# Creating Capacity

Jack H. Gregg

California Coastal Commission

ASIWPCA Annual NPS Meeting

New Orleans November 27-29, 2001

•  
•  
•

## Creating Capacity means...

- Developing an infrastructure
- Developing a common understanding
- Changing Behavior

# Creating Capacity

- California NPS Plan combines elements of CWA 319 and CZARA 6217
- Lead Agencies
  - California State Water Resources Control Board
  - California Coastal Commission

# Creating Capacity - CCC

- Guidance for Coastal Planners
- Training for Planners
- Workshops for Commissioners

# Creating Capacity - CCC

- Procedural Guidance Manual for Nonpoint Source Pollution Control
  - Coastal Development Permits
  - Local Coastal Programs
  - Federal Consistency

# Creating Capacity - State Agencies

- State Water Board and Coastal Commission
- Interagency Coordinating Committee (IACC)

# Goals of the IACC

- Promote the watershed approach in addressing NPS pollution
- Promote statewide consistency
- Improve interagency coordination
- Provide a forum for resolving policy and programmatic conflicts among agencies

# Goals of the IACC

## “Hidden goals”

- Change Behavior of the agencies and their staff
- Make reduction of nonpoint source pollution a part of their agencies core values

# IACC Participants

- 🌍 Parks and Recreation
- 🌍 Water Resources
- 🌍 Boating and Waterways
- 🌍 Conservation
- 🌍 Fish and Game
- 🌍 Forestry and Fire Protect.
- 🌍 Food and Agriculture
- 🌍 Transportation
- 🌍 Toxic Substances Control
- 🌍 Health Services
- 🌍 Waste Management Board
- 🌍 Pesticide Regulation
- 🌍 State Lands Commission
- 🌍 Forestry and Fire

# Creating Capacity - Local Agencies

- Local Assistance Grants
- Erosion and Sediment Control Workshops
- Model Urban Runoff Program

•  
•  
•

# Model Urban Runoff Program

## A How-To-Guide For Developing Urban Runoff Programs for Small Municipalities

# What Is The MURP?

- **Assists municipalities in developing nonpoint source pollution control programs**
- **Provides resources including**
  - **Model Ordinances, General Plan Language, Environmental Check Lists, Forms, Public Education Material, BMPs, Program Evaluation**
- **Includes information on Phase II Stormwater Permit program elements**

# MURP Program Elements

- Public Education and Outreach
- Public Involvement and Participation
- Illicit Discharge Detection and Elimination

# MURP Program Elements

- Construction Site Storm Water Runoff Control
- Post-Construction Storm Water Management for New Development
- Pollution Prevention/Good Housekeeping for Municipal Operations

# Public Education Implementation Cost Estimate

<b>Educational Material (All Bilingual)</b>	<b>Time Need</b>	<b>Cost</b>	<b>Source of Original</b>	<b>Material Quantity/ Cost</b>	<b>Labor Hours/ Cost</b>	<b>Total Cost</b>
Brochure: "Monterey Bay Begins on Your Street"	4 hours	\$400/ 1000	MBNMS			
Brochure: Motor Oil Recycling	4 hours	\$200/ 1000	City of Watsonville			
Coloring Books	4 hours	\$450/ 1000	Joal Morris Illustration			
Radio Advertisement	1 hour	\$1,500- \$3,000	MBNMS			
Urban Watch Monitoring Program	4 hours	\$2,000	MBNMS/ Monterey			
<b>Total for your Agency</b>						

## Creating Capacity - Public

- Boating Clean and Green
- Feedback on coastal development applications
- Outreach to watershed groups
- Monterey Bay Snapshot Day

# Monterey Bay Snapshot Day

- One day “snapshot” of water quality in streams discharging to Monterey Bay.
- Organization by state, local and federal agencies; sample collection by volunteer
- 170 sites sampled by 125 volunteers.
- Analytes included coliforms, nutrients, DO, temperature, pH, conductivity and turbidity.

# Snapshot Day Organization

- Coordinated by
  - MB Coastal Watershed Council
  - Ocean Conservancy
  - Coastal Commission
- Supported by
  - Central Coast Regional Water Board
  - MB National Marine Sanctuary
  - State Water Resources Control Board

# Snapshot Day Elements

- Outreach and Recruitment
- Technical Training
- Snapshot Day Event
- Data Compilation and analysis

# Outreach and Recruitment

- Coordinate multiple watershed groups within a region.
  - Ensure similar sample design and protocols
  - provide a forum for inter-group discussions and problem solving
  - provide statewide recognition of local efforts

