magnuson-Stevens Act (16 U.S.C. 1801 *et seq.*) and also under NOAA Administrative Order 216-100, which sets forth procedures to protect confidentiality of fishery statistics.

11. <u>Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.</u>

This information collection does not involve information of a sensitive nature.

12. Provide an estimate in hours of the burden of the collection of information.

Estimated total respondents: 21. Estimated total responses: 3,781, up from 1,981. Estimated total burden hours: 535, up from 229. Estimated total personnel costs: \$13,375, up from \$5,725.

13. Provide an estimate of the total annual cost burden to the respondents or recordkeepers resulting from the collection (excluding the value of the burden hours in #12 above).

Estimated total miscellaneous costs: \$2, down from \$7.

14. Provide estimates of annualized cost to the Federal government.

Estimated total responses: 0.33. Estimated total burden hours: 13 hr. Estimated total personnel costs: \$325.

15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14 of the OMB 83-I.

Adjustments are made to include the packaging and labeling of PSD product, described in item 2.e. This description is new to the support statement but has been in the regulations since the start of the PSD Program. The addition here is a correction to an inadvertent error of previous support statements.

16. <u>For collections whose results will be published, outline the plans for tabulation and publication.</u>

No plans exist for publishing the results of this information collection.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.

No forms are used in this collection-of-information.

18. Explain each exception to the certification statement identified in Item 19 of the OMB 83-I.

No forms are used in this collection-of-information

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

This collection does not employ statistical methods.

- (a) FINDINGS.—The Congress finds and declares the following:
- (1) The fish off the coasts of the United States, the highly migratory species of the high seas, the species which dwell on or in the Continental Shelf appertaining to the United States, and the anadromous species which spawn in United States rivers or estuaries, constitute valuable and renewable natural resources. These fishery resources contribute to the food supply, economy, and health of the Nation and provide recreational opportunities.

104-297

- (2) Certain stocks of fish have declined to the point where their survival is threatened, and other stocks of fish have been so substantially reduced in number that they could become similarly threatened as a consequence of (A) increased fishing pressure, (B) the inadequacy of fishery resource conservation and management practices and controls, or (C) direct and indirect habitat losses which have resulted in a diminished capacity to support existing fishing levels.
- (3) Commercial and recreational fishing constitutes a major source of employment and contributes significantly to the economy of the Nation. Many coastal areas are dependent upon fishing and related activities, and their economies have been badly damaged by the overfishing of fishery resources at an ever-increasing rate over the past decade. The activities of massive foreign fishing fleets in waters adjacent to such coastal areas have contributed to such damage, interfered with domestic fishing efforts, and caused destruction of the fishing gear of United States fishermen.
- (4) International fishery agreements have not been effective in preventing or terminating the overfishing of these valuable fishery resources. There is danger that irreversible effects from overfishing will take place before an effective international agreement on fishery management jurisdiction can be negotiated, signed, ratified, and implemented.
- (5) Fishery resources are finite but renewable. If placed under sound management before overfishing has caused irreversible effects, the fisheries can be conserved and maintained so as to provide optimum yields on a continuing basis.

104-297

(6) A national program for the conservation and management of the fishery resources of the United States is necessary to prevent overfishing, to rebuild overfished stocks, to insure conservation, to facilitate long-term protection of essential fish habitats, and to realize the full potential of the Nation's fishery resources.

95-354

(7) A national program for the development of fisheries which are underutilized or not utilized by the United States fishing industry, including bottom fish off Alaska, is necessary to assure that our citizens benefit from the employment, food supply, and revenue which could be generated thereby.

101-627

(8) The collection of reliable data is essential to the effective conservation, management, and scientific understanding of the fishery resources of the United States.

104-297

(9) One of the greatest long-term threats to the viability of commercial and recreational fisheries is the continuing loss of marine, estuarine, and other aquatic habitats. Habitat considerations should receive increased attention for the conservation and management of fishery resources of the United States.

104-297

(10) Pacific Insular Areas contain unique historical, cultural, legal, political, and geographical circumstances which make fisheries resources important in sustaining their economic growth.

109-479

(11) A number of the Fishery Management Councils have demonstrated significant progress in integrating ecosystem considerations in fisheries management using the existing authorities provided under this Act.

109-479

- (12) International cooperation is necessary to address illegal, unreported, and unregulated fishing and other fishing practices which may harm the sustainability of living marine resources and disadvantage the United States fishing industry.
- (b) PURPOSES.—It is therefore declared to be the purposes of the Congress in this Act—

99-659, 101-627, 102-251

- (1) to take immediate action to conserve and manage the fishery resources found off the coasts of the United States, and the anadromous species and Continental Shelf fishery resources of the United States, by exercising (A) sovereign rights for the purposes of exploring, exploiting, conserving, and managing all fish within the exclusive economic zone established by Presidential Proclamation 5030, dated March 10, 1983, and (B) exclusive fishery management authority beyond the exclusive economic zone over such anadromous species and Continental Shelf fishery resources[, and fishery resources in the special areas]*;
- (2) to support and encourage the implementation and enforcement of international fishery agreements for the conservation and management of highly migratory species, and to encourage the negotiation and implementation of additional such agreements as necessary;

104-297

- (3) to promote domestic commercial and recreational fishing under sound conservation and management principles, including the promotion of catch and release programs in recreational fishing;
- (4) to provide for the preparation and implementation, in accordance with national standards, of fishery management plans which will achieve and maintain, on a continuing basis, the optimum yield from each fishery;

101-627

(5) to establish Regional Fishery Management Councils to exercise sound judgment in the stewardship of fishery resources through

the preparation, monitoring, and revision of such plans under circumstances (A) which will enable the States, the fishing industry, consumer and environmental organizations, and other interested persons to participate in, and advise on, the establishment and administration of such plans, and (B) which take into account the social and economic needs of the States;

95-354, 96-561, 104-297

(6) to encourage the development by the United States fishing industry of fisheries which are currently underutilized or not utilized by United States fishermen, including bottom fish off Alaska, and to that end, to ensure that optimum yield determinations promote such development in a non-wasteful manner; and

104-297

- (7) to promote the protection of essential fish habitat in the review of projects conducted under Federal permits, licenses, or other authorities that affect or have the potential to affect such habitat.
- (c) POLICY.—It is further declared to be the policy of the Congress in this Act—
- (1) to maintain without change the existing territorial or other ocean jurisdiction of the United States for all purposes other than the conservation and management of fishery resources, as provided for in this Act;
- (2) to authorize no impediment to, or interference with, recognized legitimate uses of the high seas, except as necessary for the conservation and management of fishery resources, as provided for in this Act;

101-627, 104-297

- (3) to assure that the national fishery conservation and management program utilizes, and is based upon, the best scientific information available; involves, and is responsive to the needs of, interested and affected States and citizens; considers efficiency, draws upon Federal, State, and academic capabilities in carrying out research, administration, management, and enforcement; considers the effects of fishing on immature fish and encourages development of practical measures that minimize bycatch and avoid unnecessary waste of fish; and is workable and effective;
 - (4) to permit foreign fishing consistent with the provisions of this Act;

99-659, 101-627

(5) to support and encourage active United States efforts to obtain internationally acceptable agreements which provide for effective conservation and management of fishery resources, and to secure agreements to regulate fishing by vessels or persons beyond the exclusive economic zones of any nation;

101-627

(6) to foster and maintain the diversity of fisheries in the United States; and

104-297

(7) to ensure that the fishery resources adjacent to a Pacific Insular Area, including resident or migratory stocks within the exclusive economic zone adjacent to such areas, be explored, developed, conserved, and managed for the benefit of the people of such area and of the United States.

SEC. 3. DEFINITIONS 16 U.S.C. 1802

As used in this Act, unless the context otherwise requires-

(1) The term "anadromous species" means species of fish which spawn in fresh or estuarine waters of the United States and which migrate to ocean waters.

104-297

(2) The term "bycatch" means fish which are harvested in a fishery, but which are not sold or kept for personal use, and includes economic discards and regulatory discards. Such term does not include fish released alive under a recreational catch and release fishery management program.

104-297

(3) The term "charter fishing" means fishing from a vessel carrying a passenger for hire (as defined in section 2101(21a) of title 46, United States Code) who is engaged in recreational fishing.

104-297

(4) The term "commercial fishing" means fishing in which the fish harvested, either in whole or in part, are intended to enter commerce or enter commerce through sale, barter or trade.

104-297

SEC. 402. INFORMATION COLLECTION

16 U.S.C. 1881a

109-479

(a) COLLECTION PROGRAMS.—

- (1) COUNCIL REQUESTS.—If a Council determines that additional information would be beneficial for developing, implementing, or revising a fishery management plan or for determining whether a fishery is in need of management, the Council may request that the Secretary implement an information collection program for the fishery which would provide the types of information specified by the Council. The Secretary shall undertake such an information collection program if he determines that the need is justified, and shall promulgate regulations to implement the program within 60 days after such determination is made. If the Secretary determines that the need for an information collection program is not justified, the Secretary shall inform the Council of the reasons for such determination in writing. The determinations of the Secretary under this paragraph regarding a Council request shall be made within a reasonable period of time after receipt of that request.
- (2) SECRETARIAL INITIATION.—If the Secretary determines that additional information is necessary for developing, implementing, revising, or monitoring a fishery management plan, or for determining whether a fishery is in need of management, the Secretary may, by regulation, implement an information collection or observer program requiring submission of such additional information for the fishery.

109-479

(b) CONFIDENTIALITY OF INFORMATION.—

- (1) Any information submitted to the Secretary, a State fishery management agency, or a marine fisheries commission by any person in compliance with the requirements of this Act shall be confidential and shall not be disclosed except—
 - (A) to Federal employees and Council employees who are responsible for fishery management plan development, monitoring, or enforcement;
 - (B) to State or Marine Fisheries Commission employees as necessary to further the Department's mission, subject to a confidentiality agreement that prohibits public disclosure of the identity of business of any person;
 - (C) to State employees who are responsible for fishery management plan enforcement, if the States employing those employees have entered into a fishery enforcement agreement with the Secretary and the agreement is in effect;
 - (D) when required by court order;
 - (E) when such information is used by State, Council, or Marine Fisheries Commission employees to verify catch under a limited access program, but only to the extent that such use is consistent with subparagraph (B);
 - (F) when the Secretary has obtained written authorization from the person submitting such information to release such information to persons for reasons not otherwise provided for in this subsection, and such release does not violate other requirements of this Act;
 - (G) when such information is required to be submitted to the Secretary for any determination under a limited access program; or

- (H) in support of homeland and national security activities, including the Coast Guard's homeland security missions as defined in section 888(a)(2) of the Homeland Security Act of 2002 (6 U.S.C. 468(a)(2)).
- (2) Any observer information shall be confidential and shall not be disclosed, except in accordance with the requirements of subparagraphs (A) through (H) of paragraph (1), or—
 - (A) as authorized by a fishery management plan or regulations under the authority of the North Pacific Council to allow disclosure to the public of weekly summary bycatch information identified by vessel or for haul-specific bycatch information without vessel identification:
 - (B) when such information is necessary in proceedings to adjudicate observer certifications; or
 - (C) as authorized by any regulations issued under paragraph (3) allowing the collection of observer information, pursuant to a confidentiality agreement between the observers, observer employers, and the Secretary prohibiting disclosure of the information by the observers or observer employers, in order—
 - (i) to allow the sharing of observer information among observers and between observers and observer employers as necessary to train and prepare observers for deployments on specific vessels; or
 - (ii) to validate the accuracy of the observer information collected.
- (3) The Secretary shall, by regulation, prescribe such procedures as may be necessary to preserve the confidentiality of information submitted in compliance with any requirement or regulation under this Act, except that the Secretary may release or make public any such information in any aggregate or summary form which does not directly or indirectly disclose the identity or business of any person who submits such information. Nothing in this subsection shall be interpreted or construed to prevent the use for conservation and management purposes by the Secretary, or with the approval of the Secretary, the Council, of any information submitted in compliance with any requirement or regulation under this Act or the use, release, or publication of bycatch information pursuant to paragraph (2)(A).

(c) RESTRICTION ON USE OF CERTAIN INFORMATION.—

- (1) The Secretary shall promulgate regulations to restrict the use, in civil enforcement or criminal proceedings under this Act, the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.), and the Endangered Species Act (16 U.S.C. 1531 et seq.), of information collected by voluntary fishery data collectors, including sea samplers, while aboard any vessel for conservation and management purposes if the presence of such a fishery data collector aboard is not required by any of such Acts or regulations thereunder.
- (2) The Secretary may not require the submission of a Federal or State income tax return or statement as a prerequisite for issuance of a permit until such time as the Secretary has promulgated regulations to ensure the confidentiality of information contained in such return or statement, to limit the information submitted to that necessary to achieve a demonstrated conservation and management purpose, and to provide appropriate penalties for violation of such regulations.

16 U.S.C. 1881a-1881b MSA §§ 402-403

- (d) CONTRACTING AUTHORITY.—Notwithstanding any other provision of law, the Secretary may provide a grant, contract, or other financial assistance on a sole-source basis to a State, Council, or Marine Fisheries Commission for the purpose of carrying out information collection or other programs if—
 - (1) the recipient of such a grant, contract, or other financial assistance is specified by statute to be, or has customarily been, such State, Council, or Marine Fisheries Commission; or
 - (2) the Secretary has entered into a cooperative agreement with such State, Council, or Marine Fisheries Commission.

(e) RESOURCE ASSESSMENTS.—

- (1) The Secretary may use the private sector to provide vessels, equipment, and services necessary to survey the fishery resources of the United States when the arrangement will yield statistically reliable results.
 - (2) The Secretary, in consultation with the appropriate Council and the fishing industry(A) may structure competitive solicitations under paragraph (1) so as to compensate a contractor for a fishery resources survey by allowing the contractor to retain for sale fish harvested during the survey voyage;
 - (B) in the case of a survey during which the quantity or quality of fish harvested is not expected to be adequately compensatory, may structure those solicitations so as to provide that compensation by permitting the contractor to harvest on a subsequent voyage and retain for sale a portion of the allowable catch of the surveyed fishery; and
 - (C) may permit fish harvested during such survey to count toward a vessel's catch history under a fishery management plan if such survey was conducted in a manner that precluded a vessel's participation in a fishery that counted under the plan for purposes of determining catch history.
- (3) The Secretary shall undertake efforts to expand annual fishery resource assessments in all regions of the Nation.

104-297 SEC. 403. OBSERVERS

16 U.S.C. 1881b

- (a) GUIDELINES FOR CARRYING OBSERVERS.—Within one year after the date of enactment of the Sustainable Fisheries Act, the Secretary shall promulgate regulations, after notice and opportunity for public comment, for fishing vessels that carry observers. The regulations shall include guidelines for determining—
 - (1) when a vessel is not required to carry an observer on board because the facilities of such vessel for the quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized; and
 - (2) actions which vessel owners or operators may reasonably be required to take to render such facilities adequate and safe.

§ 1.1402(e)-2A

before 1968, see $\S1.1402(e)(1)-1$ through 1.1402(e)(6)-1.

[T.D. 8221, 53 FR 33461, Aug. 31, 1988]

§ 1.1402(e)-2A Ministers, members of religious orders and Christian Science practitioners; application for exemption from self-employment tax.

(a) In general. (1) Subject to the limitations set forth in subparagraphs (2) and (3) of this paragraph, any individual who is (i) a duly ordained, commissioned, or licensed minister of a church or a member of a religious order (other than a member of a religious order who has taken a vow of poverty as a member of such order) or (ii) a Christian Science practitioner may request an exemption from the tax on self-employment income (see section 1401 and §1.1401-1) with respect to services performed by him in his capacity as a minister or member, or as a Christian Science practitioner, as the case may be. Such a request shall be made by filing an application for exemption on Form 4361 in the manner provided in paragraph (b) of this section and within the time specified in §1.1402(e)-3A. For provisions relating to the taxable year or years for which an exemption from the tax on self-employment income with respect to service performed by a minister or member or a Christian Science practitioner in his capacity as such is effective, see §1.1402(e)-4A. For additional provisions applicable to services performed by individuals referred to in this subparagraph, see paragraph (e) of $\S1.1402(c)-3$ and §1.1402(c)-5 relating to ministers and members of religious orders, and paragraphs (a)(3)(ii) and (b) of $\S1.1402(c)-6$ relating to Christian Science practi-

(2) The application for exemption shall contain, or there shall be filed with such application, a statement to the effect that the individual making application for exemption is conscientiously opposed to, or because of religious principles is opposed to, the acceptance (with respect to services performed by him in his capacity as a minister, member, or Christian Science practitioner) of any public insurance which makes payments in the event of death, disability, old age, or retirement

or makes payments toward the cost of, or provides services for, medical care (including the benefits of any insurance system established by the Social Security Act). Thus, ministers, members of religious orders, and Christian Science practitioners requesting exemption from social security coverage must meet either of two alternative tests: (1) A religious principles test which refers to the institutional principles and discipline of the particular religious denomination to which he belongs, or (2) a conscientious opposition test which refers to the opposition because of religious considerations of individual ministers, members of religious orders, and Christian Science practitioners (rather than opposition based upon the general conscience of any such individual or individuals). The term "public insurance", as used in section 1402(e) and this paragraph, refers to governmental, as distinguished from private, insurance and does not include insurance carried with a commercial insurance carrier. To be eligible to file an application for exemption on Form 4361, a minister, member, or Christian Science practitioners need not be opposed to the acceptance of all public insurance making payments of this specified type; he must, however, be opposed on religious grounds to the acceptance of any such payment which, in whole or in part, is based on, or measured by earnings from, services performed by in his capacity as a minister or member (see §1.1402(c)-5) or in his capacity as a Christian Science practitioner (see paragraph (b)(2) of §1.1402(c)-6). For example, a minister performing service in the exercise of his ministry may be eligible to file an application for exemption on Form 4361 even though he is not opposed to the acceptance of benefits under the Social Security Act with respect to service performed by him which is not in the exercise of his ministry.

(3) An exemption from the tax imposed on self-employment income with respect to service performed by a minister, member, or Christian Science practitioner in his capacity as such may not be granted to a minister, member, or practitioner who (in accordance with the provisions of section

1402(e) as in effect prior to amendment by section 115(b)(2) of the Social Security Amendments of 1967 (81 Stat. 839)) filed a valid waiver certificate on Form 2031 electing to have the Federal oldage, survivors, and disability insurance system establish by title II of the Social Security Act extended to service performed by him in the exercise of his ministry or in the exercise of duties required by the order of which he is a member, or in the exercise of his profession as a Christian Science practitioner. For provisions relating to waiver certificates on Form 2031, see §§ 1.1402(e)(1)-1 through 1.1402(e)(6)-1.

(b) Application for exemption. An application for exemption on Form 4361 shall be filed in triplicate with the internal revenue officer or the internal revenue office, as the case may be, designated in the instructions relating to the application for exemption. The application for exemption must be filed within the time prescribed §1.1402(e)-3A. If the last original Federal income tax return of an individual to whom paragraph (a) of this section applies which was filed before the expiration of such time limitation for filing an application for exemption shows no liability for tax on self-employment income, such return will be treated as an application for exemption, provided that before February 28, 1975 such individual also files a properly executed Form 4361.

(c) Approval of application for exemption. The filing of an application for exemption on Form 4361 by a minister, a member of a religious order, or a Christian Science practitioner does not constitute an exemption from the tax on self-employment income with respect to services performed by him in his capacity as a minister, member, or practitioner. The exemption is granted only if the application is approved by an appropriate internal revenue officer. See §1.1402(e)-4A relating to the period for which an exemption is effective.

[T.D. 7333, 39 FR 44448, Dec. 24, 1974; 39 FR 45216, Dec. 31, 1974]

§ 1.1402(e)-3A Time limitation for filing application for exemption.

(a) General rule. (1) Any individual referred to in paragraph (a) of $\S1.1402(e)-2A$ who desires an exemption from the

tax on self-employment income with respect to service performed by him in his capacity as a minister or member of a religious order or as a Christian Science practitioner must file the application for exemption (Form 4361) prescribed by §1.1402(e)-2A on or before whichever of the following dates is later:

(i) The due date of the income tax return (see section 6072), including any extension thereof (see section 6081), for his second taxable year ending after 1967, or

(ii) The due date of the income tax return, including any extension thereof, for his second taxable year beginning after 1953 for which he has net earnings from self-employment of \$400 or more, any part of which:

(a) In the case of a duly ordained, commissioned, or licensed minister of a church, consists of remuneration for service performed in the exercise of his ministry,

(b) In the case of a member of a religious order who has not taken a vow of poverty as a member of such order, consists of remuneration for service performed in the exercise of duties required by such order, or

(c) In the case of a Christian Science practitioner, consists of remuneration for service performed in the exercise of his profession as a Christian Science practitioner.

See paragraph (c) of this section for provisions relating to the computation of net earnings from self-employment.

(2) If a minister, a member of a religious order, or a Christian Science practitioner derives gross income in a taxable year both from service performed in such capacity and from the conduct of another trade or business, and the deductions allowed by Chapter 1 of the Internal Revenue Code which are attributable to the gross income derived from service performed in such capacity equal or exceed the gross income derived from service performed in such capacity, no part of the net earnings from self-employment (computed as prescribed in paragraph (c) of this section) for the taxable year shall be considered as derived from service performed in such capacity.

(3) The application of the rules set forth in subparagraphs (1) and (2) of

Internal Revenue Service, Treasury

the first year for which the organization is treated as described in section 501(c)(3). For 1977, Y need not determine whether it has normally made lobbying expenditures or grass roots expenditures in excess of the corresponding ceiling amount for purposes of determining whether it is denied exemption under section 501(h) for its taxable year 1978.

(7) For determination year 1978, Y must determine whether it has normally made lobbying or grass roots expenditures in excess of the corresponding ceiling amount, taking into account expenditures for the base years 1977 and 1978. For Y. the determination under paragraph (b)(2) of this section considers the same base years as the determination under paragraph (b)(1) of this section and is, therefore, redundant. Accordingly, Y proceeds to determine, under (b)(1), whether it is denied exemption. Y's grass roots expenditures for 1977 and 1978 (\$65,000) did not exceed 150 percent of the sum of its grass roots nontaxable amounts for those years (\$103,125). Y's lobbying expenditures for 1977 and 1978 (\$406,750) did not exceed 150% of its lobbying non-taxable amount for those years (150%×\$275,000=\$412,500). Therefore, Y is not denied tax exemption under section 501(h) for its taxable year 1979.

(8) For determination year 1979, the sum of Y's grass roots expenditures in base years 1977, 1978, and 1979 does not exceed 150 percent of its grass roots nontaxable amount (calculation omitted). However, the sum of Y's lobbying expenditures for the base years (\$670,750) does exceed 150% of the sum of the lobbying nontaxable amounts for those years (150%×\$435,000=\$652,500). Since Y was not described in section 501(c)(3) prior to 1977, only the years 1977, 1978, and 1979 may be considered in determining whether Y has normally made lobbying expenditures in excess of its lobbying ceiling. Therefore, Y determines that it has normally made lobbying expenditures in excess of its lobbying ceiling. Under section 501(h), Y is denied tax exemption under section 501(a) as an organization described in section 501(c)(3) for its taxable year 1980. For its taxable year 1981, and any taxable year thereafter, Y is exempt from tax as an organization described in section 501(c)(3) only if Y applies for recognition of its exempt status under paragraph (d) of this section and is recognized as exempt from

Example 4. Organization M made the expenditure test election under section 501(h) effective for taxable years beginning with 1977 and has not revoked the election. M has \$500,000 of exempt purpose expenditures during each of the years 1981 through 1984. In addition, during each of those years, M spends \$75,000 for direct lobbying and \$25,000 for grass roots lobbying. Since the amount expended for M's lobbying (both total lobbying and grass roots lobbying) is within the respective nontaxable expenditure limitations,

M is not liable for the 25 percent excise tax imposed under section 4911(a) upon excess lobbying expenditures, nor is M denied tax-exempt status by reason of section 501 (h).

Example 5. Assume the same facts as in Example 4, except that, on behalf of M, numerous unpaid volunteers conduct substantial lobbying activities with no reimbursement. Since the substantial lobbying activities of the unpaid volunteers are not counted towards the expenditure limitations and the amount expended for M's lobbying is within the respective nontaxable expenditure limitations, M is not liable for the 25 percent excise tax under section 4911, nor is M denied tax-exempt status by reason of section 501(h).

[T.D. 8308, 55 FR 35589, Aug. 31, 1990]

§ 1.501(k)-1 Communist-controlled organizations.

Under section 11(b) of the Internal Security Act of 1950 (50 U.S.C. 790(b)), as amended, which is made applicable to the Code by section 7852(b) of that Code, no organization is entitled to exemption under sections 501(a) or 521(a) for any taxable year if at any time during such year such organization is registered under section 7 of such Act or if there is in effect a final order of the Subversive Activities Control Board established by section 12 of such Act requiring such organization to register under section 7 of such Act, or determining that it is a Communist-infiltrated organization.

[T.D. 6500, 25 FR 11737, Nov. 26, 1960; redesignated by T.D. 8100, 51 FR 31615, Sept. 4, 1986]

§ 1.502-1 Feeder organizations.

(a) In the case of an organization operated for the primary purpose of carrying on a trade or business for profit, exemption is not allowed under section 501 on the ground that all the profits of such organization are payable to one or more organizations exempt from taxation under section 501. In determining the primary purpose of an organization, all the circumstances must be considered, including the size and extent of the trade or business and the size and extent of those activities of such organization which are specified in the applicable paragraph of section 501

(b) If a subsidiary organization of a tax-exempt organization would itself

§ 1.503(a)-1

be exempt on the ground that its activities are an integral part of the exempt activities of the parent organization, its exemption will not be lost because, as a matter of accounting between the two organizations, the subsidiary derives a profit from its dealings with its parent organization, for example, a subsidiary organization which is operated for the sole purpose of furnishing electric power used by its parent organization, a tax-exempt educational organization, in carrying on its educational activities. However, the subsidiary organization is not exempt from tax if it is operated for the primary purpose of carrying on a trade or business which would be an unrelated trade or business (that is, unrelated to exempt activities) if regularly carried on by the parent organization. For example, if a subsidiary organization is operated primarily for the purpose of furnishing electric power to consumers other than its parent organization (and the parent's tax-exempt subsidiary organizations), it is not exempt since such business would be an unrelated trade or business if regularly carried on by the parent organization. Similarly, if the organization is owned by several unrelated exempt organizations, and is operated for the purpose of furnishing electric power to each of them, it is not exempt since such business would be an unrelated trade or business if regularly carried on by any one of the tax-exempt organizations. For purposes of this paragraph, organizations are related only if they consist

- (1) A parent organization and one or more of its subsidiary organizations; or
- (2) Subsidiary organizations having a common parent organization.

