Veterans Health Administration**

Welcome home and thank you for your service and sacrifice to our country! It will be our honor to serve you.

The VA Northern Indiana Health Care System has opened a new outreach and support program specifically for those who have served in combat or combat support operations during a period of war after the Gulf War, or against a hostile force after November 11, 1998.

The OIF/OEF Support Program is designed to provide you with:

- Assistance scheduling and accessing any needed VA medical center services
- Information on VA benefits for which you may be eligible
- Assistance finding your way through the VA system
- Referral to resources in the community
- Support to you and your family as you readjust to life after military service
- Education about post-combat readjustment

Why Contact Us?

If you are having difficulty or problems readjusting to life after your military service and it is starting to affect your personal life, family life, social life, occupational life, and future goals...

If you believe that taking care of your mental and emotional health is just as important as maintaining good physical health...

If you think that you could benefit from community support and resources...

If you would like to talk with someone about your veterans benefits or VA services...

If you are in need of dental care...

If you have medical issues or need follow-up medical care...

Or even if you just have questions...

...then please call us today.
