

Subject: Animal Testing

Date: Sunday, June 3, 2007 6:58 PM

From: Sarah McGee

Dear Sirs,

I am writing to you on behalf of all the animals that undergo tests that cause needless suffering and death each year. I understand that ICCVAM was told by Congress last year to develop a five-year plan to identify areas where non-animal test methods can be used but ICCVAM is not showing the public that it is interested in doing so. I am asking you to please accept internationally validated non-animal methods including non-animal test methods for skin and eye irritation, phototoxicity, and pyrogencity. The less suffering in this world, the better for us all.

Thank you,

Sarah McGee
