Road and trail work prompts road closures on the Powell Ranger District

Powell, Idaho—According to District Ranger Chad Benson, a construction project that would have closed Colt Creek Road No. 359 on July 21 has been delayed.

He said contractors now plan to begin trail bridge work August 18. He said the road will remain open until that time.

Colt Creek Road 359 will be closed in its entirety while a trail bridge is replaced at Colt Creek. Closure of the single-lane, windy road is necessary for public safety and to accommodate construction traffic. The closure is expected to last through October.

For the current status of road work in the Powell area, contact the Powell Ranger Station at (208)942-3113.
