I. Introduction

The Veterans Affairs Information Resource Center (VIREC) produced the *VIREC Research User Guide: FY2006 VHA Medical SAS[®]* Outpatient Datasets*. VIREC is a national resource center of the Health Services Research and Development Service (HSR&D), U.S. Department of Veterans Affairs (VA). This edition of the guide describes the Fiscal Year (FY) 2006 Medical SAS Datasets for outpatient care in the Veterans Health Administration (VHA). VIREC issues this guide to assist health services researchers and other users of these data in understanding the availability and definitions of the stored variables within the datasets.

VIREC issued the first edition of a research user guide to VHA outpatient care data in March 2000 describing the FY1999 Medical SAS Datasets.¹ VIREC issued a companion guide to VHA inpatient care data in March 2000 as well, and updated guides and select variable frequencies have been produced since then.²⁻¹⁵ The VIREC research user guides grew from the work by Martha Beattie, Ph.D., Ralph W. Swindle, Ph.D., Lynn A. Tomko, B.A., and other authors of the five-volume *Department of Veterans Affairs Database Resources Guide*, an effort supported by the VA Health Services Research and Development Service through the Service Directed Research project #91-009 awarded to Ralph Swindle.

Using the Guide

This guide is divided into the four main sections listed below. The guide includes additional documents as appendices.

- [Overview of the FY2006 Medical SAS Outpatient Datasets](#). Chapter II provides a brief description of each of the current datasets, including naming conventions, sort order, and observation (record) and variable counts.
- [Variables and Their Dataset Locations](#). Chapter III is a table of all variables in the FY2006 Outpatient Datasets indicating in which datasets each variable occurs.
- [Variable One-Page Descriptions](#). Chapter IV presents a one-page description for each variable in the datasets for this fiscal year. The description includes a table with the following information, when applicable.

* SAS[®] is a registered trademark of the SAS Institute, Inc.

Data Type:	This indicates if the variable is numeric or character.
Print Format:	This is the name of the print format, if there is one. The print format name is from the Format Library for the file. Date variables have SAS-defined print formats. Instructions for downloading a SAS format library to be used with the Medical SAS Datasets can be found on the Intranet. The National Patient Care Database (NPCD) Intranet Web site updates the SAS Format Library after every SAS Outpatient build.
Label:	This is the label for the variable as it appears in the Medical SAS dataset.
Datasets / Fiscal Years:	This indicates the Medical SAS Datasets and Fiscal Years where the variable occurs.
VistA Data Source:	This is the file and field where data for the variable originate in the VA's decentralized clinical database, known as VistA (Veterans Health Information Systems and Technology Architecture). In VistA, files are identified by both a number and a name (e.g., "Patient (2) file"), while fields are identified by name (e.g., "Date of Birth field"). Detailed information about the VistA applications is available online at the VistA Document Library . An issue of VIREC Insights (Vol. 3, No. 1) on VistA is available at the VIREC Intranet Web site.

Where applicable, and where space allows, a second table lists the values that the variable can assume with a description of each value. This table is in [Appendix A](#) in cases where the possible values exceed the space available. The guide provides a reference source to obtain the possible values and their descriptions for selected variables.

- [Works Cited](#). Chapter V lists publications referred to earlier in the guide.

Methods for Updating the User Guide

VIREC uses numerous sources of information to update this guide. Official records of changes to the Medical SAS Datasets are maintained by the Corporate Franchise Data Center (CFD) (formerly known as the Austin Automation Center (AAC)) in a section of its National Patient Care Database (NPCD) Customer Web site. This audit trail, which tracks changes to the inpatient and outpatient databases and to the SAS datasets, can be found on the NPCD Intranet Web site. Notices of changes are often announced by the CFD and NPCD staff on the HSRData listserv, an e-mail group that includes researchers, policy makers, and information managers. Information about [HSRData listserv](#) is available on the VIREC Intranet and Internet Web sites.

VIREC staff makes editorial changes in response to specific user requests and in an effort to improve the readability and usefulness of the guide. In this respect, questions submitted to the VIREC Help Desk are reviewed to identify issues that need clarification or expansion as well as those pertinent issues discussed on the HSRData Listserv. Finally, our own experience as users of the Medical SAS Datasets also prompt us to modify content and style of the information included here.

Initial drafts are reviewed for accuracy and clarity by an *ad hoc* group of individuals who are data stewards, data managers, and end users. The invaluable contribution of the reviewers this year is acknowledged in the following section.

What's New

The Austin Automation Center is now designated as one of the VA's Corporate Data Centers. Its new name is Corporate Franchise Data Center (CFD) and will be used throughout this document.

National Data Systems (NDS) made multiple changes to the Medical SAS Outpatient datasets in fiscal years 2005 and 2006. This guide now includes documentation of the Inpatient Encounters file. The Inpatient Encounters file captures outpatient events for patients with inpatient status. There are also new variables in addition to other important changes.

In FY2005, NDS created the Professional Services Encounters file, most commonly known as the Inpatient Encounters. This SAS dataset includes outpatient procedural and diagnostic codes for patients with inpatient status. VIREC will continue to add its metadata to future outpatient documentation.

An overwhelming need by clinicians to connect provider information to outpatient encounters led to the creation of the National Health Care Practitioner Database (NHCPD). NHCPD is made up of practitioners who are attached as a provider to an encounter or are part of the Primary Care Management Module as a primary care provider or associate provider. While practitioner's titles are not populated, first, middle, and last names, social security numbers (both real and scrambled), and provider ID data are collected. See [PROVID1-PROVID10](#) for additional information.

NDS also expanded the procedure code variables included in the Event dataset. There are now a total of 20 CPT code variables, ([CPT1-CPT20](#)). Sixty CPT modifier procedure code variables were also added to the Event dataset and the Inpatient Encounters file. The variables [CPT1MODA-CPT20MODC](#) assign a number (1-20) and end with a letter (A-C). Each modifier variable has a length of 2 characters and has a SAS format of \$CPTMOD. There is a limit of three unique modifiers per CPT variable. The new variable, [NCPTTOT](#), reflects the total number of CPT codes transmitted from the VA Medical Center to NPCD and stored in the Oracle database.

The variable [STA6A](#) (Station) is new to the Visit and Event datasets. They allow for identification of a 6-digit station number in the event that a 6-digit station number would be included in the data transmission to the Corporate Franchise Data Center. The SAS format \$STA56L. contains station names recently approved by Congress.

Modifications to the values for [CL](#) and [CL1-CL15](#) in FY2006 created the need for two print formats. The member YCLINIC. reflects clinic stops for FY2005. YCLINICA. reflects the updated clinic stops for FY2006. YCLINICA. should be used for current data and YCLINICIC. for prior years' data.

Following the discontinuation of the Military Sexual Trauma File in FY2006, the variable MST joined the Event dataset. Military sexual trauma outpatient procedures, diagnostics and providers are reflected in this variable. Other new indicator variables include [VETIND](#) (Veteran indicator) and [ERIND](#) (Patient emergency response indicator).

Acknowledgements

The Veterans Affairs Information Resource Center (VIReC) is supported by Health Services Research and Development (HSR&D) Service Grant SDR 98-004.

This guide is the product of many people's efforts, experiences, and insights. The contributing authors include Bianca Easterly and Denise M. Hynes.

We gratefully acknowledge reviews of this guide by Dorothea Garrett, National Data Systems (NDS), Austin, TX; Todd Wagner, Ph.D., VA Health Economics Resource Center (HERC), Menlo Park, CA; Tamara Schult, Minneapolis VAMC, Minneapolis, MN; and James Williams, University of Arkansas for Medical Sciences, Little Rock, AR. They provided valuable and insightful feedback.

VIReC accepts responsibility for any deficiencies in the current guide and welcomes suggestions for improving this resource to better meet the needs of research users.

II. Overview of the FY2006 VHA Medical SAS Outpatient Datasets

Background

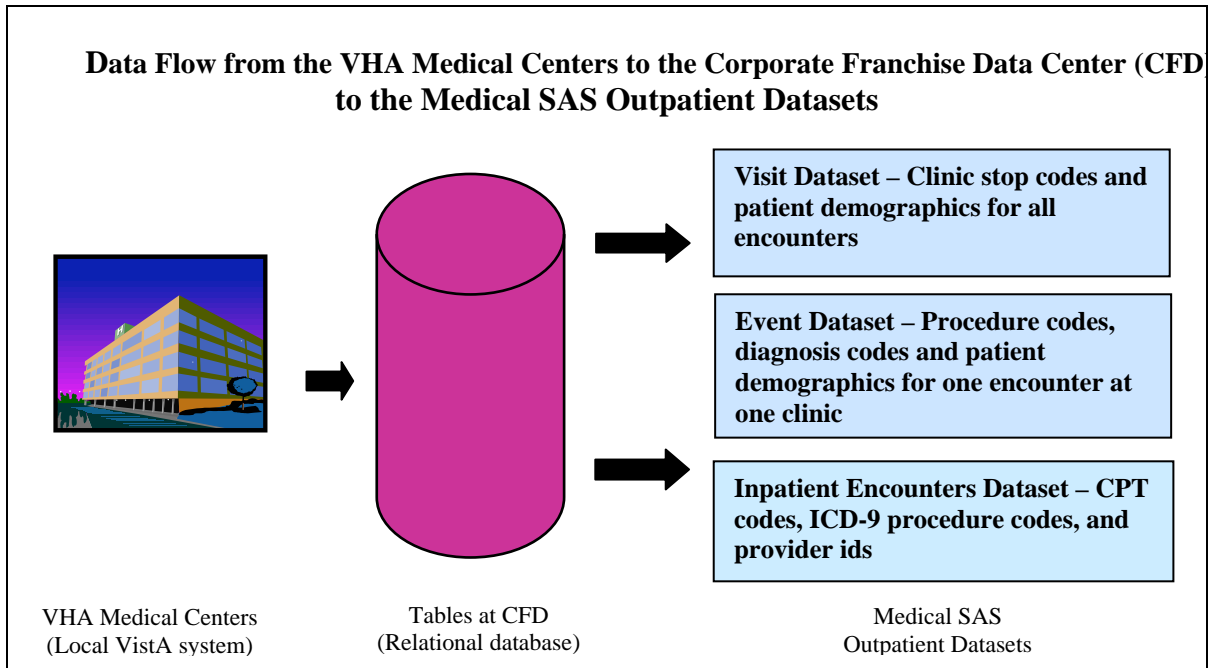

Through use of a uniform set of coding instructions, software, and data files, staff members in VHA treatment facilities across the United States and Puerto Rico record outpatient care utilization information. The treatment facility databases that initially hold these data are known as the local VistA (Veterans Health Information Systems and Technologies Architecture) systems. The VA electronically transfers these data to the Corporate Franchise Data Center (CFD) in Austin, Texas, which is the central repository for VHA national databases. The CFD staff formats and outputs these data in SAS datasets that are available to users who have appropriate access clearance. Further information about the VHA Medical SAS Datasets has been published electronically.¹⁵

The Medical SAS Outpatient Datasets is the collective term for the datasets that contain the VHA's ambulatory care data. Encounter information is transmitted to the CFD nightly where it is held in a queue. The CFD updates the public SAS datasets twice a month using these queued data. In FY2005 and FY2006, the VA instructed sites to closeout and transmit encounters for the previous month no later than the first full week of the current month. However, CFD will accept re-transmitted encounter data until the datasets are frozen. The CFD freezes the datasets twice a year in April and October. The April update freezes the datasets for records between October and March. The October update freezes the dataset for records between April and October. The CFD, at its own discretion, has allowed the field to re-transmit all of the fiscal year data at the end of the fiscal year in order to maintain accurate information.

As illustrated in the following figure, there are currently three Medical SAS Outpatient Datasets produced for FY2006 that are referred to as the "Visit", "Event", and "Inpatient Encounter" datasets.

Visit Dataset

The Visit dataset provides information about a day's outpatient care encounters. The name of the FY2006 Medical SAS Outpatient Visit dataset is **MDPPRD.MDP.SAS.SF06**, containing 53,381,153 observations with 62 variables. The sort order is by the variables [SCRSSN](#) (Scrambled Social Security Number), [VIZDAY](#) (Date of Visit), and [STA5A](#) (Five-digit numeric identifier of the VA facility where care was provided). The dataset originated in FY1980. A record contains up to 15 clinic stops for the day's care. For a listing of variables contained in this dataset, see [Section III, Variables and Their Dataset Locations](#).

Outpatient Dataset Names By Type of Care

Type of Care	Names for Datasets
Visit	MDPPRD.MDP.SAS.SFyy
Event	MDPPRD.MDP.SAS.SEyy
Inpatient Encounters	MDPPRD.MDP.SAS.IEyy

Note: yy = the last two digits of the Fiscal Year.

The table shown above lists Medical SAS Dataset names on the CFD mainframe. A comprehensive listing of all historic names of Outpatient Datasets is on the VIREC Web site at <http://www.virec.research.va.gov/DataSourcesName/Medical-SAS-Datasets/SASdocumentation.htm>.

