

National Database Reviews/Appropriateness of Use Evaluations (AUEs) and National Drug Utilization Evaluations (DUEs)

NATIONAL DATABASE REVIEWS/APPROPRIATE USE EVALUATIONS
SSRIs and concomitant use with codeine-containing products
Sildenafil citrate and concomitant use with nitrate/nitrite-containing products
HMGCo-A reductase inhibitor use with protease inhibitors
Oxycodone Use/Misuse
Nifedipine immediate-release versus sustained-release products
High dose Vitamin D use
COX-II – Aspirin
Ziprasidone
HMG-Co-A reductase inhibitor use with fibrates, verapamil and amiodarone
Fluoroquinolone and glycemic control
Methadone use and all cause mortality
Antipsychotic agents in dementia: Evaluating stroke event rate
NATIONAL DRUG UTILIZATION EVALUATIONS
Thiazolidinedione (TZD)
Tamsulosin
Rabeprazole
Drotrecogin Alpha