An exempt organization is not related to another exempt organization merely because they both engage in the same type of exempt activities.

- (c) In certain cases an organization which carries on a trade or business for profit but is not operated for the primary purpose of carrying on such trade or business is subject to the tax imposed under section 511 on its unrelated business taxable income.
- (d) Exception—(1) Taxable years beginning before January 1, 1970. For purposes of section 502 and this section, for tax-

able years beginning before January 1, 1970, the term *trade or business* does not include the rental by an organization of its real property (including personal property leased with the real property).

- (2) Taxable years beginning after December 31, 1969. For purposes of section 502 and this section, for taxable years beginning after December 31, 1969, the term trade or business does not include:
- (i) The deriving of rents described in section 512(b)(3)(A),
- (ii) Any trade or business in which substantially all the work in carrying on such trade or business is performed for the organization without compensation, or
- (iii) Any trade or business (such as a *thrift shop*) which consists of the selling of merchandise, substantially all of which has been received by the organization as gifts or contributions.

For purposes of the exception described in subdivision (i) of this subparagraph, if the rents derived by an organization would not be excluded from unrelated business income pursuant to section 512(b)(3) and the regulations thereunder, the deriving of such rents shall be considered a *trade or business*.

- (3) Cross references and special rules. (i) For determination of when rents are excluded from the tax on unrelated business income see section 512(b)(3) and the regulations thereunder.
- (ii) The rules contained in §1.513–1(e)(1) shall apply in determining whether a trade or business is described in section 502(b)(2) and subparagraph (2)(ii) of this paragraph.
- (iii) The rules contained in §1.513–1(e)(3) shall apply in determining whether a trade or business is described in section 502(b)(3) and subparagraph (2)(iii) of this paragraph.

[T.D. 6500, 25 FR 11737, No. 26, 1960, as amended by T.D. 6662, 28 FR 6973, July 29, 1963; T.D. 7033, 35 FR 19997, Dec. 31, 1970]

§ 1.503(a)-1 Denial of exemption to certain organizations engaged in prohibited transactions.

- (a)(1) Prior to January 1, 1970, section 503 applies to those organizations described in sections 501(c)(3), 501(c)(17), and section 401(a) except:(i) A religious organization (other than a trust);
- (ii) An educational organization which normally maintains a regular

50

§ 1.58-1

net operating loss carryover a portion of which is so attributable. Such records shall include all the facts necessary to determine with reasonable accuracy the amount of deferred tax liability under section 56, including the amount of the net operating loss in each taxable year in which there are items of tax preference in excess of the minimum tax exemption (as determined under §1.58-1), the amount of the items of tax preference for each such taxable year, the amount by which each such net operating loss reduces taxable income in any taxable year, and the amount by which each such net operating loss is reduced in any taxable vear.

[T.D. 7564, 43 FR 40479, Sept. 12, 1978, as amended by T.D. 8138, 52 FR 15309, Apr. 28, 1987]

§ 1.58-1 Minimum tax exemption.

- (a) In general. For purposes of the minimum tax for tax preferences (subtitle A, chapter 1A, part VI), the minimum tax exemption is \$30,000 except as otherwise provided in this section.
- (b) Husband and wife. In the case of a married individual filing a separate return, section 58(a) provides that the minimum tax exemption is \$15,000. This rule applies without regard to whether the married individual is living together with or apart from his spouse and without regard to whether or not his spouse has any items of tax preference.
- (c) Members of controlled groups—(1) Amount of exemption—(i) General rule. Under section 58(b), if a corporation is a component member of a controlled group of corporations on December 31 (as defined in section 1563 (a) and (b) and the regulations thereunder), the minimum tax exemption for such taxable year which includes such December 31 is an amount equal to—
- (a) \$30,000 divided by the number of corporations which are component members of such group on December 31, or
- (b) If an apportionment plan is adopted under subparagraph (3) of this paragraph, such portion of the \$30,000 as is apportioned to such member in accordance with such plan.
- (ii) Consolidated returns. The minimum tax exemption of a controlled

group all of whose component members join in the filing of a consolidated return is \$30,000. If there are component members of the controlled group which do not join in the filing of a consolidated return, and there is no apportionment plan effective under subparagraph (3) of this paragraph apportioning the \$30,000 among the component members filing the consolidated return and the other component members of the controlled group, each component member of the controlled group (including each component member which joins in filing the consolidated return) is treated as a separate corporation for purposes of equally apportioning the \$30,000 amount under subdivision (i)(a) of this subparagraph. In such case, the minimum tax exemption of the corporations filing the consolidated return is the sum of the amounts apportioned to each component member which joins in the filing of the consolidated return.

(2) Certain short taxable years. If the return of a corporation is for a short period which does not include a December 31, and such corporation is a component member of a controlled group of corporations with respect to such short period, the minimum tax exemption of such corporation for such short period is an amount equal to \$30,000 divided by the number of corporations which are component members of such group on the last day of such short period. The minimum tax exemption so determined is also subject to the rules of section 443(d) (relating to reduction in the amount of the exemption for short periods) and the regulations thereunder. For purposes of this subparagraph, the term "short period" does not include any period if the income for such period is required to be included in a consolidated return under §1.1502-76(b). The determination of whether a corporation is a component member of a controlled group of corporations on the last day of a short period is made by applying the definition of "component member" contained in section 1563(b) and §1.1563-1 as if the last day of such short period were a December 31.

(3) Apportionment of minimum tax exemption—(i) Apportionment plan— (a) In general. In the case of corporations which are component members of a

controlled group of corporations on a December 31, a single minimum tax exemption may be apportioned among such members if all such members consent, in the manner provided in subdivision (ii) of this subparagraph, to an apportionment plan with respect to such December 31. Such plan must provide for the apportionment of a fixed dollar amount to one or more of such members, but in no event may the sum of the amount so apportioned exceed \$30,000. An apportionment plan is not considered as adopted with respect to a particular December 31 until each component member which is required to consent to the plan under subdivision (ii)(a) of this subparagraph files the original of a statement described in such subdivision (or, the original of a statement incorporating its consent is filed on its behalf). In the case of a return filed before a plan is adopted, the minimum tax exemption for purposes of such return is to be equally apportioned in accordance with subparagraph (1) of this paragraph. If a valid apportionment plan is adopted after the return is filed and within the time prescribed in (b) of this subdivision (i), such return must be amended (or a claim for refund should be made) to reflect the change from equal apportion-

(b) Time for adopting plan. A controlled group may adopt an apportionment plan with respect to a particular December 31 only if, at the time such plan is sought to be adopted, there is at least 1 year remaining in the statutory period (including any extensions thereof) for the assessment of the deficiency against any corporation the tax liability of which would be increased by the adoption of such plan. If there is less than 1 year remaining with respect to any such corporation, the district director or the director of the service center with whom such corporation files its income tax return will ordinarily, upon request, enter into an agreement to extend such statutory period for the limited purpose of assessing any deficiency against such corporation attributable to the adoption of such apportionment plan.

(c) Years for which effective. (1) The amount apportioned to a component member of a controlled group of cor-

porations in an apportionment plan adopted with respect to a particular December 31 constitutes such member's minimum tax exemption for its taxable year including the particular December 31, and for all taxable years including succeeding December 31's, unless the apportionment plan is amended in accordance with subdivision (iii) of this subparagraph or is terminated under paragraph (c)(2) of this subdivision (i). Thus, the apportionment plan (including any amendments thereof) has a continuing effect and need not be renewed annually.

(2) If an apportionment plan is adopted with respect to a particular December 31, such plan terminates with respect to a succeeding December 31, if: the controlled group goes out of existence with respect to such succeeding December 31 within the meaning of paragraph (b) of §1.1562-5, any corporation which was a component member of such group on the particular December 31 is not a component member of such group on such succeeding December 31, or any corporation which was not a component member of such group on the particular December 31 is a component member of such group on such succeeding December 31. An apportionment plan, once terminated with respect to a December 31, is no longer effective. Accordingly, unless a new apportionment plan is adopted, the minimum tax exemption of the component members of the controlled group for their taxable years which include such December 31 and all December 31's thereafter will be determined under subparagraph (1) of this paragraph.

(3) If an apportionment plan is terminated with respect to a particular December 31 by reason of the addition or withdrawal of a component member, each corporation which is a component member of the controlled group on such particular December 31 must, on or before the date it files its income tax return for the taxable year which includes such particular December 31, notify the district director or the director of the service center with whom it files such return to such termination. If an apportionment plan is terminated with respect to a particular December 31 by reason of the controlled group going out of existence,

§ 1.58-1

each corporation which was a component member of the controlled group on the preceding December 31 must, on or before the date it files its income tax return for the taxable year which includes such particular December 31, notify the district director or the director of the service center with whom it files such return to such termination.

(ii) Consents to plan—(a) General rule. (1) The consent of a component member (other than a wholly-owned subsidiary) to an apportionment plan with respect to a particular December 31 is to be made by means of a statement, signed by any person who is duly authorized to act on behalf of the consenting member, stating that such member consents to the apportionment plan with respect to such December 31. The statement must set forth the name, address, taxpayer identification number, and taxable year of the consenting component member, amount apportioned to such member under the plan, and the internal revenue district or service center where the original of the statement is to be filed. The consent of more than one component member may be incorporated in a single statement. The original of a statement of consent is to be filed with the district director or the director of the service center with whom the component member of the group on such December 31 which has the taxable year ending first on or after such date filed its return for such taxable year. If two or more component members have the same such taxable year, a statement of consent may be filed with the district director or the director of the service center with whom the return for any such taxable year is filed. The original of a statement of consent is to have attached thereto information (referred to in this subdivision as "group identification") setting forth the name, address, taxpayer identification number, and taxable year of each component member of the controlled group on such December 31 (including wholly-owned subsidiaries) and the amount apportioned to each such member under the plan. If more than one original statement is filed, a statement may incorporate the group identification by reference to the

name, address, taxpayer identification number, and taxable year of the component member of the group which has attached such group identification to the original of its statement.

(2) Each component member of the group on such December 31 (other than wholly-owned subsidiaries) must attach a copy of its consent (or a copy of the statement incorporating its consent) to the income tax return, amended return, or claim for refund filed with its district director or director of the service center for the taxable year including such date. Such copy must either have attached thereto information on group identification or must incorporate such information by reference to the name, address, taxpayer identification number, and taxable year of the component member of the group which has attached such information to its income tax return, amended return, or claim for refund filed with the same district director or director of the service center for the taxable year including such date.

(b) Wholly-owned subsidiaries. (1) Each component member of a controlled group which is a wholly-owned subsidiary of such group with respect to a December 31 is deemed to consent to an apportionment plan with respect to such December 31, provided each component member of the group which is not a wholly-owned subsidiary consents to the plan. For purposes of this paragraph, a component member of a controlled group is considered to be a wholly-owned subsidiary of the group with respect to a December 31, if, on each day preceding such date and during its taxable year which includes such date, all of its stock is owned directly by one or more corporations which are component members of the group on such December 31.

(2) Each wholly-owned subsidiary of a controlled group with respect to a December 31 must attach a statement containing the information which is required to be set forth in a statement of consent to an apportionment plan with respect to such December 31 to the income tax return, amended return, or claim for refund filed with its district director or director of the service center for the taxable year which includes such date. Such statement must either

have attached thereto information on group identification or incorporate such information by reference to the name, address, taxpayer identification number, and taxable year of a component member of the group which has attached such information to its income tax return, amended return, or claim for refund filed with the same district director or director of the service center for the taxable year including such date.

(iii) Amendment of plan. An apportionment plan adopted with respect to a December 31 by a controlled group of corporations may be amended with respect to such December 31 or with respect to any succeeding December 31 for which the plan is effective under subdivision (i)(\hat{c}) of this subparagraph. An apportionment plan must amended with respect to a particular December 31 and the amendments to the plan are effective only if adopted in accordance with the rules prescribed in this paragraph for the adoption of an original plan with respect to such December 31.

(iv) Component members filing consolidated return. If the component members of a controlled group of corporations on a December 31 include corporations which join the filing of a consolidated return, the corporations filing the consolidated return are treated as a single component member for purposes of this subparagraph. Thus, for example, only one consent executed by the common parent to an apportionment plan filed pursuant to this section is required on behalf of the component members filing the consolidated return.

(d) Estates and trusts. Section 58(c)(2) provides that, in the case of an estate or trust, the minimum tax exemption applicable to such estate or trust is an amount which bears the same ratio to \$30,000 as the portion of the sum of the items of tax preference apportioned to the estate or trust bears to the full sum before apportionment. For example, if one-third of the sum of the items of tax preference of a trust are subject to tax at the trust level after apportionment under section 58(c)(1) and $\S 1.58-3$, the trust's minimum tax exemption is \$10,000. See §1.58-3 for rules with respect to the apportionment of items of tax preference of an estate or trust.

(e) Short taxable year. See section 443(d) and §1.443-1(d) with respect to reduction in the amount of the minimum tax exemption in the case of a short taxable year.

[T.D. 7564, 43 FR 40479, Sept. 12, 1978]

§ 1.58-2 General rules for conduit entities; partnerships and partners.

(a) General rules for conduit entities. Sections 1.58-3 through 1.58-6 provide rules under which items of tax preference of an estate, trust, electing small business corporation, common trust fund, regulated investment company, or real estate investment trust (referred to in this paragraph as the "conduit entity") are treated as items of tax preference of the beneficiaries, shareholders, participants, etc. (referred to in this paragraph as the "distributees"). Where an item of tax preference of a conduit entity is so apportioned to a distributee, the item of tax preference retains its character in the hands of the distributee and is adjusted to reflect:

(1) The separate items of income and deduction of the distributee and (2) the tax status of the distributee as an individual, corporation, etc. For example, if a trust has \$100,000 of capital gains for the taxable year, all of which are distributed to Å, an individual, the item of tax preference apportioned to A under section 57(a)(9) (and §1.57-1(i)(1)) is \$50,000. If, however, A had a net capital loss for the taxable year of \$60,000 without regard to the distribution from the trust, the trust tax preference would be adjusted in the hands of A to reflect the separate items of income and deduction passed through to the distributee, or, in this case, to reflect the net section 1201 gain to A of \$40,000. Thus, A's capital gains items of tax preference would be \$20,000. By application of this rule, A, in effect, treats capital gains distributed to him from the trust the same as his other capital gains in computing his capital gains item of tax preference. If A had been a corporation, the trust tax preference would be adjusted both to reflect the capital loss and to reflect A's tax status by recomputing the capital gains

§ 679.2

the inshore component under section 206(b)(1) of the AFA.

[61 FR 31230, June 19, 1996]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting §679.1, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

§ 679.2 Definitions.

In addition to the definitions in the Magnuson-Stevens Act and in part 600 of this chapter, the terms used in this part have the following meanings:

Active/inactive periods (see $\S679.5(a)(7)(i)$).

Adequate evidence, for purposes of subpart E of this part, means information sufficient to support the reasonable belief that a particular act or omission has occurred.

ADF&G means the State of Alaska Department of Fish and Game.

ADF&G fish ticket number means a nine-digit number designated by one alphabet letter (i.e., G = groundfish), two numbers that identify the year (i.e., 98), followed by six numbers.

ADF&G processor code means State of Alaska Department of Fish & Game (ADF&G) Intent to operate processor license number (example: F12345).

AFA catcher/processor means a catcher/processor permitted to harvest BS pollock under § 679.4(1)(2).

AFA catcher vessel means a catcher vessel permitted to harvest BS pollock under §679.4(1)(3).

AFA crab processing facility means a processing plant, catcher/processor, mothership, floating processor or any other operation that processes any FMP species of BSAI crab, and that is affiliated with an AFA entity that processes pollock harvested by a catcher vessel cooperative operating in the inshore or mothership sectors of the BS pollock fishery.

AFA entity means a group of affiliated individuals, corporations, or other business concerns that harvest or process pollock in the BS directed pollock fishery.

AFA inshore processor means a shoreside processor or stationary floating processor permitted to process BS pollock under § 679.4(1)(5). AFA mothership means a mothership permitted to process BS pollock under § 679.4(1)(5).

Affiliates, for purposes of subpart E of this part, means business concerns, organizations, or individuals are affiliates of each other if, directly or indirectly, either one controls or has the power to control the other, or a third party controls or has the power to control both. Indicators of control include. but are not limited to, interlocking management or ownership, identity of interests among family members, shared facilities and equipment, common use of employees, or a business entity organized following the decertification, suspension, or proposed decertification of an observer provider that has the same or similar management. ownership, or principal employees as the observer provider that was decertified, suspended, or proposed for decertification.

Affiliation for the purpose of defining AFA entities means a relationship between two or more individuals, corporations, or other business concerns in which one concern directly or indirectly owns a 10-percent or greater interest in another, exerts control over another, or has the power to exert control over another; or a third individual, corporation, or other business concern directly or indirectly owns a 10 percent or greater interest in both, exerts control over both, or has the power to exert control over both.

- (1) What is 10-percent or greater ownership? For the purpose of determining affiliation, 10-percent or greater ownership is deemed to exist if an individual, corporation, or other business concern directly or indirectly owns 10 percent or greater interest in a second corporation or other business concern.
- (2) What is an indirect interest? An indirect interest is one that passes through one or more intermediate entities. An entity's percentage of indirect interest in a second entity is equal to the entity's percentage of direct interest in an intermediate entity multiplied by the intermediate entity's direct or indirect interest in the second entity.
- (3) What is control? For the purpose of determining affiliation, control is

deemed to exist if an individual, corporation, or other business concern has any of the following relationships or forms of control over another individual, corporation, or other business concern:

- (i) Controls 10 percent or more of the voting stock of another corporation or business concern:
- (ii) Has the authority to direct the business of the entity which owns the fishing vessel or processor. The authority to "direct the business of the entity" does not include the right to simply participate in the direction of the business activities of an entity which owns a fishing vessel or processor;
- (iii) Has the authority in the ordinary course of business to limit the actions of or to replace the chief executive officer, a majority of the board of directors, any general partner or any person serving in a management capacity of an entity that holds 10 percent or greater interest in a fishing vessel or processor. Standard rights of minority shareholders to restrict the actions of the entity are not included in this definition of control provided they are unrelated to day-to-day business activities. These rights include provisions to require the consent of the minority shareholder to sell all or substantially all the assets, to enter into a different business, to contract with the major investors or their affiliates or to guarantee the obligations of majority investors or their affiliates;
- (iv) Has the authority to direct the transfer, operation or manning of a fishing vessel or processor. The authority to "direct the transfer, operation, or manning" of a vessel or processor does not include the right to simply participate in such activities;
- (v) Has the authority to control the management of or to be a controlling factor in the entity that holds 10 percent or greater interest in a fishing vessel or processor;
- (vi) Absorbs all the costs and normal business risks associated with ownership and operation of a fishing vessel or processor;
- (vii) Has the responsibility to procure insurance on the fishing vessel or processor, or assumes any liability in excess of insurance coverage;

- (viii) Has the authority to control a fishery cooperative through 10-percent or greater ownership or control over a majority of the vessels in the cooperative. has the authority to appoint, remove, or limit the actions of or replace the chief executive officer of the cooperative, or has the authority to appoint, remove, or limit the actions of a majority of the board of directors of the cooperative. In such instance, all members of the cooperative are considered affiliates of the individual, corporation, or other business concern that exerts control over the cooperative: and
- (ix) Has the ability through any other means whatsoever to control the entity that holds 10 percent or greater interest in a fishing vessel or processor.
- Agent (1) For purposes of permits issued under §679.4, means a person appointed and residing within the United States who may apply for permits and may otherwise act on behalf of the owner, operator, or manager of a catcher vessel, catcher/processor, mothership, shoreside processor, stationary floating processor, buying station, support vessel, or on behalf of the IFQ permit holders, IFQ registered buyers, or CDQ halibut permit holders.
- (2) For purposes of groundfish product distribution under \$679.5(g), means a buyer, distributor, or shipper but not a buying station, who may receive and distribute groundfish on behalf of the owner, operator, and manager of a catcher/processor, mothership, shoreside processor, or stationary floating processor.
- (3) For purposes of IFQ recordkeeping and reporting under \$679.5(l)\$, means a person who on behalf of the Registered Buyer may submit IFQ reports.
- AI directed pollock fishery means directed fishing for pollock in the AI under the allocation to the Aleut Corporation authorized at §679.20(a)(5)(iii).

Alaska local time (A.l.t.) means the time in the Alaska time zone.

Alaska Seamount Habitat Protection Areas means management areas established for the protection of seamount habitat areas of particular concern in the BSAI and GOA. See Table 22 to this part.

§ 679.2

Alaska State waters means waters adjacent to the State of Alaska and shoreward of the EEZ off Alaska.

Aleut Corporation means the Aleut Corporation incorporated pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.).

Aleut Corporation entity means a harvester or processor selected by the Aleut Corporation and approved by NMFS to harvest or process pollock in the AI directed pollock fishery.

Aleutian Islands Subarea (AI) of the BSAI means that portion of the EEZ contained in Statistical Areas 541, 542, and 543 (see Figure 1 to this part).

Aleutian Islands Coral Habitat Protection Areas means management areas established for the protection of certain coral garden areas in the Aleutian Islands subarea. See Table 23 to this part.

Aleutian Islands Habitat Conservation Area means a management area established for the protection of fish habitat in the Aleutian Islands subarea. See Table 24 to this part.

American Fisheries Act (AFA) means Title II—Fisheries Subtitles I and II, as cited within the Omnibus Appropriations Bill FY99 (Pub. L. 105–277).

Ancillary product (see Table 1 to this part).

Appointed agent for service of process means an agent appointed by the members of a fishery cooperative to serve on behalf of the cooperative. The appointed agent for service of process may be the owner of a vessel listed as a member of the cooperative or a registered agent.

Area endorsement means (for purposes of groundfish LLP) a designation on a license that authorizes a license holder to deploy a vessel to conduct directed fishing for license limitation groundfish in the designated area, subarea, or district. Area endorsements, which are inclusive of, but not necessarily the same as, management areas, subareas, or districts defined in this part, are as follows:

- (1) Aleutian Islands area endorsement. Authorizes the license holder to deploy a vessel to conduct directed fishing for license limitation groundfish in the Aleutian Islands Subarea;
- (2) Bering Sea area endorsement. Authorizes the license holder to deploy a

vessel to conduct directed fishing for license limitation groundfish in the Bering Sea Subarea;

- (3) Central Gulf area endorsement. Authorizes the license holder to deploy a vessel to conduct directed fishing for license limitation groundfish in the Central GOA regulatory area and the West Yakutat District;
- (4) Southeast Outside area endorsement. Authorizes the license holder to deploy a vessel to conduct directed fishing for license limitation groundfish in the Southeast Outside District; and
- (5) Western Gulf area endorsement. Authorizes the license holder to deploy a vessel to conduct directed fishing for license limitation groundfish in the Western GOA regulatory area.

Area/species endorsement means (for purposes of LLP) a designation on a license that authorizes a license holder to deploy a vessel to conduct directed fishing for the designated crab species in Federal waters in the designated area (see Figures 16 and 17 to this part). Area/species endorsements for crab species licenses are as follows:

- (1) Aleutian Islands brown king in waters with an eastern boundary the longitude of Scotch Cap Light (164°44′ W. long.), a western boundary of the U.S.-Russian Convention Line of 1867, and a northern boundary of a line from the latitude of Cape Sarichef (54°36′ N. lat.) westward to 171° W. long., then north to 55°30′ N. lat., then west to the U.S.-Russian Convention line of 1867.
- (2) Aleutian Islands red king in waters with an eastern boundary the longitude of Scotch Cap Light (164°44′ W. long.), a western boundary of the U.S.-Russian Convention Line of 1867, and a northern boundary of a line from the latitude of Cape Sarichef (54°36′ N. lat.) westward to 171° W. long., then north to 55°30′ N. lat., and then west to the U.S.-Russian Convention line of 1867.
- (3) Bristol Bay red king in waters with a northern boundary of 58°39′ N. lat., a southern boundary of 54°36′ N. lat., and a western boundary of 168° W. long. and including all waters of Bristol Bay.
- (4) Bering Sea and Aleutian Islands Area *C. opilio* and *C. bairdi* in Pacific Ocean and Bering Sea waters east of the U.S.-Russian Convention Line of

1867, excluding all Pacific Ocean waters east of a boundary line extending south (180°) from Scotch Cap Light.

- (5) Norton Sound red king and Norton Sound blue king in waters with a western boundary of 168° W. long., a southern boundary of 61°49′ N. lat., and a northern boundary of 65°36′ N. lat.
- (6) Pribilof red king and Pribilof blue king in waters with a northern boundary of 58°39′ N. lat., an eastern boundary of 168° W. long., a southern boundary line from 54°36′ N. lat., 168° W. long., to 54°36′ N. lat., 171° W. long., to 55°30′ N. lat., 171° W. long., to 55°30′ N. lat., 173°30′ E. lat., and then westward to the U.S.-Russian Convention line of 1867
- (7) St. Matthew blue king in waters with a northern boundary of 61°49′ N. lat., a southern boundary of 58°39′ N. lat., and a western boundary of the U.S.-Russian Convention line of 1867.

Associated processor means, a federally permitted mothership, shoreside processor, or stationary floating processor that has a contractual relationship with a buying station to conduct groundfish buying station activities for that processor.

Authorized distributor means a tax-exempt organization authorized by NMFS to coordinate the processing, storage, transportation, and distribution of salmon taken as incidental catch in the groundfish trawl fisheries to tax-exempt hunger relief agencies, food bank networks, and food bank distributors

Authorized fishing gear (see also §679.24 for gear limitations and Table 15 to this part for gear codes) means trawl gear, fixed gear, longline gear, pot gear, and nontrawl gear as follows:

- (1) Bottom contact gear means non-pelagic trawl, dredge, dinglebar, pot, or hook-and-line gear.
- (2) Dinglebar gear means one or more lines retrieved and set with a troll gurdy or hand troll gurdy, with a terminally attached weight from which one or more leaders with one or more lures or baited hooks are pulled through the water while a vessel is making way.
- (3) *Dredge* means a dredge-like device designed specifically for and capable of taking scallops by being towed along the ocean floor.

- (4) Fixed gear means:
- (i) For sablefish harvested from any GOA reporting area, all longline gear and, for purposes of determining initial IFQ allocation, all pot gear used to make a legal landing.
- (ii) For sablefish harvested from any BSAI reporting area, all hook-and-line gear and all pot gear.
- (iii) For halibut harvested from any IFQ regulatory area, all fishing gear comprised of lines with hooks attached, including one or more stationary, buoyed, and anchored lines with hooks attached.
- (5) Hand troll gear means one or more lines, with lures or hooks attached, drawn through the water behind a moving vessel, and retrieved by hand or hand-cranked reels or gurdies and not by any electrically, hydraulically, or mechanically powered device or attachment.
- (6) *Handline gear* means a hand-held line, with one or more hooks attached, that may only be operated manually.
- (7) Hook-and-line gear means a stationary, buoyed, and anchored line with hooks attached, or the taking of fish by means of such a device.
- (8) Jig gear means a single, non-buoyed, non-anchored line with hooks attached, or the taking of fish by means of such a device.
- (9) Longline gear means hook-andline, jig, troll, and handline or the taking of fish by means of such a device.
- (10) Longline pot means a stationary, buoyed, and anchored line with two or more pots attached, or the taking of fish by means of such a device.
- (11) Mobile bottom contact gear means nonpelagic trawl, dredge, or dinglebar gear.
- (12) Nonpelagic trawl means a trawl other than a pelagic trawl.
- (13) Nontrawl gear means pot and longline gear.
- (14) Pelagic trawl gear means a trawl
 - (i) Has no discs, bobbins, or rollers;
- (ii) Has no chafe protection gear attached to the footrope or fishing line;
- (iii) Except for the small mesh allowed under paragraph (10)(ix) of this definition:
- (A) Has no mesh tied to the fishing line, headrope, and breast lines with less than 20 inches (50.8 cm) between

§ 679.2

knots and has no stretched mesh size of less than 60 inches (152.4 cm) aft from all points on the fishing line, headrope, and breast lines and extending passed the fishing circle for a distance equal to or greater than one half the vessel's LOA: or

- (B) Has no parallel lines spaced closer than 64 inches (162.6 cm) from all points on the fishing line, headrope, and breast lines and extending aft to a section of mesh, with no stretched mesh size of less than 60 inches (152.4 cm) extending aft for a distance equal to or greater than one-half the vessel's LOA:
- (iv) Has no stretched mesh size less than 15 inches (38.1 cm) aft of the mesh described in paragraph (10)(iii) of this definition for a distance equal to or greater than one-half the vessel's LOA;
- (v) Contains no configuration intended to reduce the stretched mesh sizes described in paragraphs (10)(iii) and (iv) of this definition;
- (vi) Has no flotation other than floats capable of providing up to 200 lb (90.7 kg) of buoyancy to accommodate the use of a net-sounder device;
- (vii) Has no more than one fishing line and one footrope for a total of no more than two weighted lines on the bottom of the trawl between the wing tip and the fishing circle;
- (viii) Has no metallic component except for connectors (e.g., hammerlocks or swivels) or a net-sounder device aft of the fishing circle and forward of any mesh greater than 5.5 inches (14.0 cm) stretched measure;
- (ix) May have small mesh within 32 ft (9.8 m) of the center of the headrope as needed for attaching instrumentation (e.g., net-sounder device); and
- (x) May have weights on the wing tips.
- (15) Pot gear means a portable structure designed and constructed to capture and retain fish alive in the water. This gear type includes longline pot and pot-and-line gear. Each groundfish pot must comply with the following:
- (i) Biodegradable panel. Each pot used to fish for groundfish must be equipped with a biodegradable panel at least 18 inches (45.72 cm) in length that is parallel to, and within 6 inches (15.24 cm) of, the bottom of the pot, and that is

sewn up with untreated cotton thread of no larger size than No. 30.

- (ii) Tunnel opening. Each pot used to fish for groundfish must be equipped with rigid tunnel openings that are no wider than 9 inches (22.86 cm) and no higher than 9 inches (22.86 cm), or soft tunnel openings with dimensions that are no wider than 9 inches (22.86 cm).
- (16) Pot-and-line gear means a stationary, buoyed line with a single pot attached, or the taking of fish by means of such a device.
- (17) Power troll gear means one or more lines, with hooks or lures attached, drawn through the water behind a moving vessel, and originating from a power gurdy or power-driven spool fastened to the vessel, the extension or retraction of which is directly to the gurdy or spool.
- (18) Trawl gear means a cone or funnel-shaped net that is towed through the water by one or more vessels. For purposes of this part, this definition includes, but is not limited to, beam trawls (trawl with a fixed net opening utilizing a wood or metal beam), otter trawls (trawl with a net opening controlled by devices commonly called otter doors), and pair trawls (trawl dragged between two vessels) and is further described as pelagic or nonpelagic trawl.
- (19) Troll gear means one or more lines with hooks or lures attached drawn through the water behind a moving vessel. This gear type includes hand troll and power troll gear and dinglebar gear.
- (20) Snap gear means a type of hookand-line gear where the hook and gangion are attached to the groundline using a mechanical fastener or snap.
 - Authorized officer means:
- (1) Any commissioned, warrant, or petty officer of the USCG;
- (2) Any special agent or fishery enforcement officer of NMFS;
- (3) Any officer designated by the head of any Federal or state agency that has entered into an agreement with the Secretary and the Commandant of the USCG to enforce the provisions of the Magnuson-Stevens Act or any other statute administered by NOAA; or
- (4) Any USCG personnel accompanying and acting under the direction

of any person described in paragraph (1) of this definition.

Basis species means any species or species group that is open to directed fishing that the vessel is authorized to harvest.

Bering Sea and Aleutian Islands Area, for purposes of regulations governing the commercial King and Tanner crab fisheries, means those waters of the EEZ off the west coast of Alaska lying south of Point Hope (68°21' N. lat), and extending south of the Aleutian Islands for 200 nm west of Scotch Cap Light (164°44′36" W. long).

Bering Sea and Aleutian Islands Management Area (BSAI), for purposes of regulations governing the groundfish fisheries, means the Bering Sea and Aleutian Islands subareas (see Figure 1 to this part).

Bering Sea Subarea of the BSAI means that portion of the EEZ contained in Statistical Areas 508, 509, 512, 513, 514, 516, 517, 518, 519, 521, 523, 524, and 530 (see Figure 1 to this part).

Bled codend means a form of discard by vessels using trawl gear wherein some or all of the fish are emptied into the sea from the net before fish are brought fully on board.

Bogoslof District means that part of the Bering Sea Subarea contained in Statistical Area 518 (see Figure 1 to this part).

Bowers Ridge Habitat Conservation Zone means a management area established for the protection of the Bowers Ridge and Ulm Plateau habitat areas of particular concern in the BSAI. See Table 25 to this part.

Breast line means the rope or wire running along the forward edges of the side panels of a net, or along the forward edge of the side rope in a rope trawl.

Briefing means a short (usually 2-4 day) training session that observers must complete to fulfill endorsement requirements.

Bulwark means a section of a vessel's side continuing above the main deck.

Buying station means a tender vessel or land-based entity that receives unprocessed groundfish from a vessel for delivery to a shoreside processor, stationary floating processor, or mothership and that does not process those fish.

Bycatch Limitation Zone 1 (Zone 1) means that part of the Bering Sea Subarea that is contained within the boundaries of Statistical Areas 508, 509, 512, and 516 (see Figure 1 to this part).

Bycatch Limitation Zone 2 (Zone 2) means that part of the Bering Sea Subarea that is contained within the boundaries of Statistical Areas 513, 517, and 521 (see Figure 1 to this part).

Bycatch or bycatch species means fish caught and released while targeting another species or caught and released while targeting the same species.

Bycatch rate means:

- (1) For purposes of §679.21(f) with respect to halibut, means the ratio of the total round weight of halibut, in kilograms, to the total round weight, in metric tons, of groundfish for which a TAC has been specified under §679.20 while participating in any of the fisheries defined under §679.21(f).
- (2) For purposes of §679.21(f) with respect to red king crab, means the ratio of number of red king crab to the total round weight, in metric tons, of BSAI groundfish for which a TAC has been specified under §679.20 while participating in the BSAI yellowfin sole and BSAI "other trawl" fisheries, as defined under §679.21(f).

Catch (see 50 CFR 600.10.)

Catcher/processor means:

- (1) With respect to groundfish recordkeeping and reporting, a vessel that is used for catching fish and processing that fish.
- (2) With respect to subpart E of this part, a processor vessel that is used for, or equipped to be used for, catching fish and processing that fish.

Catcher/processor vessel designation means, for purposes of the license limitation program, a license designation that authorizes the license holder:

- (1) Designated on a groundfish license to deploy a vessel to conduct directed fishing for license limitation groundfish and process license limitation groundfish on that vessel or to conduct only directed fishing for license limitation groundfish; or
- (2) Designated on a crab species license to deploy a vessel to conduct directed fishing for crab species and process crab species on that vessel or to conduct only directed fishing for crab species.

§ 679.2

Catcher vessel means a vessel that is used for catching fish and that does not process fish on board.

Catcher vessel designation means, for purposes of the license limitation program, a license designation that authorizes the license holder:

- (1) Designated on a groundfish license to deploy a vessel to conduct directed fishing for, but not process, license limitation groundfish on that vessel; or
- (2) Designated on a crab species license to deploy a vessel to conduct directed fishing for, but not process, crab species on that vessel.

Catcher Vessel Operational Area (CVOA) (see Figure 2 to this part and §679.22(a)(5)).

CBL means crab bycatch limit.

CDQ means community development quota and is the amount of a CDQ reserve that is allocated to a CDQ group.

CDQ allocation means a percentage of a CDQ reserve specified under §679.31 that is assigned to a CDQ group when NMFS approves a proposed CDP.

CDQ group means a qualified applicant with an approved CDP.

CDQ group number means a number assigned to a CDQ group by NMFS that must be recorded and is required in all logbooks and all reports submitted by the CDQ group, vessels harvesting CDQ, or processors taking deliveries of CDQ.

CDQ Program means the Western Alaska Community Development Quota Program implemented under subpart C of this part.

CDQ project means any program that is funded by a CDQ group's assets for the economic or social development of a community or group of communities that are participating in a CDQ group, including, but not limited to, infrastructure development, CDQ investments, employment and training programs, and CDP administration.

CDQ representative means any individual who is authorized by a CDQ group to sign documents submitted to NMFS on behalf of the CDQ group.

CDQ reserve means a percentage of each groundfish TAC apportioned under §679.20(b)(1)(iii), a percentage of a catch limit for halibut, or a percentage of a guideline harvest level for crab that has been set aside for purposes of the CDQ Program.

CDQ species means any species or species group that is allocated from a CDQ reserve to a CDQ group.

Central Aleutian District means that part of the Aleutian Islands Subarea contained in Statistical Area 542 (see Figure 1 to this part).

Central GOA Regulatory Area means that portion of the GOA EEZ that is contained in Statistical Areas 620 and 630 (see Figure 3 to this part).

Chinook Salmon Savings Area of the BSAI (see §679.21(e)(7)(viii) and Figure 8a and Figure 8b to this part).

Chum Salmon Savings Area of the BSAI CVOA (See §679.21(e)(7)(vii) and Figure 9 to this part.)

Civil judgment, for purposes of subpart E of this part, means a judgment or finding of a civil offense by any court of competent jurisdiction.

Clearing officer means, a NOAA Fisheries Office for Law Enforcement (OLE) special agent, an OLE fishery enforcement officer, or an OLE enforcement aide.

Commercial fishing means:

- (1) For purposes of the salmon fishery, fishing for salmon for sale or barter.
- (2) For purposes of the Pacific halibut fishery, fishing, the resulting catch of which either is, or is intended to be, sold or bartered but does not include subsistence fishing for halibut, as defined at 50 CFR 300.61.

Commercial Operator's Annual Report (COAR) means the annual report of information on exvessel and first wholesale values for fish and shellfish required under Title 5 of the Alaska Administrative Code, chapter 39.130 (see § 679.5 (p)).

Commissioner of ADF&G means the principal executive officer of ADF&G.

Community Development Plan (CDP) means a business plan for the economic and social development of a specific Western Alaska community or group of communities under the CDQ program at §679.30.

Community quota entity (CQE): (for purposes of the IFQ Program) means a non-profit organization that:

- (1) Did not exist prior to April 10, 2002:
- (2) Represents at least one eligible community that is listed in Table 21 of this part; and,

(3) Has been approved by the Regional Administrator to obtain by transfer and hold QS, and to lease IFQ resulting from the QS on behalf of an eligible community.

Conviction, for purposes of subpart E of this part, means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, and includes a conviction entered upon a plea of nolo contendere.

C. Opilio Crab Bycatch Limitation Zone (COBLZ) (see §679.21(e) and Figure 13 to this part.

Council means North Pacific Fishery Management Council.

Crab species means (see also king crab and tanner crab) all crab species covered by the Fishery Management Plan for Bering Sea/Aleutian Islands King and Tanner Crabs, including, but not limited to, red king crab (Paralithodes camtschatica). blue king (Paralithodes platypus), brown or golden king crab (Lithodes aequispina), scarlet or deep sea king crab (Lithodes couesi), Tanner or bairdi crab (Chionoecetes opilio bairdi). or snow crab (Chionoecetes opilio), grooved Tanner crab (Chionoecetes tanneri), and triangle Tanner crab (Chionoecetes angulatus).

Crab species license means a license issued by NMFS that authorizes the license holder designated on the license to deploy a vessel to conduct directed fishing for crab species.

Daily reporting period or day is the period from 0001 hours, A.l.t., until the following 2400 hours, A.l.t.

Debriefing means the post-deployment process that includes a one-onone interview with NMFS staff, a NMFS preliminary data review, observer completion of all data corrections noted, observer preparation of affidavits and reports, and completion of tasks related to biological specimens or special projects.

Decertification, as used in §679.50(j), means action taken by a decertifying official under §679.50(j)(7) to revoke indefinitely certification of observers or observer providers under this section; an observer or observer provider whose certification is so revoked is decertified.

Decertifying official, for purposes of subpart E of this part, means a designee authorized by the Regional Administrator to impose decertification.

Deep water flatfish (see Table 10 to this part pursuant to §679.20(c).)

Deployment means the period between an observer's arrival at the point of embarkation and the date the observer disembarks for travel to debriefing.

Designated contact for the Aleut Corporation means an individual who is designated by the Aleut Corporation for the purpose of communication with NMFS regarding the identity of selected AI directed pollock fishery participants and weekly reports required by §679.5.

Designated cooperative representative means an individual who is designated by the members of a fishery cooperative to fulfill requirements on behalf of the cooperative including, but not limited to, the signing of cooperative fishing permit applications; submitting catcher vessel pollock cooperative catch reports, and submitting annual cooperative fishing reports.

Designated primary processor means an AFA inshore processor that is designated by an inshore pollock cooperative as the AFA inshore processor to which the cooperative will deliver at least 90 percent of its BS pollock allocation during the year in which the AFA inshore cooperative fishing permit is in effect.

Direct financial interest means any source of income to, or capital investment or other interest held by, an individual, partnership, or corporation or an individual's spouse, immediate family member or parent that could be influenced by performance or non-performance of observer or observer provider duties.

Directed fishing means:

- (1) Unless indicated otherwise, any fishing activity that results in the retention of an amount of a species or species group on board a vessel that is greater than the maximum retainable amount for that species or species group as calculated under § 679.20.
- (2) With respect to license limitation groundfish species, directed fishing as defined in paragraph (1) of this definition.
- (3) With respect to crab species under this part, the catching and retaining of any crab species.

§ 679.2

(4) With respect to the harvest of groundfish by AFA catcher/processors and AFA catcher vessels, any fishing activity that results in the retention of an amount of a species or species group on board a vessel that is greater than the maximum retainable percentage for that species or species group as calculated under § 679.20.

Discard (see § 600.10.)

Dockside sale means, the transfer of IFQ halibut, CDQ halibut or IFQ sable-fish from the person who harvested it to individuals for personal consumption, and not for resale.

Documented harvest means a lawful harvest that was recorded in compliance with Federal and state commercial fishing regulations in effect at the time of harvesting.

Donut Hole means the international waters of the Bering Sea outside the limits of the EEZ and Russian economic zone as depicted on the current edition of NOAA chart INT 813 Bering Sea (Southern Part).

Eastern Aleutian District means that part of the Aleutian Islands Subarea contained in Statistical Area 541 (see Figure 1 to this part).

Eastern GOA Regulatory Area means the Reporting Areas 649 and 659 and that portion of the GOA EEZ that is contained in Statistical Areas 640 and 650 (see Figure 3 to this part).

Eligible applicant means (for purposes of the LLP program) a qualified person who submitted an application during the application period announced by NMFS and:

- (1) For a groundfish license or crab species license, who owned a vessel on June 17, 1995, from which the minimum number of documented harvests of license limitation groundfish or crab species were made in the relevant areas during the qualifying periods specified in §679.4(k)(4) and (k)(5), unless the fishing history of that vessel was transferred in conformance with the provisions in paragraph (2) of this definition; or
- (2) For a groundfish license or crab species license, to whom the fishing history of a vessel from which the minimum number of documented harvests of license limitation groundfish or crab species were made in the relevant areas during the qualifying periods specified

in §679.4(k)(4) and (k)(5) has been transferred or retained by the express terms of a written contract that clearly and unambiguously provides that the qualifications for a license under the LLP have been transferred or retained; or

- (3) For a crab species license, who was an individual who held a State of Alaska permit for the Norton Sound king crab summer fishery at the time he or she made at least one harvest of red or blue king crab in the relevant area during the period specified in §679.4(k)(5)(ii)(G), or a corporation that owned or leased a vessel on June 17, 1995, that made at least one harvest of red or blue king crab in the relevant during the period area $\S679.4(k)(5)(ii)(G)$, and that was operated by an individual who was an employee or a temporary contractor; or
- (4) For a scallop license, who qualifies for a scallop license as specified at §679.4(g)(2) of this part; or
- (5) Who is an individual that can demonstrate eligibility pursuant to the provisions of the Rehabilitation Act of 1973 at 29 U.S.C. 794 (a).

Eligible community means:

- (1) For purposes of the CDQ program, a community that is listed in Table 7 to this part or that meets all of the following requirements:
- (i) The community is located within 50 nm from the baseline from which the breadth of the territorial sea is measured along the Bering Sea coast from the Bering Strait to the most western of the Aleutian Islands, or on an island within the Bering Sea. A community is not eligible if it is located on the GOA coast of the North Pacific Ocean, even if it is within 50 nm of the baseline of the Bering Sea;
- (ii) That is certified by the Secretary of the Interior pursuant to the Native Claims Settlement Act (P.L. 92–203) to be a native village;
- (iii) Whose residents conduct more than half of their current commercial or subsistence fishing effort in the waters of the BSAI; and
- (iv) That has not previously deployed harvesting or processing capability sufficient to support substantial groundfish fisheries participation in the BSAI, unless the community can show that benefits from an approved CDP would be the only way to realize a return

from previous investment. The community of Unalaska is excluded under this provision.

- (2) For purposes of the IFQ program, a community that is listed in Table 21 to this part, and that:
- (i) Is a municipality or census designated place, as defined in the 2000 United States Census, located on the GOA coast of the North Pacific Ocean;
- (ii) Has a population of not less than 20 and not more than 1,500 persons based on the 2000 United States Census;
- (iii) Has had a resident of that community with at least one commercial landing of halibut or sablefish made during the period from 1980 through 2000, as documented by the State of Alaska Commercial Fisheries Entry Commission; and
- (iv) Is not accessible by road to a community larger than 1,500 persons based on the 2000 United States Census.

Eligible community resident means, for purposes of the IFQ Program, any individual who:

- (1) Is a citizen of the United States;
- (2) Has maintained a domicile in a rural community listed in Table 21 to this part for the 12 consecutive months immediately preceding the time when the assertion of residence is made, and who is not claiming residency in another community, state, territory, or country, except that residents of the Village of Seldovia shall be considered to be eligible community residents of the City of Seldovia for the purposes of eligibility to lease IFQ from a CQE; and

(3) Is an IFQ crew member.

Eligible vessel means, for the purposes of the CDQ Program, a fishing vessel designated by a CDQ group to harvest part or all of its CDQ allocation and approved by NMFS under §679.32(c).

Endorsement. (1) (See area endorsement for purposes of the groundfish LLP permits):

- (2) (See area/species endorsement for purposes of the crab LLP permits);
- (3) (See §679.4(g)(3)(ii) area endorsements for purposes of the scallop permit).

Experimental fishery (see Exempted fishery, § 679.6).

Federal waters means waters within the EEZ off Alaska (see also reporting area). Federally permitted vessel means a vessel that is named on either a Federal fisheries permit issued pursuant to §679.4(b) or on a Federal crab vessel permit issued pursuant to §680.4(k) of this chapter. Federally permitted vessels must conform to regulatory requirements for purposes of fishing restrictions in habitat conservation areas, habitat conservation zones, and habitat protection areas; for purposes of anchoring prohibitions in habitat protection areas; and for purposes of VMS requirements.

Fishery cooperative or cooperative means any entity cooperatively managing directed fishing for BS pollock and formed under section 1 of the Fisherman's Collective Marketing Act of 1934 (15 U.S.C. 521). In and of itself, a cooperative is not an AFA entity subject to excessive harvest share limitations, unless a single person, corporation or other business entity controls the cooperative and the cooperative has the power to control the fishing activity of its member vessels.

Fish product (See groundfish product.) Fish product weight means the weight of the fish product in pounds or to at least the nearest thousandth of a metric ton (0.001 mt). Fish product weight is based upon the number of production units and the weight of those units. Production units include pans, cartons, blocks, trays, cans, bags, and individual fresh or frozen fish. The weight of a production unit is the average weight of representative samples of the product, and, for fish other than fresh fish, may include additives or water but not packaging. Any allowance for water added cannot exceed 5 percent of the gross product weight (fish, additives, and water).

Fishermen means persons who catch, take, or harvest fish.

Fishing circle means the circumference of a trawl intersecting the center point on a fishing line, and that is perpendicular to the long axis of a trawl.

Fishing day means (for purposes of subpart E) a 24-hour period, from 0001 hours A.l.t. through 2400 hours A.l.t., in which fishing gear is retrieved and groundfish are retained. Days during which a vessel only delivers unsorted

codends to a processor are not fishing days.

Fishing line means a length of chain or wire rope in the bottom front end of a trawl to which the webbing or lead ropes are attached.

Fishing month means (for purposes of subpart E) a time period calculated on the basis of weekly reporting periods as follows: Each fishing month begins on the first day of the first weekly reporting period that has at least 4 days in the associated calendar month and ends on the last day of the last weekly reporting period that has at least 4 days in that same calendar month. Dates of each fishing month will be announced in the FEDERAL REGISTER published under §679.21(f)(5).

Fishing trip means: (1) Retention requirements (MRA, IR/IU, and pollock roe stripping).

- (i) With respect to retention requirements of MRA, IR/IU, and pollock roe stripping, an operator of a catcher/processor or mothership processor vessel is engaged in a fishing trip from the time the harvesting, receiving, or processing of groundfish is begun or resumed in an area until:
- (A) The effective date of a notification prohibiting directed fishing in the same area under § 679.20 or § 679.21;
- (B) The offload or transfer of all fish or fish product

from that vessel;

- (C) The vessel enters or leaves an area where a different directed fishing prohibition applies;
- (D) The vessel begins fishing with a different type of authorized fishing gear: or
- (E) The end of a weekly reporting period, whichever comes first.
- (ii) With respect to retention requirements of MRA, IR/IU, and pollock roe stripping, an operator of a catcher vessel is engaged in a fishing trip from the time the harvesting of groundfish is begun until the offload or transfer of all fish or fish product from that vessel.
- (2) IFQ program. With respect to the IFQ program, the period beginning when a vessel operator commences harvesting IFQ species and ending when the vessel operator lands any species.

- (3) Groundfish observer program. With respect to subpart E of this part, one of the following periods:
- (i) For a vessel used to process groundfish or a catcher vessel used to deliver groundfish to a monthership, a weekly reporting period during which one or more fishing days occur.
- (ii) For a catcher vessel used to deliver fish to other than a mothership, the time period during which one or more fishing days occur, that starts on the day when fishing gear is first deployed and ends on the day the vessel offloads groundfish, returns to an Alaskan port, or leaves the EEZ off Alaska and adjacent waters of the State of Alaska.

Fishing year means 0001 hours, A.l.t., on January 1, through 2400 hours, A.l.t., on December 31 (see § 679.23).

Fixed gear sablefish CDQ reserve means 20 percent of the sablefish fixed gear TAC for each subarea in the BSAI for which a sablefish TAC is specified under §679.20(b)(1)(iii)(B). See also §679.31(b).

Food bank distributor means a tax-exempt organization with the primary purpose of distributing food resources to hunger relief agencies (see § 679.26).

Food bank network means a tax-exempt organization with the primary purpose of coordinating receipt and delivery of food resources to its member food bank distributors or hunger relief agencies (see §679.26).

Footrope means a chain or wire rope attached to the bottom front end of a trawl and attached to the fishing line.

Forage fish (see Table 2c to this part and §679.20(i)).

Gear (see the definition for Authorized fishing gear of this section).

Gear deployment (or to set gear) means:
(1) Position of gear deployment (lat.

- and long.):
 (i) For trawl gear. The position where
- (i) For trawl gear. The position where the trawl gear reaches the fishing level and begins to fish.
- (ii) For hook-and-line gear. The beginning position of a set of hook-and-line gear.
- (iii) For jig or troll gear. The position where the jig or troll gear enters the water.
- (iv) For pot gear. The position of the first pot in a string of pots.
- (2) Time of gear deployment (A.1.t.):

- (i) For trawl gear. The time when the trawl gear reaches the fishing level and begins to fish.
- (ii) For hook-and-line gear. The time when the first hook-and-line gear of a set is deployed.
- (iii) For jig or troll gear. The time when jig or troll gear enters the water.
- (iv) For pot gear. The time when the first pot in a string of pots is deployed.
- Gear retrieval (or to haul gear) means:
 (1) Position of gear retrieval (lat. and long. to the nearest minute):
- (i) For trawl gear. The position where retrieval of trawl gear cable commences.
- (ii) For hook-and-line gear. The position where the last hook-and-line gear of a set leaves the water, regardless of where the majority of the set took place.
- (iii) For jig or troll gear. The position where the jig or troll gear leaves the water.
- (iv) For pot gear. The position where the last pot of a set is retrieved, regardless of where the majority of the set took place.
 - (2) Time of gear retrieval (A.1.t.):
- (i) For trawl gear. The time when retrieval of trawl gear cable commences.
- (ii) For hook-and-line gear. The time when the last hook-and-line gear of a set leaves the water.
- (iii) For jig or troll gear. The time when the jig or troll gear leaves the water.
- (iv) For pot gear. The time when the last pot of a set is retrieved.