Characteristics of FY2006 Outpatient Datasets

Dataset	Record Definition	# Records	# Variables	Sort Order
Visit	One day's occasions of service for a patient	53,381,153	62	SCRSSN VIZDAY STA5A
Event	One ambulatory encounter by a patient (coded as DSS Identifier/Clinic Stop)	77,685,321	162	SCRSSN VIZDAY STA5A
Inpatient Encounters	Outpatient events during an inpatient stay	6,520,457	172	SCRSSN VIZDAY STA6A

Event Dataset

The Event dataset provides information about each encounter (clinic stop) during a day's outpatient care, identifying the specific location of encounters with the VA station suffix as well as the parent station 3-digit code. The name of the FY2006 Medical SAS Outpatient Event dataset is **MDPPRD.MDP.SAS.SE06**, and it contains 77,685,321 observations with 162 variables. The sort order is by the variables [SCRSSN](#) (Scrambled Social Security Number), [VIZDAY](#) (Date of visit), and [STA5A](#) (Five-digit numeric identifier of the VA facility where care was provided). The dataset originated in FY1997. There is one observation (record) per outpatient encounter, with no limit on the number of clinic stops reported. *Note: The Visit and Event datasets will not agree on clinic stop volumes.* For a listing of variables contained in this dataset, see [Section III, Variables and Their Dataset Locations](#).

(NEW) Inpatient Encounters Dataset

The Inpatient Encounters dataset provides information about each outpatient encounter during inpatient care. The name of the FY2006 Inpatient Encounters dataset is **MDPPRD.MDP.SAS.IE06**, containing 6,520,457 observations with 172 variables. The sort order is by the variables [SCRSSN](#) (Scrambled Social Security Number), [VIZDAY](#) (Date of Visit), and [STA6A](#) (Six-digit numeric substation identifier). The dataset originated in FY2005. Similar to the Event file, there is one observation (record) per outpatient encounter, with no limit on the number of clinic stops reported.

Other Outpatient Datasets

Procedure Dataset. This dataset, which contains CPT-4¹⁶ outpatient procedure information, has not been generated since FY2001. All of the variables contained in this dataset can be found in the Event dataset. For a detailed description of this dataset, refer to previous fiscal years' resource guides.

Diagnosis Dataset. This dataset, which contains outpatient ICD-9-CM¹⁷ diagnosis information, has not been generated since FY2001. All of the variables contained in this dataset can be found in the Event dataset. For a detailed description of this dataset, please refer to previous fiscal years' resource guides.

Dataset Closeouts

Most research users of the Medical SAS datasets utilize the fiscal year data files. CFD accumulates and constructs the annual datasets over time, as noted below. Throughout a given fiscal year, the data in the Medical SAS Datasets change as the transmitting medical centers perform edits, updates, and add record entries. The policy in effect for FY2006 for transmission of data stated that the previous month's encounters will be completely forwarded to the CFD by the 19th of the current month. This policy, sometimes called the reimbursement closeout because of its association with cost recovery deadlines, does not mean that data are not transmitted after this period. The CFD accepts inpatient information until its fiscal year closeout on October 19. In order to maintain accurate records, the CFD, at its own discretion, has allowed the field to re-submit all of the fiscal year data at the end of the fiscal year. For the research user, when to extract data will depend on the specific use of the data, but in general, researchers are advised to use the annual datasets.

Datasets Produced Quarterly

In FY2006, CFD produced each of the datasets in smaller subsets that were stored on a quarterly basis. The CFD then turn rolled-up the quarterly files into annual datasets after the close of the fiscal year. The naming convention for these datasets is the dataset name followed by QTR n (where n is the number of the fiscal quarter). The CFD eliminated the quarterly datasets beginning in FY2007.

Datasets Kept Open for Revision

In FY2001, a new set of "revised" Medical SAS datasets were created to allow for continued updates after the traditional closeout period ended. These datasets can receive updates for approximately two years after the regular closeout period. A major factor behind this decision was to allow for complete workload capture that was traditionally lost due to late submission after closeout. The names of the "revised" set of datasets are essentially the same as the traditional ones, with the word "REVISED" added to it (i.e. MDPPRD.MDP.SAS.REVISED.SF06).

ZIP	Zip code	X	X	X	90

(This page intentionally left blank)

IV. Variable One-Page Descriptions

(Variable description pages begin on the next page.)

Variable Name: **ADMITDAY**

Definition: Date of admission of the inpatient stay

Remarks: This variable indicates the date when an episode of care began in the hospital or other setting. In non-VA cases, it refers to the date when the VA assumed responsibility for the care. An extended care patient may have an episode of care in both extended care and acute inpatient care if the patient needs acute hospitalization during the extended care stay.

Data Type	Numeric (SAS Date)
Print Format	DATE9. (DDMMMYYYY)
Label	DATE OF ADMISSION (SASDATE)
Datasets / Fiscal Years	Inpatient Encounters / 2005 – To Date
VistA Data Source	PTF (45) file, ADMISSION DATE field

Variable Name: **ADMITMO**

Definition: Month of admission of the inpatient stay

Remarks: This variable is derived from the [ADMITDAY](#) (Date of admission of the inpatient stay).

Data Type	Numeric
Print Format	MONTHL. (MMM)
Label	MONTH OF ADMISSION
Datasets / Fiscal Years	Inpatient Encounters / 2005 – To Date
VistA Data Source	Not applicable

Variable Name: **ADMITYR**

Definition: Year of admission of the inpatient stay

Remarks: This variable is the 4-digit year derived from [ADMITDAY](#) (Date of admission of the inpatient stay).

Data Type	Numeric
Print Format	None
Label	YEAR OF ADMISSION
Datasets / Fiscal Years	Inpatient Encounters / 2005 – To Date
VistA Data Source	Not applicable

Variable Name: **ADTIME**

Definition: Time of admission of the inpatient stay

Remarks: Time is recorded as Military Time (i.e., using the 24-hour clock) with “hhmm” format. Thus, 11:32 A.M. is recorded as “1132”, and 11:32 P.M. is recorded as “2332”.

Data Type	Numeric
Print Format	None
Label	TIME OF ADMISSION
Datasets / Fiscal Years	Inpatient Encounters / 2005 – To Date
VistA Data Source	PTF (45) file, ADMISSION DATE field

Variable Name: **AGE**

Definition: Patient age in years at the time of visit

Remarks: This variable is calculated from **DOB** (Date of patient's birth) and **VIZDAY** (Date of the outpatient health care encounter). Note that prior to FY1996, year of birth rather than date of birth was used for **AGE** calculation.

Data Type	Numeric
Print Format	None
Label	AGE
Datasets / Fiscal Years	Visit / 1980 – To Date Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, DATE OF BIRTH field Outpatient (409.68) Encounter file, ADMIT DATE field

Variable Name: **AGOIND**

Definition: Indicates whether the healthcare encounter was related to exposure to Agent Orange

Remarks: For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Character
Print Format	\$XXYN.
Label	AGENT ORANGE INDICATOR
Datasets / Fiscal Years	Visit / 2002 – To Date Event / 2002 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, EXPOSED TO AGENT ORANGE field

AGOIND can assume the following values:

Value	Description
0	Not exposed to Agent Orange
1	Exposed to Agent Orange

Variable Name: **AGOLOC**

Definition: Indicates where the Agent Orange exposure occurred

Remarks: For frequency counts of the values for this variable, see the accompanying [VIREC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets.](#)

Data Type	Character
Print Format	\$AGOLOC.
Label	AGENT ORANGE LOCATION
Datasets / Fiscal Years	Visit / 2002 – To Date Event / 2002 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, AGENT ORANGE EXPOSURE LOCATION field

AGOLOC can assume the following values:

Value	Description
K	Korean Demilitarized Zone
U	Unknown
V	Vietnam Era

Variable Name: **AG8R**

Definition: Categorical recoding of **AGE** (Patient age in years at the time of visit) into 9 groupings

Remarks: Due to the “95+” category that was added in FY1997, there are actually nine categories. For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets.](#)

Data Type	Numeric
Print Format	AG9RL.
Label	Age Group (9 Groups)
Datasets / Fiscal Years	Visit / 1980 – To Date Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, DATE OF BIRTH field Outpatient (409.68) Encounter file, ADMIT DATE field

AG8R can assume the following values:

Value	Description
1	Less than 25 years old
2	25 – 34 years old
3	35 – 44 years old
4	45 – 54 years old
5	55 – 64 years old
6	65 – 74 years old
7	75 – 84 years old
8	85 – 94 years old
9	95+ years old

Variable Name: **APPTYP**

Definition: Codes for VA appointment types for scheduling outpatient encounters

Remarks: Appointment type relates to the eligibility under which the patient is seen.

Data Type	Character
Print Format	\$XXAPPT.
Label	APPOINTMENT TYPE CODE
Datasets / Fiscal Years	Event / 1997 – To Date
VistA Data Source	Outpatient (409.68) file, ADMISSION TYPE field

APPTYP can assume the following values:

Value	Description
01	Compensation & Pension
02	Class II dental
03	Organ donors
04	Employee
05	Prima facia
06	Research
07	Collateral of Veteran
08	Sharing agreement
09	Regular
11	Service-connected

Variable Name: **CL**

Definition: Primary clinic stop code

Remarks: This represents the first three characters of the 6-character Decision Support System (DSS) Identifier VHA uses to characterize ambulatory care clinics. The last three characters of the DSS Identifier are captured in the [CLC](#) (Secondary clinic stop code) variable in the Event dataset. The DSS Identifiers are used to identify the production units or the revenue centers for outpatient care. For more information, see the [VHA Directive 2003-040](#). **CL** can assume the values shown in [Appendix A](#) on page 95. For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Due to modifications for FY2006, there are several versions of the SAS print format for **CL**. The member **YCLINIC.** reflects clinic stops for FY2005. **YCLINICA.** reflects the updated clinic stops for FY2006. Please use **YCLINICA.** for current data and **YCLINICIC.** for prior year's data.

Data Type	Numeric
Print Format	YCLINIC.
Label	PRIMARY CLINIC STOP
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Outpatient Encounter (409.68) file, CLINIC STOP CODE field (reference file is CLINIC STOP (40.7))

Variable Name: **CL1 – CL15**

Definition: 1st – 15th primary clinic stop codes

Remarks: These variables in the Visit dataset contain the same values captured in the [CL](#) (Primary clinic stop code) variable in the Event dataset. Up to 15 clinic stops are recorded per visit. Note that the Visit dataset does not contain secondary stop codes. **CL1 – CL15** can assume the values of [CL](#) shown in [Appendix A](#) on page 95.

Due to modifications for FY2006, there are several versions of the SAS print format for **CL**. The member **YCLINIC.** reflects clinic stops for FY2005. **YCLINICA.** reflects the updated clinic stops for FY2006. Please use **YCLINICA.** for current data and **YCLINIC.** for prior year's data.

Data Type	Numeric
Print Format	YCLINIC. (FY2005 or prior) and YCLINICA. (FY2006)
Label	CLINIC STOP NUMBER 1–15
Datasets / Fiscal Years	Visit / 1980 – To Date
VistA Data Source	Outpatient Encounter (409.68) file, STOP CODE field (reference file is CLINIC STOP (40.7))

Variable Name: **CLC**

Definition: Secondary clinic stop code

Remarks: This represents the last three characters of the Decision Support System (DSS) Identifier VHA uses to characterize ambulatory care clinics. The first three characters of the DSS Identifier are captured in the [CL](#) (Primary clinic stop code) variable found in the Event dataset. The secondary stop code serves as a modifier to further define the primary work group, and can represent (1) the type of services provided, (2) the type of provider or team, and (3) a specially funded program. For more information, users are referred to the [VHA Directive 2003-040](#). **CLC** can assume the values shown in [Appendix A](#) on page 95.

Due to modifications for FY2006, there are several versions of the SAS print format for **CL**. The member **YCLINIC.** reflects clinic stops for FY2005. **YCLINICA.** reflects the updated clinic stops for FY2006. Please use **YCLINICA.** for current data and **YCLINIC.** for prior year's data.

Data Type	Numeric
Print Format	YCLINIC.
Label	CREDIT CLINIC STOP
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Outpatient Encounter (409.68) file, last 3 digits of STOP CODE field (reference file is CLINIC STOP (40.7))

Variable Name: **COMBAT**

Definition: Combat veteran eligibility indicator

Remarks: This variable indicates whether or not a veteran was a “combat veteran” during his/her time in the service, as defined in [Title 38, U.S. Code, Section 1710\(e\)\(1\)\(D\)](#)—that is, whether the veteran served on active duty in a theater of combat operations during a period of war, after the Gulf War or in combat against a hostile force during a period of “hostilities” after November 11, 1998. Note that it does *not* indicate whether or not a veteran was ever actually in immediate physical danger due to battle (see [VHA Directive 2002-049](#), Combat Veterans are Eligible for Medical Services for 2-years After Separation from Military Service Notwithstanding Lack of Evidence for Service Connection).

In 2002, Congress mandated that all combat veterans are eligible for up to two years of medical care from the VA immediately after they are discharged from their service. There is no co-pay or means-test required, nor is proof needed that any illness is related to military service. National Guard and Army Reserve personnel who fulfill the criteria are also eligible.

This variable has been populated since June 10, 2004. For frequency counts of the values for this variable, see [VIReC Research User Guide: Select Variable Frequencies From The FY2006 VHA Medical SAS® Datasets](#).

