The historic Star Meadows Guard Station, located 23 miles west of Whitefish, on the Tally Lake District of the Flathead National Forest is now available for public rental through a national reservation phone number and website. Reservations may be made by calling 1-877-444-6777 or visiting [WWW.ReserveUSA.com](http://WWW.ReserveUSA.com). Reservations may be made up to six months in advance, although reservations desired 1-3 days prior may be made through the Tally Lake District Office.

Tally Lake District Ranger Lisa Krueger said, "Star Meadows is a great and reasonable place to get away and enjoy the forest." Krueger encourages folks to consider this spring as there are many days available.

The cabin sleeps six and has a complete kitchen with electricity and water. Kitchen furnishings include an electric stove, refrigerator and limited cooking utensils. The cost to rent the cabin is \$40 on weekends and \$25 on weekdays, plus a \$9 reservation fee. The cabin is available year round. Dogs are allowed.

For more information, please contact the Tally Lake District at 863-5400. For more information about other cabin rentals on the Flathead National Forest or to link to the National Recreation Reservation System visit [www.fs.fed.us/r1/flathead](http://www.fs.fed.us/r1/flathead).