Groundfish means (1) FMP species as listed in Table 2a to this part.

(2) Target species and the "other species" category, specified annually pursuant to §679.20(a)(2) (See also the definitions for: *License limitation ground-fish*; *CDQ species*; and *IR/IU species* of this section).

Groundfish CDQ fishing means fishing by an eligible vessel that results in the catch of any groundfish CDQ species, but that does not meet the definition of halibut CDQ fishing.

Groundfish license means (for purposes of the LLP program) a license issued by NMFS that authorizes the license holder designated on the license to deploy a vessel to conduct directed fishing for license limitation groundfish

Groundfish product or fish product means any species product listed in Tables 1, 2a, 2c, and 2d to this part.

Gulf of Alaska (GOA) means that portion of the EEZ contained in Statistical Areas 610, 620, 630, 640, and 650 (see Figure 3 to this part).

Gulf of Alaska Coral Habitat Protection Areas means management areas established for the protection of coral habitat areas of particular concern in the Gulf of Alaska. See Table 26 to this part.

Gulf of Alaska Slope Habitat Conservation Areas means management areas established for the protection of essential fish habitat on the Gulf of Alaska slope. See Table 27 to this part.

Halibut means Pacific halibut (Hippoglossus stenolepis).

Halibut CDQ fishing means the following:

- (1) Catcher vessel. The following conditions are met at all times:
- (i) Halibut CDQ is retained and the weight of halibut CDQ plus halibut IFQ onboard the vessel at any time represents the largest proportion of the retained catch in round weight equivalent onboard the vessel at that time, and
- (ii) For catcher vessels less than 60 ft (18.3 m) LOA, the round weight equivalent of non-CDQ groundfish does not exceed the maximum retainable amounts for these species or species groups as established in §679.20(e) and (f)
- (2) Catcher/processor. Halibut CDQ is retained from a set and the weight of halibut CDQ plus halibut IFQ represents the largest proportion of the retained catch in round weight equivalent from that set.

Halibut CDQ reserve means the amount of the halibut catch limit for IPHC regulatory areas 4B, 4C, 4D, and 4E that is reserved for the halibut CDQ program (see § 679.31(b)).

Harvesting or to harvest means the catching and retaining of any fish.

Harvest limit area for platoon managed Atka mackerel directed fishing (applicable through December 31, 2002) for the purposes of §§ 679.4(b)(5)(vii), 679.20(a)(8)(ii) and (iii) and 679.22(a)(12)(iv)(A), means the waters of statistical areas 542 and 543 west of 178° W long. within 20 nm seaward of sites

listed in Table 24 of this part and located west of 177°57.00′ W. long.

Harvest limit area (HLA) for Atka mackerel directed fishing for the purposes of §§ 679.4(b)(5)(vi)(B), 679.20(a)(8)(ii) and (iii), and 679.22(a)(8)(iv)(A), means the waters of statistical areas 542 and 543 that are (1) west of 178° W long. and (2) within 20 nm seaward of sites listed in Table 6 of this part that are located west of 177°57.00′ W long.

Harvest zone codes (see Table 8 to this part).

Haul (See gear retrieval.)

Headrope means a rope bordering the top front end of a trawl.

Herring Savings Area means any of three areas in the BSAI presented in Figure 4 (see also §679.21(e)(7)(v) for additional closure information).

Hunger relief agency means a tax-exempt organization with the primary purpose of feeding economically disadvantaged individuals free of charge (see § 679.26).

IFQ actual ex-vessel value means the U.S. dollar amount of all compensation, monetary or non-monetary, including any IFQ retro-payments received by an IFQ permit holder for the purchase of IFQ halibut or IFQ sable-fish landing(s) on his or her permit(s) described in terms of IFQ equivalent pounds.

IFQ crew member means any individual who has at least 150 days experience working as part of the harvesting crew in any U.S. commercial fishery, or any individual who receives an initial allocation of QS. For purposes of this definition, "harvesting" means work that is directly related to the catching and retaining of fish. Work in support of harvesting, but not directly involved with harvesting, is not considered harvesting crew work. For example, searching for fish, work on a fishing vessel only as an engineer or cook, or work preparing a vessel for a fishing trip would not be considered work of a harvesting crew.

IFQ equivalent pound(s) means the weight amount, recorded in pounds, for an IFQ landing and calculated as round weight for sablefish and headed and gutted weight for halibut.

IFQ fee liability means that amount of money for IFQ cost recovery, in U.S.

dollars, owed to NMFS by an IFQ permit holder as determined by multiplying the appropriate standard ex-vessel value or actual ex-vessel value of his or her IFQ halibut or IFQ sablefish landing(s) by the appropriate IFQ fee percentage.

IFQ fee percentage means that positive number no greater than 3 percent (0.03) determined by the Regional Administrator and established for use to calculate the IFQ cost recovery fee liability for an IFQ permit holder.

IFQ halibut means any halibut that is harvested with setline or other hook and line gear while commercial fishing in any IFQ regulatory area defined in this section.

IFQ landing means the unloading or transferring of any IFQ halibut, CDQ halibut, IFQ sablefish, or products thereof from the vessel that harvested such fish or the removal from the water of a vessel containing IFQ halibut, CDQ halibut, IFQ sablefish, or products thereof.

IFQ permit holder means the person identified on an IFQ permit, at the time a landing is made (see §679.4(d)(1)).

IFQ program means the individual fishing quota program for the fixed gear fisheries for Pacific halibut and sablefish in waters in and off Alaska and governed by regulations under this part.

IFQ regulatory area means:

(1) With respect to IFQ halibut, areas 2C, 3A, 3B, 4A, 4B, 4C, 4D, or 4E as prescribed in the annual management measures published in the FEDERAL REGISTER pursuant to §300.62 of chapter III of this title (see also Figure 15 to this part).

(2) With respect to IFQ sablefish, any of the three regulatory areas in the GOA and any subarea of the BSAI, and all waters of the State of Alaska between the shore and the inshore boundary of such regulatory areas and subareas, except waters of Prince William Sound and areas in which sablefish fishing is managed under a State of Alaska limited entry program (see Figure 14 to this part).

IFQ retro-payment means the U.S. dollar value of a payment, monetary or non-monetary, made to an IFQ permit holder for the purchase of IFQ halibut or IFQ sablefish landed at some previous time.

IFQ sablefish means any sablefish that is harvested with fixed gear, either in the EEZ off Alaska or in waters of the State of Alaska, by persons holding an IFQ permit, but does not include sablefish harvested in Prince William Sound or under a State of Alaska limited entry program.

IFQ standard ex-vessel value means the total U.S. dollar amount of IFQ halibut or IFQ sablefish landings as calculated by multiplying the number of landed IFQ equivalent pounds by the appropriate IFQ standard price determined by the Regional Administrator.

IFQ standard price means a price, expressed in U.S. dollars per IFQ equivalent pound, for landed IFQ halibut and IFQ sablefish determined annually by the Regional Administrator and documented in an IFQ standard price list published by NMFS.

Incidental catch or incidental species means fish caught and retained while targeting on some other species, but does not include discard of fish that were returned to the sea.

Indictment, for purposes of subpart E of this part, means indictment for a criminal offense. An information or other filing by competent authority charging a criminal offense must be given the same effect as an indictment.

Individual means a natural person who is not a corporation, partnership, association, or other such entity.

Individual fishing quota (IFQ) means the annual catch limit of sablefish or halibut that may be harvested by a person who is lawfully allocated a harvest privilege for a specific portion of the TAC of sablefish or halibut.

Inshore component in the GOA means the following three categories of the U.S. groundfish fishery that process groundfish harvested in the GOA:

- (1) Shoreside processors.
- (2) Vessels less than 125 ft (38.1 m) LOA that hold an inshore processing endorsement on their Federal fisheries permit, and that process no more than 126 mt per week in round-weight equivalents of an aggregate amount of pollock and GOA Pacific cod.
- (3) Stationary floating processors that hold an inshore processing endorsement on their Federal processor

permit, and that process pollock and/or Pacific cod harvested in a directed fishery for those species at a single geographic location in Alaska state waters during a fishing year.

IPHC means International Pacific Halibut Commission (see part 300 of chapter III of this title).

IR/IU means the improved retention/improved utilization program set out at §679.27.

IR/IU species means any groundfish species that is regulated by a retention or utilization requirement set out at \$679.27

King crab means red king crab (Paralithodes camtschatica), blue king crab (P. platypus), brown (or golden) king crab (Lithodes aequispina), and scarlet (or deep sea) king crab (Lithodes couesi).

Landing means offloading fish.

Legal landing means a landing in compliance with Federal and state commercial fishing regulations in effect at the time of landing.

Legal landing of halibut or sablefish (see 679.40(a)(3)(v)).

Legal proceedings, for purposes of subpart E of this part, means any civil judicial proceeding to which the Government is a party or any criminal proceeding. The term includes appeals from such proceedings.

Length overall (LOA) of a vessel means the centerline longitudinal distance, rounded to the nearest foot, measured between:

- (1) The outside foremost part of the vessel visible above the waterline, including bulwarks, but excluding bowsprits and similar fittings or attachments, and
- (2) The outside aftermost part of the vessel visible above the waterline, including bulwarks, but excluding rudders, outboard motor brackets, and similar fittings or attachments (see Figure 6 to this part).

License holder means the person who is named on a currently valid ground-fish license, crab species license, or scallop license.

License limitation groundfish means target species and the "other species" category, specified annually pursuant to §679.20(a)(2), except that demersal shelf rockfish east of 140° W. longitude,

sablefish managed under the IFQ program, and pollock allocated to the Aleutian Islands directed pollock fishery and harvested by vessels 60 feet (18.3 m) LOA or less, are not considered license limitation groundfish.

Limited Access System Administrative Fund (LASAF) means the administrative account used for depositing cost recovery fee payments into the U.S. Treasury as described in the Magnuson-Stevens Act under section 304(d)(2)(C)(i) and established under section 305(h)(5)(B).

Listed AFA catcher/processor means an AFA catcher/processor permitted to harvest BS pollock under §679.4(1)(2)(i).

Logbook means Daily Cumulative Production Logbook (DCPL) or Daily Fishing Logbook (DFL) required by \$679.5.

Management area means any district, regulatory area, subpart, part, or the entire GOA or BSAI.

Manager, with respect to any shoreside processor, stationary floating processor or land-based buying station, means the individual responsible for the operation of the shoreside processor operation or land-based buying station.

Managing organization means the organization responsible for managing all or part of a CDP.

Maximum LOA (MLOA) means:

- (1) With respect to the scallop license limitation program, the MLOA is equal to the length overall on February 8, 1999, of the longest vessel that was:
- (i) Authorized by a Federal or State of Alaska Scallop Moratorium Permit to harvest scallops;
- (ii) Used by the eligible applicant to make legal landings of scallops during the scallop LLP qualification period, as specified at §679.4(g)(2)(iii) of this part.
- (2) With respect to the groundfish and crab species license limitation program, the LOA of the vessel on June 24, 1992, unless the vessel was less than 125 ft (38.1 m) on June 24, 1992, then 1.2 times the LOA of the vessel on June 24, 1992, or 125 ft (38.1 m), whichever is less. However, if the vessel was under reconstruction on June 24, 1992, then the basis for the MLOA will be the LOA of the vessel on the date that reconstruction was completed and not June 24,

1992. The following exceptions apply regardless of how the MLOA was determined.

- (i) If the vessel's LOA on June 17, 1995, was less than 60 ft (18.3 m), or if the vessel was under reconstruction on June 17, 1995, and the vessel's LOA on the date that reconstruction was completed was less than 60 ft (18.3 m), then the vessel's MLOA cannot exceed 59 ft (18 m).
- (ii) If the vessel's LOA on June 17, 1995, was greater than or equal to 60 ft (18.3 m) but less than 125 ft (38.1 m), or if the vessel was under reconstruction on June 17, 1995, and the vessel's LOA on the date that reconstruction was completed was greater than or equal to 60 ft (18.3 m) but less 125 ft (38.1 m), then the vessel's MLOA cannot exceed 124 ft (37.8 m).
- (iii) If the vessel's LOA on June 17, 1995, was 125 ft (38.1 m) or greater, then the vessel's MLOA is the vessel's LOA on June 17, 1995, or if the vessel was under reconstruction on June 17, 1995, and the vessel's LOA on the date that reconstruction was completed was 125 ft (38.1 m) or greater, then the vessel's MLOA is the vessel's LOA on the date reconstruction was completed.

Mothership means:

- (1) A vessel that receives and processes groundfish from other vessels; or
- (2) With respect to subpart E of this part, a processor vessel that receives and processes groundfish from other vessels and is not used for, or equipped to be used for, catching groundfish.

Nearshore Bristol Bay Trawl Closure Area of the BSAI (See §679.22(a)(9) and Figure 12 to this part.)

Net-sounder device means a sensor used to determine the depth from the water surface at which a fishing net is operating.

Net weight (IFQ or CDQ halibut only). Net weight of IFQ or CDQ halibut means the weight of a halibut that is gutted, head off, and washed or ice and slime deducted.

Non-allocated or nonspecified species means those fish species, other than prohibited species, for which TAC has not been specified (e.g., grenadier, prowfish, lingcod).

NMFS investigator, for purposes of subpart E of this part, means a designee authorized by the Regional Administrator to conduct investigations under this section.

NMFS Person Identification Number means a unique number assigned by NMFS to any person who applied for, or who has been issued, a certificate, license, or permit under any fishery management program administered by the Alaska Region for purposes of the NMFS/Alaska Region Integrated Regional Data System.

Non-chinook salmon means coho, pink, chum or sockeye salmon.

North Pacific fishery means any commercial fishery in state or Federal waters off Alaska.

Observed or observed data refers to data collected by observers (see §679.21(f)(7) and subpart E of this part).

Observer means any

(1) Individual who is awarded NMFS observer certification to carry out observer responsibilities under this part, and who is employed by an observer provider for the purposes of providing observer services to vessels, shoreside processors or stationary floating processors under this part; or

(2) NMFS staff or other individual authorized by NMFS deployed, at the direction of the Regional Administrator, aboard vessels or at shoreside processors or stationary floating processors for purposes of providing observer services as required for vessels, shoreside processors or stationary floating processors under §679.50(c) or (d), or for other purposes of conservation and management of marine resources as specified by the Regional Administrator.

Observer Program Office means the administrative office of the Groundfish Observer Program located at Alaska Fisheries Science Center (see ADDRESSES, part 600).

Observer Provider means any person or commercial enterprise that is granted a permit by NMFS to provide observer services to vessels, shoreside processors, or stationary floating processors for observer coverage credit as required in subpart E of this part.

Official AFA record means the information prepared by the Regional Administrator about vessels and proc-

essors that were used to participate in the BSAI pollock fisheries during the qualifying periods specified in §679.4(1). Information in the official AFA record includes vessel ownership information, documented harvests made from vessels during AFA qualifying periods, vessel characteristics, and documented amounts of pollock processed by pollock processors during AFA qualifying periods. The official AFA record is presumed to be correct for the purpose of determining eligibility for AFA permits. An applicant for an AFA permit will have the burden of proving correct any information submitted in an application that is inconsistent with the official record.

Official License Limitation Program (LLP) record means the information prepared by the Regional Administrator about vessels that were used to participate in the groundfish or crab fisheries during qualified periods for the groundfish and crab LLP specified at §679.4(k) and in the scallop fisheries during the qualifying periods for the scallop LLP specified at §679.4(g). Information in the official LLP record includes vessel ownership information, documented harvests made from vessels during the qualification periods, and vessel characteristics. The official LLP record is presumed to be correct for the purpose of determining eligibility for licenses. An applicant for a license under the LLP will have the burden of proving the validity of information submitted in an application that is inconsistent with the official LLP record.

Offshore component in the GOA means all vessels not included in the definition of "inshore component in the GOA" that process groundfish harvested in the GOA.

Operate a vessel means for purposes of VMS that the fishing vessel is:

- (1) Offloading or processing fish;
- (2) In transit to, from, or between the fishing areas: or
- (3) Fishing or conducting operations in support of fishing.

Optimum yield means:

(1) With respect to the salmon fishery, that amount of any species of salmon that will provide the greatest overall benefit to the Nation, with particular reference to food production

and recreational opportunities, as specified in the Salmon FMP.

(2) With respect to the groundfish fisheries, see §679.20(a)(1).

Other flatfish (see Table 11 to this part pursuant to §679.20(c).)

Other gear means gear other than authorized fishing gear.

Other red rockfish (see Table 10 to this part pursuant to \$679.20(c); see also "rockfish" at \$679.2.)

Other rockfish (see Table 10 to this part pursuant to §679.20(c); see also "rockfish" at §679.2.)

Other species is a category that consists of groundfish species in each management area that are not specified as target species (see Tables 10 and 11 to this part pursuant to §679.20(e)).

Person means any individual (whether or not a citizen or national of the United States), any corporation, partnership, association, or other entity (whether or not organized, or existing under the laws of any state), and any Federal, state, local, or foreign government or any entity of any such aforementioned governments.

Personal use fishing means, for purposes of the salmon fishery, fishing other than commercial fishing.

Pollock roe means product consisting of pollock eggs, either loose or in sacs or skeins.

Preponderance of the evidence, for purposes of subpart E of this part, means proof by information that, compared with that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

Primary product (see Table 1 to this part).

Processing, or to process, means the preparation of, or to prepare, fish or crab to render it suitable for human consumption, industrial uses, or long-term storage, including but not limited to cooking, canning, smoking, salting, drying, freezing, or rendering into meal or oil, but does not mean icing, bleeding, heading, or gutting.

Processor vessel means, unless otherwise restricted, any vessel that has been issued a Federal fisheries permit and that can be used for processing groundfish.

 $Product\ transfer\ report\ (PTR)\ (see \S 679.5(g)).$

Program Administrator, RAM means the Program Administrator of Restricted Access Management Program, Alaska Region, NMFS.

Prohibited species means any of the species of Pacific (Oncorhynchus spp.), steelhead trout (Oncorhynchus mykiss), Pacific halibut (Hippoglossus stenolepis), Pacific herring (Clupea harengus pallasi), king crab, and Tanner crab (see Table 2b to this part), caught by a vessel regulated this part while fishing for under groundfish in the BSAI or GOA, unless retention is authorized by other applicable laws, including the annual management measures published in the FEDERAL REGISTER pursuant to §300.62 of this title.

Prohibited species catch (PSC) means any of the species listed in §679.21(b).

PRR means standard product recovery rate (see Table 3 to this part).

PSD Permit means a permit issued by NMFS to an applicant who qualifies as an authorized distributor for purposes of the PSD.

PSD Program means the Prohibited Species Donation Program established under §679.26.

PSQ means prohibited species quota and is the amount of a PSQ reserve that is allocated to a CDQ group.

PSQ allocation means a percentage of a PSQ reserve specified under §679.21(e)(1)(i) and (e)(2)(ii) that is assigned to a CDQ group when NMFS approves a proposed CDP. See also §679.31(d).

PSQ reserve means the percentage of a prohibited species catch limit established under \$679.21(e)(1) and (e)(2) that is allocated to the groundfish CDQ program under \$679.21(e)(1)(i) and (e)(2)(ii).

PSQ species means any species or species group that has been allocated from a PSQ reserve to a CDQ group.

Qualified applicant means, for the purposes of the CDQ program:

- (1) A local fishermen's organization that:
- (i) Represents an eligible community or group of eligible communities;
- (ii) Is incorporated under the laws of the State of Alaska or under Federal law: and
- (iii) Has a board of directors composed of at least 75 percent resident

fishermen of the community (or group of communities); or

- (2) A local economic development organization that:
- (i) Represents an eligible community or group of communities;
- (ii) Is incorporated under the laws of the State of Alaska or under Federal law specifically for the purpose of designing and implementing a CDP; and
- (iii) Has a board of directors composed of at least 75 percent resident fishermen of the community (or group of communities).

Qualified Person means:

- (1) With respect to the IFQ program, see IFQ Management Measures at §679.40(a)(2).
- (2) With respect to the groundfish and crab species license limitation program, a person who was eligible on June 17, 1995, to document a fishing vessel under Chapter 121, Title 46, U.S.C.
- (3) With respect to the scallop LLP, a person who was eligible on February 8, 1999, to document a fishing vessel under Chapter 121, Title 46, U.S.C.

Quarter, or quarterly reporting period, means one of four successive 3-month periods, which begin at 0001 hours, A.l.t., on the first day of each quarter, and end at 2400 hours, A.l.t., on the last day of each quarter, as follows:

- (1) 1st quarter: January 1 through March 31.
- (2) 2nd quarter: April 1 through June 30.
- (3) 3rd quarter: July 1 through September 30.
- (4) 4th quarter: October 1 through December 31.

Quota share (QS) means a permit, the face amount of which is used as a basis for the annual calculation of a person's IFQ.

Reconstruction means a change in the LOA of the vessel from its original qualifying LOA.

Red King Crab Savings Area (RKCSA) of the BSAI (see §679.22(a)(3) and Figure 11 to this part).

Red King Crab Savings Subarea (RKCSS) of the BSAI (see §679.21(e)(3)(ii)(B) and Figure 11 to this part).

Regional Administrator, for purposes of this part, means the Administrator, Alaska Region, NMFS, as defined at §600.10 of this chapter, or a designee. Registered buyer means the person identified on a Registered Buyer permit (see § 679.4(d)(3)).

Registered crab receiver (RCR) means a person issued an RCR permit, described under 50 CFR part 680, by the Regional Administrator.

Regulatory area means any of three areas of the EEZ in the GOA (see Figure 3 to this part).

Reporting area (see Figures 1 and 3 to this part) means:

- (1) An area that includes a statistical area of the EEZ off Alaska and any adjacent waters of the State of Alaska;
- (2) The reporting areas 300, 400, 550, and 690, which do not contain EEZ waters off Alaska or Alaska state waters; or
- (3) Reporting areas 649 and 659, which contain only waters of the State of Alaska.

Representative (see §679.5(b)).

Reprocessed or rehandled product (see Table 1 to this part).

Resident fisherman means (for purposes of the CDQ Program) an individual with documented commercial or subsistence fishing activity who maintains a mailing address and permanent domicile in an eligible community and is eligible to receive an Alaska Permanent Fund dividend at that address.

Restricted AFA inshore processor means an AFA inshore processor permitted to harvest pollock under §679.4(1)(5)(i)(B).

Retain on board (see §§ 600.10 and 679.27 of this chapter.)

Rockfish means:

- (1) For the GOA: Any species of the genera Sebastes or Sebastelobus except Sebastes melanops, (black rockfish), and Sebastes mystinus, (blue rockfish).
- (2) For the BSAI: Any species of the genera Sebastes or Sebastelobus.

Round-weight equivalent means the weight of groundfish calculated by dividing the weight of the primary product made from that groundfish by the PRR for that primary product as listed in Table 3 to this part, or, if not listed, the weight of groundfish calculated by dividing the weight of a primary product by the standard PRR as determined using the best available evidence on a case-by-case basis.

Sablefish (black cod) means Anoplopoma fimbria. (See also IFQ sablefish; fixed gear sablefish at \$679.21(b)(5); and sablefish as a prohibited species at \$679.24(c)(2)(ii)).

Salmon means the following species:

- (1) Chinook (or king) salmon (Oncorhynchus tshawytscha);
- (2) Coho (or silver) salmon (O. kisutch);
- (3) Pink (or humpback) salmon (O. aorbuscha):
- (4) Sockeye (or red) salmon (O. nerka); and
 - (5) Chum (or dog) salmon (O. keta).

Salmon Management Area means the waters of the EEZ off the coast of Alaska (see Figure 23 to part 679), including parts of the North Pacific Ocean, Bering Sea, Chukchi Sea, and Beaufort Sea. The Salmon Management Area is divided into a West Area and an East Area with the border between the two at the longitude of Cape Suckling (143°53'36" W):

- (1) The West Area is the area of the EEZ off the coast of Alaska west of the longitude of Cape Suckling (143°53′36″ W). It includes the EEZ in the Bering Sea, Chukchi Sea, and Beaufort Sea, as well as the EEZ in the North Pacific Ocean west of Cape Suckling.
- (2) The East Area is the area of the EEZ off the coast of Alaska east of the longitude of Cape Suckling (143°53′36″ W).

Scallop(s) means any species of the family Pectinidae, including, without limitation, weathervane scallops (Patinopectin caurinus).

Scallop license means a license issued by NMFS that authorizes the license holder to catch and retain scallops pursuant to the conditions specified on the license.

Scallop Registration Area H (Cook Inlet) means all Federal waters of the GOA west of the longitude of Cape Fairfield (148°50′ W. long.) and north of the latitude of Cape Douglas (58°52′ N. lat.).

Seabird means those bird species that habitually obtain their food from the sea below the low water mark.

Seabird avoidance gear (see §§ 679.24(e), 679.42(b)(2), and Table 19 to this part).

Set means a string of longline gear, a string of pots, or a group of pots with individual pots deployed and retrieved in the water in a similar location with similar soak time. In the case of pot gear, when the pots in a string are hauled more than once in the same position, a new set is created each time the string is retrieved and re-deployed. A set includes a test set, unsuccessful harvest, or when gear is not working and is pulled in, even if no fish are harvested.

Shallow water flatfish (see Table 10 to this part pursuant to §679.20(c).)

Shoreside processor means any person or vessel that receives, purchases, or arranges to purchase, unprocessed groundfish, except catcher/processors, motherships, buying stations, restaurants, or persons receiving groundfish for personal consumption or bait.

Shucking machine means any mechanical device that automatically removes the meat or the adductor muscle from the shell.

Southeast Outside District of the GOA means that part of the Eastern GOA Regulatory Area contained in Statistical Area 650 (see Figure 3 to this part).

Sitka Pinnacles Marine Reserve means an area totaling 2.5 square nm in the GOA, off Cape Edgecumbe, in Statistical Area 650. See Figure 18 to this part.

State means the State of Alaska.

Stationary floating processor means a vessel of the United States operating as a processor in Alaska State waters that remains anchored or otherwise remains stationary in a single geographic location while receiving or processing groundfish harvested in the GOA or BSAI.

Statistical area means the part of any reporting area defined in Figures 1 and 3 to this part, contained in the EEZ.

Stretched mesh size means the distance between opposite knots of a four-sided mesh when opposite knots are pulled tautly to remove slack.

Superexclusive registration area means any State of Alaska designated registration area within the Bering Sea and Aleutian Islands Area where, if a vessel is registered to fish for crab, that vessel is prohibited from fishing for crab in any other registration area during that registration year.

Support vessel means any vessel that is used in support of other vessels regulated under this part, including, but not limited to, supplying a fishing vessel with water, fuel, provisions, fishing equipment, fish processing equipment or other supplies, or transporting processed fish. The term "support vessel" does not include processor vessels or tender vessels.

Suspending official, for purposes of subpart E of this part, means a designee authorized by the Regional Administrator to impose suspension.

Suspension, as used in §679.50, means action taken by a suspending official under §679.50(j) to suspend certification of observers or observer providers temporarily until a final decision is made with respect to decertification.

Tagged halibut or sablefish (see $\S679.40(g)$).

Tanner crab means Chionoecetes species or hybrids of these species.

Target species are those species or species groups, except the "other species" category, for which a TAC is specified pursuant to §679.20(a)(2).

Tax-exempt organization means an organization that received a determination letter from the Internal Revenue Service recognizing tax exemption under 26 CFR part 1 (§§ 1.501 to 1.640).

Tender vessel means a vessel that is used to transport unprocessed fish received from another vessel to a shore-side processor, stationary floating processor, or mothership (see also "buying station").

Transfer means:

(1) Groundfish fisheries of the GOA and BSAI. Any loading, offloading, shipment or receipt of any IFQ sablefish or other groundfish product by a mothership, catcher/processor, shoreside processor, or stationary floating processor, including quantities transferred inside or outside the EEZ, within any state's territorial waters, within the internal waters of any state, at any shoreside processor, stationary floating processor, or at any offsite meal reduction plant.

(2) IFQ halibut and CDQ halibut fisheries. Any loading, offloading, or shipment of any IFQ halibut or CDQ halibut product including quantities transferred inside or outside the EEZ, within any state's territorial waters,

within the internal waters of any state, at any shoreside processor, stationary floating processor, or at any offsite meal reduction plant.

Trawl test areas (see Figure 7 to this part and §679.24(d)).

Unlisted AFA catcher/processor means an AFA catcher/processor permitted to harvest BS pollock under §679.4(1)(2)(ii).

Unrestricted AFA inshore processor means an AFA inshore processor permitted to harvest pollock under §679.4(1)(5)(i)(A).

Unsorted codend is a codend of groundfish that is not brought on board a catcher vessel and that is delivered to a mothership, shoreside processor, or stationary floating processor without the potential for sorting. No other instance of catcher vessel harvest is considered an "unsorted codend." All other catch that does not meet this definition is considered "presorted" whether or not sorting occurs.

U.S. citizen means:

- (1) General usage. Any individual who is a citizen of the United States.
- (2) IFQ program. (i) Any individual who is a citizen of the United States at the time of application for QS; or
- (ii) Any corporation, partnership, association, or other entity that would have qualified to document a fishing vessel as a vessel of the United States during the QS qualifying years of 1988, 1989, and 1990.

U.S.-Russian Boundary means the seaward boundary of Russian waters as defined in Figure 1 to this part.

Vessel Activity Report (VAR) (see §679.5(k)).

Vessel length category means the length category of a vessel, based on the assigned MLOA, used to determine eligibility.

 $Vessel \ operations \ category \ (see \S 679.5(b)(3)).$

Walrus Protection Areas (see $\S679.22(a)(4)$).

Weekly production report (WPR) (see $\S679.5(i)$).

Weekly reporting period means a time period that begins at 0001 hours, A.l.t., Sunday morning (except during the first week of each year, when it starts on January 1) and ends at 2400 hours, A.l.t., the following Saturday night

(except during the last week of each year, when it ends on December 31).

West Yakutat District of the GOA means that part of the Eastern GOA Regulatory Area contained in Statistical Area 640 (see Figure 3 to this part).

Western Aleutian District means that part of the Aleutian Islands Subarea contained in Statistical Area 543 (see Figure 1 to this part).

Western GOA Regulatory Area means that portion of the GOA EEZ that is contained in Statistical Area 610 (see Figure 3 to this part).

Wing tip means the point where adjacent breast lines intersect or where a breast line intersects with the fishing line.

[61 FR 31230, June 19, 1996]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting §679.2, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

EFFECTIVE DATE NOTE: At 71 FR 17381, Apr. 6, 2006, §679.2 was amended by adding a definition of "Groundfish Retention Standard (GRS)" effective Jan. 20, 2008. For the convenience of the user the added text follows:

§ 679.2 Definitions.

* * * * *

Groundfish Retention Standard (GRS) means the retention and utilization standard for groundfish described at §679.27(j).

§ 679.3 Relation to other laws.

- (a) Foreign fishing for groundfish. Regulations governing U.S. nationals fishing in the Russian fisheries are set forth in part 300 of chapter III of this title.
- (b) Domestic fishing for groundfish. (1) The conservation and management of groundfish in waters of the territorial sea and internal waters of the State of Alaska are governed by the Alaska Administrative Code at 5 AAC Chapter 28 and by the Alaska Statutes at Title 16.
- (2) Alaska Administrative Code (5 AAC 39.130) governs reporting and permitting requirements using ADF&G "Intent to Operate" and "Fish Tickets."

- (c) *Halibut*. Additional regulations governing the conservation and management of halibut are set forth in subpart E of part 300 of chapter III of this title.
- (d) King and Tanner crabs. Additional regulations governing conservation and management of king crabs and Tanner crabs in the Bering Sea and Aleutian Islands Area are contained in 50 CFR part 680 and in Alaska Statutes at A.S. 16 and Alaska Administrative Code at 5 AAC Chapters 34, 35, and 39.
- (e) Incidental catch of marine mammals. Regulations governing exemption permits and the recordkeeping and reporting of the incidental take of marine mammals are set forth in §216.24 and part 229 of this title.
- (f) Domestic fishing for high seas salmon. (1) Additional regulations governing the conservation and management of salmon are set forth in §600.705 of this chapter.
- (2) This part does not apply to fishing for salmon by vessels other than vessels of the United States conducted under subpart H, part 660 (West Coast Salmon Fisheries) under the North Pacific Fisheries Act of 1954, 16 U.S.C. 1021-1035, concerning fishing for salmon seaward of Washington, Oregon, and California.
- (3) The Salmon Fishery east of Cape Suckling is administered in close coordination with ADF&G's administration of the State of Alaska's regulations governing the salmon troll fishery off Southeast Alaska. For State of Alaska regulations specifically governing the salmon troll fishery, see 5 Alaska Administrative Code 30 (Yakutat Area), and 5 Alaska Administrative Code 33 (Southeastern Alaska Area).
- (4) Commercial fishing for salmon in the EEZ west of Cape Suckling is not allowed except in three net fisheries managed by the State of Alaska as described in Section 2.2.2 and Appendix C of the Salmon FMP. For State of Alaska regulations governing these fisheries, see 5 Alaska Administrative Code 09 (Alaska Peninsula), 5 Alaska Administrative Code 21 (Cook Inlet), and 5 Alaska Administrative Code 24 (Prince William Sound).

equivalent of IFQ halibut and groundfish species, other than sablefish, that are landed during the same fishing trip.

(ii) A person may sell, barter, or trade a round weight equivalent amount of DSR that is less than or equal to 1 percent of the aggregate round weight equivalent of IFQ sablefish that are landed during the same fishing trip.

(iii) Amounts of DSR retained by catcher vessels under paragraph (j)(1) of this section that are in excess of the limits specified in paragraphs (j)(2)(i) and (ii) may be put to any use, including but not limited to personal consumption or donation, but must not enter commerce through sale, barter, or trade.

[61 FR 31230, June 19, 1996]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting §679.20, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

§ 679.21 Prohibited species bycatch management.

- (a) Applicability. (1) This section applies to all vessels required to have a Federal fisheries permit under § 679.4.
- (2) Except as otherwise provided, this section also applies to all motherships and shoreside processors that receive groundfish from vessels required to have a Federal fisheries permit under § 679.4.
- (b) General. (1) See § 679.2 and Table 2b to this part for definition of prohibited species.
- (2) Prohibited species catch restrictions. The operator of each vessel engaged in directed fishing for groundfish in the GOA or BSAI must:
- (i) Minimize its catch of prohibited species.
- (ii) After allowing for sampling by an observer, if an observer is aboard, sort its catch immediately after retrieval of the gear and, except as provided below, return all prohibited species or parts thereof to the sea immediately, with a minimum of injury, regardless of its condition. The following exceptions are made:
- (A) Salmon prohibited species catch in the BSAI groundfish fisheries under paragraph (c) of this section and § 679.26; and

- (B) Salmon PSQ caught by catcher vessels using trawl gear in the CDQ fisheries under subpart C of this part.
- (3) Rebuttable presumption. Except as provided under paragraph (c) of this section, §679.26, or for salmon PSQ retained by catcher vessels using trawl gear in the CDQ fisheries, there will be a rebuttable presumption that any prohibited species retained on board a fishing vessel regulated under this part was caught and retained in violation of this section.
- (4) Prohibited species taken seaward of the EEZ off Alaska. No vessel fishing for groundfish in the GOA or BSAI may have on board any species listed in this paragraph (b) that was taken in waters seaward of these management areas, regardless of whether retention of such species was authorized by other applicable laws.
- (5) Sablefish as a prohibited species. (See $\S679.24(c)(2)(ii)$.)
- (c) Salmon taken in BSAI trawl fishery—(1) Salmon discard. Except as provided in paragraph (c)(3) of this section, the operator of a vessel and the manager of a shoreside processor must not discard any salmon or transfer or process any salmon under the PSD Program at §679.26, if the salmon were taken incidental to a directed fishery for BSAI groundfish by vessels using trawl gear until the number of salmon has been determined by an observer and the collection of any scientific data or biological samples from the salmon has been completed.
- (2) Salmon retention and storage. (i) Operators of vessels carrying observers aboard and whose fishing operations allow for sorting of BSAI groundfish catch for salmon must retain all salmon bycatch from each haul in a separate bin or other location that allows an observer free and unobstructed physical access to the salmon to count each fish and collect any scientific data or biological samples. Salmon from different hauls must be retained separately in a manner that identifies the haul from which the salmon were taken.
- (ii) Operators of vessels not carrying observers aboard or whose fishing operations do not allow for sorting of BSAI groundfish catch for salmon must ice,

freeze, or store in a refrigerated saltwater tank all salmon taken as bycatch in trawl operations for delivery to the processor receiving the vessel's BSAI groundfish catch.

- (iii) Processors receiving BSAI groundfish harvested in a directed fishery for groundfish using trawl gear must retain all salmon delivered by each trawl vessel during a weekly reporting period in separate bins marked with the vessel's name and ADF&G fish ticket number(s) for each delivery until an observer has counted each salmon and collected any scientific data or biological samples from the salmon delivered to the processor by that vessel. Processors without an observer present must store whole salmon in an iced or frozen state until an observer is available to count each fish. Salmon must be stored at a location that allows an observer free and unobstructed physical access to each salmon.
- (3) Exemption. Motherships and shoreside processors that are not required to obtain observer coverage during a month under §679.50(c) and (d) are not required to retain salmon.
- (4) Assignment of crew to assist observer. Operators of vessels and managers of shoreside processors that are required to retain salmon under paragraph (c)(1) of this section must designate and identify to the observer aboard the vessel or at the shoreside processor a crew person or employee to be responsible for sorting, retention, and storage of salmon. Upon request of the observer, the designated crew person or employee also is responsible for counting salmon and taking biological samples from retained salmon under the direction of the observer.
- (5) Release of salmon. Salmon must be returned to Federal waters as soon as is practicable, with a minimum of injury, regardless of condition, following notification by an observer that the number of salmon has been determined and the collection of any scientific data or biological samples has been completed.
- (d) GOA halibut PSC limits. This section is applicable for vessels engaged in directed fishing for groundfish in the GOA.

- (1) Notification—(i) Proposed and final limits and apportionments. NMFS will publish in the FEDERAL REGISTER proposed and final halibut PSC limits, and apportionments thereof, in the notification required under §679.20.
- (ii) Modification of limits. NMFS, by notification in the FEDERAL REGISTER, may change the halibut PSC limits during the year for which they were specified, based on new information of the types set forth in this paragraph (d)(1).
- (2) Public comment. NMFS will accept public comment on the proposed halibut PSC limits, and apportionments thereof, for a period specified in the notice of proposed halibut PSC limits published in the FEDERAL REGISTER. NMFS will consider comments received on proposed halibut PSC limits and, after consultation with the Council, will publish notification in the FEDERAL REGISTER specifying the final halibut PSC limits and apportionments thereof.
- (3) Trawl gear proposed halibut limit— (i) Notification. After consultation with the Council, NMFS will publish notification in the FEDERAL REGISTER specifying the proposed halibut PSC limit for vessels using trawl gear.
- (ii) Bycatch allowance. The halibut PSC limit specified for vessels using trawl gear may be further apportioned as bycatch allowances to the fishery categories listed in paragraph (d)(3)(iii) of this section, based on each category's proportional share of the anticipated halibut bycatch mortality during a fishing year and the need to optimize the amount of total groundfish harvest under the halibut PSC limit. The sum of all bycatch allowances will equal the halibut PSC limit established under this paragraph (d).
- (iii) Trawl fishery categories. For purposes of apportioning the trawl halibut PSC limit among fisheries, the following fishery categories are specified and defined in terms of round-weight equivalents of these GOA groundfish species for which a TAC has been specified under §679.20:
- (A) Shallow-water species fishery. Fishing with trawl gear during any weekly

reporting period that results in a retained aggregate catch of pollock, Pacific cod, shallow-water flatfish, flathead sole, Atka mackerel, and "other species" that is greater than the retained aggregate amount of other GOA groundfish species or species group.

- (B) Deep-water species fishery. Fishing with trawl gear during any weekly reporting period that results in a retained catch of groundfish and is not a shallow-water species fishery as defined under paragraph (d)(3)(iii)(A) of this section.
- (4) Hook-and-line and pot gear fisheries—(i) Notification. After consultation with the Council, NMFS will publish notification in the FEDERAL REGISTER specifying the proposed and final halibut PSC limits for vessels using hook-and-line gear. The notification also may specify a halibut PSC limit for the pot gear fisheries.
- (ii) Halibut bycatch allowance. The halibut PSC limit specified for vessels using hook-and-line gear may be further apportioned, as bycatch allowances, to the fishery categories listed in paragraph (d)(4)(iii) of this section, based on each category's proportional share of the anticipated halibut bycatch mortality during a fishing year and the need to optimize the amount of total groundfish harvest under the halibut PSC limit. The sum of all bycatch allowances will equal the halibut PSC limit established under this paragraph (d).
- (iii) Hook-and-line fishery categories. For purposes of apportioning the hook-and-line halibut PSC limit among fisheries, the following fishery categories are specified and defined in terms of round-weight equivalents of those GOA groundfish species for which a TAC has been specified under §679.20.
- (A) Demersal shelf rockfish in the Southeast Outside District. Fishing with hook-and-line gear in the Southeast Outside District of the Eastern GOA regulatory area (SEEO) during any weekly reporting period that results in a retained catch of demersal shelf rockfish that is greater than the retained amount of any other fishery category defined under this paragraph (d)(4)(iii).
- (B) Sablefish fishery. Fishing with hook-and-line gear during any weekly

reporting period that results in a retained catch of sablefish that is greater than the retained amount of any other fishery category defined under this paragraph (d)(4)(iii).

- (C) Other hook-and-line fishery. Fishing with hook-and-line gear during any weekly reporting period that results in a retained catch of groundfish and is not a demersal shelf rockfish fishery or a sablefish fishery defined under paragraphs (d)(4)(iii)(A) and (B) of this section.
- (5) Seasonal apportionments—(i) General. NMFS, after consultation with the Council, may apportion each halibut PSC limit or bycatch allowance specified under this paragraph (d) on a seasonal basis.
- (ii) Factors to be considered. NMFS will base any seasonal apportionment of a halibut PSC limit or bycatch allowance on the following types of information:
 - (A) Seasonal distribution of halibut.
- (B) Seasonal distribution of target groundfish species relative to halibut distribution.
- (C) Expected halibut bycatch needs, on a seasonal basis, relative to changes in halibut biomass and expected catches of target groundfish species.
- (D) Expected variations in bycatch rates throughout the fishing year.
- (E) Expected changes in directed groundfish fishing seasons.
- (F) Expected start of fishing effort.
- (G) Economic effects of establishing seasonal halibut allocations on segments of the target groundfish industry
- (iii) Unused seasonal apportionments. Unused seasonal apportionments of halibut PSC limits specified for trawl, hook-and-line, or pot gear will be added to the respective seasonal apportionment for the next season during a current fishing year.
- (iv) Seasonal apportionment exceeded. If a seasonal apportionment of a halibut PSC limit specified for trawl, hook-and-line, or pot gear is exceeded, the amount by which the seasonal apportionment is exceeded will be deducted from the respective apportionment for the next season during a current fishing year.
- (6) Apportionment among regulatory areas and districts. Each halibut PSC

limit specified under this paragraph (d) also may be apportioned among the GOA regulatory areas and districts.

- (7) Halibut PSC closures—(i) Trawl gear fisheries. If, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in either of the trawl fishery categories listed in paragraph (d)(3)(iii) (A) or (B) of this section will catch the halibut by catch allowance, or apportionments thereof, specified for that fishery category under paragraph (d)(1) of this section, NMFS will publish notification in the Federal Register closing the entire GOA or the applicable regulatory area or district to directed fishing with trawl gear for each species and/or species group that comprises that fishing category; provided, however, that when the halibut bycatch allowance, or seasonal apportionment thereof, specified for the shallow-water species fishery is reached, fishing for pollock by vessels using pelagic trawl gear may continue, consistent with other provisions of this part.
- (ii) Hook-and-line fisheries. If, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in any of the three hook-and-line gear fishery categories listed under paragraph (d)(4)(iii) of this section will catch the halibut bycatch allowance, or apportionments thereof, specified for that fishery category under paragraph (d)(1) of this section, NMFS will publish notification in the FEDERAL REGISTER closing the entire GOA or the applicable regulatory area or district to directed fishing with hook-and-line gear for each species and/or species group that comprises that fishing category.
- (iii) Pot gear fisheries. If, during the fishing year, the Regional Administrator determines that the catch of halibut by operators of vessels using pot gear to participate in a directed fishery for groundfish will reach the halibut PSC limit, or seasonal apportionment thereof, NMFS will publish notification in the FEDERAL REGISTER prohibiting directed fishing for groundfish by vessels using pot gear for the remainder of the season to which the halibut PSC limit or seasonal apportionment applies.

- (iv) Nonpelagic trawl gear fisheries—(A) Continued fishing under specified conditions. When the vessels to which a halibut PSC limit applies have caught an amount of halibut equal to that PSC, the Regional Administrator may, by notification in the FEDERAL REGISTER, allow some or all of those vessels to continue to fish for groundfish using nonpelagic trawl gear under specified conditions, subject to the other provisions of this part.
- (B) Factors to be considered. In authorizing and conditioning such continued fishing with bottom-trawl gear, the Regional Administrator will take into account the following considerations, and issue relevant findings:
- (1) The risk of biological harm to halibut stocks and of socio-economic harm to authorized halibut users posed by continued bottom trawling by these vessels.
- (2) The extent to which these vessels have avoided incidental halibut catches up to that point in the year.
- (3) The confidence of the Regional Administrator in the accuracy of the estimates of incidental halibut catches by these vessels up to that point in the year.
- (4) Whether observer coverage of these vessels is sufficient to assure adherence to the prescribed conditions and to alert the Regional Administrator to increases in their incidental halibut catches.
- (5) The enforcement record of owners and operators of these vessels, and the confidence of the Regional Administrator that adherence to the prescribed conditions can be assured in light of available enforcement resources.
- (8) AFA halibut bycatch limitations. Halibut bycatch limits for AFA catcher vessels will be established according to the procedure and formula set out in §679.64(b) and managed through directed fishing closures for AFA catcher vessels in the groundfish fisheries to which the halibut bycatch limit applies.
- (e) BSAI PSC limits—(1) Trawl gear—(i) PSQ reserve. 7.5 percent of each PSC limit set forth in paragraphs (e)(1)(ii) through (v), and (e)(1)(vii) through (e)(1)(ix) of this section is allocated to the groundfish CDQ program as PSQ

reserve. The PSQ reserve is not apportioned by gear or fishery.

(ii) Red king crab in Zone 1. The PSC limit of red king crab caught by trawl vessels while engaged in directed fishing for groundfish in Zone 1 during any fishing year will be specified for up to two fishing years by NMFS, after con-

sultation with the Council, based on abundance and spawning biomass of red king crab using the criteria set out under paragraphs (e)(1)(iii)(A) through (C) of this section. The following table refers to the PSC limits for red king crab that you must follow in Zone 1:

When the number of mature female red king crab is	The zone 1 PSC limit will be
(A) At or below the threshold of 8.4 million mature crab or the effective spawning biomass is less than or equal to 14.5 million lb (6.577 mt)	32,000 red king crab.
(B) Above the threshold of 8.4 million mature crab and the effective spawning biomass is greater than 14.5 but less than 55 million lb (24,948 mt)	97,000 red king crab.
(C) Above the threshold of 8.4 million mature crab and the effective spawning biomass is equal to or greater than 55 million lb	197,000 red king crab.

(iii) Tanner crab (C. bairdi). The PSC limit of C. bairdi crabs caught by trawl vessels while engaged in directed fishing for groundfish in Zones 1 and 2 during any fishing year will be specified for up to two fishing years by NMFS under paragraph (e)(6) of this section, based on total abundance of C. bairdi crabs as indicated by the NMFS annual bottom trawl survey, using the criteria set out under paragraphs (e)(1)(iii)(A) and (B) of this section.

(A) The following table refers to the PSC limits for C. bairdi that you must follow in Zone 1:

When the total abundance of C. bairdi crabs is	The PSC limit will be
(1) 150 million animals or less	0.5 percent of the total abundance minus 20,000 animals
(2) Over 150 million to 270 million animals	730,000 animals
(3) Over 270 million to 400 million animals	830,000 animals
(4) Over 400 million animals	980,000 animals

(B) This table refers to the PSC limits for *C. bairdi* that you must follow in Zone 2.

When the total abundance of C. bairdi crabs is	The PSC limit will be
(1) 175 million animals or less	1.2 percent of the total abundance minus 30,000 animals
(2) Over 175 million to 290 million animals	2,070,000 animals
(3) Over 290 million to 400 million animals	2,520,000 animals
(4) Over 400 million animals	2,970,000 animals

(iv) *C. opilio*. The PSC limit of *C. opilio* caught by trawl vessels while engaged in directed fishing for groundfish

in the COBLZ will be specified annually by NMFS under paragraph (e)(6) of this section, based on total abundance of *C. opilio* as indicated by the NMFS annual bottom trawl survey using the following criteria:

- (A) *PSC Limit.* The PSC limit will be 0.1133 percent of the total abundance, minus 150,000 *C. opilio* crabs, unless;
- (B) Minimum PSC Limit. If 0.1133 percent multiplied by the total abundance is less than 4.5 million, then the minimum PSC limit will be 4.350 million animals; or
- (C) Maximum PSC Limit. If 0.1133 percent multiplied by the total abundance is greater than 13 million, then the maximum PSC limit will be 12.850 million animals.
- (v) Halibut. The PSC limit of halibut caught while conducting any trawl fishery for groundfish in the BSAI during any fishing year is an amount of halibut equivalent to 3,675 mt of halibut mortality.
- (vi) Pacific herring. The PSC limit of Pacific herring caught while conducting any domestic trawl fishery for groundfish in the BSAI is 1 percent of the annual eastern Bering Sea herring biomass. The PSC limit will be apportioned into annual herring PSC allowances, by target fishery, and will be published along with the annual herring PSC limit in the FEDERAL REGISTER with the proposed and final groundfish specifications defined in § 679.20.
- (vii) Chinook salmon. The trawl closures identified in paragraph (e)(7)(viii) of this section will take effect when the Regional Administrator determines

that the PSC limit of 29,000 Chinook salmon caught while harvesting pollock in the BS between January 1 and December 31 is attained.

- (viii) Non-chinook salmon. The PSC limit of non-chinook salmon caught by vessels using trawl gear during August 15 through October 14 in the CVOA is 42 000 fish
- (ix) AI Chinook salmon. The trawl closures identified in paragraph (e)(7)(viii) of this section will take effect when the Regional Administrator determines that the AI PSC limit of 700 Chinook salmon caught while harvesting pollock in the AI between January 1 and December 31 is attained.
- (2) Nontrawl gear, halibut. (i) The PSC limit of halibut caught while conducting any nontrawl fishery for groundfish in the BSAI during any fishing year is the amount of halibut equivalent to 900 mt of halibut mortality.
- (ii) The amount of 7.5 percent of the non-trawl gear halibut PSC limit set forth in paragraph (e)(2)(i) of this section is allocated to the groundfish CDQ program as PSQ reserve. The PSQ reserve is not apportioned by gear or fishery.
- (3) PSC apportionment to trawl fisheries—(i) General. NMFS, after consultation with the Council and after subtraction of PSQ reserve, will apportion each PSC limit set forth in paragraphs (e)(1) (ii) through (viii) of this section into bycatch allowances for fishery categories defined in paragraph (e)(3)(iv) of this section, based on each category's proportional share of the anticipated incidental catch during a fishing year of prohibited species for which a PSC limit is specified and the need to optimize the amount of total groundfish harvested under established PSC limits.
- (ii) Red king crab, C. bairdi Tanner crab, and halibut—(A) General. For vessels engaged in directed fishing for groundfish in the GOA or BSAI, the PSC limits for red king crab, C. bairdi, C. opilio, and halibut will be apportioned to the trawl fishery categories defined in paragraphs (e)(3)(iv) (B) through (F) of this section.
- (B) Red King Crab Savings Subarea (RKCSS). (1) The RKCSS is the portion of the RKCSA between 56°00′ and 56°10′

- N. lat. Notwithstanding other provisions of this part, vessels using non-pelagic trawl gear in the RKCSS may engage in directed fishing for groundfish in a given year, if the ADF&G had established a guideline harvest level the previous year for the red king crab fishery in the Bristol Bay area.
- (2) When the RKCSS is open to vessels fishing for groundfish with nonpelagic trawl gear under (e)(3)(ii)(B)(1) of this section, NMFS, after consultation with the Council, will specify an amount of the red king crab bycatch limit annually established under paragraph (e)(1)(ii) of this section for the RKCSS. The amount of the red king crab bycatch limit specified for the RKCSS will not exceed an amount equivalent to 35 percent of the trawl bycatch allowance specified for the rock sole/flathead sole/"other flatfish" fishery category under this paragraph (e)(3) and will be based on the need to optimize the groundfish harvest relative to red king crab bycatch.
- (C) Incidental catch in midwater pollock fishery. Any amount of red king crab, C. bairdi, C. opilio, or halibut that is incidentally taken in the midwater pollock fishery as defined in paragraph (e)(3)(iv)(A) of this section will be counted against the bycatch allowances specified for the pollock/Atka mackerel/"other species" category defined in paragraph (e)(3)(iv)(F) of this section.
- (iii) Pacific herring. The PSC limit for Pacific herring will be apportioned to the BSAI trawl fishery categories defined in paragraphs (e)(3)(iv) (A) through (F) of this section.
- (iv) Trawl fishery categories. For purposes of apportioning trawl PSC limits among fisheries, the following fishery categories are specified and defined in terms of round-weight equivalents of those groundfish species or species groups for which a TAC has been specified under §679.20.
- (A) Midwater pollock fishery. Fishing with trawl gear during any weekly reporting period that results in a catch of pollock that is 95 percent or more of the total amount of groundfish caught during the week.
- (B) Flatfish fishery. Fishing with trawl gear during any weekly reporting

period that results in a retained aggregate amount of rock sole, "other flatfish," and yellowfin sole that is greater than the retained amount of any other fishery category defined under this paragraph (e)(3)(iv).