Data Type	Character
Print Format	\$XXYN.
Label	PATIENT COMBAT ELIGIBILITY INDICATOR
Datasets / Fiscal Years	Visit / FY2004 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Outpatient Classification File # 409.41, Combat Veteran added as entry #7

COMBAT can assume the following values:

Value	Description
0 or missing	Not a combat veteran
1	Combat veteran

Variable Name: **COMBAT_CARE**

Definition: Indicates that health care provided was primarily related to an injury or illness related to service in a combat zone.

Remarks: This variable has been populated since June 10, 2004.

Data Type	Character
SAS Format	\$XXYN.
Label	CARE RELATED TO COMBAT SERVICE CONDITION
Datasets/Fiscal Years	Event / 2004 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Event Capture Patient File #721 Combat Veteran, Field # 40, PCE Data Feed, Field # 30 (Combat Veteran is the 20 th piece separated by “”)

COMBAT_CARE can assume the following values:

Value	Description
0	Encounter not related to combat vet status
1	Encounter related to combat vet status

Variable Name: **COMBAT_DT**

Definition: Last day of patient combat eligibility

Remarks: Combat veterans identified by [COMBAT](#) (Combat veteran eligibility indicator) are eligible for up to two years of free treatment, regardless of other eligibility. This variable indicates the date that this eligibility expires. If [COMBAT](#) is missing or equals “0”, this variable is set to missing. The variable has been populated since June 10, 2004.

Data Type	Numeric
Print Format	DATE9.
Label	PATIENT COMBAT ELIGIBILITY END DATE
Datasets / Fiscal Years	Visit / FY2004 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Outpatient Classification File # 409.4, Combat Veteran added as entry #7

Variable Name: **CPT1 – CPT20**

Definition: Services and procedures performed by a provider recorded in Current Procedural Terminology (CPT–4) ambulatory procedure codes

Remarks: These codes refer to descriptive terms for reporting medical services and procedures performed by a provider for medical, surgical, and diagnostic procedures. In FY2005, 5 additional codes were added to make total of 20 CPT available in the Event and Inpatient Encounters datasets.

Data Type	Character
Print Format	None
Label	CPT CODES 1–20
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	File 90000010.18, PROCEDURE CODE field

Variable Name: **CPT1MODA-CPT20MODC**

Definition: Modifier Current Procedural Terminology (CPT-4) ambulatory procedure codes.

Remarks: The new codes refer to modifier descriptive terms for reporting medical services and procedures performed by a provider for medical, surgical, and diagnostic procedures. There are total of 60 variables, numbered 1-20 with each number ending with letter (A-C). **CPT1MODA – CPT20MODC** can assume the values shown in [Appendix A](#) on page 107.

Data Type	Character
Print Format	\$CPTMOD.
Label	CPT CODE 1 MODIFER A – CPT CODE 20 MODIFIER C
Datasets / Fiscal Years	Event / 2005 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	File 90000010.18, CPT MODIFIER field

Variable Name: **DOB**

Definition: Date of patient's birth

Remarks: This variable was added in FY1997, even though it has always been a required field in VistA.

Data Type	Numeric (SAS Date)
Print Format	DATE9. (DDMMMYYYY)
Label	DATE OF BIRTH (SASDATE)
Datasets / Fiscal Years	Visit / 1997 – To Date Event / 1998 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, DATE OF BIRTH field

Variable Name: **DXF2–DXF10**

Definition: Secondary ICD-9-CM diagnostic codes for the visit

Remarks: Most providers are documenting only the primary reason for the clinic encounter. Despite what the variable label suggests, the values for these variables are 5 characters wide and do not have an embedded decimal after the first three digits.

Data Type	Character
Print Format	None
Label	2 ND —10 TH DX – FULL STAY (ICD9) (6-DIGIT)
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Outpatient Encounter (409.43), fields DIAGNOSIS CODE and DIAGNOSIS PRIORITY RANKING, reference file ICD DIAGNOSIS (80)

Variable Name: **DXLSF**

Definition: Primary ICD-9-CM diagnosis code for this encounter

Remarks: Diagnoses were not collected for encounters until FY1997. Despite what the variable label suggests, the values for these variables are 5 characters wide and do not have an embedded decimal after the first three digits.

Data Type	Character
Print Format	None
Label	PRIMARY DX STAY (ICD9) (6-DIGIT)
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Outpatient Encounter (409.43), fields DIAGNOSIS CODE and DIAGNOSIS PRIORITY RANKING, reference file ICD DIAGNOSIS (80)

Variable Name: **ELIG**

Definition: Indicates veteran and non-veteran eligibility codes

Remarks: Veteran eligibility categories are based on the degree of service-connected disability and degree of impairment. Non-veteran eligibility codes give the non-veteran service category. For more information on the eligibility categories, see <http://www.va.gov/elig/Eligibility.htm>. For frequency counts of the values for this variable, see the accompanying [VIREC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Numeric
Print Format	YELIG.
Label	ELIGIBILITY CODE
Datasets / Fiscal Years	Visit / 1980 – To Date, Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Outpatient Encounter (409.68) file, ELIGIBILITY CODE field, reference file ELIGIBILITY (8) CODE

ELIG can assume the following values:

Value	Description
-2	**FY90 + **
-1	Purple Heart
0	Service-connected 0%
1	Service-connected 50% +
2	Aid and attendance - housebound
3	Service connected 40%
4	Not service-connected, pension
5	Not service connected
6	Domiciliary patient
7	Service-connected 30%
8	Service-connected 20%

Value	Description
9	Service-connected 10%
10	Catastrophically disabled
11	CHAMPVA
12	Collateral (pt. associated with veteran)
13	Employee
14	Other federal
15	Allied veteran
16	Humanitarian (non-vet emergency)
17	Sharing
18	Reimbursable Insurance
19	TRICARE / CHAMPUS

Variable Name: **ENCOUNTER_ID**

Definition: Unique VHA encounter identification number

Remarks: Beginning in FY2003, each event or encounter in the Event Dataset is uniquely identified by **ENCOUNTER_ID**. Previously, **SCRSSN** (Scrambled Social Security Number), **VIZDAY** (Date of the outpatient health care encounter), **STA5A** (Substation number), and **CL** (Primary clinic stop code) were used as the record identifier, but this combination does not uniquely define a particular outpatient visit, as a patient may visit a particular clinic stop at a given site two or more times on a given day. An example of a typical **ENCOUNTER_ID** is "G6V4-HUN". Use this variable to link the Event Dataset to the Health Economics Resource Center (HERC) Outpatient Average Cost File. For more information, see [HERC'S outpatient average cost dataset for VA care: Fiscal Years 2000 – 2003 4th Edition](#).

Data Type	Character
Print Format	None
Label	UNIQUE VHA ENCOUNTER ID. PRIMARY KEY
Datasets / Fiscal Years	Event / 2003 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Not Applicable

Variable Name: **ENV**

Definition: Indicates whether care received was due to exposure to some type of environmental hazard

Remarks:

Data Type	Character
Print Format	None
Label	ENVIRONMENTAL INDICATOR
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Derived from Outpatient Classification, (409.42) file, OUTPATIENT CLASSIFICATION TYPE field

ENV can assume the following values:

Value	Description
1	Yes
2	No

Variable Name: **ERIND**

Definition: Patient Emergency Response Indicator

Remarks: Emergency Response Indicator (ERI) was created and populated with a “Hurricane Katrina” designation for all those that have been identified as being within the known FEMA designated disaster areas.

Data Type	Character
Print Format	None
Label	Patient Emergency Response Indicator
Datasets / Fiscal Years	Visit / 2006– To Date Event / 2006 – To Date Inpatient Encounters / 2006 – To Date
VistA Data Source	Registration Patient File #2, field #.181

ERIND can assume the following values:

Value	Description
K	Emergency Response Indicator (Hurricane Katrina)
Null	No value

Variable Name: **ETHNIC**

Definition: Ethnicity with collection method

Remarks: Beginning with FY2004, the VHA Medical SAS Outpatient Datasets include a variable that identifies the Hispanic ethnicity of the patient collected in VistA in response to the U.S. Office of Management and Budget's revision of Statistical Policy Directive No. 15, [Race and Ethnic Standards for Federal Statistics and Administrative Reporting](#). The variable is coded to indicate ethnicity as well as the method of data collection (e.g., Hispanic or Latino-Observer; non-Hispanic or Latino-Observer). **ETHNIC** can assume the values shown in [Appendix A](#) on page 117. For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	CHARACTER
Print Format	\$ETHNIC.
Label	ETHNICITY
Datasets / Fiscal Years	Visit / 2004 – To Date Event / 2004 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient Information Sub-file (# 2.02) ETHNICITY INFORMATION field and METHOD OF COLLECTION field

Variable Name: **HOMECONTY**

Definition: County of patient's residence

Remarks: This is the state and county (or equivalent) code for the patient's home residence. If the patient resides in a domiciliary, that is considered the permanent residence for coding. This variable is based on the Federal Information Processing Standards (FIPS). It contains state code in the first two columns and county code, within the state, in the last three columns. State and county codes are available from the Census Bureau. For more information on the FIPS and a link to a complete list of county FIPS codes, go to <http://www.census.gov/geo/www/fips/fips.html>.

Data Type	Numeric
Print Format	COUNTYL.
Label	STATE/COUNTY OF RESIDENCE
Datasets / Fiscal Years	Visit / 1980 – To Date Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Reference file: STATE (5)

Variable Name: **HOMEPSA**

Definition: VHA medical center that identifies the patient's home residence

Remarks: This variable is considered antiquated, and should not be used. Rather, it has been recommended that primary service area be identified with the preferred facility indicator in the Enrollment Database (see VISN Support Service Center Web site on the VHA Intranet). **HOMEPSA** can assume the values of [STA3N](#), which can be found in [Appendix A](#) on page 178.

Data Type	Numeric
Print Format	STA3NL.
Label	HOME PRIM. SVC AREA
Datasets / Fiscal Years	Visit / 1985 – To Date Event / 1998 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Station Number (389.9) file, STATION NUMBER field

Variable Name: **HOMEVISN**

Definition: Veterans Integrated Service Network (VISN) associated with the veteran's primary service area

Remarks: **HOMEVISN** assumes the values of [VISN](#). For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Numeric
Print Format	None
Label	VISN OF RESIDENCE
Datasets / Fiscal Years	Visit / 1995 – To Date Event / 1998 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Not applicable

Variable Name: **HOMLESS**

Definition: Indicates the homeless status of the veteran

Remarks: On any given night, it is estimated that fewer than 200,000 veterans are homeless. Homeless veterans are typically male (97%) and the majority are single. Psychiatric and substance abuse disorders are prevalent amongst homeless veterans.¹ Consequently, many of the VA-sponsored programs provide treatment, counseling, and outreach.

The VistA file for **HOMLESS** (social work case (650) file) desisted activity in 2002 when Social Work Services stopped using its underlying software, the Social Work Information Management Software [SWIMS] and it no longer remains in use throughout the VA. SWIMS transmitted data to CFD and notified social workers about the veteran's need for patient assessment. Consequently, it is unclear how data are populated since that time.

VIREC recommends comparing **HOMLESS** data to [DXLSF](#) (Primary ICD-9-CM diagnosis code for this encounter), [DXF2-DXF10](#) (Secondary ICD-9-CM diagnostic codes for the visit), and/or [CPT1-CPT20](#) (Services and procedures performed by a provider recorded in CPT-4 ambulatory procedure codes). The CPT code commonly associated with homeless programs is 529 and the series of diagnostic codes for homelessness full under code V60.

Data Type	Character
Print Format	\$XXYN.
Label	HOMELESS CODE
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Social Work Case (650) file, HOMELESS INDICATOR field

HOMLESS can assume the following values:

Value	Description
0	No, veteran is not homeless
1	Yes, veteran is homeless

¹ U.S. Department of Veterans Affairs. Public and Intergovernmental Affairs: Fact Sheet: VA Programs for Homeless Veterans page. Available at: <http://www1.va.gov/opa/fact/hmlssfs.asp>. Access May 15, 2007.

Variable Name: **HOMSTATE**

Definition: State associated with the patient's residence

Remarks: **HOMSTATE** can assume the values shown in [Appendix A](#) on page 118. For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Numeric
Print Format	STATEL.
Label	STATE OF RESIDENCE
Datasets / Fiscal Years	Visit / 1980 – To Date Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, STATE field

Variable Name: **INCOME**

Definition: Adjusted individual annual income

Remarks: **INCOME** is a calculation of all reported income minus any deductions for medical expenses. Medical expenses are those actually paid for by the eligible veteran and include fees of physicians, dentists, and other providers of health services; hospital and nursing home fees; medical insurance premiums (including the Medicare premium); drugs and medicines; eyeglasses; any other expenses that are reasonably related to medical care.

Individual income is part of the household income on which the Means Test is based and includes Social Security (except disability), U.S. Civil Service, U.S. Railroad Retirement, Military Retirement, Other Retirement monies, Unemployment Compensation, Employment Income, Interest, Dividends & Annuities, Workers Comp, or Black Lung.

