

Safe Burning Practices

- Burn in a safe container.
- Clear an area at least 6 feet (2m) around your burn barrel or pile.
- Cover barrel with mesh screen with holes no bigger than $\frac{3}{4}$ ".
- NEVER leave your fire unattended.
- Have a shovel and water source readily available.
- Do not burn on windy days.
- Burn early in the morning or late evening when the wind is down and the humidity up.
