I. Introduction

VIREC Research User Guide: FY2002 VHA Medical SAS^{®} Outpatient Datasets* was produced by the Veterans Affairs Information Resource Center (VIREC), a national resource center of the Health Services Research and Development Service (HSR&D), U.S. Department of Veterans Affairs (VA). This edition of the guide describes the Fiscal Year (FY) 2002 Medical SAS Datasets for outpatient care in the Veterans Health Administration (VHA). VIREC issues this guide to assist health services researchers and other users of these data in understanding the availability and definitions of the stored variables within the datasets. The guide also addresses special topics, such as dataset closeouts, quality of selected variables, and issues that may affect researchers' use of VA data.

The first edition by VIREC of a research user guide to VHA outpatient care data was issued in March 2000 and described the FY1999 Medical SAS Datasets.¹ A companion guide to VHA inpatient care data was issued,² and updated guides and select variable frequencies have been produced.³⁻⁸ The VIREC research user guides grew from the work by Martha Beattie, Ph.D., Ralph W. Swindle, Ph.D., Lynn A. Tomko, B.A., and other authors of the five-volume *Department of Veterans Affairs Database Resources Guide*,⁹ an effort that was supported by the VA Health Services Research and Development Service through the Service Directed Research project #91-009 awarded to Ralph Swindle.

Using the Guide

This guide is divided into the four main sections listed below. Additional documents are included as appendices.

- [**Overview of the FY2002 Medical SAS Outpatient Datasets.**](#) Chapter II provides a brief description of each of the current datasets including naming conventions, sort order, and observation (record) and variable counts.
- [**FY2002 VHA Medical SAS Outpatient Datasets: Variables & Their Dataset Locations.**](#) Chapter III is a table of all variables in the FY2002 Outpatient Datasets indicating in which datasets each variable occurs. A comprehensive listing of all historic outpatient variables is in [Appendix A](#).

* SAS[®] is a registered trademark of the SAS Institute, Inc.

- **Special Data Topics.** Chapter IV provides information regarding special topics (e.g., dataset closeouts) and use of selected, specific variables (e.g., Scrambled Social Security Number).
- **Variable One-Page Descriptions.** Chapter V presents a one-page description for each variable in the datasets for this fiscal year. The description includes a table with the following information, when applicable.

Data Type:	This indicates if the variable is numeric or character.
Print Format:	This is the name of the print format, if there is one. The print format name is from the Format Library for the file. Date variables have SAS-defined print formats.
Label:	This is the label for the variable as it appears in the Medical SAS dataset.
Datasets / Fiscal Years:	This indicates the Medical SAS Datasets and Fiscal Years where the variable occurs.
VISTA Data Source:	This is the file and field where data for the variable originate in the VA's decentralized clinical database, known as VISTA (Veterans Health Information Systems and Technology Architecture). In VISTA, files are identified by both a number and a name (e.g., "PTF [45] file"), while fields are identified by name (e.g., "Type of disposition field"). VISTA comprises many software applications which utilize more than 1,940 files that include more than 44,960 data fields. Detailed information about the VISTA applications is available at the VISTA Document Library (http://www.va.gov/vdl). An issue of <i>VIREC Insights</i> (Vol. 3, No. 1) on VISTA is available at the VIREC Web site (http://www.virec.research.va.gov/insights.htm).

Where applicable, and where space allows, a second table lists the values that the variable can assume with a description of each value. In cases where the possible values exceed the space available, this table is in [Appendix C](#). For selected variables, the reader is given a reference source to obtain the possible values and their descriptions.

- **Works Cited.** Chapter VI lists publications referred to earlier in the guide. This is in contrast to [Appendix E](#), "Selected Bibliography," which provides references for published reports of research that utilized the Medical SAS Outpatient Datasets.

Methods for Updating

VIREC uses numerous sources of information to update this guide. Official records of changes to the Medical SAS Datasets are maintained by the Austin Automation Center (AAC) in a section of its National Patient Care Database (NPCD) Customer Web site. This audit trail, which tracks changes to the inpatient and outpatient databases and to the SAS datasets, is on the VA Intranet. (Users can request the site address from VIREC via e-mail to virec@research.hines.med.va.gov.) Notices of changes are often announced by AAC and NPCD staff on the HSRData listserv, an e-mail group that includes researchers, policy makers, and information managers. Information about HSRData is available on the VIREC Web site, http://www.virec.research.va.gov/support/HSRDATA_listserv.HTM.

