Flathead National Forest Hosts Public Open House for Forest Plan Revision

The Flathead National Forest will host a forest plan revision open house on Monday, June 13, 4-8pm, at the West Coast Kalispell Center Hotel. The forest plan is a strategic plan for managing the Flathead National Forest for the next 20 years.

Flathead National Forest personnel will be available for discussion concerning the revised forest plan, as well as the new 2005 US Forest Service Planning Regulations adopted in January 2005. A draft plan with a 90-day comment period is anticipated this fall.

Persons with disabilities who require alternative means for communication or for more information regarding forest plan revision may call Forest Public Affairs Officer Denise Germann at 758-5252.