- (1) Yellowfin sole fishery. Fishing with trawl gear during any weekly reporting period that is defined as a flatfish fishery under this paragraph (e)(3)(iv)(B) and results in a retained amount of yellowfin sole that is 70 percent or more of the retained aggregate amount of rock sole, "other flatfish," and yellowfin sole.
- (2) Rock sole/flathead sole/"other flat-fish" fishery. Fishing with trawl gear during any weekly reporting period that is defined as a flatfish fishery under this paragraph (e)(3)(iv)(B) and is not a yellowfin sole fishery as defined under paragraph (e)(3)(iv)(B)(1) of this section.
- (C) Greenland turbot/arrowtooth flounder/sablefish fishery. Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of Greenland turbot, arrowtooth flounder, and sablefish that is greater than the retained amount of any other fishery category defined under this paragraph (e)(3)(iv).
- (D) Rockfish fishery. Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of rockfish species that is greater than the retained amount of any other fishery category defined under this paragraph (e)(3)(iv).
- (E) Pacific cod fishery. Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of Pacific cod that is greater than the retained amount of any other groundfish fishery category defined under this paragraph (e)(3)(iv).
- (F) Pollock/Atka mackerel/"other species." Fishing with trawl gear during any weekly reporting period that results in a retained aggregate amount of pollock other than pollock harvested in the midwater pollock fishery defined under paragraph (e)(3)(iv)(A) of this section, Atka mackerel, and "other species" that is greater than the retained amount of any other fishery category defined under this paragraph (e)(3)(iv).

- (v) AFA prohibited species catch limitations. Halibut and crab PSC limits for AFA catcher/processors and AFA catcher vessels will be established according to the procedures and formulas set out in §679.64(a) and (b) and managed through directed fishing closures for AFA catcher/processors and AFA catcher vessels in the groundfish fisheries for which the PSC limit applies.
- (4) Halibut apportionment to nontrawl fishery categories—(i) General. NMFS, after consultation with the Council and after subtraction of PSQ reserve, may apportion the halibut PSC limit for nontrawl gear set forth under paragraph (e)(2)(i) of this section into bycatch allowances for nontrawl fishery categories defined under paragraph (e)(4)(ii) of this section based on each category's proportional share of the anticipated bycatch mortality of halibut during a fishing year and the need to optimize the amount of total groundfish harvested under the nontrawl halibut PSC limit. The sum of all bycatch allowances of any prohibited species will equal its PSC limit.
- (ii) Nontrawl fishery categories. For purposes of apportioning the nontrawl halibut PSC limit among fisheries, the following fishery categories are specified and defined in terms of roundweight equivalents of those BSAI groundfish species for which a TAC has been specified under §679.20.
- (A) Pacific cod hook-and-line fishery. Fishing with hook-and-line gear during any weekly reporting period that results in a retained catch of Pacific cod that is greater than the retained amount of any other groundfish species.
- (B) Sablefish hook-and-line fishery. Fishing with hook-and-line gear during any weekly reporting period that results in a retained catch of sablefish that is greater than the retained amount of any other groundfish species.
- (C) Groundfish jig gear fishery. Fishing with jig gear during any weekly reporting period that results in a retained catch of groundfish.
- (D) Groundfish pot gear fishery. Fishing with pot gear under restrictions set forth in §679.24(b) during any weekly reporting period that results in a retained catch of groundfish.

- (E) Other nontrawl fisheries. Fishing for groundfish with nontrawl gear during any weekly reporting period that results in a retained catch of groundfish and does not qualify as a Pacific cod hook-and-line fishery, a sablefish hook-and-line fishery, a jig gear fishery, or a groundfish pot gear fishery as defined under paragraph (e)(4)(ii) of this section.
- (5) Seasonal apportionments of bycatch allowances—(i) General. NMFS, after consultation with the Council, may apportion fishery bycatch allowances on a seasonal basis.
- (ii) Factors to be considered. NMFS will base any seasonal apportionment of a bycatch allowance on the following types of information:
- (A) Seasonal distribution of prohibited species;
- (B) Seasonal distribution of target groundfish species relative to prohibited species distribution;
- (C) Expected prohibited species bycatch needs on a seasonal basis relevant to change in prohibited species biomass and expected catches of target groundfish species;
- (D) Expected variations in bycatch rates throughout the fishing year;
- (E) Expected changes in directed groundfish fishing seasons;
- (F) Expected start of fishing effort; or
- (G) Economic effects of establishing seasonal prohibited species apportionments on segments of the target groundfish industry.
- (iii) Seasonal trawl fishery bycatch allowances—(A) Unused seasonal apportionments. Unused seasonal apportionments of trawl fishery bycatch allowances made under this paragraph (e)(5) will be added to its respective fishery bycatch allowance for the next season during a current fishing year.
- (B) Seasonal apportionment exceeded. If a seasonal apportionment of a trawl fishery bycatch allowance made under paragraph (d)(5) of this section is exceeded, the amount by which the seasonal apportionment is exceeded will be deducted from its respective apportionment for the next season during a current fishing year.
- (iv) Seasonal nontrawl fishery bycatch allowances—(A) Unused seasonal apportionments. Any unused portion of a sea-

- sonal nontrawl fishery bycatch allowance made under this paragraph (e)(5) will be reapportioned to the fishery's remaining seasonal bycatch allowances during a current fishing year in a manner determined by NMFS, after consultation with the Council, based on the types of information listed under paragraph (e)(5)(ii) of this section.
- (B) Seasonal apportionment exceeded. If a seasonal apportionment of a nontrawl fishery bycatch allowance made under this paragraph (e)(5) is exceeded, the amount by which the seasonal apportionment is exceeded will be deducted from the fishery's remaining seasonal bycatch allowances during a current fishing year in a manner determined by NMFS, after consultation with the Council, based on the types of information listed under paragraph (e)(5)(ii) of this section.
- (6) Notification—(i) General. NMFS will publish in the FEDERAL REGISTER, for up to two fishing years, the annual red king crab PSC limit, and, if applicable, the amount of this PSC limit specified for the RKCSS, the annual C. bairdi PSC limit, the annual C opilio PSC limit, the proposed and final PSQ reserve amounts, the proposed and final bycatch allowances, the seasonal apportionments thereof, and the manner in which seasonal apportionments of nontrawl fishery bycatch allowances will be managed, as required by paragraph (e) of this section.
- (ii) Public comment. Public comment will be accepted by NMFS on the proposed annual red king crab PSC limit and, if applicable, the amount of this PSC limit specified for the RKCSS, the annual C. bairdi PSC limit, the annual C. opilio PSC limit, the proposed and final bycatch allowances, seasonal apportionments thereof, and the manner in which seasonal apportionments of nontrawl fishery bycatch allowances will be managed, for a period specified in the notice of proposed specifications published in the FEDERAL REGISTER.
- (7) Trawl PSC closures—(i) Exception. When a bycatch allowance, or seasonal apportionment thereof, specified for the pollock/Atka mackerel/"other species" fishery category is reached, only directed fishing for pollock is closed to trawl vessels using nonpelagic trawl gear.

- (ii) Red king crab or C. bairdi Tanner crab, Zone 1, closure—(A) General. Except as provided in paragraph (e)(7)(i) of this section, if, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in any of the fishery categories listed in paragraphs (e)(3)(iv) (B) through (F) of this section will catch the Zone 1 bycatch allowance, or seasonal apportionment thereof, of red king crab or C. bairdi Tanner crab specified for that fishery category under paragraph (e)(3) of this section, NMFS will publish in the FEDERAL REGISTER the closure of Zone 1, including the RKCSS, to directed fishing for each species and/or species group in that fishery category for the remainder of the year or for the remainder of the
- (B) RKCSS. If, during the fishing year the Regional Administrator determines that the amount of the red king crab PSC limit that is specified for the RKCSS under §679.21(e)(3)(ii)(B) of this section will be caught, NMFS will publish in the FEDERAL REGISTER the closure of the RKCSS to directed fishing for groundfish with nonpelagic trawl gear for the remainder of the year.
- (iii) C. bairdi Tanner crab, Zone 2, closure. Except as provided in paragraph (e)(7)(i) of this section, if, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in any of the fishery categories listed in paragraphs (e)(3)(iv) (B) through (F) of this section will catch the Zone 2 bycatch allowance, or seasonal apportionment thereof, of C. bairdi Tanner crab specified for that fishery category under paragraph (e)(3) of this section, NMFS will publish in the FEDERAL REGISTER the closure of Zone 2 to directed fishing for each species and/or species group in that fishery category for the remainder of the year or for the remainder of the season.
- (iv) COBLZ. Except as provided in paragraph (e)(7)(i) of this section, if, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in any of the trawl fishery categories listed in paragraphs (e)(3)(iv)(B) through (F) of this section will catch the COBLZ bycatch allowance, or seasonal apportion-

- ment thereof, of *C. opilio* specified for that fishery category under paragraph (e)(3) of this section, NMFS will publish in the FEDERAL REGISTER the closure of the COBLZ, as defined in Figure 13 to this part, to directed fishing for each species and/or species group in that fishery category for the remainder of the year or for the remainder of the season.
- (v) Halibut closure. Except as provided in paragraph (e)(7)(i) of this section, if, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in any of the trawl fishery categories listed in paragraphs (e)(3)(iv)(B) through (F) of this section in the BSAI will catch the halibut bycatch allowance, or seasonal apportionment thereof, specified for that fishery category under paragraph (e)(3) of this section, NMFS will publish in the FEDERAL REGISTER the closure of the entire BSAI to directed fishing for each species and/or species group in that fishery category for the remainder of the year or for the remainder of the season.
- (vi) $Pacific\ herring$ —(A) Closure. Except as provided in paragraph (e)(7)(vi)(B) of this section, if, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in any of the fishery listed in paragraphs categories (e)(3)(iv)(A) through (F) of this section in the BSAI will catch the herring bycatch allowance, or seasonal apportionment thereof, specified for that fishery category under paragraph (e)(3) of this section, NMFS will publish in the FED-ERAL REGISTER the closure of the Herring Savings Area as defined in Figure 4 to this part to directed fishing for each species and/or species group in that fishery category.
- (B) Exceptions—(I) Midwater pollock. When the midwater pollock fishery category reaches its specified bycatch allowance, or seasonal apportionment thereof, the Herring Savings Areas are closed to directed fishing for pollock with trawl gear.
- (2) Pollock/Atka mackerel/ "other species". When the pollock/Atka mackerel/ "other species" fishery category reaches its specified bycatch allowance, or seasonal apportionment thereof, the Herring Savings Areas are

closed to directed fishing for pollock by trawl vessels using nonpelagic trawl gear.

(vii) Chum salmon. If the Regional Administrator determines that 42,000 non-chinook salmon have been caught by vessels using trawl gear during August 15 through October 14 in the CVOA, defined under §679.22(a)(5) and in Figure 2 to this part, NMFS will prohibit fishing with trawl gear for the remainder of the period September 1 through October 14 in the Chum Salmon Savings Area as defined in Figure 9, to this part.

(viii) Chinook salmon. If, during the fishing year, the Regional Administrator determines that catch of Chinook salmon by vessels using trawl gear while directed fishing for pollock in the BSAI will reach the annual limits, as identified in paragraphs (e)(1)(vii) and (e)(1)(ix) of this section, NMFS, by notification in the FEDERAL REGISTER will close the Chinook Salmon Savings Areas, as defined in Figure 8 to this part, to directed fishing for pollock with trawl gear as follows:

- (A) For the BS Chinook salmon PSC limit under paragraph (e)(1)(vii) of this section, area 1 and area 2 in Figure 8 to this part will be closed on the following dates:
- (1) From the effective date of the closure until April 15, and from September 1 through December 31, if the Regional Administrator determines that the annual limit of BS Chinook salmon will be attained before April 15.
- (2) From September 1 through December 31, if the Regional Administrator determines that the annual limit of BS Chinook salmon will be attained after April 15.
- (B) For the AI Chinook salmon limit under paragraph (e)(1)(ix) of this section, area 1 in Figure 8 to this part will be closed on the following dates:
- (1) From the effective date of the closure until April 15, and from September 1 through December 31, if the Regional Administrator determines that the annual limit of AI Chinook salmon will be attained before April 15.
- (2) From September 1 through December 31, if the Regional Administrator determines that the annual limit of AI Chinook salmon will be attained after April 15.

- (8) Nontrawl halibut closures. If, during the fishing year, the Regional Administrator determines that U.S. fishing vessels participating in any of the nontrawl fishery categories listed under paragraph (e)(4) of this section will catch the halibut bycatch allowance, or seasonal apportionment thereof, specified for that fishery category under paragraph (e)(4)(ii) of this section, NMFS will publish in the FEDERAL REGISTER the closure of the entire BSAI to directed fishing with the relevant gear type for each species and/or species group in that fishery category.
- (f) Program to reduce prohibited species bycatch rates—(1) Requirements—(i) General. A vessel's bycatch rate, as calculated at the end of a fishing month under paragraph (f)(8)(ii) of this section, while participating in the fisheries identified in paragraph (f)(2) of this section, shall not exceed bycatch rate standards referenced in paragraph (f)(3) of this section.
- (ii) Applicability. A vessel is subject to this paragraph (f) if the groundfish catch of the vessel is observed on board the vessel, or on board a mothership that receives unsorted codends from the vessel, at any time during a weekly reporting period, and the vessel is assigned to one of the fisheries defined under paragraph (f)(2) of this section.
- (2) Assigned fisheries. During any weekly reporting period, a vessel's observed catch composition of groundfish species for which a TAC has been specified in the GOA or BSAI will determine the fishery to which the vessel is assigned, as follows:
- (i) GOA midwater pollock fishery means fishing with trawl gear in the GOA that results in an observed catch of groundfish from the GOA during any weekly reporting period that is composed of 95 percent or more of pollock when the directed fishery for pollock by vessels using trawl gear other than pelagic trawl gear is closed.
- (ii) GOA other trawl fishery means fishing with trawl gear in the GOA that results in an observed catch of ground-fish from the GOA during any weekly reporting period that does not qualify as a midwater pollock fishery under paragraph (f)(2)(i) of this section.
- (iii) BSAI midwater pollock fishery means fishing with trawl gear in the

BSAI that results in an observed catch of groundfish from the BSAI during any weekly reporting period that is composed of 95 percent or more of pollock when the directed fishery for pollock by vessels using trawl gear other than pelagic trawl gear is closed.

- (iv) BSAI yellowfin sole fishery means fishing with trawl gear in the BSAI that results in a retained aggregate amount of rock sole, "other flatfish," and yellowfin sole caught in the BSAI during any weekly reporting period that is greater than the retained amount of any other fishery under this paragraph (f)(2) and results in a retained amount of BSAI yellowfin sole that is 70 percent or more of the retained aggregate amount of BSAI rock sole, "other flatfish," and yellowfin sole
- (v) BSAI bottom pollock fishery means fishing with trawl gear in the BSAI that results in a retained amount of pollock caught in the BSAI during any weekly reporting period other than pollock harvested in the midwater pollock fishery in the BSAI defined in paragraph (f)(2)(iii) of this section, that is greater than the retained amount of any other fishery defined under this paragraph (f)(2).
- (vi) BSAI other trawl fishery means fishing with trawl gear in the BSAI that results in a retained amount of groundfish caught in the BSAI during any weekly reporting period that does not qualify as a midwater pollock, yellowfin sole, or bottom pollock fishery.
- (3) Notification of bycatch rate standards—(i) Prior notice. Prior to January 1 and July 1 of each year, the Regional Administrator will publish notification in the FEDERAL REGISTER specifying bycatch rate standards for the fisheries identified in this paragraph (f) that will be in effect for specified seasons within the 6-month periods of January 1 through June 30 and July 1 through December 31, respectively.
- (ii) Adjustments. The Regional Administrator may adjust by eatch rate standards as frequently as he or she considers appropriate.
- (4) Factors upon which bycatch rate standards are based. Bycatch rate standards for a fishery and adjustments to such standards will be based on the following information and considerations:

- (i) Previous years' average observed by catch rates for that fishery.
- (ii) Immediately preceding season's average observed by catch rates for that fishery.
- (iii) The bycatch allowances and associated fishery closures specified under paragraphs (d) and (e) of this section
- (iv) Anticipated groundfish harvests for that fishery.
- (v) Anticipated seasonal distribution of fishing effort for groundfish.
- (vi) Other information and criteria deemed relevant by the Regional Administrator.
- (5) Public comment—(i) Prior comment. Bycatch rate standards or adjustments to such standards specified under this section will not take effect until NMFS has published the proposed bycatch rate standards or adjustments to such standards in the FEDERAL REGISTER for public comment for a period of 30 days, unless NMFS finds for good cause that such notification and public comment are impracticable, unnecessary, or contrary to the public interest.
- (ii) Comment after notification. If NMFS decides, for good cause, that by-catch rate standards or adjustments to such standards are to be made effective without affording a prior opportunity for public comment, public comments on the necessity for, and extent of, by-catch rate standards or adjustments to such standards will be received by the Regional Administrator for a period of 15 days after the effective date of notification.
- (iii) Public inspection of data. During any such 15-day period, the Regional Administrator will make available for public inspection, during business hours, the aggregate data upon which bycatch rate standards or adjustments to such standards were based.
- (iv) Written comments. If written comments are received during any such 15-day period that oppose or protest by-catch rate standards or adjustments to such standards issued under this section, NMFS will reconsider the necessity for the bycatch standards or adjustment to such standards and, as soon as practicable after that reconsideration, will either—
- (A) Publish in the FEDERAL REGISTER notification of continued effectiveness

of bycatch rate standards or adjustment to such standards, responding to comments received; or

- (B) Modify or rescind bycatch rate standards or adjustment to such standards.
- (6) Notification of adjustment to bycatch rate standards. Notification of adjustments to bycatch rate standards issued by NMFS under paragraph (f)(3) of this section will include the following information:
- (i) A description of the adjustment to one or more bycatch rate standards specified for a fishery.
- (ii) The reasons for the adjustment and the determinations required under paragraph (f)(4) of this section.
- (iii) The effective date and any termination date of such adjustment. If no termination date is specified, the adjustment will remain in effect until revised by subsequent notification in the FEDERAL REGISTER.
- (7) Vessel bycatch rates—(i) Observed data. For purposes of this section, observed data collected for each haul sampled during a day will include: Date; Federal reporting area where trawl gear for the haul was retrieved; total round weight of groundfish, in metric tons in the portion of the haul sampled by groundfish species or species group for which a TAC has been specified under §679.20; and total round weight of halibut, in kilograms, in the portion of the haul sampled. Observer data from the BSAI trawl fisheries also will include the total number of red king crab in the portion of the haul
- (ii) Observer sampling procedures. (A) NMFS will randomly predetermine the hauls to be sampled by an observer during the time the observer is on a vessel.
- (B) An observer will take samples at random from throughout the haul, and take samples prior to sorting of the haul by the crew for processing or discarding of the catch.
- (C) An observer will sample a minimum of 100 kg of fish from each haul sampled.
- (D) While an observer is at sea, the observer will report to NMFS, on at least a weekly basis, the data for sampled hauls.
- (E) Upon request, the observer will allow the vessel operator to see all ob-

served data set forth under paragraph (f)(7)(i) of this section that the observer submits to NMFS.

- (8) Determination of individual vessel bycatch rates. For each vessel, the Regional Administrator will aggregate from sampled hauls the observed data collected during a weekly reporting period on the total round weight, in metric tons, of each groundfish species or species group for which a TAC has been specified under §679.20 to determine to which of the fisheries described in paragraph (f)(8)(i) of this section the vessel should be assigned for that week.
- (i) Vessel assignment to fisheries—(A) BSAI catcher/processors. Catcher/processors will be assigned to fisheries at the end of each weekly reporting period based on the round-weight equivalent of the retained groundfish catch composition reported on a vessel's WPR that is submitted to the Regional Administrator under § 679.5.
- (B) BSAI catcher vessel delivery in Federal waters. Catcher vessels that deliver to motherships in Federal waters during a weekly reporting period will be assigned to fisheries based on the round-weight equivalent of the retained groundfish catch composition reported on the WPR submitted to the Regional Administrator for that week by the mothership under §679.5.
- (C) BSAI catcher vessel delivery in Alaska State waters. Catcher vessels delivering groundfish to shoreside processors or to motherships in Alaska State waters during a weekly reporting period will be assigned to fisheries based on the round-weight equivalent of the groundfish retained by the processor and reported on an ADF&G fish ticket as required under Alaska State regulations at A.S. 16.05.690.
- (ii) Calculation of monthly bycatch rates—(A) Assigned fishery. At the end of each fishing month during which an observer sampled at least 50 percent of a vessel's total number of trawl hauls retrieved while an observer was aboard (as recorded in the vessel's DFL), the Regional Administrator will calculate the vessel's bycatch rate based on observed data for each fishery to which the vessel was assigned for any weekly reporting period during that fishing month.

(B) Verified observer data. Only observed data that have been checked, verified, and analyzed by NMFS will be used to calculate vessel bycatch rates for purposes of this section.

(C) Calculation. The bycatch rate of a vessel for a fishery defined under paragraph (f)(2) of this section during a fishing month is a ratio of halibut to groundfish that is calculated by using the total round weight of halibut (in kilograms), or total number of red king crab, in samples during all weekly reporting periods in which the vessel was assigned to that fishery and the total round weight of the groundfish (in metric tons) for which a TAC has been specified under §679.20 in samples taken during all such periods.

(9) Compliance with bycatch rate standards. A vessel has exceeded a bycatch rate standard for a fishery if the vessel's bycatch rate for a fishing month, as calculated under paragraph (f)(8)(ii) of this section exceeds the bycatch rate standard established for that fishery under paragraph (f)(2) of this section.

[61 FR 31230, June 19, 1996]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting §679.21, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

§ 679.22 Closures.

- (a) BSAI—(1) Zone 1 (512) closure to trawl gear. No fishing with trawl gear is allowed at any time in reporting Area 512 of Zone 1 in the Bering Sea subarea.
- (2) Zone 1 (516) closure to trawl gear. No fishing with trawl gear is allowed at any time in reporting Area 516 of Zone 1 in the Bering Sea Subarea during the period March 15 through June 15.
- (3) Red King Crab Savings Area (RKCSA). Directed fishing for ground-fish by vessels using trawl gear other than pelagic trawl gear is prohibited at all times, except as provided at §679.21(e)(3)(ii)(B), in that part of the Bering Sea subarea defined as RKCSA in Figure 11 to this part.
- (4) Walrus protection areas. From April 1 through September 30 of any fishing year, vessels with a Federal fisheries permit under §679.4 are prohibited in that part of the Bering Sea subarea between 3 and 12 nm seaward of the baseline used to measure the ter-

ritorial sea around islands named Round Island and The Twins, as shown on National Ocean Survey Chart 16315, and around Cape Pierce (58°33' N. lat., 161°43' W. long.).

- (5) Catcher Vessel Operational Area (CVOA)—(1) Definition. The CVOA is defined as that part of the BSAI that is south of 56°00′ N lat. and between 163°00′ W long. and 167°30′ W long., and north of the Aleutian Islands (Figure 2 to part 679).
- (ii) Catcher/processor restrictions. A catcher/processor vessel authorized to fish for BSAI pollock under §679.4 is prohibited from conducting directed fishing for pollock in the CVOA during the B pollock season defined at §679.23(e)(2)(ii), unless it is directed fishing for Pollock CDQ.
- (6) Pribilof Island Area Habitat Conservation Zone. Trawling is prohibited at all times in the area defined in Figure 10 to this part as the Pribilof Island Area Habitat Conservation Zone.
- (7) Steller sea lion protection areas, Bering Sea subarea—(i) Bogoslof area—(A) Boundaries. The Bogoslof area consists of all waters of area 518 as described in Figure 1 of this part south of a straight line connecting 55°00′ N lat./170°00′ W long., and 55°00′ N lat./168°11′4.75′ W long.:
- (B) Fishing prohibition. All waters within the Bogoslof area are closed to directed fishing for pollock, Pacific cod, and Atka mackerel by vessels named on a Federal Fisheries Permit under §679.4(b), except as provided in paragraph (a)(7)(i)(C) of this section.
- (C) Bogoslof Pacific cod exemption area. (1) All catcher vessels less than 60 ft (18.3 m) LOA using jig or hook-and-line gear for directed fishing for Pacific cod are exempt from the Pacific cod fishing prohibition as described in paragraph (a)(7)(i)(B) of this section in the portion of the Bogoslof area south of a line connecting a point 3 nm north of Bishop Point (54°01′25″ N lat./166°57′00″ W long.) to Cape Tanak (53°33′50″ N lat./168°00′00″ W long.), not including waters of the Bishop Point Pacific cod fishing closures as described in Table 5 of this part.
- (2) If the Regional Administrator determines that 113 mt of Pacific cod have been caught by catcher vessels less than 60 ft (18.3 m) LOA using jig or

§ 679.26 Prohibited Species Donation Program.

(a) Authorized species.

The PSD program applies only to the following species:

- (1) Salmon
- (2) Halibut delivered by catcher vessels using trawl gear to shoreside processors.

(b) Authorized distributors

(1) Application.

An applicant seeking to become an authorized distributor must provide the Regional Administrator with the following information:

- (i) Proof of the applicant's tax-exempt status.
- (ii) A description of the arrangements for processing, shipping, storing, and transporting donated fish and an estimate of the associated costs.
- (iii) A statement describing the applicant's expertise in providing for the distribution of food product from remote Alaskan locations to hunger relief agencies, food bank networks, or food bank distributors, including arrangements for transportation, distribution costs, and product quality control.
- (iv) Documentation of support from cold storage and transportation facilities.
- (v) A proposed operating budget that is adequate to ensure that fish donated under this program will be distributed to hunger relief agencies, food bank networks, or food bank distributors and that the fish will be maintained in a manner fit for human consumption.
- (vi) Proof of the applicant's ability to obtain and maintain adequate funding for the distribution of fish under the PSD program.
- (vii) A copy of the applicant's articles of incorporation and bylaws showing that the purpose of the applicant includes providing food resources to hunger relief agencies, food bank networks, or food bank distributors.

- (viii) Proof of the applicant's ability to take full responsibility for the documentation and disposition of fish received under the PSD program, including sufficient liability insurance to cover public interests relating to the quality of fish distributed for human consumption.
- (ix) Quality control criteria to be followed by vessels, processors, hunger relief agencies, food bank networks, and food bank distributors.
- (x) The number of vessels and processors that the applicant is capable of administering effectively.
- (xi) A list of all vessels and processors, food bank networks and food bank distributors participating in the PSD program. The list of vessels and processors must include:
- (A) The vessel's or processor's Federal fisheries permit number or Federal processor permit number.
- (B) The name of the vessel owner or responsible operator or the name of the owner or plant manager of the processor.
- (C) The vessel's or processor's telephone number and fax number.
- (D) The signature of the vessel owner or responsible operator or the owner or plant manager of the processor.
- (xii) A signed statement from the applicant and from all persons who are listed under paragraph (b)(1)(xi) of this section and who would conduct activities pursuant to the PSD permit waiving any and all claims against the United States and its agents and employees for any liability for personal injury, death, sickness, damage to property directly or indirectly due to activities conducted under the PSD program.
- (xiii) A list of locations where fish must be delivered by participating vessels and processors.
- (xiv) A separate application must be submitted for each species listed under paragraph (a) of this section that the applicant seeks to distribute.

(2) Selection.

The Regional Administrator may select one or more tax-exempt organizations to be authorized distributors under the PSD program based on the information submitted by applicants under paragraph (b)(1) of this section. The number of authorized distributors selected by the Regional Administrator will be based on the following criteria:

- (i) The number and qualifications of applicants for PSD permits.
- (ii) The number of harvesters and the quantity of fish that applicants can effectively administer.
- (iii) The anticipated level of bycatch of prohibited species listed under paragraph (a) of this section.
- (iv) The potential number of vessels and processors participating in the groundfish trawl fisheries.

(3) PSD Permit.

- (i) After review of qualified applicants, the Regional Administrator will announce the selection of authorized distributor(s) in the *Federal Register* and will issue PSD permit(s).
- (ii) The Regional Administrator may impose additional terms and conditions on a PSD permit consistent with the objectives of the PSD program.
- (iii) An PSD permit may be suspended, modified, or revoked under 15 CFR part 904 for noncompliance with terms and conditions specified in the permit or for a violation of this section or other regulations in this part.
- (iv) <u>Effective period</u>. A PSD permit issued for salmon or halibut remains in effect for a 3-year period after the selection notice is published in the *Federal Register* unless suspended or revoked. A PSD permit issued to an authorized distributor may be renewed following the application procedures in this section.
- (v) If the authorized distributor modifies any information on the PSD permit application submitted under paragraphs (b)(1)(xi) or (b)(1)(xiii) of this section, the authorized distributor must submit a modified list of participants or a modified list of delivery locations to the Regional Administrator.

(c) Reporting and Recordkeeping Requirements.

- (1) A vessel or processor retaining prohibited species under the PSD program must comply with all applicable recordkeeping and reporting requirements. A vessel or processor participating in the PSD program must comply with applicable regulations at §§ 679.7(c)(1) and 679.21(c) that allow for the collection of data and biological sampling by a NMFS-certified observer prior to processing any fish under the PSD program.
- (2) Prohibited species retained under the PSD program must be packaged, and all packages must be labeled with the date of processing, the name of the processing facility, the contents and the weight of the fish contained in the package, and the words,

"NMFS PROHIBITED SPECIES DONATION PROGRAM - NOT FOR SALE PERISHABLE PRODUCT - KEEP FROZEN".

(3) A processor retaining or receiving fish under the PSD program and an authorized distributor must keep on file and make available for inspection by an authorized officer all documentation, including receipt and cargo manifests setting forth the origin, weight, and destination of all prohibited species bycatch. Such documentation must be retained until 3 years after the effective period of the PSD permit.

(d) Processing, handling, and distribution.

- (1) Processing and reprocessing of all fish retained under the PSD program must be carried out under the direction of the authorized distributor. A processor retaining or receiving fish under the PSD program, at a minimum, must head, gut, and freeze the fish in a manner that makes it fit for human consumption.
- (2) Fish that are determined to be unfit for human consumption prior to delivery to an authorized distributor must be discarded under § 679.21(b). Fish that are determined to be unfit for human consumption after delivery to the authorized distributor must be destroyed in accordance with applicable sanitation laws and regulations.
- (3) Authorized distributors and persons conducting activities supervised by authorized

50 CFR 679b26.doc § 679.26 Prohibited Species Donation Program

distributors may retain prohibited species only for the purpose of processing and delivering the prohibited species to hunger relief agencies, food networks or food distributors as provided by this section. Such persons may not consume or retain prohibited species for personal use and may not sell, trade or barter, or attempt to sell, trade or barter any prohibited species that is retained under the PSD program, except that processors may convert offal from salmon or halibut that has been retained pursuant to the PSD program into fish meal, fish oil, or bone meal, and sell or trade these products.

(4) No prohibited species that has been sorted from a vessel's catch or landing may be retained by a vessel or processor, or delivered to a delivery location under this section, unless the vessel or processor and delivery location is included on the list provided to the Regional Administrator under paragraph (b)(1)(xi), (b)(1)(xiii) or (b)(3)(v) of this section.

SECTION 515 PRE-DISSEMINATION REVIEW & DOCUMENTATION GUIDELINES

Background

Section 515 of the Treasury and General Government Appropriations Act for Fiscal Year 2001 (Public Law 106-554, aka the Data Quality Act or Information Quality Act) directed the Office of Management and Budget (OMB) to issue government-wide guidelines that "provide policy and procedural guidance to federal agencies for ensuring and maximizing the quality, objectivity, utility, and integrity of information (including statistical information) disseminated by federal agencies." OMB complied by issuing guidelines which direct each federal agency to 1) issue its own guidelines; 2) establish administrative mechanisms allowing affected persons to seek and obtain correction of information that does not comply with the OMB 515 Guidelines or the agency guidelines; and 3) report periodically to OMB on the number and nature of complaints received by the agency and how the complaints were handled. The OMB Guidelines can be found at: http://www.whitehouse.gov/omb/fedreg/reproducible2.pdf

The Department of Commerce Guidelines can be found at: http://www.osec.doc.gov/cio/oipr/iqg.htm

The NOAA Section 515 Information Quality Guidelines, created with input and reviews from each of the components of NOAA Fisheries, went into effect on October 1, 2002. **The NOAA Information Quality Guidelines are posted on the NOAA home page under "Information Quality."** http://www.noaanews.noaa.gov/stories/ig.htm

The guidelines apply to a wide variety of government information products and all types of media, including printed, electronic, broadcast or other. The guidelines define "Information" as, "any communication or representation of knowledge such as facts or data, in any medium or form, including textual, numerical, graphic, cartographic, narrative, or audiovisual forms." For example, this definition includes information that an agency disseminates from a web page. The guidelines define "Dissemination" as, "agency initiated or sponsored distribution of information to the public." Explicitly **not** included within this term is distribution limited to "government employees or agency contractors or grantees; intra- or inter-agency use or sharing of government information; and responses to requests for agency records under the Freedom of Information Act, the Privacy Act, the Federal Advisory Committee Act or other similar law." It also does not include distribution limited to correspondence with individuals or persons, press releases, archival records, public filings, subpoenas or adjudicative processes. (See the NOAA IQ Guidelines, pgs 5-6).

To assist in Data Quality Act compliance, NOAA Fisheries has established a series of actions that should be completed for each new information product subject to the Data Quality Act. (See "Information Generation and Compliance Documentation" and "Pre-Dissemination Review" below.) In addition to the information contained in this document, familiarity with the NOAA Section 515 Information Quality Guidelines (http://www.noaanews.noaa.gov/stories/iq.htm) is crucial for NOAA Fisheries employees who engage in the generation and dissemination of information.

Information Generation and Compliance Documentation

- The fundamental step in the process is to create a Sec. 515 Information Quality file for each new information product. To aid in this process, a Section 515 Pre-Dissemination Review and Documentation form has been created. These guidelines are intended to serve as a supplement to the Pre-Dissemination Review and Documentation Form. The basic steps to the documentation process are outlined below.
- Complete general information (e.g., author/responsible office, title/description) section of the form.
- Determine the information category (i.e., original data; synthesized products; interpreted products; hydrometeorological, hazardous chemical spill, and space weather warnings, forecasts, and advisories; experimental products; natural resource plans; corporate and general information). For most information products, you will only need to check one box. More complex documents may be an "aggregate" of different categories of information products.
- Generate the information in a way that meets each of the applicable standards for the appropriate information category. See the NOAA Information Quality Guidelines.
- Document how the standards for **utility, integrity** and **objectivity** are met for each information product, describing what measures were taken to meet each of the applicable standards. Use the 2 page Pre-Dissemination Review & Documentation Form to document compliance with the Utility and Integrity standards contained in NOAA's Information Quality Guidelines. The Utility and Integrity standards pertain to all categories of information disseminated by NOAA. Use these guidelines (pgs 4-11) to document compliance with the applicable objectivity standards for your information product and attach that documentation to the Pre-Dissemination Review & Documentation Form.
- Maintain the Sec. 515 Information Quality file in a readily accessible place. Pre-Dissemination Review
- Before information is disseminated, it must be reviewed for compliance with the NOAA Sec. 515 Information Quality Guidelines. This is accomplished by reviewing the information and the Sec. 515 Information Quality file.
- The Pre-Dissemination Review should be conducted during the normal course of clearing the information product for release. The person conducting the Pre-Dissemination Review will sign and date the Pre-Dissemination Review & Documentation Form. The reviewing official must be at least one level above the person generating the information product.
- The Pre-Dissemination Review form and the supporting information quality documentation must accompany the information product through the clearance process and be maintained on file.

Completing the Section 515 Pre-Dissemination Review & Documentation Form

Using the Section 515 Pre-Dissemination Review & Documentation Form and these guidelines, document how the information product meets the

following standards for **Utility, Integrity** and **Objectivity. Please note:** Use the Pre-Dissemination Review & Documentation Form to document how the information product complies with the Utility and Integrity standards that pertain to all categories of information products. The Utility and Integrity standards are presented here for your convenience. Use these guidelines to explain how the information product meets the applicable Objectivity standards for the information product and attach that documentation to the Pre-Dissemination Review & Documentation Form.

I. Utility of Information Product

Utility means that disseminated information is useful to its intended users. "Useful" means that the content of the information is helpful, beneficial, or serviceable to its intended users, or that the information supports the usefulness of other disseminated information by making it more accessible or easier to read, see, understand, obtain or use.

- A. Is the information helpful, beneficial or serviceable to the intended user? Explain.
- B. Who are the intended users of the data or information product? (e.g., the American public; other federal agencies; state and local governments; recreational concerns; national and international organizations). Is this data or information product an improvement over previously available information? Is it more detailed or current? Is it more useful or accessible to the public? Has it been improved based on comments or interactions with users?
- C. What media are used in the dissemination of the information? Printed publications? CD-ROM? Internet? Is the product made available in a standard data format?

 Does it use consistent attribute naming and unit conventions to ensure that the information is accessible to a broad range of users with a variety of operating systems and data needs?

II. Integrity of Information Product

Integrity refers to security - the protection of information from unauthorized access or revision, to ensure that the information is not compromised through corruption or falsification. Prior to dissemination, NOAA information, independent of the specific intended distribution mechanism, is safeguarded from improper access, modification, or destruction, to a degree commensurate with the risk and magnitude of harm that could result from the loss, misuse, or unauthorized access to or modification of such information. Please note: all electronic information disseminated by NOAA adheres to the standards set forth in paragraph A below. If the information product is disseminated electronically, simply circle paragraph II(A) on the form. You may also contact your IT Manager for further information.

Explain (circle) how the information product meets the following standards for integrity:

- A. All electronic information disseminated by NOAA adheres to the standards set out in Appendix III, "Security of Automated Information Resources," OMB Circular A-130; the Computer Security Act; and the Government Information Security Reform Act.
- B. If information is confidential, it is safeguarded pursuant to the Privacy Act and Titles 13, 15, and 22 of the U. S. Code (confidentiality of census, business and financial information).
- C. Other/Discussion

(e.g., 50 CFR 600, Subpart E, Confidentiality of Statistics of the Magnuson-Stevens Fishery Conservation and Management Act; NOAA Administrative Order 216-100, Protection of Confidential Fisheries Statistics; 50 CFR 229.11, Confidentiality of information collected under the Marine Mammal Protection Act.)

III. Objectivity of Information Product

- (1) Indicate which one of the following categories of information products apply for this product (check one):
 - Original Data go to Section A
 - Synthesized Products go to Section B
 - Interpreted Products go to Section C
 - Hydrometeorological, Hazardous Chemical Spill, and Space Weather Warnings, Forecasts, and Advisories go to Section D
 - Experimental Products go to Section E
 - Natural Resource Plans go to Section F
 - Corporate and General Information go to Section G
- (2) Describe how this information product meets the applicable objectivity standards.

General Standard: Information is presented in an accurate, clear, complete, and unbiased manner, and in proper context. The substance of the information is accurate, reliable, and unbiased; in the scientific, financial or statistical context, original and supporting data are generated and the analytical results are developed using sound, commonly accepted scientific and research methods. "Accurate" means that information is within an acceptable degree of imprecision or error appropriate to the particular kind of information at issue and otherwise meets commonly accepted scientific, financial and statistical standards.

If the information is "influential," that is, it is expected to have a genuinely clear and substantial impact on major public policy and private sector decisions, it is noted as such and it is presented with the highest degree of transparency. If influential information constitutes an assessment of risks to human health, safety or the environment, indicate whether the risk assessment was qualitative or quantitative, and describe which SDWA-adapted quality standards at page 9 of NOAA's Section 515 Information Quality Guidelines were applied to the information product.

Use of third party information in the product (information not collected or generated by NOAA) is only done when the information is of known quality and consistent with NOAA's Section 515 Guidelines; any limitations, assumptions, collection methods, or uncertainties concerning the information are taken into account and disclosed.

Specific Standards: Specific objectivity standards for categories of information products disseminated by NOAA are listed below. Document how the general and specific objectivity standards for the particular information product were met.

A. Original Data

Original Data are data in their most basic useful form. These are data from individual times and locations that have not been summarized or processed to higher levels of analysis. While these data are often derived from other direct measurements (e.g., spectral signatures from a chemical analyzer, electronic signals from current meters), they represent properties of the environment. These data can be disseminated in both real time and retrospectively. Examples of original data include buoy data, survey data (e.g., living marine resource and hydrographic surveys), biological and chemical properties, weather observations, and satellite data.

Objectivity of original data is achieved using sound quality control techniques.

Detail how the data collection methods, systems, instruments, training, and/or tools are appropriate to meet the requirements of the intended users.

Were the methods, systems, instruments, etc., validated before use?

Were standard operating procedures (SOPs) followed for time series data collections? If not, document the valid scientific reasons for the deviation.

Document the quality control techniques used, for example:

- Gross error checks for data that fall outside of physically realistic ranges (e.g., a minimum, maximum or maximum change)
- Comparisons made with other independent sources of the same measurement
- Examination of individual time series and statistical summaries
- Application of sensor drift coefficients determined by a comparison of pre- and post-deployment calibrations
- Visual inspection of data

Describe any evolution and/or improvements in survey techniques, instrument performance and/or data processing.

Have metadata record descriptions and explanations of the methods and quality controls to which original data are subjected been included in the disseminated product? If not, they must be made available upon request.

B. <u>Synthesized Products</u>

Synthesized Products are those that have been developed through analysis of original data. This includes analysis through statistical methods; model interpolations, extrapolations, and simulations; and combinations of multiple sets of original data. While some scientific evaluation and judgment is needed, the methods of analysis are well documented and relatively routine. Examples of synthesized products include summaries of fisheries landings statistics, weather statistics, model outputs, data display through Geographical Information System techniques, and satellite-derived maps.

The objectivity of synthesized products is achieved by using data of known quality, applying sound analytical techniques, and reviewing the products or processes used to create them before dissemination. For synthesized products, please document the following:

Identify data sources (preferred option) or be prepared to make them available upon request.

Are the data used of known quality or from sources acceptable to the relevant scientific and technical communities?

Are the methods used to create the synthesized product published in standard methods manuals or generally accepted by the relevant scientific and technical communities? Are the methods documented in readily accessible formats by the disseminating office?

Describe the review process used to ensure the validity of the synthesized product or the procedures used to create them, e.g., statistical procedures, models, or other analysis tools.

If the synthesized product is unique or not regularly produced, was this product reviewed by internal and/or external experts?

If this is a routinely produced synthesized product, was the process for developing the product reviewed by internal and/or external experts?

Does the synthesized product include information about the methods used to create the product? If not, the methods must be made available upon request.

C. <u>Interpreted Products</u>

Interpreted Products are those that have been developed through interpretation of original data and synthesized products. In many cases, this information incorporates additional contextual and/or normative data, standards, or information that puts original data and synthesized products into larger spatial, temporal, or issue contexts. This information is subject to scientific interpretation, evaluation, and judgment. Examples of interpreted products include journal articles, scientific papers, technical reports, and production of and contributions to integrated assessments.

Objectivity of interpreted products is achieved by using data of known quality or from sources acceptable to the relevant scientific and technical communities and reliable supporting products, applying sound analytical techniques, presenting the information in the proper context, and reviewing the products before dissemination.

Are all data and information sources identified or properly referenced?

Are the methods used to create the interpreted product generally accepted by the relevant scientific and technical communities? Is information concerning the quality and limitations of the interpreted product provided to help the user assess the suitability of the product for the user's application?

Describe the review process used to ensure that the product is valid, complete, unbiased, objective and relevant. For example, peer reviews, ranging from internal peer review by staff who were not involved in the development of the product to formal, independent, external peer review. The review should be conducted at a level commensurate with the importance of the interpreted product.

Does the interpreted product include a description of the methods used to create the product? If not, they must be made available upon

request.

D. <u>Hydrometeorological, Hazardous Chemical Spill, and Space Weather</u>

Warnings, Forecasts, and Advisories

Hydrometeorological, Hazardous Chemical Spill, and Space Weather Warnings, Forecasts, and Advisories are time-critical interpretations of original data and synthesized products, prepared under tight time constraints and covering relatively short, discrete time periods. As such, these warnings, forecasts, and advisories represent the best possible information in given circumstances. They are subject to scientific interpretation, evaluation, and judgment. Some products in this category, such as weather forecasts, are routinely prepared. Other products, such as tornado warnings, hazardous chemical spill trajectories, and solar flare alerts, are of an urgent nature and are prepared for unique circumstances.

Objectivity of information in this category is achieved by using reliable data collection methods and sound analytical techniques and systems to ensure the highest possible level of accuracy given the time critical nature of the products.

What is the source of the data or information used in the product? Are the data used of known quality or from sources acceptable to the relevant scientific and technical communities? Are the sources included in the information product? If not, they must be made available upon request. Are the methods used to create the product generally accepted by the relevant scientific and technical communities?

Please note if individual best judgment was used due to the time-critical nature of the product.

with developmental algorithms for urgent needs (e.g., wildfire detection).

What mechanisms were used to evaluate the accuracy of the information product? Statistical analysis may be carried out for a subset of products for verification purposes.

E. <u>Experimental Products</u>

Experimental products are products that are experimental (in the sense that their quality has not yet been fully determined) in nature, or are products that are based in part on experimental capabilities or algorithms. Experimental products fall into two classes.

They are either (1) disseminated for experimental use, evaluation or feedback, or (2) used in cases where, in the view of qualified scientists who are operating in an urgent situation in which the timely flow of vital information is crucial to human health, safety, or the environment, the danger to human health, safety, or the environment will be lessened if every tool available is used. Examples of experimental products include imagery or data from non-NOAA sources, algorithms currently being tested and evaluated, experimental climate forecasts, and satellite imagery processed

Objectivity of experimental products is achieved by using the best science and supporting studies available, in accordance with sound and objective scientific practices, evaluated in the relevant scientific and technical communities, and peer-reviewed where feasible.

Describe the science and/or supporting studies used, the evaluation techniques used, and note any peer-review of the experimental product. Were the results of initial tests or evaluations made available where possible? Describe the review, by the appropriate NOAA unit, of the experimental products and capabilities documentation, along with any tests or evaluations.

Are explicit limitations provided concerning the quality of the experimental product? Is the degree of uncertainty indicated? Describe the testing process used, e.g., the experimental product or capabilities are used only after careful testing, evaluation, and review by NOAA experts, and then are approved for provisional use only by selected field offices or other NOAA components. This process is repeated as needed to ensure an acceptable and reliable level of quality.

F. <u>Natural Resource Plans</u>

Natural Resource Plans are information products that are prescribed by law and have content, structure, and public review processes (where applicable) that will be based upon published standards, e.g., statutory or regulatory guidelines. Examples of such published standards include the National Standard Guidelines (50 CFR Part 600, Subpart D), Essential Fish Habitat Guidelines, and Operational Guidelines - Fishery Management Plan Process, all under the Magnuson-Stevens Fishery Conservation and Management Act; and the National Marine Sanctuary Management Plan Handbook (16 U.S.C. section 1434) under the National Marine Sanctuary Act. These Natural Resource Plans are a composite of several types of information (e.g., scientific, management, stakeholder input, and agency policy) from a variety of internal and external sources. Examples of Natural Resources Plans include fishery, protected resource, and sanctuary management plans and regulations, and natural resource restoration plans.

Objectivity of Natural Resource Plans will be achieved by adhering to published standards, using information of known quality or from sources acceptable to the relevant scientific and technical communities, presenting the information in the proper context, and reviewing the products before dissemination.

What published standard(s) governs the creation of the Natural Resource Plan? Does the Plan adhere to the published standards? (See the NOAA Sec. 515 Information Quality Guidelines, Section II(F) for links to the published standards for the Plans disseminated by NOAA.)

Was the Plan developed using the best information available? Please explain.

Have clear distinctions been drawn between policy choices and the supporting science upon which they are based? Have all supporting materials, information, data and analyses used within the Plan been properly referenced to ensure transparency?

Describe the review process of the Plan by technically qualified individuals to ensure that the Plan is valid, complete, unbiased, objective and relevant. For example, internal review by staff who were not involved in the development of the Plan to formal, independent, external peer review. The level of review should be commensurate with the importance of the Plan and the constraints imposed by legally enforceable deadlines.

G. <u>Corporate and General Information</u>

Corporate or general information includes all non-scientific, non-financial, non-statistical information. Examples include program and organizational descriptions, brochures, pamphlets, education and outreach materials, newsletters, and other general descriptions of NOAA operations and capabilities.

Corporate and general information disseminated by NOAA must be presented in a clear, complete, and unbiased manner, and in a context that enhances usability to the intended audience. To the extent possible, identify the sources of the disseminated information, consistent with confidentiality, privacy and security considerations and protections, and taking into account timely presentation, the medium of dissemination, and the importance of the information, balanced against the resources required and the time available.

Information disseminated by NOAA is reliable and accurate to an acceptable degree of error as determined by factors such as the importance of the information, the intended use, time sensitivity, expected degree of permanence, relation to the primary mission(s) of the disseminating office, and the context of the dissemination, balanced against the resources required and the time available.

For non-scientific, non-statistical information, has the information product been reasonably determined to be factually correct in the view of the disseminating office as of the time of dissemination?

Describe the review process for the information product. Review can be accomplished in a number of ways, including but not limited to combinations of the following:

- Active personal review of information by supervisory and management layers, either by reviewing each individual
 dissemination, or selected samples, or by any other reasonable method.
- Use of quality check lists, charts, statistics, or other means of tracking quality, completeness, and usefulness.
- Process design and monitoring to ensure that the process itself imposes checks on information quality.
- Review during information preparation.
- Use of management controls.
- Any other method, which serves to enhance the accuracy, reliability and objectivity of the information.

Administrative Management and Executive Secretariat

NAO 216-100

PROTECTION OF CONFIDENTIAL FISHERIES STATISTICS Eff: 7/18/94; Iss: 7/26/94

SECTION 1. PURPOSE.

- . 01 This Order:
- a. prescribes policies and procedures for protecting the confidentiality of data submitted to and collected by the National Oceanic and Atmospheric Administration (NOAA)/National Marine Fisheries Service (NMFS) as authorized or required by law;

b.informs authorized users of their obligations for maintaining the confidentiality of data received by NMFS:

- c. provides for operational safeguards to maintain the security of data; and
- d. states the penalties provided by law for disclosure of confidential data.

SECTION 2. SCOPE.

This Order covers all confidential data received, collected, maintained, or used by NMFS.

SECTION 3. DEFINITIONS.

