Attached are comments submitted by People for the Ethical Treatment of Animals in response to the 3-21-2006 Federal Register notice of the announcement of an independent scientific peer review meeting on the use of in vitro testing methods for estimating starting doses for acute oral systemic toxicity tests and request for comments. These comments will comprise the basis for our verbal statement at the meeting on May 23rd as well. I would appreciate your confirming receipt.

Thank you,

Jessica Sandler, MHS
Director, Regulatory Testing Division
