

August 13, 2003

Dear Mr. Kaiser

As a year round resident of Long Beach Island, I am writing to request your help in maintaining the CZMA regulations so that our clean ocean will remain that way. After the horrors of the 80's with hypodermic needles and other trash washing up on N.J. beaches, we need strong laws so it can't happen again.

On behalf of my husband and our children and grandchildren, please do everything to maintain our ocean in its good condition.

Thank you.

Sincerely,

Shirley & Charles Imhof & family
Brant Beach, New Jersey
