

Subject: accept internationally validated non-animal tests

Date: Tuesday, June 5, 2007 10:51 PM

To Whom It May Concern:

I support the ICCVAM's immediate acceptance of internationally validated non-animal tests. I further request that you become a vehicle to support the development and adoption of animal-free testing.

As the United States agency overseeing the development of non-animal test methods, you must be concerned that animals continue to needlessly die and human health suffers as animal tests continue to lead to less accurate and less sensitive information regarding human health.
