PROJECT DESCRIPTION: Describe your proposed project, including details on structures to be built, location and types of utilities and infrastructure, drainfields, accessory buildings, ground leveling, and filling, or any other relevant activity or mitigation measures proposed. Use additional sheets as necessary:

Small portion of road between 2 parcels that touches each other at a point, road currently goes through a corner of Forest Service land that measures approx. 42'x 42'x 60'. The road itself is approx. 15' wide and would be about 30' long through this portion. Access would be for year round residential use for as long as FS allows, in perpetuity being best situation.

A site plan is not provided because the drive already exists and can be viewed on-site.

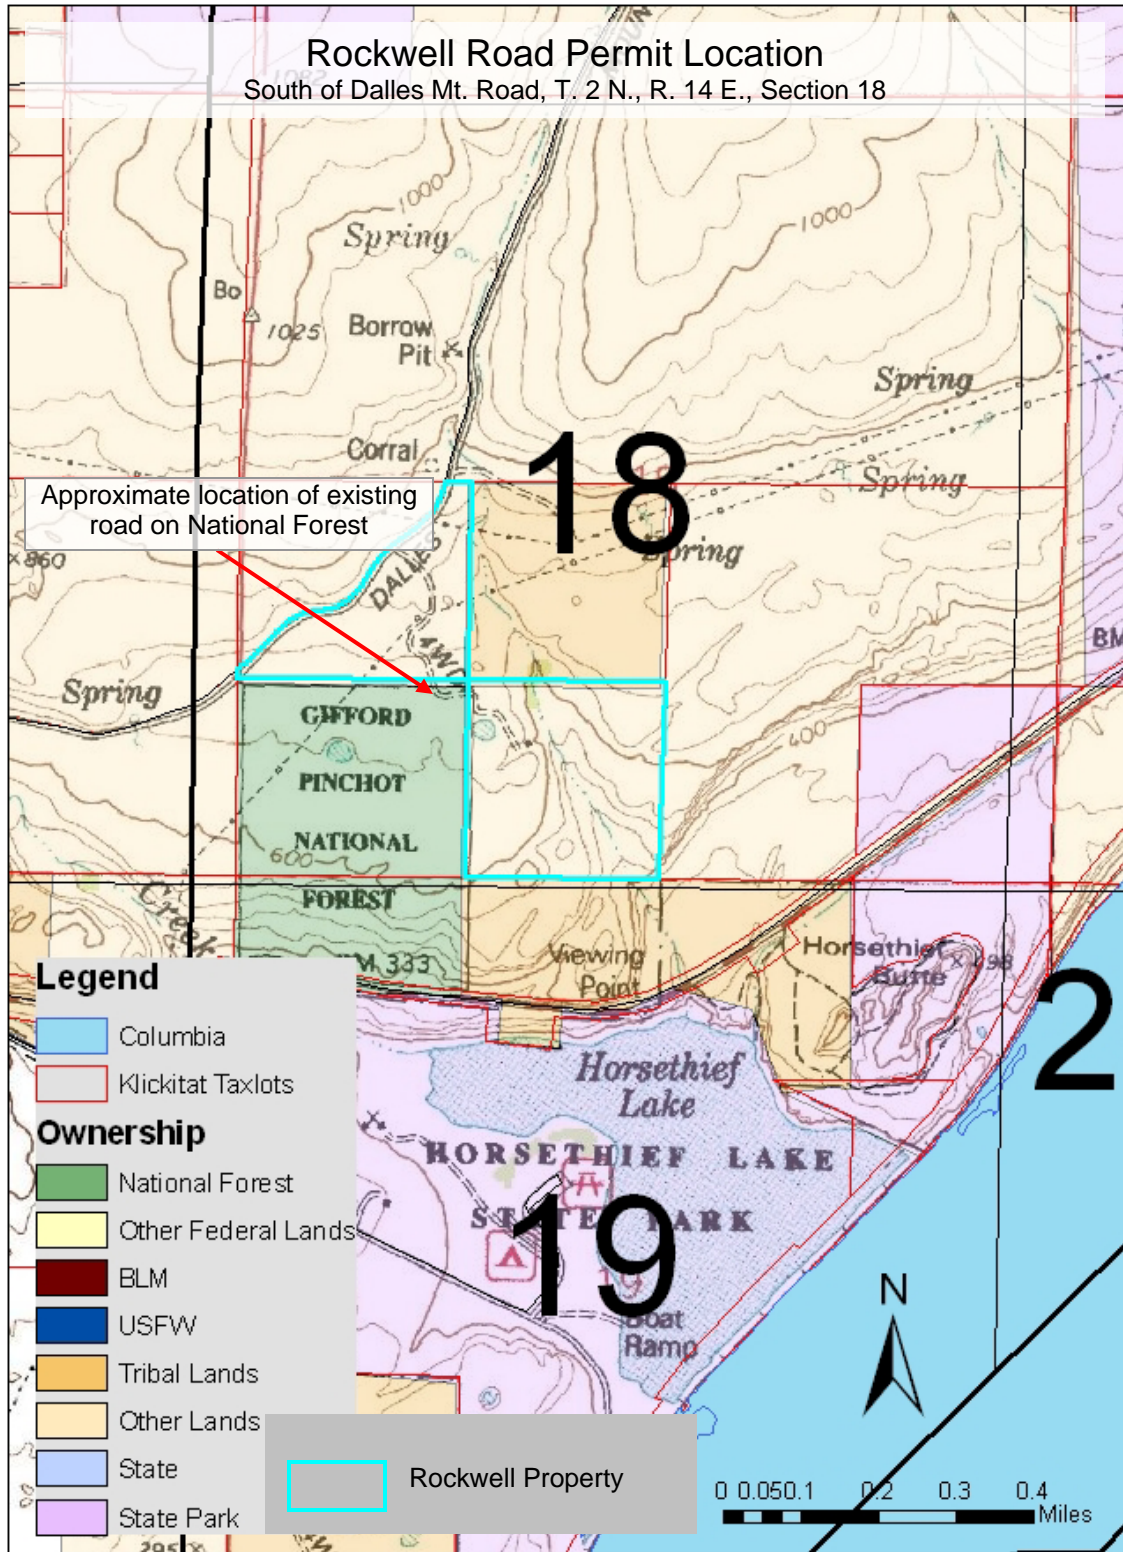

Application Checklist: the following is required to complete your application:

- Application form completed and signed
- Site Plan—none provided---drive already exists.
- Key viewing areas checklist (attached)
- Names and addresses of adjacent property owners within 200 feet of parcel
- Any additional information as required:

KEY VIEWING AREAS: Key viewing areas are important public viewpoints and areas that afford opportunities to view the Gorge scenery. Key viewing areas are listed below. Please check those sites which can be seen from your property.

PROJECT SITE PLAN: A plan drawn in black ink at a scale of about 1 inch equal to 200 feet (1:2400) or at a scale providing greater detail must be included with the application.

If the parcel is very large, you may show the project on the portion of the parcel affected by the proposed use. Be sure, however, to show enough of the parcel or some adjacent features, such as roads, so that the reviewers can orient themselves on your map. A small vicinity map showing the subject parcel and surrounding parcels may help.

At a minimum, you must show the following features:

- Applicant(s) name
- Location and width of existing and proposed roads, driveways, and trails
- Scale and north arrow
- Location and size of existing and proposed structures
- Boundaries of parcel with dimensions and size
- Location of existing and proposed services including wells or other water supplies, structures, power and telephone poles and lines and outdoor lighting.
- Significant terrain features or landforms
- Location and depth of all proposed grading and ditching
- Groupings and species of trees or other vegetation on the parcel
- Location and species of vegetation that would be removed or planted
- Water courses and bodies of water