Data Type	Numeric
Print Format	COMMA6.
Label	ANNUAL INCOME
Datasets / Fiscal Years	Visit / 1992 – To Date
VistA Data Source	Individual Annual Income (408.21)

Variable Name: **INS**

Definition: Indicates the type of insurance coverage

Remarks: This can also be used to identify veterans without insurance coverage. The VistA database holds more than one active record for insurance coverage. At Austin, the presentation of a single value is not in agreement with this and should be considered neither complete nor accurate. For frequency counts of the values for this variable, see the accompanying [VIREC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Character
Print Format	\$INSUR.
Label	INSURANCE COVERAGE
Datasets / Fiscal Years	Visit / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	File 355.1, TYPE OF INSURANCE field

INS can assume the following values:

Value	Description
0	No insurance
1	Major medical
2	Dental
3	HMO
4	PPO
5	Medicare
6	Medicaid
7	CHAMPUS
8	Workman's comp
9	Indemnity
10	Prescription
11	Medicare supplemental
12	All other

Variable Name: **LOCVIZ**

Definition: Indicates the type of setting where the health encounter occurred

Remarks:

Data Type	Numeric
Print Format	XLOCVIZ.
Label	LOCATION OF VISIT
Datasets / Fiscal Years	Event / 1997 – To Date
VistA Data Source	HOSPITAL LOCATION field of the Visit (9010110) file)

LOCVIZ can assume the following values:

Value	Description
1	Staff (Regular clinic visit)
2	Fee (Care by non-VA staff)
3	VA + Fee (Both provide care during the visit)
4	Ward (When exam was performed in an area not designated as a clinic)
5	Home-Based Health Care
6	Away from facility, other than patient residence

Variable Name: **MARITAL**

Definition: Marital status of the patient

Remarks: Marital status is elicited from each patient when he or she first applies for medical care. Outpatient encounters that are recorded by hand may update this information. We found that ambulatory care staff has made changes to the patient record with regard to this variable. In a small comparison between the CFD data and a patient survey, we found an 82.7% agreement.¹⁹ For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Character
Print Format	\$MARITAL.
Label	MARITAL STATUS
Datasets / Fiscal Years	Visit / 1997 – To Date Event / 1998 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, MARITAL STATUS field

MARITAL can assume the following values:

Value	Description
A	Separated
D	Divorced
M	Married
N	Never married/single
S	Single
U	Unknown
W	Widowed

Variable Name: **MEANS**

Definition: Means Test Indicator Code

Remarks: The Means Test Indicator is used in determining a patient's eligibility to receive care. The assigned value, which reflects veteran status and percent service-connected eligibility, indicates the necessity of a Means Test.

Veterans classified as having 10 percent or more service-connected disability, former POWs, WWI veterans, and veterans without service-connected disability who are receiving a VA pension are eligible for mandatory care. They are not required to complete a Means Test. All other veteran patients (namely the non-service connected veterans) are required to complete an annual financial Means Test to determine a financial status against the VA thresholds that are established January 1st of each year (See [VHA Directive 2004-026](#)). Veterans with household income below the current year's applicable Means Test threshold are considered Category A. Those with household income above the threshold are considered Category C.

Until FY2002, patient records for those without a valid Means Test were blocked from entering into the Medical SAS Datasets. However, beginning in FY2003, this Means Test "filter" is removed and patient records without a valid Means Test are coded with a "U" value in this field. (See [VHA Directive 2003-026](#)). A value of "G" is also added to the FY2003 datasets (See [VHA Directive 2003-005](#)). Note that the SAS print format has changed from "\$MEANSL." to "\$MEANSG." to reflect these changes.

MEANS can assume the values shown in [Appendix A](#) on page 120. For frequency counts of the values for this variable, see the accompanying resource guide, [VIReC Research User Guide: Select Variable Frequencies From The FY2006 VHA Medical SAS® Datasets](#).

Data Type	Character
Print Format	\$MEANSG.
Label	MEANS TEST INDICATOR
Datasets / Fiscal Years	Visit / 1987– To Date Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	PTF (45) file, MEANS TEST INDICATOR field

Variable Name: **MST**

Definition: Indicates whether encounter relates to military sexual trauma

Remarks: The Military Sexual Trauma File was discontinued FY2006. The military sexual trauma outpatient procedures, diagnostics, and providers are now reflected in **MST**.

Data Type	Character
Print Format	\$XXYN.
Label	MILITARY SEXUAL TRAUMA
Datasets / Fiscal Years	Event / 2006 – To Date
VistA Data Source	In the OUTPATIENT ENCOUNTER file (#409.68), the VISIT FILE ENTRY field (#.05) points to the VISIT file (#9000010). In the VISIT file (#9000010), data are taken from the MILITARY SEXUAL TRAUMA field (#80005).

MST can assume the following values:

Value	Description
0	Encounter not related to military sexual trauma
1	Encounter related to military sexual trauma

Variable Name: **MULTI**

Definition: Indicator that the patient visited a parent station and a substation on the same day

Remarks: The parent station identifier ([STA3N](#)) and the substation identifier ([STA5A](#)) must be different in order for this variable to have an “M” value. For example, a visit to Parent Station 589 (Kansas City) and Substation 589A7 (Wichita) on the same day would turn the **MULTI** indicator value to “M”.

Data Type	Character
Print Format	\$MULTI.
Label	MULTIPLE / SINGLE STATION INDICATOR
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Not applicable

MULTI can assume the following values:

Value	Description
M	Multiple station
S	Single station

Variable Name: **NCODES**

Definition: Number of CPT-4 procedure codes ([CPT1-CPT20](#)) populated within the record

Remarks: Up to 20 CPT-4 procedure codes can be populated per record (SAS observation).

Data Type	Numeric
Print Format	None
Label	NUMBER OF CPTS THIS SEGMENT
Datasets / Fiscal Years	Event / 1998 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Not applicable

Variable Name: **NCPTTOT**

Definition: Total Number of CPT codes for one encounter

Remarks: Up to 20 CPT-4 procedure codes can be populated per record (SAS observation).

Data Type	Numeric
Print Format	None
Label	NUMBER OF CPT FOR ENCOUNTER
Datasets / Fiscal Years	Event / 2005 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Not applicable

Variable Name: **NDIAG**

Definition: Number of ICD-9-CM diagnosis codes ([DXLSE](#), [DXF2–DXF10](#)) populated within the record

Remarks: Up to ten ICD-9-CM diagnosis codes can be populated per record (SAS observation).

Data Type	Numeric
Print Format	None
Label	NUMBER OF DIAG CODES
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Not applicable

Variable Name: **NODEPS**

Definition: Number of dependents for eligible veterans

Remarks: This data element is collected because it is a factor in determining the Means Test threshold.

Data Type	Character
Print Format	None
Label	NO. OF DEPENDENTS
Datasets / Fiscal Years	Visit / 1988 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	ANNUAL MEANS (408.31) TEST file, NUMBER OF DEPENDENTS field

Variable Name: **NPROV**

Definition: Number of provider type variables ([PROV1-PROV10](#)) populated within the record

Remarks:

Data Type	Numeric
Print Format	None
Label	NUMBER OF PROV THIS SEGMENT
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Not applicable

Variable Name: **NPROVID**

Definition: Number of provider identification code variables ([PROVID1](#)–[PROVID10](#)) populated within the record

Remarks:

Data Type	Numeric
Print Format	None
Label	NUMBER OF PROV IDS THIS SEGMENT
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Not applicable

Variable Name: **NSTOPS**

Definition: Number of clinic stop variables ([CL1-CL15](#)) populated within the record

Remarks: Data are transmitted as encounters from the VistA Outpatient Encounter (409.68) file. This variable is calculated at the CFD receiving end based on clinic stop, date and station. A problem has been noted for Community-Based Outpatient Clinics (CBOCs) where patients with encounters at the parent station and at the CBOC with the same stop code are losing records. For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Numeric
Print Format	None
Label	NUMBER CLINIC STOPS
Datasets / Fiscal Years	Visit / 1980 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Not applicable

Variable Name: **NTRENC**

Definition: Indicates whether there was treatment given for nasopharyngeal radium irradiation treatment exposure

Remarks: This variable was added to record eligibility for treatment of cancer of the head or neck associated with a veteran's receipt of nasopharyngeal radium irradiation treatments during active military, naval, or air service. (See [VHA Handbook 1301.1](#), "Ionizing Radiation Registry Program Procedures")

Data Type	Character
Print Format	\$NTRENC.
Label	NOSE THROAT RADIUM TRMT IND
Datasets / Fiscal Years	Event / 2002 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Derived from Outpatient (409.42) file, OUTPATIENT CLASSIFICATION TYPE and VALUE fields.

NTRENC can assume the following values:

Value	Description
0	This health encounter not related to nose throat radium treatments
1	This health encounter related to nose throat radium treatments
(Other)	Does not claim nose throat radium treatments

Variable Name: **NTRIND**

Definition: Indicates whether the patient claimed nasopharyngeal radium irradiation treatment during active military service

Remarks: This variable was added to record eligibility for treatment of cancer of the head or neck associated with a veteran's receipt of nasopharyngeal radium irradiation treatments during active military, naval, or air service. (See [VHA Handbook 1301.1](#), "Ionizing Radiation Registry Program Procedures.") For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Character
Print Format	\$XXYN.
Label	CLAIMED NOSE THROAT RADIUM EXP
Datasets / Fiscal Years	Visit / 2002 – To Date
VistA Data Source	Derived from Outpatient (409.42) file, OUTPATIENT CLASSIFICATION TYPE and VALUE fields.

NTRIND can assume the following values:

Value	Description
0	No claim of nasopharyngeal radium irradiation treatment
1	Claim of nasopharyngeal radium irradiation treatment

Variable Name: **PATID**

Definition: Patient Identifier

Remarks: The Patient ID is transmitted from the sites and identifies the transaction. CFD logic adds the 3-digit station number in front of the Patient ID

Data Type	Character
Print Format	None
Label	PATIENT IDENTIFER
Datasets / Fiscal Years	Inpatient Encounters / 2005 – To Date
VistA Data Source	Not applicable

Variable Name: **POS**

Definition: Military period in which the veteran served

Remarks: This variable is related to the authority under which a patient is eligible for care. This variable is a mixture of type of service (Army, Navy, etc.) if active currently, period of service (Spanish-American War to Desert Storm) if a veteran, and other codes such as workers comp, emergency, CHAMPUS, etc., which are largely for non-veterans. The latest wartime period of service is coded if more than one applies, unless patient is service connected for a condition incurred in a prior war.

A Technical Report published by the [Health Economics Resource Center \(HERC\)](#) determined that values A-V signify non-veteran status while values 0-8 and W-Z indicate veteran status. HERC discovered that in many cases, multiple records pertaining to a single individual fluctuate between value “Other or None” and other values. Consequently, HERC recommends that researchers concerned about the reliability of the Period of Service variable as an indicator of non-veteran should eliminate POS from their analysis or eliminate all records that contain a “Other or None” value.²⁰

POS can assume the values found in [Appendix A](#) on page 121. For frequency counts of the values for this variable, see the accompanying [VIREC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Character
Print Format	\$XXPDSEV
Label	PERIOD OF SERVICE
Datasets / Fiscal Years	Visit / 1992 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, PERIOD OF SERVICE field

Variable Name: **POV**

Definition: Code for the purpose of the healthcare visit

Remarks: The code with the lowest applicable number is used. For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Numeric
Print Format	\$XXPOV.
Label	PURPOSE OF VISIT
Datasets / Fiscal Years	Visit / 1985 – To Date Event / 1997 – To Date
VistA Data Source	File 2.98, PURPOSE OF VISIT field

POV can assume the following values:

Value	Description
1	Physical examination for compensation and pension eligibility
2	Physical examination for establishing eligibility for VA health benefits (VA Form 10-10EZ)
3	Scheduled appointment
4	Unscheduled appointment

Variable Name: **POW**

Definition: Indicator of whether the patient was a prisoner of war

Remarks: This field is initially entered through patient self-report, which may later be verified through the patient's military service record. The Medical SAS Inpatient Main dataset also contains POW (Prisoner of War status with name of war and location), but it is coded to indicate the name of the war and location. For frequency counts of the values for this variable, see the accompanying [VIREC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Character
Print Format	\$XXPOW.
Label	PRISONER OF WAR STATUS
Datasets / Fiscal Years	Visit / 1985 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, POW STATUS INDICATED field

POW can assume the following values:

Value	Description
U	Unknown
N	Not a prisoner of war
Y	Prisoner of war

Variable Name: **POWLOC**

Definition: Indicator of the period of service and/or location in which the veteran was a prisoner of war

Remarks: For frequency counts of the values for this variable, see the accompanying [VIREC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Character
Print Format	\$POWLOC.
Label	PRISONER OF WAR LOCATION
Datasets / Fiscal Years	Visit / 2001 – To Date
VistA Data Source	Patient (2) file, PRISONER OF WAR LOCATION field

POWLOC can assume the following values:

Value	Description
A	Persian Gulf War
B	Yugoslavia
4	World War I
5	World War II, Europe
6	World War II, Pacific
7	Korean War
8	Vietnam Era
9	Other

Variable Name: **PROV1 – PROV10**

Definition: 1st – 10th codes for the provider type

Remarks: The Centers for Medicare and Medicaid Services (CMS) and the American National Standards Institute (ANSI) originally developed the Provider Classification System, which codified provider types and provider areas of specialization for all medical-related providers. This taxonomy is currently overseen by the National Uniform Claim Committee (NUCC) for the purpose of codifying providers for billing purposes (See [VHA Directive 2005-059](#)). Providers are not extracted in any particular order, which means that PROV1 is not necessarily the primary provider.