In preparing the guide for FY2002 data, VIREC was able to check the VISTA data source for many variables against tables being developed by the National Data Systems (NDS) division of the VHA Office of Information's Information Assurance Service. We will continue to check this information as the NDS proceeds with its work, and any changes to the information in this guide will be reflected in future editions.

Editorial changes to the guide were made by VIREC staff in response to specific user requests and in a general effort to improve the readability and usefulness of the guide. In this respect, questions submitted to the VIREC Help Desk were reviewed to identify issues that need clarification or expansion. Issues discussed on HSRData were considered as well. Finally, our own experience as users of the Medical SAS datasets also prompted us to modify content and style of the information included here.

An early draft of the guide was reviewed for accuracy and clarity by an *ad hoc* group of individuals who are data stewards, data managers, and end users. The invaluable contribution of the reviewers this year is acknowledged in the following section.

Acknowledgements

The Veterans Affairs Information Resource Center (VIREC) is supported by Health Services Research and Development (HSR&D) Service Grant SDR 98-004.

This guide is the product of many people's efforts, experiences, and insights. The contributing authors at VIREC included Phil Colin, Denise M. Hynes, George Joseph, Linda Kok, Patricia A. Murphy, Ruth Perrin, Chris Schneiderman, and Min-Woong Sohn. April Kopp helped in editing and putting final touches to the guide, and Cody Tilson designed the cover.

Reviewers for the guide this year included the following data stewards and users whose affiliations are listed for identification purposes:

Mazen Abdellatif, M.S.	Hines VA Cooperative Studies Program Coordinating Center
Paul Barnett, Ph.D.	Health Economics Resource Center
Magdalena Berger, M.P.H.	Health Economics Resource Center
Diane Cowper, M.A.	Rehabilitation Outcomes Research Center
Elizabeth Franchi, R.H.I.A.	Office of Information Assurance
Jenie Perry, B.S.	Austin Automation Center
Ciaran Phibbs, Ph.D.	Health Economics Resource Center
John Quinn, B.S.	Office of Information Assurance, National Data Systems
Todd Wagner, Ph.D.	Health Economics Resource Center

VIREC accepts responsibility for any deficiencies in the current guide and welcomes suggestions for improving this resource to better meet the needs of research users.

II. Overview of the FY2002 VHA Medical SAS Outpatient Datasets

Background

The health care utilization information for outpatient care is recorded by staff members in VA treatment facilities across the United States and Puerto Rico through use of a uniform set of coding instructions, software, and data files. The treatment facility databases that initially hold these data are known as the local VISTA (Veterans Health Information Systems and Technologies Architecture) systems. The data are electronically transferred to the Austin Automation Center (AAC) in Austin, Texas, which is the central repository for VHA national databases. The AAC staff formats and outputs these data in SAS datasets that are available to users who have appropriate access clearance. Further information about the VHA Medical SAS Datasets has been published electronically.¹⁰

The Medical SAS Outpatient Datasets is the collective term for the datasets that contain the VA's ambulatory care data. Encounter information is transmitted to the AAC nightly where it is held in a queue. Twice a month the public SAS datasets are updated using these queued data. For reimbursement purposes sites are instructed to closeout and transmit encounters for the previous month no later than the first full week of the current month. However, Austin will accept re-transmitted encounter data until the datasets are frozen. Twice a year the datasets are frozen, in April and October. The April update freezes the datasets for records between October and March. The October update freezes the dataset for records between April and October. The AAC, at its own discretion, has allowed the field to re-transmit all of the fiscal year data at the end of the fiscal year in order to maintain accurate information.

As illustrated in the following figure, there are currently two Medical SAS Outpatient Datasets produced for FY2002 that are referred to as the “Visit” and “Event” datasets.

Visit Dataset

The Visit dataset provides information about a day's outpatient care encounters. The name of the FY2002 Medical SAS Outpatient Visit dataset is **MDPPRD.MDP.SAS.SF02**, and it contains 43,683,885 observations with 49 variables. The sort order is by the variables [SCRSSN](#) (Scrambled Social Security Number) and [VIZDAY](#) (Date of Visit). The dataset originated in FY1980. A record contains up to 15 clinic stops for the day's care. For a listing of variables contained in the dataset, see the Visit dataset directory table in this guide. For a comprehensive listing of all historic Visit dataset variable names, see [Appendix A](#).

