*Participant Evaluation of the
“Pacific Islands MPA Community” Workshop*

Wednesday, 31 August 2005

Directions: Please rate how much you agree or disagree with each of the statements listed below.

The **overall aim** of this workshop was “to seek agreement regarding the need for and priorities of a learning network to support effective marine protected areas throughout the Pacific Islands”.

1. I believe that the goal for this workshop was fully achieved.

- strongly agree
- agree
- neither agree nor disagree
- disagree
- strongly disagree

There were **4 objectives** associated with this goal to be achieved by workshop participants:

- To inventory and understand the strengths (resources) and needs of MPA management in the Pacific Islands, as both individual and island efforts;
- To prioritize opportunities and needs relating to a possible MPA community;
- To generate a possible set of strategic responses/actions that the possible MPA community could take to meet the opportunities and needs; and
- To initiate planning for leadership, coordination, communication, governance, and securing/committing resources for the possible MPA community.

2. The first objective of this workshop (inventory and understand MPA strengths and needs of individuals and islands) was fully achieved by the group.
