

Where to from here?

AREA

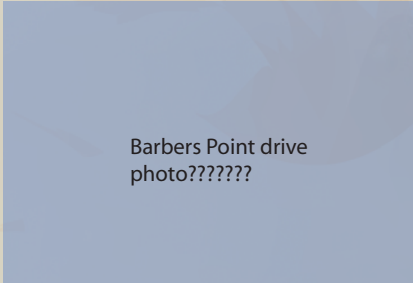

POINTS OF INTEREST

Dundee Meadows above is a spot to ride or hike to on the DuNoir Trail.

Scenic Hiking

Consider the trails originating from Brooks Lake for an easy hike through remarkable scenery. Check with the local district office for other good hikes in this area.

Barbers Point drive photo???????

Aspen ablaze on the road to Double Cabin.

Scenic Driving

Forest Road 515 takes you to Brooks Lake, around Barbers Point, and to the Wind River Lake Picnic Area. Along this road are great views of the Wind River Valley, Pinnacle Buttes, Breccia Cliffs, and the Wind River range. Be aware that when wet, the road west of Barbers Point is not passable.

Winter Activities

With several miles of groomed snowmobile trails in the area, two cross country ski trails beginning here at this campground and two others nearby, winter can be one adventure after another.

TieHack Memorial

Located about 3.5 miles southeast of here on Hwy 26/287 is a memorial to the men and their families who contributed to the building of the transcontinental railroad. These "tie-hackers" cut and hacked trees into railroad ties and floated them down the Wind River during spring run-off. Stop and see a pictorial history and on the way be on the look-out for abandoned flumes.

Remember When Winter Recreating....

Flume and splash dam at Warm Springs Creek

Elsie Col glacier, maybe a paragraph about the glaciers that are in the Wind River Ranger District? The DuNoir glacier is in this area, could use a photo of the DuNoir here if we have it, etc.

Sight a Bighorn

If bighorn sheep are prominent in this area, you could talk about seeing them and about where to look possibly conservation efforts, other info briefly, generically from the area.