- . 01 Access to data means the freedom or ability to use data, conditioned by a statement of nondisclosure and penalties for unauthorized use.
- . 02 **Aggregate or summary form** means data structured so that the identity of the submitter cannot be determined either from the present release of the data or in combination with other releases.
- . 03 **Agreement** refers to all binding forms of mutual commitment under a stated set of conditions to achieve a specific objective.
- . 04 **Assistant Administrator** means the Assistant Administrator for Fisheries, NOAA, or a designee authorized to have access to confidential data.
- . 05 Authorized Use/User.
- a. **Authorized use** is that specific use authorized under the governing statute, regulation, order, contract or agreement.
- b. An **authorized user** is any person who, having the need to collect or use confidential data in the performance of an official activity, has read this Order and has signed a statement of nondisclosure affirming the user's understanding of NMFS obligations with respect to confidential data and the penalties for unauthorized use and disclosure.
- . 06 **Confidential data** means data that are identifiable with any person, accepted by the Secretary, and prohibited by law from being disclosed to the public. The term "as used" does not convey data sensitivity for national security purposes [See Executive Order (E.O.) 12356 dated April 2, 1982].
- . 07 **Data** refers to information used as a basis for reasoning, discussion, or calculation that a person may submit, either voluntarily or as required by statute or regulation.
- . 08 GC means the Office of General Counsel, NOAA.
- . 09 **Person** means any individual (whether or not a citizen or national of the United States), any corporation, partnership, association, or other entity (whether or not organized or existing under the laws of any State), and any Federal, State, local, or foreign government or any entity of such governments, including Regional Fishery Management Councils (Councils).
- .10 Public means any person who is not an authorized user.
- .11 Region means NMFS Regional field offices, Fisheries Science Centers, and associated laboratories.
- .12 Source document means the document, paper, or electronic format on which data are originally recorded.
- .13 **State employee** means any member of a State agency responsible for developing and monitoring the State's program for fisheries or Marine Mammal Protection Act (MMPA) program.
- . 14 Submitter means any person or the agent of any person who provides data to NMFS either

voluntarily or as required by statute or regulation.

SECTION 4. POLICY.

For data subject to this Order, it is NMFS policy that:

- a. confidential data shall only be disclosed to the public if required by the Freedom of Information Act (FOIA), 5 U.S.C. 552, the Privacy Act, 5 U.S.C. 552a, or by court order. Disclosure of data pursuant to a subpoena issued by an agency of competent jurisdiction is a lawful disclosure. Disclosure pursuant to a subpoena must be approved by GC:
- b. individual identifiers shall be retained with data, unless the permanent deletion is consistent with the needs of NMFS and good scientific practice [See Section 6.02c]; and
- c. a notice is required on all report forms requesting data and must comply with 5 U.S.C. 552a(e)(3) and Paperwork Reduction Act requirements in NAO 216-8, Information Collections and Requirements Needing Office of Management and Budget Clearance. [See E.O. 12600 of June 23, 1987, for additional information regarding the rights of submitters to designate commercial confidential data at the time of submission.]

SECTION 5. OPERATIONAL RESPONSIBILITIES.

- . 01 The Regional Director of each region (or, in the case of headquarters, each Office Director) has the responsibility to maintain the confidentiality of all data collected, maintained, and disclosed by the respective region.
- . 02 Each region shall submit to the Assistant Administrator specific procedures governing the collection, maintenance, and disclosure of confidential data. These documents shall be compiled as regional handbooks following the guidelines and standards:
- a. handbooks are to be developed in detail to ensure the maintenance of confidential data on a functional basis in each region; and
- b. handbooks shall be coordinated through the National Data Management Committee (a NMFS group established by the Assistant Administrator to develop data management policies and procedures) and reviewed annually. The regional handbooks will address, at minimum, the contents of Sections 6-7.

SECTION 6. PROCEDURES.

. 01 **Data Collection**. To collect data, the Secretary may use Federal employees, contractor employees, or, pursuant to an agreement, State employees.

a. General Requirements.

- 1. Personnel authorized to collect Federal data must maintain all documents containing confidential data in secure facilities; and
- 2. may not disclose confidential data, whether recorded or not, to anyone not authorized to receive and handle such data.

b. Specific Requirements.

- 1. Each Federal or contractor employee collecting or processing confidential data will be required to read, date, and sign a statement of nondisclosure, that affirms the employee's understanding of NMFS obligations with respect to confidential data and the penalties for unauthorized use and disclosure of the data. Upon signature, the employee's name will be placed on record as an "authorized user," and the employee will be issued certification.
- 2. Data collected by a contractor must be transferred timely to authorized Federal employees; no copies of these data may be retained by the contractor. NMFS may permit contractors to retain aggregated data. A data return clause shall be included in the agreement. All procedures applicable to Federal employees must be followed by contractor employees collecting data with Federal authority.
- 3. Under agreements with the State, each State data collector collecting confidential data will sign a statement at least as protective as the one signed by Federal employees, which affirms that the signer understands the applicable procedures and regulations and the penalties for unauthorized disclosure.

.02 Maintenance.

- a. Maintenance is defined as the procedures required to keep confidential data secure from the time the source documents are received by NMFS to their ultimate disposition, regardless of format. [See National Institute of Standards and Technology "Computer Security Publications, List 91" for guidance.]
- b. Specific procedures in regional handbooks must deal with the following minimum security requirements, as well as any others that may be necessary because of the specific data, equipment, or physical facilities:
- 1. the establishment of an office or person responsible for evaluating requests for access to data;

- 2. the identifications of all persons certified as authorized users. These lists shall be kept current and reviewed on an annual basis;
- 3. the issuance of employee security rules that emphasize the confidential status of certain data and the consequences of unauthorized removal or disclosure;
- 4. the description of the security procedures used to prevent unauthorized access to and/or removal of confidential data;
- 5. the development of a catalog/inventory system of all confidential data received including: the type of source document; the authority under which each item of data was collected; any statutory or regulatory restriction(s) which may apply; and routing from the time of receipt until final disposition; and
- 6. The development of an appropriate coding system for each set of confidential data so that access to data that identifies, or could be used to identify, the person or business of the submitter is controlled by the use of one or more coding system(s). Lists that contain the codes shall be kept secure.
- c. The permanent deletion of individual identifiers from a database shall be addressed on a case-by-case basis. Identifiers may only be deleted after:
- 1. future uses of data have thoroughly been evaluated, e.g., the need for individual landings records for allocating shares under an individual transferable quota program;
- 2. consultation with the agency(s) collecting data (if other than NMFS), the relevant Council(s), and NMFS Senior Scientist; and
- 3. concurrence by the Assistant Administrator has been received prior to deletion.
- .03 Access to Data Subject to This Order.
 - a. **General Requirements.** In determining whether to grant a request for access to confidential data, the following information shall be taken into consideration:
- 1. the specific types of data required;
- the relevance of the data to the intended uses;
- 3. whether access will be continuous, infrequent, or one-time;
- 4. an evaluation of the requester's statement of why aggregate or nonconfidential summaries of data would not satisfy the requested needs; and
- 5. the legal framework for the disclosure, in accordance with GC and this Order.
- b. **Within NMFS.** NMFS employees requesting confidential data must have certification as being authorized users for the particular type of data requested.
 - b. Councils. Upon written request by the Council Executive Director:
- 1. "authorized user" status for confidential data collected under the Magnuson Fishery Conservation and Management Act (Magnuson Act) may be granted to a Council for use by the Council for conservation and management purposes consistent with the approval of the Assistant Administrator as described in 50 CFR 603.5;
- 2. "authorized user" status for confidential data, collected under the Magnuson Act and MMPA, will be granted to Council employees who are responsible for Fishery Management Plan development and monitoring; and
- 3. Councils that request access to confidential data must submit, on an annual basis, a copy of their procedures for ensuring the confidentiality of data to the region, or in the case of intercouncil fisheries, regions. The procedures will be evaluated for their effectiveness and, if necessary, changes may be recommended. As part of this procedure, an updated statement of nondisclosure will be included for each employee and member who requires access to confidential data.

d. States.

- 1. Requests from States for confidential data shall be directed in writing to the NMFS office that maintains the source data.
- 2. Each request will be processed in accordance with any agreement NMFS may have with the State:
- (a) confidential data collected **solely** under Federal authority will be provided to a State by NMFS only if the Assistant Administrator finds that the State has authority to protect the confidentiality of the data comparable to, or more stringent than, NMFS' requirements; and
- (b) the State will exercise its authority to limit subsequent access and use of the data to those uses allowed by authorities under which the data was collected.

- 3. If the State has no agreement with NMFS for the collection and exchange of confidential data, the request shall be treated as a public request and disclosure may be denied subject to FOIA or the Privacy Act.
- 4. Where a State has entered into a cooperative exchange agreement with another State(s), NMFS will facilitate transfer or exchange of State collected data in its possession if:
- (a) NMFS has written authorization for data transfer from the head of the collecting State agency; and
- (b) the collecting State has provided NMFS a list of authorized users in the recipient State(s); and
- (c) the collecting State agrees to hold the United States Government harmless for any suit that may arise from the misuse of the data.

e. Contractors.

- 1. Pursuant to an agreement with NMFS, a NMFS contractor (including universities, Sea Grant investigators, etc.) may be granted "authorized user" status consistent with this Order if the use furthers the mission of NMFS
- 2. The region will notify the contractor of its decision on access in writing within 30 calendar days after receipt of the request.
- 3. Contingent upon approval, the contractor will be provided with details regarding conditions of data access, any costs involved, formats, timing, and security procedures. If the request is denied, the reason(s) for denial will be given by the NMFS office involved. The denial will not preclude NMFS consideration of future requests from the contractor.
- 4. If access is granted, language in the agreement specifically dealing with confidentiality of data will be required. The language shall include all of the relevant portions of this Order and shall prohibit the further disclosure of the data. No data may be retained beyond the termination date of the agreement; and any disclosure of data derived from the accessed confidential data must be approved by NMFS.
- 5. Each agreement shall be reviewed by GC prior to its execution, and shall, to the extent possible, be consistent with the model agreement contained in Appendix D (Not included --WebEd).
- f. **Submitters.** The Privacy Act allows for data to be released back to the submitter upon receipt and verification of a written request stating the data required.
- 04. **Requests for Confidential Data**. NMFS is authorized to collect data under various statutes [See Appendix A (Not include --WebEd)]. Two types of statutes govern the disclosure of confidential data collected by the Federal Government, those that contain specific and non-discretionary language within the Act, and those that provide overall guidance to the Federal Government. Sections of these Acts that deal with exceptions to disclosure may be found in Appendix B (Not included -- WebEd).

a. Magnuson Act and MMPA.

- 1. Data collected under 16 U.S.C. 1853 (a) or (b), and 16 U.S.C. 1383a (c),(d),(e),(f),or (h) will be handled in the following manner:
- (a) data will only be disclosed to Federal employees and Council employees who are responsible for management plan development and monitoring; State employees pursuant to an agreement with the Secretary that prevents public disclosure of the identity or business of any person; a Council for conservation and management purposes [not applicable for MMPA data] or when required by court order. [See 50 CFR 229.10 and part 603];
- (b) Council advisory groups are not permitted access to such confidential data [See 50 CFR 601.27(b)];
- (c) requests from States that do not have an agreement with the Secretary will be processed in accordance with the Privacy Act or FOIA; and
- (d) data collected by an observer under 16 U.S.C. 1853 (a) or (b) are not considered to have been "submitted to the Secretary by any person," and therefore are not confidential under Section 6.04.a of this Order. Data collected by an observer may be withheld from disclosure under the Privacy Act, or subsections (b)(3),(4),(5),(6), or (7) of FOIA.
- 2. Confidential data submitted to the Secretary under other Sections of the Magnuson Act or MMPA may only be disclosed in accordance with the Privacy Act or FOIA. Types of data and the collection authority may include among others:
- (a) Processed Product Data -- 16 U.S.C. 1854(e);
- (b) Fish Meal and Oil, Monthly -- 16 U.S.C. 1854(e);
- (c) Data Collected Under State Authority and Provided to NMFS -- 16 U.S.C. 1854(e); and

- (d) Tuna-Dolphin Observer Program -- 16 U.S.C. 1361 et seq.
- b. **South Pacific Tuna Act.** Data collected under South Pacific Tuna Act 16 U.S.C. 973j is protected from disclosure to the public in accordance with section 973j(b).
- c. **Other Statutes**. Confidential data collected under other NMFS programs as authorized by statutes other than South Pacific Tuna Act (16 U.S.C 973j), MMPA (16 U.S.C. 1361 et seq.), and Magnuson Act (16 U.S.C. 1801 et seq.), may only be disclosed to the public in accordance with the Privacy Act and FOIA. Types of data and the collection authority may include among others:
- (1) Monthly Cold Storage Fish Report -- 16 U.S.C. 742(a);
- (2) Market News Data -- 16 U.S.C. 742(a); and
- (3) Seafood Inspection Data -- 7 U.S.C. 1621 et seq.
- d. Special Procedures.
- 1. **Cold Storage Summary Reports.** NMFS publishes monthly cold storage holdings of fishery products. Advance knowledge of the content of

these reports could give those who trade in the products an opportunity to gain competitive advantage. Therefore, in addition to the confidential protection provided to individual reports, the monthly summary report will not be disclosed to the public until 3:00 p.m. Eastern Time of the official release date. Release dates for these data are published 1 year in advance in November, and can be obtained from the NMFS Fisheries Statistics Division.

- 2. **Surplus commodity purchases by USDA.** NMFS and the Department of Agriculture (USDA) have an interagency agreement relating to the purchase of surplus fishery products. NMFS is responsible for providing confidential data and recommendations to the USDA regarding these purchases. Advance knowledge of these data could cause a competitive advantage or disadvantage to the general public, fishing industry, and the program. Therefore, all NMFS personnel engaged in the surplus commodity purchase program will be required to sign a specific "USDA Responsibility Statement." A copy will be maintained in the Office of Trade Services.
- 3. **Agreements for Disclosure of Confidential Data.** A letter of agreement may authorize the disclosure of confidential data when both the Government and the submitter agree to disclosure of the data. The need to provide security for the data will vary depending on the type of data collected and the form of the disclosure. Disclosure can be undertaken if all the following conditions are met:
- (a) the person has agreed in writing to the disclosure and is aware that disclosure is irrevocable;
- (b) the recipient has been informed in writing of the sensitivity of the data; and
- (c) the wording of the agreement has been approved by GC.
- . 05 Disposal. NAO 205-1, NOAA Records Management Program, shall govern the disposition of records covered under this Order.

SECTION 7. PENALTIES.

- . 01 **Civil and Criminal**. Persons who make unauthorized disclosure of confidential data may be subject to civil penalties or criminal prosecution under:
- a. Trade Secrets Act (18 U.S.C. 1905);
- b. Privacy Act (5 U.S.C. 552a(i)(1));
- c. Magnuson Act (16 U.S.C. 1858); and
- d. MMPA (16 U.S.C. 1375).
- . 02 **Conflict of Interest**. Employees are prohibited by Department of Commerce employee conduct regulations [15 CFR part 0] and by ethics regulations applicable to the Executive Branch [5 CFR 2635.703] from using nonpublic information subject to this Order for personal gain, whether or not there is a disclosure to a third party.
- . 03 **Disciplinary Action.** Persons may be subject to disciplinary action, including removal, for failure to comply with this Order. Prohibited activities include, but are not limited to, unlawful disclosure or use of the data, and failure to comply with implementing regulations or statutory prohibitions relating to the collection, maintenance, use and disclosure of data covered by this Order.

SECTION 8. EFFECT ON OTHER ISSUANCES. None.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 000905252-0339-02; I.D. 080700D]

RIN 0648-AN98

Fisheries of the Exclusive Economic Zone Off Alaska; Prohibited Species Donation Program

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule, permanent extension of the Pacific halibut donation program.

SUMMARY: NMFS issues a final rule that permanently extends the existing regulations that establish and govern the voluntary Pacific halibut donation program. Under this program, Pacific halibut that is taken incidentally in groundfish trawl fisheries off Alaska may be donated for consumption by economically disadvantaged individuals rather than discarded, as normally required. This action is necessary to promote the goals and objectives of the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (BSAI) and the Fishery Management Plan for Groundfish of the Gulf of Alaska (GOA) (FMPs). The intended effect of this action is to reduce the amount of regulatory discards in the groundfish fisheries.

DATES: Effective January 1, 2001. **ADDRESSES:** Copies of the regulatory impact review and environmental assessment prepared for this action may be obtained from NMFS, Alaska Region, P.O. Box 21668, Juneau, AK 99802, Attn: Lori Gravel, or by calling the Alaska Region, NMFS, at 907-586-7228. Comments regarding burden estimates for collection-of-information requirements should be sent to NMFS, Alaska Region, and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attn: NOAA Desk Officer). Send comments on any

ambiguity or unnecessary complexity arising from the language used in this final rule to Sue Salveson, Assistant Regional Administrator, NMFS, Alaska Region, P.O. Box 21668, Juneau, AK 99802.

FOR FURTHER INFORMATION CONTACT: Melanie Brown, 907-586-7228.

SUPPLEMENTARY INFORMATION: The domestic groundfish fisheries in the exclusive economic zone off Alaska are managed by NMFS under the Alaska groundfish FMPs. The FMPs were prepared by the North Pacific Fishery Management Council (Council) under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Regulations governing the Alaska groundfish fisheries appear at 50 CFR parts 600 and 679. Fishing for Pacific halibut in waters in and off Alaska is governed by the Convention between the United States and Canada for the Preservation of the Halibut Fishery of the Northern Pacific Ocean and Bering Sea and by regulations adopted by the International Pacific Halibut Commission (IPHC) and approved by the Secretary of State of the United States pursuant to section 4 of the North Pacific Halibut Act (16 U.S.C. 773-773k). Regulations of the IPHC are published as annual management measures in the Federal Register each year pursuant to regulations at 50 CFR

The Prohibited Species Donation (PSD) program regulations at 50 CFR 679.26 include provisions for the donation of those trawl-caught halibut that are delivered by catcher vessels to shoreside processors. A final rule published in the **Federal Register** (63 FR 32144, June 12, 1998) authorized voluntary distribution of halibut taken as bycatch in the groundfish trawl fishery to needy individuals by tax-exempt organizations through a NMFS-authorized distributor.

The program is limited to dead halibut landed by trawl catcher vessels to shoreside processors. Many of the halibut taken in the groundfish fisheries are discarded alive. However, dead halibut are sometimes landed shoreside by trawl catcher vessels because at-sea sorting of catch is not practicable. This action has no impact on the halibut

resource because the groundfish fisheries are restricted by halibut by catch mortality limits that require closure of specified fisheries when a limit has been reached. This final rule has no impact on target and non-target species of the groundfish fisheries harvested because it has no effect on harvest amounts or patterns. In 1998 and 1999, 21,196 lb (9,635 kg) and 6,190 lb (2,814 kg) of eviscerated halibut were donated through the PSD program, respectively. NMFS estimates that the halibut donation program provided 65,000 meals to economically disadvantaged individuals in the western Washington Puget Sound area in 1998. No violations of the halibut donation regulations have been reported or observed.

Without this final rule the halibut part of the PSD program would have expired on December 31, 2000. This sunset provision was advocated by the Council and the IPHC so that management agencies could assess the effectiveness of the halibut donation program, relative to the program's objectives, before the Council took action to extend the program beyond the year 2000.

At its June 2000 meeting, the Council requested NMFS to initiate rulemaking to permanently extend the halibut donation program. The Council also endorsed a recommendation by IPHC staff to review the program every 3 years and assess whether regulatory changes should be pursued to respond to any management or enforcement concerns that may arise in the future. With this rulemaking, NMFS permanently extends the existing halibut provisions of the PSD program. This action makes no other changes to the existing PSD program. NMFS, the Council, and the IPHC will conduct a periodic review of the program and the regulations could be revised in the future, if necessary, to respond to new concerns.

A proposed rule to permanently implement the Pacific halibut donation program was published in the **Federal Register** for a 15-day public review and comment period (65 FR 56860, September 20, 2000). No written comments were received during the comment period.

Classification

The Administrator, Alaska Region, NMFS (Regional Administrator), has determined that this final regulatory amendment is consistent with the FMPs, the Magnuson-Stevens Act, and

other applicable laws.

The Chief Counsel for Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration that this rule would not have a significant economic impact on a substantial number of small entities. No comments were received regarding this certification. As a result, a regulatory flexibility analysis was not prepared.

The Assistant Administrator for Fisheries, NOAA (AA), finds for good cause under 5 U.S.C. 553(d)(3) that delaying the effectiveness of this final rule for 30 days would be contrary to the public interest. Such a delay would cause the Pacific halibut donation program to expire. The intent of this action is to have that program continue without interruption so that its benefits to economically disadvantaged individuals can continue. Further, the program is voluntary and no individual has to take any action because the program remains in effect. Accordingly, the AA is making the extension effective January 1, 2001.

This final rule has been determined to be not significant for purposes of E.O. 12866.

The Regional Administrator determined that activities conducted pursuant to this rule will not affect endangered and threatened species or critical habitat under the Endangered Species Act (ESA).

Pursuant to section 7 of the ESA, NMFS has completed a consultation on the effects of the groundfish fishery on listed species. Reasonable and prudent alternatives have been implemented to mitigate the adverse impacts of the pollock fisheries on the western

population of Steller sea lion and its critical habitat (65 FR 3892, January 25, 2000, and extended at 65 FR 36795. June 12, 2000). NMFS also completed consultations on the effects of the 2000 BSAI groundfish fisheries on listed species and on critical habitat. These consultations were completed December 23, 1999, and concluded that the proposed fisheries were not likely to cause jeopardy or adverse modification to designated critical habitat. However, in an order dated January 25, 2000, the District Court for the Western District of Washington (Court) concluded that NMFS must consult pursuant to section 7 of the ESA on the fishery management plans for the groundfish fisheries of the BSAI and GOA. Greenpeace v. NMFS, Civ. No. 98-49ZZ (W.D. Wash.). On August 7, 2000, the Court issued an injunction, effective August 8, 2000, prohibiting fishing for groundfish with trawl gear in the exclusive economic zone within Steller sea lion critical habitat west of 144° W. long. until NMFS issues a comprehensive biological opinion adequately analyzing the full scope of the FMPs. (Greenpeace v. NMFS, 106 F. Supp. 2d 1066 (W.D. Wash. 2000)). The critical habitat areas closed by the Court's injunction are defined in regulations codified at 50 CFR 226.202, and in Tables 1 and 2 to 50 CFR part 226. Pursuant to the ESA, NMFS published an interim final rule prohibiting fishing for groundfish with trawl gear in Steller sea lion critical habitat specified in the Court's injunction (65 FR 49766, August 15, 2000). This interim final rule was effective August 9, 2000, and will remain in effect until the Court orders otherwise. NMFS has developed a comprehensive biological opinion that evaluates the effects of the FMPs on endangered and threatened species and their critical habitat as required by the Court.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reducation Act (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) control number.

This rule contains collection-ofinformation requirements subject to the PRA. These collections of this information have been approved under OMB control number 0648-0316. Public reporting burden (per individual) for these collections of information, including both salmon and halibut donations, is estimated to average as follows: 40 hours every 3 years per application and 40 hours per year for completing a list of vessels and processors for a NMFS authorized distributor; 9 hours per year (0.1 hrs for 90 processing days) for vessel and processor labeling and product tracking documentation; and 15 minutes per year for vessels/processor documentation. The estimated response times listed include the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collections of information.

Send comments regarding this burden estimate, or any other aspect of these data collections, including suggestions for reducing the burden, to NMFS and OMB (see ADDRESSES).

The President has directed Federal agencies to use plain language in their communications with the public, including regulations. To comply with this directive, we seek public comment on any ambiguity or unnecessary complexity arising from the language used in this final rule. Such comments should be sent to NMFS, Alaska Region (see ADDRESSES).

List of Subjects in 50 CFR Part 679

Alaska, Fisheries, Recordkeeping and reporting requirements.

Dated: December 8, 2000.

William T. Hogarth,

Deputy Assistant Administrator for Fisheries, National Marine Fisheries Service.

For the reasons set forth in the preamble, 50 CFR part 679 is amended as follows:

PART 679—FISHERIES OF THE EXCLUSIVE ECONOMIC ZONE OFF ALASKA

1. The authority citation for 50 CFR part 679 continues to read as follows:

Authority: 16 U.S.C. 773 *et seq.*, 1801 *et seq.*, and 3631 *et seq.*; Title II of Division C, Pub. L. 105-277; Sec. 3027, Pub. L. 106-31, 113 Stat. 57; 16 U. S. C. 1540(f).

2. In § 679.26, paragraphs (a)(2) and (b)(3)(iv) are revised to read as follows:

§ 679.26 Prohibited Species Donation Program (PSD).

- (a) * * *
- (2) Halibut delivered by catcher vessels using trawl gear to shoreside processors.
 - (b) * * *
 - (3) * * *
- (iv) Effective period. A PSD permit issued for salmon or halibut remains in effect for a 3-year period after the

selection notice is published in the **Federal Register** unless suspended or revoked. A PSD permit issued to an authorized distributor may be renewed following the application procedures in this section.

* * * * *

numbers must be a specific size at specified locations. The display of the identifying number aids in fishery law enforcement.

II. Method of Collection

No information is collected.

III. Data

OMB Number: 0648–0361. *Form Number:* None.

Type of Review: Regular submission. Affected Public: Business or other forprofit organizations.

Estimated Number of Respondents: 2,000.

Estimated Time Per Response: 45 minutes.

Estimated Total Annual Burden Hours: 1,500.

Estimated Total Annual Cost to Public: \$20,000.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: November 7, 2007.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Prohibited Species Donation Program

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be

DATES: Written comments must be submitted on or before January 14, 2008. ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instruments and instructions should be directed to Patsy A. Bearden, (907) 586–7008 or patsy.bearden@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service (NMFS), Alaska Region seeks to renew a collection of information for the continued management of the Prohibited Species Donation Program (PSD Program). Certain incidental catch of prohibited species, salmon and Pacific halibut, cannot be retained by fishing vessels due to management controls, and such prohibited species are usually discarded. Under the PSD Program, these fish may be donated to certain tax exempt groups for distribution to needy individuals. NMFS uses the information on the PSD distributor application to determine an organization's nonprofit status. In addition, the application provides information about the ability of the organization to arrange for and distribute donated salmon and Pacific halibut as a high quality food product. If the application requests distribution of more than one type of prohibited species, complete information must be supplied for each species, noting any differences in procedure. NMFS publishes notice of the selection of PSD distributors in the Federal Register. The reporting documentation is required to monitor the PSD Program and to ensure that donations go to authorized parties for legitimate purposes.

II. Method of Collection

The application to become a PSD distributor is submitted to NMFS as a letter, which can be mailed or attached to an e-mail. Processor and distributor maintain records required to track salmon and Pacific halibut retained

under the PSD Program, and distributors keep updated lists of program participants.

III. Data

OMB Number: 0648–0316. Form Number: None.

Type of Review: Regular submission.

Affected Public: Not-for-profit

institutions.

Estimated Number of Respondents: 21.

Estimated Time Per Response: 40 hours for an application to become a NMFS authorized distributor; 12 minutes for Distributor's List of PSD Program Participants; 12 minutes for Distributor's product monitoring and retention of records; and 6 minutes for labeling, product tracking, and retention of records by processor.

Estimated Total Annual Burden Hours: 229.

Estimated Total Annual Cost to Public: \$ 0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: November 7, 2007.
