

Appeals to the Secretary of Commerce Under the Coastal Zone Management Act (CZMA) – June 27, 2008

CZMA section 307, the federal consistency provision, requires proposed federal actions with reasonably foreseeable effects on any coastal use or resource to be consistent with the enforceable policies of federally approved state Coastal Management Programs (CMPs). CZMA sections 307(c)(3) and (d) require applicants for *federal license or permit activities* (16 U.S.C. 1456(c)(3)(A)), *Outer Continental Shelf (OCS) Plans* (16 U.S.C. 1456(c)(3)(B)), and *federal financial assistance activities* (16 U.S.C. 1456(d)) that have reasonably foreseeable effects on any coastal use or resource of a state's coastal zone to certify to affected states that the proposed activities are consistent with the enforceable policies of state CMPs.

If a state CMP objects to the certification, the non-federal applicant may appeal the state's objection to the Secretary of Commerce. (Appeals to the Secretary are not available for *Federal agency activities* under 16 U.S.C 1456(c)(1).) The Secretary will override a state's objection, if the Secretary finds that the activity is consistent with the objectives of the CZMA or is otherwise necessary in the interests of national security. If the Secretary overrides a state's objection, then the federal agency may issue its authorization or funding. If the Secretary does not override a state's objection, the federal agency cannot issue its authorization or funding. The Secretary's decision is based on the administrative record compiled for an appeal. The Secretarial Appeal regulations are 15 C.F.R. part 930, subpart H (sections 930.120-131), *as amended* 71 Fed. Reg. 787-831 (January 5, 2006), and 71 Fed. Reg. 75864-75865 (Dec. 19, 2006).

There are 34 federally approved state CMPs. Since approval of the first CMP in 1978, tens of thousands of federal license or permit activities, OCS oil and gas activities, and federal financial assistance activities have been reviewed for consistency. States have concurred with approximately 95 percent of these actions. The Secretarial appeals are summarized in the table below and described in the five lists below:
