Great Northern Flats Dispersed Site Temporarily Closed

The Great Northern Flats Dispersed Site on the Glacier View Ranger District of Flathead National Forest is closed for approximately the next two weeks due to a work project. The site accesses the North Fork of the Flathead River and is located approximately 15 miles north of Columbia Falls.

The project includes reconstruction of the road, turnaround and three dispersed camping sites. Trees will also be transplanted in the area. This work is in response to the 2003 Robert Fire.

It is anticipated the work will be completed by the end of October. For more information please contact the Hungry Horse – Glacier View Ranger District at 387-3800.