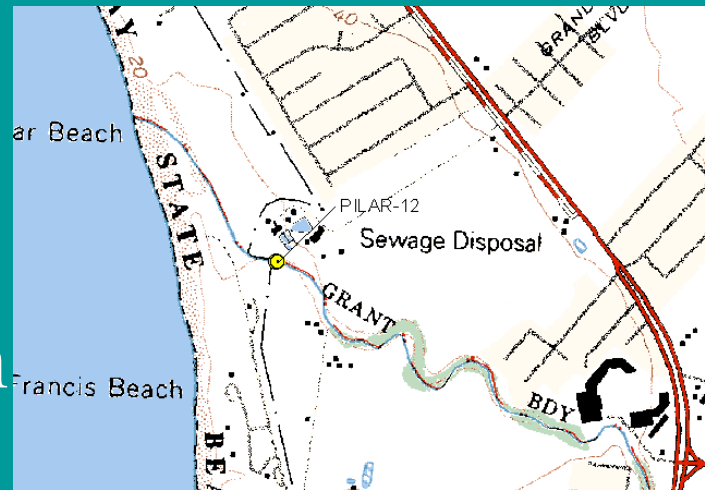

# Technical Training

- Provide a training day prior to the event on sampling protocols and Quality Assurance requirements
- Assure functionality and calibration of equipment
- Resulting in consistent data standards

# Snapshot Day Event

- Provide location maps
- Event Coordination
- Publicity
- Quality Assurance
- Data Entry

THE SECOND  
ANNUAL  
SNAPSHOT DAY  
WATER  
QUALITY  
MONITORING  
EVENT  
APRIL 21, 2001**

Monterey Bay National Marine Sanctuary  
Snapshot Day 2000  
Field Data Sheet  
April 22, 2000

Site ID:  Location:  Creek Name:

Weather Conditions (circle one):  
 clear  foggy  calm  S   
 partly cloudy  small breeze  S   
 cloudy  rain  windy  S   
 (Use add names on back)

Was a sampling device used? If yes, what kind?  
 yes  no

EQUIP ID	PARAMETER	UNITS (circle type of units)	Water Clarity (circle one)
<input type="text"/>	Air Temperature	<input type="text"/> F or C	<input type="text"/>
<input type="text"/>	WSD Temperature	<input type="text"/> F or C	<input type="text"/>
<input type="text"/>	Dissolved Oxygen	<input type="text"/> mg/L ppm	<input type="text"/>
<input type="text"/>	pH	<input type="text"/>	<input type="text"/>
<input type="text"/>	Conductivity	<input type="text"/> ppm µS/cm mS	<input type="text"/>
<input type="text"/>	Turbidity	<input type="text"/> NTU NTU	<input type="text"/>

Photo Point Location/Subject:  Photo Number:  Photo Direction:  Flagged?

Notes and/or Wildlife Observed:   
(include any equipment, comments/problems)

Fish Observed:   
(describe number, size, length of fish, and behavior)

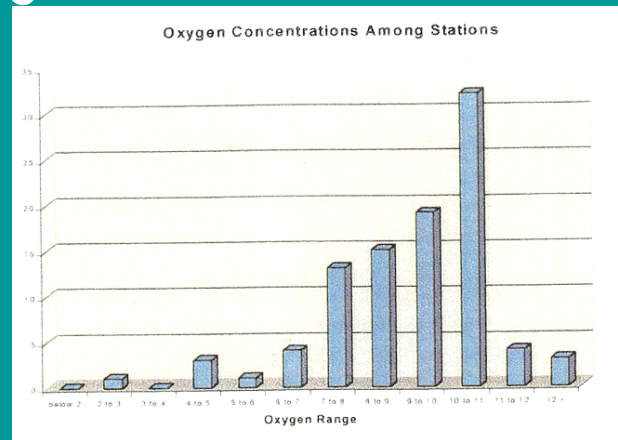

Snapshot Day 2000 13

# Compile and distribute results

- Compile and QA data
- Data available to public and agencies
- Written report and online database

Central California Ambient  
Monitoring Program(CCAMP)

Volunteer Data Entry and Checking Tools

MONTEREY BAY SANCTUARY CITIZEN  
WATERSHED MONITORING NETWORK

## *SNAPSHOT DAY* 2000

Prepared By:  
Kaitilin Gaffney, Center for Marine Conservation  
Ross Clark, California Coastal Commission  
Maya Conrad, Coastal Watershed Council  
Susan Pufahl, Monterey Bay National Marine Sanctuary

Funding for Snapshot Day was provided through a  
State Water Resources Control Board 319(h) grant.

# Creating Capacity-SWRCB

- Why is this important?
- Our authorities complement each other
- Different agencies with different mandates
- The next **M**andate **D**etermines **L**evel of coordination

TMDLs

# Creating Capacity

- The source of our continuing water quality problems is everybody.
- Enforcement will never be enough
- We have to change people's behavior
