⁴ Future planning identifies trails that will require additional analysis before the routes can be added to the system. Some of these routes physically exist on the ground but require major reconstruction to meet design standards, some routes need to be designed and constructed to provide connections between existing trails, and some routes may require access from another land owner. Site specific decisions will not be made on these routes but are being disclosed for analysis purposes.

Fairfield Ranger District

	Trail / Road # or Point of Beginning	Route Name or Geographical Reference	Season of Use	Proposed Action	Approx. Miles	Additional Information
1	Kelly Creek Flats	Multiple trails in dispersed camping area	May 1 - November 30	Designation of trails open to vehicles less than 50" in width, which will allow users to leave camp areas to reach trail heads. Minor construction required.	1.5	Trails exist on the ground with minor connections required. This is a connected action to the ongoing analysis at Kelly Creek Flats.