Beginning with FY2003, the provider type in the VHA Medical SAS Event Dataset is coded in character values. The associated permanent SAS print format is also changed to “\$PERCLS.” from “XXPROV.”. **PROV1 – PROV10** can assume the values shown in [Appendix A](#) on page 122.

Data Type	Character
Print Format	\$PERCLS. (Use XXPROV. for years prior to FY2003)
Label	PROVIDER TYPE 1 – 10
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Outpatient Provider (409.44) file, PROVIDER TYPE CODE field, reference file, PERSON (8932.1) CLASS

Variable Name: **PROVID1 – PROVID10**

Definition: 1st – 10th healthcare provider identification codes associated with this event

Remarks: This is a concatenation of the 3-digit [STA3N](#) (Parent station identifier) variable and the provider ID code ([PROV1 – PROV10](#)).

Provider ID is assigned arbitrarily at the local level thereby increasing the possibility of one provider having multiple provider IDs depending on the number of stations to which he/sher may be associated. Consequently, it is difficult to associate a unique provider or specialist to a provider ID at the national level.

Health Informatics and Data created the National Health Care Practitioner Database (NHCPD) which is part of the National Medical Information System. The structure is based on the National Provider Identifier system created by the Centers for Medicare & Medicaid Services to support HIPAA. The NHCPD populates the provider first, middle, and last names, Social Security Number, employing VAMC, and provider identification. This SAS dataset is housed at the Corporate Franchise Data Center and is named the Outpatient and Primary Care Management Module (PCMM) Provider file in the [National Patient Care Database \(NPCD\) Data Dictionary](#) on the Intranet.

Data Type	Character
Print Format	None
Label	PROVIDER ID 1 – 10
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	New Person (200) File, ROLE INSTANCE ID field

Variable Name: **PS**

Definition: Recategorization of the **POS** (Military period in which the veteran served in) variable

Remarks: The value is related to the authority under which a patient is eligible for care. This variable is irrespective of type of service (Army, Navy, etc.) and strictly related to date values. The latest wartime period of service is coded if more than one applies, unless the patient is service-connected for a condition incurred in a prior war. For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Numeric
Print Format	PSRCDL.
Label	PERIOD OF SVC RECODE
Datasets / Fiscal Years	Visit / 1985 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, PERIOD OF SERVICE field

PS can assume the following values:

Value	Description
0	Spanish-American War
1	World War I
2	World War II
3	Pre-Korean War
4	Korean War
5	Post-Korean War
6	Vietnam Era
7	Post-Vietnam Era
8	Other
9	Desert Storm (active)
10	Desert Storm (veteran)

Variable Name: **PSEUDO**

Definition: Pseudo-SSN indicator

Remarks: This variable indicates if the patient's Social Security Number (SSN) is recorded as a pseudo-Social Security Number created using numeric equivalents of the patient's initials and birth date. A pseudo-SSN is a temporary identification when the patient has no SSN or the patient's true SSN cannot be determined. The pseudo-SSN will be retained as a permanent identification number when a patient refuses to apply for a Social Security Number or death occurs before a SSN application can be made.

Data Type	Character
Print Format	None
Label	PSEUDO SSN
Datasets / Fiscal Years	Visit / 1995 – To Date Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, SOCIAL SECURITY NUMBER field

PSEUDO can assume the following values:

Value	Description
P	Social Security Number recorded is a pseudo-SSN
Blank	Social Security Number recorded is not a pseudo-SSN

Variable Name: **RACE**

Definition: Race or national origin

Remarks: Reporting of race or ethnicity is most frequently extracted from clinical documentation (e.g., discharge summary) and/or observation of administrative staff. See [RACE1 – RACE7](#) for more information on race data collected according to new federal guidelines since FY2004. The Frequently Asked Questions section in [Appendix C](#) provides recommendations and resources on using race data. For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Numeric
Print Format	RACEL.
Label	RACE CODE
Datasets / Fiscal Years	Visit / 1997 – To Date Event / 1998 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, RACE field and ETHNIC GROUP field

RACE can assume the following values:

Value	Description
1	Hispanic, white
2	Hispanic, black
3	American Indian
4	Black
5	Asian
6	White
7 or missing	Unknown

Variable Name: **RACE1 – RACE7**

Definition: Race with collection method

Remarks: Beginning with FY2004, the VHA Medical SAS Outpatient Datasets contain seven new variables containing up to 7 new race values collected in VistA in response to the U.S. Office of Management and Budget’s revision of [Statistical Policy Directive No. 15](#), “Race and Ethnic Standards for Federal Statistics and Administrative Reporting.” These new variables are coded to indicate the means of data collection (e.g., White-Self-identified, White-Observer, and White-Proxy). **RACE1 – RACE7** can assume the values shown in [Appendix A](#) on page 174. The Frequently Asked Questions section in [Appendix C](#) provides recommendations and resources on using race data. For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

VIReC continues to investigate those instances where a race variable has the value “Unknown – Unknown by Patient.” This accounts for less than 1% of all responses.

Data Type	CHARACTER
Print Format	\$RACE.
Label	RACE CODE 1 – 7
Datasets / Fiscal Years	Visit / 2004 – To Date Event / 2004 – to Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Race Information Sub-file (# 2.02) RACE INFORMATION field and METHOD OF COLLECTION field

Variable Name: **RAD**

Definition: Exposure to Ionizing Radiation through nuclear testing or in Japan

Remarks: This variable was added to the dataset in July of FY1982. It is self-reported and is not recorded for non-veterans or for those veterans in service prior to WWII. For frequency counts of the values for this variable in the Visit Dataset, see the accompanying [VIREC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Note that the values in the Visit and Event Datasets are different. The print format "RADL." was attached to **RAD** in the Event Datasets for FY1997 – FY2003. Use "XXYN." instead. This problem was corrected in the FY2004 Event Dataset.

Data Type	Numeric
Print Format	RADL. (Visit); XXYN. (Event)
Label	CLAIMED RADIATION EXPOSURE
Datasets / Fiscal Years	Visit / 1983 – To Date Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, RADIATION EXPOSURE METHOD field

RAD (in the Visit Dataset) can assume the following values:

Value	Description
1	No radiation exposure claim
2	Claim of radiation exposure in Japan
3	Claim of radiation exposure in the U.S.
4	Claim of radiation exposure in both Japan and the U.S.

RAD (in the Event Dataset) can assume the following values:

Value	Description
0	No claim of radiation exposure
1	Claim of radiation exposure

Variable Name: **RELIG**

Definition: Religious preference

Remarks: For frequency counts of the values for this variable, see the accompanying [VIREC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Character
Print Format	\$RELIG.
Label	RELIGION CODE
Datasets / Fiscal Years	Visit / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, RELIGIOUS PREFERENCE field (reference file is RELIGION (13))

RELIG can assume the following values:

Value	Description
0	Catholic
1	Jewish
2	Eastern Orthodox
3	Baptist
4	Methodist
5	Lutheran
6	Presbyterian
7	United Church of Christ
8	Episcopalian
9	Adventist
10	Assembly of God
11	Brethren
12	Christian Science
13	Church of Christ
14	Church of God
15	Disciples of Christ

Value	Description
16	Evangelical Covenant
17	Friends
18	Jehovah Witness
19	Latter Day Saints
20	Islamic
21	Nazarene
22	Other
23	Pentecostal
24	Protestant, other
25	Protestant, no preference
26	Reformed
27	Salvation Army
28	Unitarian Universalist
29	Unknown, no preference
30	Native American
31	Buddhist

Variable Name: **SCCI**

Definition: Indicator of whether the condition being treated is service-connected

Remarks:

Data Type	Character
Print Format	\$SCCI.
Label	SVC-CON CONDITION INDICATOR
Datasets / Fiscal Years	Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Derived from Outpatient (409.42) file, OUTPATIENT CLASSIFICATION TYPE field

SCCI can assume the following values:

Value	Description
Blank	Not applicable
0	Treatment not related to service-connected condition
1	Treatment related to service-connected condition

Variable Name: **SCRSSN**

Definition: Scrambled Social Security Number

Remarks: Scrambled Social Security Number was created in FY1986 as a replacement for the patient's real Social Security Number (SSN). It is a formula manipulation of the real SSN and not a randomly generated number. Therefore, **SCRSSN** may be used to identify a patient across fiscal years and datasets.

Data Type	Numeric
Print Format	SSN11. (NNN-NN-NNNN)
Label	SCRAMBLED SSN
Datasets / Fiscal Years	Visit / 1986 – To Date Event / 1997 – To Date (Note: Real SSN was listed in fiscal years 1980–85.) Inpatient Encounters / 2005 – To Date
VistA Data Source	None (formula manipulation of Patient (2) file real SSN)

Variable Name: **SEX**

Definition: Sex of patient

Remarks: For frequency counts of the values for this variable, see the accompanying [VIREC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Character
Print Format	\$SEXL.
Label	SEX
Datasets / Fiscal Years	Visit / 1985 – To Date Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, SEX field

SEX can assume the following values:

Value	Description
F	Female
M	Male
O	Other
U	Unknown

Variable Name: **STA3N**

Definition: Parent station identifier

Remarks: This is the 3-digit numeric identification of VAMC facilities. This variable indicates the parent station (VA hospital) or the parent station of a branch at which the patient was treated. Use [STA5A](#) to identify the actual facility at which the patient was treated. If a patient was treated at a VAMC facility, then this variable and [STA5A](#) will have the same values. **STA3N** can assume the values shown in [Appendix A](#) on page 175. For frequency counts of the values for this variable, see the accompanying [VIReC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Numeric
Print Format	STA3NL.
Label	PARENT STATION
Datasets / Fiscal Years	Visit / 1980 – To Date Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Station Number (389.9) file, STATION NUMBER field

Variable Name: **STA5A**

Definition: Five-digit numeric identifier of the VA facility where care was provided

Remarks: This variable identifies the VA outpatient clinic where the patient's health encounter occurred. Since this variable can take as many as 1,300 distinct values, they are not listed in this document. Instead, users are referred to the [VA Site Tracking \(VAST\) database](#), maintained by the Planning Systems Support Group (PSSG) of the Office of the Assistant Deputy Under Secretary for Health (ADUSH) located on the Intranet. Also, the [National Patient Care Database \(NPCD\) Web page](#) maintains a Facility Reference search engine which can be found on the Intranet. For frequency counts of the values for this variable, see the accompanying [VIREC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Character
Print Format	\$STA52AL.
Label	STATION
Datasets / Fiscal Years	Visit / 1991 – To Date Event / 1997 – To Date
VistA Data Source	Station Number (389.9) file, SERVICING FACILITY field

Variable Name: **STA6A**

Definition: Six-digit substation identifier

Remarks: This new addition to the Outpatient datasets identifies the VA substation where the patient's health encounter occurred including the station names recently approved by Congress. Since this variable can take as many as 1,300 distinct values, they are not listed in this document. Instead, users are referred to the [VA Site Tracking \(VAST\) database](#), maintained by the Planning Systems Support Group (PSSG) of the Office of the Assistant Deputy Under Secretary for Health (ADUSH), located on the Intranet. Also, the [National Patient Care Database \(NPCD\) Web page](#) maintains a Facility Reference search engine which can be found on the Intranet.

Data Type	Character
Print Format	\$STA56L.
Label	STATION
Datasets / Fiscal Years	Visit / 2006 – To Date Event / 2006 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	STATION NUMBER (389.9) file

Variable Name: **SVCPCT**

Definition: Patient's percentage (from 0 to 100) of service-connected disability

Remarks: The value recorded in this variable is the percentage of service-connected disability determined as part of establishing a veteran's eligibility for VA health care benefits. This variable does not indicate whether or not a veteran has any service-connected disability, because a veteran may have a service-connected disability and be recorded as 0% service-connected in this variable. For frequency counts of the values for this variable, see the accompanying [VIREC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Number
Print Format	None
Label	PERCENT OF SERVICE CONNECTED
Datasets / Fiscal Years	Visit / 1997 – To Date Event / 2000 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, SERVICE CONNECTED PERCENTAGE field

Variable Name: **VETIND**

Definition: Veteran indicator

Remarks: This variable represents the last day for combat vet eligibility and will only be populated by cross-reference when the veteran's combat vet eligibility has been determined. The value will remain after the combat vet eligibility period has expired.

Data Type	Character
Print Format	\$XXYN.
Label	VETERAN INDICATOR
Datasets / Fiscal Years	Event / 2006 – To Date Visit / 2006 – To Date
VistA Data Source	Patient File (2), #.5295 COMBAT VETERAN END DATE

VETIND can assume the following values:

Value	Description
0	Combat vet eligibility has not been determined
1	Combat vet eligibility has been determined

Variable Name: **VISN**

Definition: Veterans Integrated Service Network (VISN) where the outpatient visit or event occurred

Remarks: VISNs are VHA organizational business units comprised of multiple medical centers and clinics within a geographic region. For frequency counts of the values for this variable, see the accompanying resource guide, [VIREC Research User Guide: Select Variable Frequencies from the FY2006 VHA Medical SAS Datasets](#).

Data Type	Numeric
Print Format	None
Label	VETS INTEGRATED SERVICE NETWORK
Datasets / Fiscal Years	Visit / 1995 – To Date Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Derived from 389.9 File, SERVICING FACILITY field

VISN can assume the following values:

Value	Description
1	VA New England Healthcare System
2	VA Healthcare Network Upstate New York
3	VA NY / NJ Veterans Healthcare Network
4	VA Stars & Stripes Healthcare Network
5	VA Capitol Health Care Network
6	VA Mid-Atlantic Network
7	The Atlantic Network
8	VA Sunshine Healthcare Network
9	Mid South Veterans Healthcare Network
10	VA Healthcare System of Ohio
11	Veterans In Partnership
12	The Great Lakes Health Care System
15	VA Heartland Network
16	South Central VA Health Care Network
17	VA Heart of Texas Health Care Network
18	VA Southwest Healthcare Network
19	Rocky Mountain Network
20	Northwest Network
21	Sierra Pacific Network
22	Desert Pacific Healthcare Network
23	VA Midwest Health Care Network

Variable Name: **VIZDAY**

Definition: Date of the outpatient health care encounter

Remarks:

Data Type	Numeric (SAS Date)
Print Format	DATE9. (DDMMMYYYY)
Label	DATE OF VISIT
Datasets / Fiscal Years	Visit / 1991 – To Date Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Outpatient Encounter (409.68), Date/Time of event field

Variable Name: **VIZTIME**

Definition: Time of visit of the outpatient encounter

Remarks: Time when the patient visit occurred. Time is recorded as Military Time (i.e., using the 24-hour clock) with “hhmm” format. Thus, 11:32 A.M. is recorded as “1132”, and 11:32 P.M. is recorded as “2332”.

Data Type	Numeric
Print Format	None
Label	TIME OF VISIT
Datasets / Fiscal Years	Inpatient Encounters / 2006 – To Date
VistA Data Source	Outpatient Encounter (409.68), Date/Time of event field

Variable Name: **ZIP**

Definition: Zip code

Remarks: This variable is the 5-digit postal code for the patient's home residence.

Data Type	Numeric
Print Format	Z5.
Label	ZIP CODE
Datasets / Fiscal Years	Visit / 1980 – To Date Event / 1997 – To Date Inpatient Encounters / 2005 – To Date
VistA Data Source	Patient (2) file, ZIP CODE field

Appendix A: Values for Selected Variables

(Values and their descriptions begin on the following page.)

CL can assume the following values:*

Value	Description
-99	*FY88 And Later*
101	Emergency Unit
102	Admit And/Or Screening 102101 – Emergency Unit

MEANS can assume the following values:

Value	Description
AS	This Means Test category includes all compensable service-connected (0-100%) veterans and special category veterans. Special category veterans include: Mexican Border War and World War I veterans; former Prisoners of War; and patients receiving care for conditions potentially related to exposure to either Agent Orange (Herbicides), Ionizing Radiation or Environmental Contaminants. This category also includes 0% non-compensable service-connected veterans when they are treated for a service-connected condition.
AN	This Means Test category includes non-service connected (NSC) veterans who are required to complete VA Form 10-10F (Financial Worksheet) and those NSC veterans in receipt of VA pension, aid and attendance, housebound allowance, or entitled to State Medicaid. This category may also include 0% non-compensable service-connected veterans when they are not treated for a service-connected condition and are placed in this category based on completion of a Means Test.
B	Category B
B0	Category B
C	This Means Test category includes those veterans who, based on income and/or net worth, are required to reimburse VA for care rendered. This category also includes those pending adjudication. This category may also include 0% non-compensable service-connected veterans when they are not treated for a service-connected condition and are placed in this category based on completion of a Means Test.
C0	Means Test Co-Pay Required
G	This Means Test category includes those veterans who are not service-connected and non-compensable 0% service-connected veterans with current income above the Means Test threshold and below the applicable HUD Index. These veterans are assigned to Priority 7 (unless Catastrophically Disabled or exposed to a toxic substance). Veterans who fall into this category will have to submit income for yearly testing. Public Law 107-135 requires VA to identify veterans who agree to make medical care co-payments and whose family incomes are below the "low-income" limits for the geographical area set by HUD for public housing benefits. Effective October 1, 2002, these veterans will be charged a reduced inpatient co-payment equal to 20% of the established inpatient co-payment and per diem charges. On October 8, 2002, VA published the final rule governing the new geographic means test (GMT) process and defines procedures for assigning veterans to Priority 7 and 8. The rule also clarifies a previous rule relating to assignments to Priority 4 based on Catastrophic Disability. Veterans who are Catastrophically Disabled and who have income above the Means Test threshold are still required to make co-payments for their medical care.
G0	GMT Co-Pay Required
N	This Means Test category includes only non-veterans receiving treatment at VA facilities.

Value	Description
N0	Non-Veteran
X	This Means Test category includes treatment of patients who are not required to complete the Means Test for the care being provided. If the veteran was admitted prior to July 1, 1986 with no change in the level of care being received, (i.e., if the patient was in the Nursing Home Care Unit (NHCU) on June 30, 1986 and has remained in the NHCU since that date with no transfer to the hospital for treatment), the "X" Means Test indicator will be accepted. This category also includes patients admitted to the domiciliary, patients seen for completion of a compensation and pension examination, and Class II dental treatment.
X0	Not applicable
U	This Means Test category includes only those patients who require a Means Test, and the Means Test has not been done/completed.
U0	Not done

POS can assume the following values:

Value	Description
A	Army, active duty
B	Navy or Marine, active duty
C	Air Force, active duty
D	Coast Guard, active duty

118304	Physicians (MD And DO); Physician/Osteopath; Allergy & Immunology; Internal Medicine
118305	Physicians (MD And DO);Physician/Osteopath;Adolescent Only Under 16
118306	Physicians (MD And DO);Physician/Osteopath;Adolescent Only Under 21
118307	Physicians (MD And DO); Physician/Osteopath; Age Specific, Greater Than 1 Year Old
118308	Physicians (MD And DO);Physician/Osteopath;Age Specific Newborns Only
118309	Physicians (MD And DO);Physician/Osteopath;Blood Banking
118310	Physicians (MD And DO); Physician/Osteopath; Cardiac Electrophysiology, Clinical
118311	Physicians (MD And DO);Physician/Osteopath; Critical Care Medicine

Value	Description
118312	Physicians (MD And DO);Physician/Osteopath; Diabetes
118313	Physicians (MD And DO); Physician/Osteopath; Endocrinology
118314	Physicians (MD And DO); Physician/Osteopath; Geriatric Medicine
118315	Physicians (MD And DO); Physician/Osteopath; Gynecology
118316	Physicians (MD And DO); Physician/Osteopath; Hematology
118317	Physicians (MD And DO); Physician/Osteopath; Immunology, Clinical And Laboratory
118318	Physicians (MD And DO); Physician/Osteopath; Immunology, Dermatological
118319	Physicians (MD And DO);Physician/Osteopath; Immunology: Laboratory Diagnosti
118320	Physicians (MD And DO);Physician/Osteopath; Infertility
118321	Physicians (MD And DO);Physician/Osteopath; Neonatology
118322	Physicians (MD And DO);Physician/Osteopath; Public Health: Preventive Medicine
118323	Physicians (MD And DO);Physician/Osteopath; Pharmacotherapy
118324	Physicians (MD And DO);Physician/Osteopath; Psychopharmacy
118325	Physicians (MD And DO); Physician/Osteopath; Pain Medicine
118326	Physicians (MD And DO); Physician/Osteopath; Radiology, Angiography & Interventional
118327	Physicians (MD And DO); Physician/Osteopath; Radiology, Therapeutic
118328	Physicians (MD And DO);Physician/Osteopath; Radium Therapy
118329	Physicians (MD And DO);Physician/Osteopath; Rhinology
118330	Physicians (MD And DO);Physician/Osteopath; Roentgenology
118331	Physicians (MD And DO); Physician/Osteopath; Roentgenology, Diagnostic
118332	Physicians (MD And DO);Physician/Osteopath; Sports Medicine
118333	Physicians (MD And DO);Physician/Osteopath; Surgery Medicine
118334	Physicians (MD And DO);Physician/Osteopath; Surgery Facial Plastic
118335	Physicians (MD And DO);Physician/Osteopath; Toxicology Medical
118336	Physicians (MD And DO); Physician/Osteopath; Thermography
118337	Physicians (MD And DO); Physician/Osteopath; Occupational Medicine
118338	Physicians (MD And DO); Physician/Osteopath; Oncology
118339	Physicians (MD And DO); Physician/Osteopath; Otorhinolaryngology & Head
118340	Physicians (MD And DO); Physician/Osteopath; Otorhinolaryngology & Head
118341	Physicians (MD And DO); Physician/Osteopath; Foot And Ankle Orthopedic
118342	Physicians (MD And DO);Physician/Osteopath; Orthopedic Surgery: Sports Medicine
118434	Physicians (MD And DO);Physician/Osteopath; Sports Medicine - Omm
120000	Podiatric Medicine And Surgery
120100	Podiatric Medicine And Surgery Services; Assistant, Podiatric
120200	Podiatric Medicine And Surgery Services; Podiatrist
120202	Podiatric Medicine And Surgery; Podiatrist; Foot And Ankle Orthopaedics/Biomechanics
120203	Podiatric Medicine And Surgery; Podiatrist; Foot And Ankle Pediatrics
120204	Podiatric Medicine And Surgery Services; Podiatrist; Surgery, Foot & Ankle
120205	Podiatric Medicine And Surgery Services; Podiatrist; Surgery, Foot
120206	Podiatric Medicine And Surgery Services; Podiatrist; General Practice
120207	Podiatric Medicine And Surgery; Podiatrist; Podiatric Medicine/Primary Care
120208	Podiatric Medicine And Surgery; Podiatrist; Podiatric Orthopedics

Value	Description
120209	Podiatric Medicine And Surgery Services; Podiatrist; Primary Podiatric Medicine
120210	Podiatric Medicine And Surgery Services; Podiatrist; Preventive Medicine: Public Heal
120211	Podiatric Medicine And Surgery Service; Podiatrist; Radiology
120212	Podiatric Medicine And Surgery Service; Podiatrist; Sports Medicine
130000	Respiratory, Rehabilitative And Restorative Services
130100	Respiratory, Rehabilitative And Restorative Services; Occupational Therapist
130101	Respiratory, Rehabilitative And Restorative Services; Occupational Therapist Assistant
130102	Respiratory, Rehabilitative And Restorative Services; Occupational Therapist; Hand
130103	Respiratory, Rehabilitative And Restorative Services; Occupational Therapist; Registered Occupational Therapist
130104	Respiratory, Rehabilitative And Restorative Services; Occupational Therapist; Case Management
130105	Respiratory, Rehabilitative And Restorative Services; Occupational Therapist; Ergonomics
130106	Respiratory, Rehabilitative And Restorative Services; Occupational Therapist; Human Factors
130107	Respiratory, Rehabilitative And Restorative Services; Occupational Therapist; Neurorehabilitation
130108	Respiratory, Rehabilitative And Restorative Services; Occupational Therapist; Pediatrics
130109	Respiratory, Rehabilitative And Restorative Services; Occupational Therapist; Rehabilitation, Driver
130200	Respiratory, Rehabilitative And Restorative Services; Other
130201	Respiratory, Rehabilitative And Restorative Services; Art Therapist
130202	Respiratory, Rehabilitative And Restorative Services; Specialist/Technologist; Athletic Trainer
130203	Respiratory Rehabilitative And Restorative S; Dance Therapist
130204	Respiratory, Rehabilitative And Restorative Services; Massage Therapist
130205	Respiratory, Rehabilitative And Restorative Services; Music Therapist
130206	Respiratory, Rehabilitative And Restorative Services; Specialist/Technologist; Rehabilitation, Blind
130207	Respiratory, Rehabilitative And Restorative Services; Orthotics/Prosthetics Fitter
130208	Respiratory, Rehabilitative And Restorative Services; Other; Orthotist
130209	Respiratory, Rehabilitative And Restorative Services; Recreation Therapist
130210	Respiratory, Rehabilitative And Restorative Services; Other; Rehabilitation Coordinator
130211	Respiratory Rehabilitative And Restorative S; Other; Rehabilitation Counselor
130212	Respiratory, Rehabilitative And Restorative Services; Other; Vocational Specialist
130213	Respiratory, Rehabilitative And Restorative Services; Orthotist
130214	Respiratory, Rehabilitative And Restorative Services; Prosthetist
130215	Respiratory Rehabilitative And Restorative S; Prosthetist
130300	Respiratory, Rehabilitative And Restorative Services; Physical Therapist
130301	Respiratory, Rehabilitative And Restorative Services; Physical Therapist; Cardiopulmonary

