

Dr. William Stokes,

Greetings! I am from the Animal Rights League in Westford Academy, of Westford, MA. It has come to my knowledge that your organization partakes in lethal animal-poison tests. These poor animals should not be tested on, instead, they should enjoy the god-given right you and I enjoy to run free in the wild. I suggest that your agency stop slaughtering such animals and use vitro-cell testing instead. I understand that this might be inconvenient for your agency, but many animals' lives may be saved if you do so. Thank you for taking the time to read this letter, I appreciate your time.

Yours truly,

Chelsea Li-Yueh Walker
