Comments: Honestly, I am really disgusted that there are dozens of non-animal tested methods approved in Europe and one here in the USA. We are supposed to be a country of freedom, yet the animals being tested on are far from free, in fact many die! I'm not saying this to be rude, I just really am so saddened by this. These thing make is hard to find products not tested on animals, which make is hard on me. Please, consider helping to approve more alternative ways to test products. Thank you for your time.