Event Dataset

The Event dataset provides information about each encounter (clinic stop) during a day's outpatient care, identifying the specific location of encounters with the VA station suffix as well as the parent station 3-digit code. The name of the FY2002 Medical SAS Outpatient Event dataset is **MDPPRD.MDP.SAS.SE02**, and it contains 64,477,062 observations with 82 variables. The sort order is by the variables [SCRSSN](#) (Scrambled Social Security Number), [VIZDAY](#) (Date of visit), and [CL](#) (Primary clinic stop code). The dataset originated in FY1997. There is one observation (record) per outpatient encounter, with no limit on the number of clinic stops reported. **Note: The Visit and Event datasets will not agree on clinic stop volumes.** For a listing of variables contained in this dataset, see [Section III, FY2002 VHA Medical SAS Outpatient Datasets: Variables and Their Dataset Locations](#). For a comprehensive listing of the names of all historic Event variables and datasets, see [Appendix A](#) and [Appendix B](#).

Other Outpatient Datasets

Procedure Dataset. This dataset, which contains CPT-4¹¹ outpatient procedure information, has not been generated since FY2001. All of the variables contained in this dataset can be found in

the Event dataset. For a detailed description on this dataset, refer to previous fiscal years' resource guides.

Diagnosis Dataset. This dataset, which contains outpatient ICD-9-CM¹² diagnosis information, has not been generated since FY2001. All of the variables contained in this dataset can be found in the Event dataset. For a detailed description on this dataset, please refer to previous fiscal years' resource guides.

Dataset Closeouts

Most research users of the Medical SAS Datasets utilize the datasets of fiscal year data. The annual datasets are accumulated or constructed over time, as noted below. Throughout a given fiscal year, the data in the Medical SAS Datasets change as edits, updates, and additional record entries are performed at the transmitting medical center. The policy for transmission of data states that the previous month's encounters will be completely forwarded to the AAC by the 19th of the current month. This policy, sometimes called the reimbursement closeout because of its association with cost recovery deadlines, does not mean that data are not transmitted after this period. The AAC will accept inpatient information until its fiscal year closeout on October 19. The AAC, at their own discretion in order to maintain accurate records, has allowed the field to re-submit all of the fiscal year data at the end of the fiscal year. For the research user, when to extract data will depend on the specific use of the data, but in general, researchers are advised to use the annual datasets.

Datasets Produced Quarterly

Each of the datasets is produced in smaller subsets that are stored on a quarterly fiscal years basis during the current fiscal year. These datasets are in turn rolled-up into a fiscal year dataset at years end. The naming convention for these datasets is the dataset name followed by QTR n (where n is the number of the fiscal quarter). For a complete listing of the Quarterly SAS dataset names, refer to [Appendix B](#).

Datasets Kept Open for Revision

In FY2001, it was determined that a new set of "revised" Medical SAS datasets be created that would allow for continued updates after the traditional closeout period ends. These datasets can receive updates for approximately two years after the regular closeout period. A major factor behind this decision was to allow for complete workload capture that was traditionally lost due to late submission after closeout. The names of the "revised" set of datasets are essentially the same as the traditional ones, with the word "REVISED" added to it (i.e. MDPPRD.MDP.SAS.REVISED.PM01). For a complete listing of the "revised" SAS dataset names and the fiscal years that they cover, refer to [Appendix B](#).

III. FY2002 VHA Medical SAS Outpatient Datasets: Variables and Their Dataset Locations

Name	Definition	Visit	Event	Page
AGE	Patient age in years at the time of visit	X	X	22
AGOIND	Indicates whether the healthcare encounter was related to exposure to Agent Orange	X	X	23
AGOLOC	Indicates where the Agent Orange exposure occurred	X	X	24
AG8R	Categorical recoding of AGE (Patient age in years at the time of visit) into 8 groupings	X	X	25
APPTYP	Codes for VA appointment types for scheduling outpatient encounters		X	26
CL	Primary clinic stop code		X	27
CL1-CL15	1 st – 15 th primary clinic stop codes	X		28
CLC	Secondary clinic stop code		X	29
CPT1-CPT15	Services and procedures performed by a provider recorded in Current Procedural Terminology (CPT-4) ambulatory procedure codes		X	30
DOB	Date of patient's birth	X	X	31
DXF2-DXF10	Secondary ICD-9-CM diagnostic codes for the visit		X	32
DXLSF	Primary ICD-9-CM diagnosis code for this encounter		X	33
ELIG	Indicates veteran and non-veteran eligibility codes	X	X	34
ENV	Indicates whether care received was due to exposure to some type of environmental hazard		X	35
HOMECNTY	County of patient's residence	X	X	36
HOMEPSA	VHA medical center that identifies the patient's home residence	X	X	37
HOMEVISN	Veterans Integrated Service Network (VISN) associated with the veteran's primary service area	X	X	38
HOMLESS	Indicates the homeless status of the veteran		X	39
HOMSTATE	State associated with the patient's residence	X	X	40
INCOME	Calculation of the patient's reported income	X		41
INS	Indicates the type of insurance coverage	X		42
LOCVIZ	Indicates the type of setting where the health encounter occurred		X	43