Value	Description
130302	Respiratory, Rehabilitative And Restorative Services; Physical Therapist; Electrophysiology, Clinical
130303	Respiratory, Rehabilitative And Restorative Services; Physical Therapist; Geriatric
130304	Respiratory, Rehabilitative And Restorative Services; Physical Therapist; Hand
130305	Respiratory, Rehabilitative And Restorative Services; Physical Therapist; Neurology
130306	Respiratory, Rehabilitative And Restorative Services; Physical Therapist; Orthopaedic
130307	Respiratory, Rehabilitative And Restorative Services; Physical Therapist; Pediatrics
130308	Respiratory, Rehabilitative And Restorative Services; Physical Therapist Assistant
130309	Respiratory, Rehabilitative And Restorative Services; Physical Therapist; Sports
130310	Respiratory, Rehabilitative And Restorative Services; Physical Therapist; Case Management
130311	Respiratory, Rehabilitative And Restorative Services; Physical Therapist; Ergonomics
130312	Respiratory, Rehabilitative And Restorative Services; Physical Therapist; Human Factors
130400	Respiratory, Rehabilitative And Restorative Services; Rehabilitation Practitioner
130401	Respiratory Rehabilitative And Restorative S; Rehabilitation
130402	Respiratory Rehabilitative And Restorative S; Rehabilitation Practitioner; Professional Rehabilitation Practitioner
130403	Respiratory, Rehabilitative And Restorative Services; Rehabilitation Practitioner; Rehabilitation Coordinator
130404	Respiratory, Rehabilitative And Restorative Services; Rehabilitation Counselor
130405	Respiratory, Rehabilitative And Restorative Services; Rehabilitation Practitioner; Rehabilitation Intern
130406	Respiratory, Rehabilitative And Restorative Services; Rehabilitation Counselor; Assistive Technology Practitioner
130407	Respiratory, Rehabilitative And Restorative Services; Rehabilitation Counselor; Assistive Technology Supplier
130500	Respiratory Rehabilitative And Restorative S; Respiratory Care Practitioner
130501	Respiratory, Rehabilitative And Restorative Services; Respiratory Care Practitioner; Certified Respiratory Therapy Technologist
130502	Respiratory Rehabilitative And Restorative S; Respiratory Care Practitioner; Graduate Respiratory Therapist
130503	Respiratory Rehabilitative And Restorative S; Respiratory Care Practitioner; Graduate Respiratory Therapy Tech
130504	Respiratory, Rehabilitative And Restorative Services; Respiratory Care Practitioner; Inhalation Therapist
130505	Respiratory Rehabilitative And Restorative S; Respiratory Care Practitioner; Pulmonary Function Technician
130506	Respiratory, Rehabilitative And Restorative Services; Pulmonary Function Technologist
130507	Respiratory, Rehabilitative And Restorative Services; Respiratory Care Practitioner; Registered Respiratory Therapist
130508	Respiratory, Rehabilitative And Restorative Services; Respiratory Therapist
130509	Respiratory Rehabilitative And Restorative S; Respiratory Care Practitioner; Respiratory Therapy Assistant

Value	Description
130510	Respiratory Rehabilitative And Restorative S; Respiratory Care Practitioner; Respiratory Therapy Technician
130511	Respiratory, Rehabilitative And Restorative Services; Respiratory Therapist; Perinatal
130512	Respiratory Rehabilitative And Restorative S; Respiratory Therapist
130513	Respiratory, Rehabilitative And Restorative Services; Respiratory Therapist
130600	Respiratory, Rehabilitative And Restorative Services; Kinesiotherapist
130701	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Certified; Critical Care
130702	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Certified; Educational
130703	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Certified; Emergency Care
130704	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Certified; General Care
130705	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Certified; Geriatric Care
130706	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Certified; Home Health
130707	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Certified; Neonatal/Pediatrics
130708	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Certified; Palliative/Hospice
130709	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Certified; Patient Transport
130710	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Certified; Pulmonary Diagnostics
130711	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Certified; Pulmonary Function Technologist
130712	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Certified; Pulmonary Rehabilitation
130713	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Certified; SNF/Subacute Care
130801	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Registered; Critical Care
130802	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Registered ; Educational
130803	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Registered; Emergency Care
130804	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Registered; General Care
130805	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Registered; Geriatric Care
130806	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Registered; Home Health

Value	Description
130807	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Registered; Neonatal/Pediatrics
130808	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Registered; Palliative/Hospice
130809	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Registered; Patient Transport
130810	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Registered; Pulmonary Diagnostics
130811	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Registered; Pulmonary Function Technologist
130812	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Registered; Pulmonary Rehabilitation
130813	Respiratory Rehabilitative And Restorative Service Provider S; Respiratory Therapist Registered; SNF/Subacute Care
130901	Technologists Technicians And Other Technical Service Provider; Radiologic Technologist; Bone Densitometry
130902	Technologists Technicians And Other Technical Service Provider; Radiologic Technologist; Cardiac-Interventional Technology
130903	Technologists Technicians And Other Technical Service Provider; Radiologic Technologist; Vascular Sonography
130904	Technologists Technicians And Other Technical Service Provider; Radiologic Technologist; Vascular-Interventional Technology
140000	Speech, Language And Hearing Services
140100	Speech, Language And Hearing Services; Audiologist
140101	Speech, Language And Hearing Services; Audiologist; Assistive Technology Practitioner
140102	Speech, Language And Hearing Services; Audiologist; Assistive Technology Supplier
140200	Speech, Language And Hearing Services; Audiologist
140300	Speech, Language And Hearing Services; Hearing Instrument Specialist
140400	Speech, Language And Hearing Services; Speech And Hearing Therapist
140500	Speech, Language And Hearing Services; Speech
140600	Speech, Language And Hearing Services; Specialist/Technologist; Speech/Language Assistant
140601	Speech, Language And Hearing Services; Specialist/Technologist
140701	Speech, Language And Hearing Services; Specialist/Technologist; Audiology Assistant
150000	Technologists, Technicians & Other Technical
150100	Technologists, Technicians & Other Technical; Clinical Pathology
150101	Technologists Technicians & Other Technical; Clinical Pathology; Clinical Chemist
150102	Technologists Technicians & Other Technical; Clinical Pathology; Clinical Chemistry Technologist
150103	Technologists Technicians & Other Technical; Clinical Pathology; Cytotechnologist
150104	Technologists, Technicians & Other Technical; Specialist/Technologist, Pathology; Laboratory Management, Diplomate

Value	Description
150105	Technologists, Technicians & Other Technical; Specialist/Technologist, Pathology; Hemapheresis Practitioner
150106	Technologists, Technicians & Other Technical; Technician, Pathology; Histology
150107	Technologists, Technicians & Other Technical; Specialist/Technologist, Pathology; Histology
150108	Technologists, Technicians & Other Technical; Technician, Pathology; Medical Laboratory
150109	Technologists, Technicians & Other Technical; Specialist/Technologist, Pathology; Medical Technologist
150110	Technologists, Technicians & Other Technical; Technician, Pathology; Phlebotomy
150111	Technologists, Technicians & Other Technical; Specialist/Technologist, Pathology; Blood Banking
150112	Technologists, Technicians & Other Technical; Specialist/Technologist, Pathology; Chemistry
150113	Technologists, Technicians & Other Technical; Specialist/Technologist, Pathology; Cytotechnology
150114	Technologists, Technicians & Other Technical; Specialist/Technologist, Pathology; Hematology
150115	Technologists, Technicians & Other Technical; Specialist/Technologist, Pathology; Microbiology
150116	Technologists Technicians & Other Technical; Clinical Pathology; Technologist In Blood Banking
150117	Technologists Technicians & Other Technical; Clinical Pathology; Technologist In Chemistry
150118	Technologists Technicians & Other Technical; Clinical Pathology; Technologist In Hematology
150119	Technologists, Technicians & Other Technical; Specialist/Technologist, Pathology; Immunology
150120	Technologists Technicians & Other Technical; Clinical Pathology; Technologist In Microbiology
150121	Technologists Technicians & Other Technical; Clinical Pathology
150122	Technologists Technicians & Other Technical; Clinical Pathology
150200	Technologists, Technicians & Other Technical; Clinical Services
150201	Technologists, Technicians & Other Technical; Specialist/Technologist, Pathology; Biomedical Engineering
150202	Technologists, Technicians & Other Technical; Technician, Other; Biomedical Engineering
150203	Technologists, Technicians & Other Technical; Specialist/Technologist, Cardiology; Cardiovascular: Invasive Technology
150204	Technologists, Technicians & Other Technical; Specialist/Technologist, Cardiology; Cardiology
150205	Technologists, Technicians & Other Technical; Specialist/Technologist, Cardiology; Cardiopulmonary
150206	Technologists, Technicians & Other Technical; Clinical Services; Cardiothoracic Technician

Value	Description
150207	Technologists, Technicians & Other Technical; Specialist/Technologist, Cardiology; Perfusionist
150208	Technologists, Technicians & Other Technical; Technician, Cardiology; ECG
150209	Technologists, Technicians & Other Technical; Technician, Other; EEG
150210	Technologists, Technicians & Other Technical; Specialist/Technologist, Other; EEG
150211	Technologists, Technicians & Other Technical; Specialist/Technologist, Other; Electroneurodiagnostic
150212	Technologists, Technicians & Other Technical; Specialist/Technologist, Other; Graphics Methods
150213	Technologists Technicians & Other Technical; Clinical Services; IV Therapist
150214	Technologists, Technicians & Other Technical; Specialist/Technologist, Other; Geneticist, Medical (Ph.D)
150215	Technologists, Technicians & Other Technical; Clinical Services; Pulmonary Clinician
150216	Technologists, Technicians & Other Technical; Technician, Other; Renal Dialysis
150217	Technologists Technicians & Other Technical; Clinical Services; Renal Dialysis Technologist
150218	Technologists, Technicians & Other Technical; Specialist/Technologist, Other; Surgical
150219	Technologists, Technicians & Other Technical; Clinical Services; Ultrasound Technologist
150220	Technologists, Technicians & Other Technical; Clinical Services
150221	Technologists, Technicians & Other Technical; Clinical Services
150300	Technologists, Technicians & Other Technical; Radiologic Sciences
150301	Technologists, Technicians & Other Technical; Radiologic Technologist; Cardiovascular
150302	Technologists, Technicians & Other Technical; Radiologic Sciences; Computed Tomography Technologist
150303	Technologists, Technicians & Other Technical; Technician, Other; Darkroom
150304	Technologists, Technicians & Other Technical; Specialist/Technologist, Cardiology; Sonography, Diagnostic Cardiac
150305	Technologists, Technicians & Other Technical; Radiologic Sciences; Diagnostic Imaging Operation Tech
150306	Technologists, Technicians & Other Technical; Radiologic Technologist; Sonography, Diagnostic Medical
150307	Technologists, Technicians & Other Technical; Radiologic Sciences; Magnetic Resonance Technologist
150308	Technologists, Technicians & Other Technical; Radiologic Technologist; Mammography; Radiography
150309	Technologists Technicians & Other Technical; Radiologic Sciences; Nuclear Medicine Technician
150310	Technologists, Technicians & Other Technical; Radiologic Technologist; Nuclear Medicine Technology
150311	Technologists, Technicians & Other Technical; Radiologic Technologist; Radiation Physicist

Value	Description
150312	Technologists, Technicians & Other Technical; Radiologic Technologist; Radiation Therapy
150313	Technologists, Technicians & Other Technical; Radiologic Technologist; Radiographer
150314	Technologists, Technicians & Other Technical; Radiologic Sciences; Radiologic Technician
150315	Technologists, Technicians & Other Technical; Radiologic Sciences; Radiologic Technologist
150316	Technologists, Technicians & Other Technical; Radiologic Technologist; Dosimetrist, Medical
150317	Technologists, Technicians & Other Technical; Radiologic Sciences; Vascular Technologist
150318	Technologists, Technicians & Other Technical; Radiologic Technologist; Computed Tomography: Radiation Therapy
150319	Technologists, Technicians & Other Technical; Radiologic Technologist; Computed Tomography: Radiography
150320	Technologists, Technicians & Other Technical; Radiologic Technologist; Magnetic Resonance Imaging (MRI):R
150321	Technologists, Technicians & Other Technical; Radiologic Technologist; Magnetic Resonance Imaging (MRI):R
150322	Technologists, Technicians & Other Technical; Radiologic Technologist; Quality Management: Radiation Therapy
150323	Technologists, Technicians & Other Technical; Radiologic Technologist; Quality Management; Radiographer
150324	Technologists, Technicians & Other Technical; Radiologic Technologist
150400	Technologists Technicians & Other Technical; Research
150401	Technologists Technicians & Other Technical; Research; Animal Care Technician
150402	Technologists Technicians & Other Technical; Research; Animal Room Attendant
150403	Technologists, Technicians & Other Technical; Specialist/Technologist, Other; Biomedical Photographer
150404	Technologists, Technicians & Other Technical; Specialist/Technologist, Other; Biostatistician
150405	Technologists Technicians & Other Technical; Research; Graphic Designer
150406	Technologists, Technicians & Other Technical; Specialist/Technologist, Other; Art, Medical
150407	Technologists, Technicians & Other Technical; Specialist/Technologist, Other; Illustration, Medical
150410	Technologists, Technicians & Other Technical; Research; Research Study Specialist
150411	Technologists Technicians & Other Technical; Research; Research Technician
150412	Technologists Technicians & Other Technical; Research; Research Technologist
150413	Technologists Technicians & Other Technical; Research; Veterinarian
150414	Technologists, Technicians & Other Technical; Technician, Other; Veterinary
150601	Technologists, Technicians & Other Technical; Specialist/Technologist, Pathology; Laboratory Management

Value	Description
150701	Technologists, Technicians & Other Technical; Specialist/Technologist, Cardiology; Cardiovascular, Noninvasive Technologist
150702	Technologists, Technicians & Other Technical; Specialist/Technologist, Cardiology; Cardiovascular Vascular Technologist
150703	Technologists, Technicians & Other Technical; Specialist/Technologist, Cardiology; Vascular
150801	Technologists, Technicians & Other Technical; Technician, Cardiology; Cardiographic
150900	Technologists, Technicians & Other Technical; Specialist/Technologist, Health Information
150901	Technologists, Technicians & Other Technical; Specialist/Technologist, Health Information; Coding Specialist, Hospital
150902	Technologists, Technicians & Other Technical; Specialist/Technologist, Health Information; Coding Specialist, Physician
150903	Technologists, Technicians & Other Technical; Specialist/Technologist, Health Information; Registered Record Administrator
151000	Technologists, Technicians & Other Technical; Specialist/Technologist, Other
151001	Technologists, Technicians & Other Technical; Specialist/Technologist, Other; Biochemist
151002	Technologists Technicians & Other Technical; Specialist/Technologist Other; Forensic
151003	Technologists, Technicians & Other Technical; Specialist/Technologist, Other; Nephrology
151004	Technologists Technicians & Other Technical; Specialist/Technologist Other; Virology
151100	Technologists, Technicians & Other Technical; Technician, Health Information
151101	Technologists, Technicians & Other Technical; Technician, Health Information; Assistant Record Technician
151200	Technologists Technicians And Other Technical Service Provider; Spec/Tech Cardiovascular
151201	Technologists Technicians And Other Technical Service Provider; Spec/Tech Cardiovascular; Cardiovascular Invasive Specialist
151202	Technologists Technicians And Other Technical Service Provider; Spec/Tech Cardiovascular; Sonography
151203	Technologists Technicians And Other Technical Service Provider; Spec/Tech Cardiovascular; Vascular Specialist
160100	Physicians(Other Roles); Physician/Osteopath
160101	Physicians (Other Roles); Physician/Osteopath; Laboratory Service Provider
170100	Nursing Service Related; Christian Science Practitioner/Nurse
170200	Nursing Service Related; Home Health Aide
170300	Nursing Service Related; Homemaker
170400	Nursing Service Related; Nurses Aide
170500	Nursing Service Related; Nursing Home Administrator
170600	Nursing Service Related; Technician; Personal Care Attendant
170601	Nursing Service Related; Technician
170602	Nursing Service Related Providers; Technician; Attendant Care Provider
170700	Nursing Service Related Providers; Adult Companion;

Value	Description
170800	Nursing Service Related Providers; Chore Provider
170900	Nursing Service Related Providers; Day Training/Habilitation Specialist
180100	Allopathic And Osteopathic Physicians; Allergy And Immunology
180101	Allopathic And Osteopathic Physicians; Allergy And Immunology ; Allergy
180102	Allopathic And Osteopathic Physicians; Allergy And Immunology ; Clinical And Laboratory Immunology
180200	Allopathic And Osteopathic Physicians; Anesthesiology
180201	Allopathic And Osteopathic Physicians; Anesthesiology; Addiction Medicine
180202	Allopathic And Osteopathic Physicians; Anesthesiology; Critical Care Medicine
180203	Allopathic And Osteopathic Physicians; Anesthesiology; Pain Medicine
180300	Allopathic And Osteopathic Physicians; Clinical Pharmacology
180400	Allopathic And Osteopathic Physicians; Colon And Rectal Surgery
180500	Allopathic And Osteopathic Physicians; Dermatology;
180501	Allopathic And Osteopathic Physicians; Dermatology; Clinical And Laboratory Dermatological Immunology
180502	Allopathic And Osteopathic Physicians; Dermatology; Dermatological Surgery
180503	Allopathic And Osteopathic Physicians; Dermatology; Dermatopathology
180504	Allopathic And Osteopathic Physicians; Dermatology; Mohs-Micro Graphic Surgery
180505	Allopathic And Osteopathic Physicians; Dermatology; Pediatric Dermatology
180600	Allopathic And Osteopathic Physicians; Emergency Medicine
180601	Allopathic And Osteopathic Physicians; Emergency Medicine; Emergency Medical Services
180602	Allopathic And Osteopathic Physicians; Emergency Medicine; Medical Toxicology
180603	Allopathic And Osteopathic Physicians; Emergency Medicine; Pediatric Emergency Medicine
180604	Allopathic And Osteopathic Physicians; Emergency Medicine; Sports Medicine
180605	Allopathic And Osteopathic Physicians; Emergency Medicine; Undersea And Hyperbaric Medicine
180700	Allopathic And Osteopathic Physicians; Family Practice;
180701	Allopathic And Osteopathic Physicians; Family Practice; Addiction Medicine
180702	Allopathic And Osteopathic Physicians; Family Practice; Adolescent Medicine
180703	Allopathic And Osteopathic Physicians; Family Practice; Adult Medicine
180704	Allopathic And Osteopathic Physicians; Family Practice; Geriatric Medicine
180705	Allopathic And Osteopathic Physicians; Family Practice; Sports Medicine
180800	Allopathic And Osteopathic Physicians; General Practice;
180900	Allopathic And Osteopathic Physicians; Hospitalist
181000	Allopathic And Osteopathic Physicians; Internal Medicine
181001	Allopathic And Osteopathic Physicians; Internal Medicine; Addiction Medicine
181002	Allopathic And Osteopathic Physicians; Internal Medicine; Adolescent Medicine
181003	Allopathic And Osteopathic Physicians; Internal Medicine; Allergy And Immunology
181004	Allopathic And Osteopathic Physicians; Internal Medicine; Cardiovascular Disease
181005	Allopathic And Osteopathic Physicians; Internal Medicine; Clinical And Laboratory Immunology

Value	Description
181006	Allopathic And Osteopathic Physicians; Internal Medicine; Clinical Cardiac Electrophysiology
181007	Allopathic And Osteopathic Physicians; Internal Medicine; Critical Care Medicine
181008	Allopathic And Osteopathic Physicians; Internal Medicine; Endocrinology Diabetes And Metabolism
181009	Allopathic And Osteopathic Physicians; Internal Medicine; Gastroenterology
181010	Allopathic And Osteopathic Physicians; Internal Medicine; Geriatric Medicine
181011	Allopathic And Osteopathic Physicians; Internal Medicine; Hematology
181012	Allopathic And Osteopathic Physicians; Internal Medicine; Hematology And Oncology
181013	Allopathic And Osteopathic Physicians; Internal Medicine; Hepatology
181014	Allopathic And Osteopathic Physicians; Internal Medicine; Infectious Disease
181015	Allopathic And Osteopathic Physicians; Internal Medicine; Interventional Cardiology
181016	Allopathic And Osteopathic Physicians; Internal Medicine; Magnetic Resonance Imaging (MRI)
181017	Allopathic And Osteopathic Physicians; Internal Medicine; Medical Oncology
181018	Allopathic And Osteopathic Physicians; Internal Medicine; Nephrology

Appendix B: Corporate Franchise Data Center Information

Requesting Access to the Datasets

To gain access to the Medical SAS Datasets an approved ACRS (Automated Customer Registration System) TIME SHARING REQUEST FORM (Form 9957) must be submitted specifying the appropriate Functional Task Code(s) for the dataset(s) requested to the Corporate Franchise Data Center (CFD). This is typically done through the Information Systems Security department at your site. The CFD can provide you with the Information Security Office (ISO) contact person at your site. A copy of this form can be obtained through the [VIReC Intranet web site](#).

Non-VA employees interested in access to Medical SAS datasets can visit the [VIReC Toolkit for New Users – Requesting Access to VA Data page](#) for details on the process of requesting VA data.

Batch Job Service Level Categories

When submitting programs (jobs) in the IBM OS/390 mainframe environment at the Corporate Franchise Data Center (CFD), an appropriate service level code is required to allocate the system resources required to complete the job. The CFD currently defines four categories of batch job service and strives to provide corresponding job turnaround, from submission to completion, as shown. The number of tape drives and CPU time expected can be determined from step statistics messages. The table below describes the four service level categories and their associated system resource capacity levels. Specific instruction on how to code the batch service level in a job is described in the Job Control Language (JCL) example below.

Service Level Code	CPU Seconds	Tape Drives	Turnaround Time Goal
6	0-10	0	15 minutes
7	10-50	0	30 minutes
8	0-600	1-2	2 hours
9	over 600	over 2	6 hours

JCL Example

```
(1) //yourIDx JOB XXXUNKA $n$ ,yourID,MSGCLASS=I,NOTIFY=&SYSUID
(2) //step1 EXEC SAS,WORK='100,100'
(3) //libref DD DSN=SAS-dataset-name,DISP=SHR
(3) //LIBRARY DD DSN=MDPPRD.MDP.FMTLIB6,DISP=SHR
(3) //SYSIN DD *
```

(1) Job card:

- **yourIDx** – Time Sharing Option (TSO) account user ID plus a one-character job identifier (*x* (A–Z)) (maximum 8 characters)
- **XXXUNKA*n*** – Batch job service level category (*n*, (6–9) (described in section above))
- **MSGCLASS=*x*** – supplies the SYSOUT class for the job’s system messages (“I”=24 hour retention period, “R”=5 day retention period)
- **NOTIFY=&SYSUID** – notifies user ID when job has completed

(2) Execution statement:

- **step1** – job step name (maximum 8 characters)
- **EXEC SAS** – executes SAS software
- **WORK=*'p,s'*** – primary and secondary work space to be allocated during step execution

(3) Data Definition (DD) statements

- **Libref** – library reference defining a file to be read (maximum 8 characters)
- **DSN= SAS-dataset-name** – defines a SAS dataset
- **DISP=SHR** – allocates dataset as “shared” or read-only
- **LIBRARY DD DSN=MDPPRD.MDP.FMTLIB6** – allocates dataset containing library of permanent SAS formats attached to the variables in the SAS datasets
- **SYSIN DD *** – indicates that SAS program statements follow

The Austin Operations Information intranet site provides tutorials on dataset management, Time Sharing Option/Interactive System Productivity Facility (TSO / ISPF), Job Control Language (JCL), Job Entry System ((E)JES) and File Transfer Protocol (FTP) utilities.

CFD Contact Information

CFD Help Desk: 1-512-326-6780
Internet website: <http://www.aac.va.gov>
Intranet website: [See Appendix D](#)

Appendix C: Frequently Asked Questions

VIReC has compiled a list of the most common Medical SAS questions submitted to the helpdesk.

Where can I locate national data on substance abuse?

One major source for VHA substance abuse information is the [Substance Use Disorders Quality Enhancement Research Initiative \(SUD-QUERI\)](#), which is under the VA's Health Services Research and Development Service. SUD-QUERI's initiative is to "improve the detection and treatment of VHA patients' misuse of psychoactive substances by implementing evidence-based practice". This includes alcohol misuse in primary care, tobacco use, and smoking cessation.

ICD-9-CM and clinic stop codes are also two major sources of data information on alcohol and smoking cessation in the Outpatient datasets. [DXLSF](#) is responsible for the major part of the patient's encounter, and [DXF2-DXF10](#) are secondary ICD-9 CM diagnostic codes for the visit. The variables [CL](#) and [CLC](#) are the primary and secondary clinic stop codes (respectively) and are located in both the Event and Inpatient Encounters datasets. The Visit dataset contains [CL1-CL15](#) which are all primary clinic stop codes. [CL](#) code 137 is the code for alcohol counseling and 138 is the code smoking cessation. A complete list of [CL](#) codes can be found in [Appendix A](#) on page 95.

The VHA Rehabilitation Outcomes Research Center constructed the VA Health Care Atlas FY2000, which compiles demographic, health care use, and VA utilization information about the veteran population specific to the nine QUERI foci. A list of substance abuse ICD-9 CM diagnosis codes is available at www1.va.gov/rorc/products.cfm.

Do you have any suggestions/recommendations on how to deal with the issue of large amount of missing data for race in the administrative records?

VIReC suggests two methods to supplement missing race data. The first method involves combining the old and new race variables from two or more recent Medical SAS Datasets, and the second involves supplementing VA administrative data with Medicare data.

The institution of the new race data collection method in 2003 (from only observation to observation and self-report) has caused inconsistencies in the values. To address this problem, consider using the most recent or common race values and then combine the variables from two or more recent datasets. "[Transition to the New Race/Ethnicity Data](#)

[Collection Standards in the Department of Veterans Affairs](#)¹ discusses comparing the old race values to the new race values.

Medicare data can also supplement race information for those enrolled in Medicare. There is a [VIREC Data Issues Brief](#) which discusses the missing race value problem and a VIREC study which compared race data in the VA and Medicare.² If you would like to request Medicare data to fill in missing race, you can request the Medicare Cumulative Vital Status File from VIREC--the application procedure is at: <http://www.virec.research.med.va.gov/DataSourcesName/VA-MedicareData/DataRequest/Procedure.htm>
