

Today's Science Student Tomorrow's Leader

The National Institute of Allergy and Infectious Diseases (NIAID) is the second largest Institute at the National Institutes of Health (NIH). NIAID is recognized worldwide for cutting-edge medical and scientific research. Our research programs aim to improve diagnosis, treatment, and prevention of immunological, allergic, and emerging and re-emerging infectious diseases.

If you have a passion to help improve global health in the 21st century, NIAID seeks to train you.

The Intramural NIAID Research Opportunities (INRO) program is for students with strong academic standing who are from underrepresented populations in biomedical research.

Selected applicants will:

- **Hear scientific lectures from world-renowned scientists.**
- **Tour Institute laboratories and see the state-of-the-science technologies.**
- **Interview with scientists for potential research training positions.**

The 4-day exploratory program takes place in Bethesda, MD, on the NIH campus, **February 2–5, 2009**. If selected, expenses for travel, hotel accommodations, and meals will be paid.

Application period: **August 15–October 15, 2008**

To learn more about INRO, to check eligibility, and to apply, visit:
