Kansas

\$2,971,759 in Academic Competitiveness Grants (ACG) awarded to 3,783 students

\$2,310,710 in National Science and Mathematics Access to Retain Talent (SMART) Grants awarded to 770 students

For ACG and National SMART Grants, students must 1) apply for financial aid by submitting the Free Application for Federal Student Aid (FAFSA) and be determined to be eligible for a Federal Pell Grant; 2) be a U.S. citizen; 3) be enrolled in a two- or four-year degree program; and 4) be enrolled full-time.

The following are Kansas's pre-approved rigorous high school programs of study students must complete to earn an Academic Competitiveness Grant:

- A set of courses similar to the State Scholars Initiative;
- Advanced Placement (AP) or International Baccalaureate (IB) courses and test scores;
- Kansas Scholars Curriculum.

For more information about these programs visit: <u>http://www.ed.gov/programs/smart/performance.html</u>

STUDENTS SHOULD SELF-IDENTIFY ON THE FAFSA THAT THEY TOOK ONE OF THESE PROGRAMS

Academic Competitiveness and National SMART Grants were created in 2006 as part of the President's American Competitiveness initiative. Congress appropriated \$4.5 billion for the programs between 2006 and 2011.

Last year, the Department of Education set a goal to double the number of students receiving ACG and National SMART Grants by 2010-11. States, colleges, and high schools should promote ACG and National SMART Grants because completing a rigorous high school program is the best way to increase college readiness, reduce remediation, and increase college completion rates for low-income students. Increased postsecondary attainment will help the United States compete in the 21st century.

In addition to the Pell Grant amount, up to \$750 will be awarded to eligible first-year ACG students, and up to \$1,300 to second-year ACG students. Up to \$4,000 will be awarded to eligible National SMART Grant students for each year, in addition to the Pell Grant funds. *Colleges and universities should package these grants with the other aid, including state and institutional awards, to provide low-income students an early commitment that if they complete high school and take challenging courses, college expenses can be fully paid.*

Kansas 2007-2008

Top five schools in Kansas with the highest number of ACG recipients:				
1. Kansas State University	760			
2. University of Kansas	511			
3. Butler County Community College	227			
4. Pittsburg State University	221			
5. Fort Hayes State University	202			

Top five schools in Kansas with the highest number of National SMART Grant recipients:				
1. Kansas State University	237			
2. Pittsburg State University	103			
3. University of Kansas	97			
4. Wichita State University	78			
5. Fort Hays State University	52			

Kansas's Top National SMART Grant majors:	Top Foreign Languages:
1. Biological and Biomedical Sciences	1. N/A
2. Physical Sciences	2. N/A
3. Engineering	3. N/A

The effort in the second year of implementation can be improved upon going forward. To do this, high school and postsecondary personnel, state policymakers, and access advocates should:

- 1. Know your state's approved programs of rigorous study.
- 2. Accept the challenge to double the number of students in Kansas receiving ACG and National SMART Grants by 2010-11.
- 3. Advocate for low-income students' access to rigorous, college preparatory classes, and pursuit of high-demand, high-wage majors in the National SMART Grant program.

Under the ACG program regulations, institutions only have to review the eligibility of a student that has self-identified on the FAFSA as having taken an approved rigorous course of study in high school. Therefore, it is important that your high school students know which approved course of study they've completed and indicate it on the FAFSA. Institutions should consider reviewing the eligibility of all Pell Grant recipients for Academic Competitiveness Grants.
