

8 November 2001

Dr. William Stokes, Director  
NICEATN (MD EC-17), NIEHS  
P.O. Box 12233  
Research Triangle Park, NC 27709

Dr. Stokes:

I am writing in response to your organization's request for public comments regarding the Workshop Report and Guidance document concerning in vitro methods as opposed to animal research methods to determine systemic toxicity of chemicals.

I strongly encourage the use of these in vitro cell cultures for testing, and ask that you begin efforts to completely replace lethal dose testing with in vitro methods.

Thank you for your time and consideration.

Sincerely,  
Erin Stephens