Name	Definition	Visit	Event	Page
<u>MARITAL</u>	Marital status of the patient	X	X	44
<u>MEANS</u>	Means Test Indicator Code	X	X	45
<u>MULTI</u>	Indicator that the patient had an encounter at the parent station or another community-based outpatient clinic assigned to the parent station with the same stop code as this encounter		X	46
<u>NCODES</u>	Number of CPT-4 procedure codes (CPT1–CPT15) populated within the record		X	47
<u>NDIAG</u>	Number of ICD-9-CM diagnosis codes (DXLSF, DXF2–DXF10) populated within the record		X	48
<u>NODEPS</u>	Number of dependents for eligible veterans	X		49
<u>NPROV</u>	Number of provider type variables (PROV1–PROV10) populated within the record		X	50
<u>NPROVID</u>	Number of provider identification code variables (PROVID1–PROVID10) populated within the record		X	51
<u>NSTOPS</u>	Number of clinic stop variables (CL1–CL15) populated within the record	X		52
<u>NTRENC</u>	Indicates whether there was treatment given for nasopharyngeal radium irradiation treatment exposure		X	53
<u>NTRIND</u>	Indicates whether the patient claimed nasopharyngeal radium irradiation treatment during active military service	X		54
<u>POS</u>	Military period in which the veteran served in	X		55
<u>POV</u>	Code for the purpose of the healthcare visit	X	X	56
<u>POW</u>	Indicator of whether the patient was a prisoner of war	X		57
<u>POWLOC</u>	Indicator of the period of service and/or location in which the veteran was a prisoner of war	X		58
<u>PROV1–PROV10</u>	1 st – 10 th codes for the category of provider		X	59
<u>PROVID1–PROVID10</u>	1 st – 10 th healthcare provider identification codes associated with this event		X	60
<u>PS</u>	Recategorization of the POS (Military period in which the veteran served in) variable	X		61
<u>PSEUDO</u>	Pseudo-SSN indicator	X	X	62
<u>RACE</u>	Race or national origin	X	X	63
<u>RAD</u>	Exposure to Ionizing Radiation through nuclear testing or in Japan	X	X	64
<u>RELIG</u>	Religious preference	X		65
<u>SCCI</u>	Indicator of whether the condition being treated is service-connected		X	66

Name	Definition	Visit	Event	Page
<u>SCRSSN</u>	Scrambled Social Security Number	X	X	67
<u>SEX</u>	Sex of patient	X	X	68
<u>STA3N</u>	Parent station identifier	X	X	69
<u>STA5A</u>	Five-digit numeric identifier of the VA facility where care was provided	X	X	70
<u>SVCPCT</u>	Patient's percentage (from 0 to 100) of service-connected disability	X	X	71
<u>VISN</u>	Veterans Integrated Service Network	X	X	72
<u>VIZDAY</u>	Date of the outpatient health care encounter	X	X	73
<u>ZIP</u>	Zip code	X	X	74

<http://www.virec.research.va.gov/References/Redactions.htm>

IV. Special Data Topics

Scrambled vs. Real Social Security Number

Beginning with FY1986, the patient identifier in the Medical SAS Datasets became an encrypted or scrambled Social Security Number (variable [SCRSSN](#)). (Prior to FY1986, the actual or real SSN was used.) [SCRSSN](#) is not a random assignment; rather, it is a consistent formula manipulation of a real SSN. That is, a given real SSN is always assigned the same [SCRSSN](#), and a patient's records can be linked across years and across the Medical SAS Datasets for various types of care.

Special "cross reference" SAS datasets for a given fiscal year are available that contain real SSNs for all activity, including acute (non-extended care), extended care, observation care, non-VA care, and census data. These files can be merged with the Medical SAS Datasets to link data to real SSNs. Descriptions of the cross-reference datasets are on the NPCD VA Intranet Web site at: [REDACTED]. VA users can make requests for access to the cross-reference datasets to the Information Security Officer (ISO) at their facility. VA does not release scrambled SSNs to non-VA researchers in response to Freedom of Information Act (FOIA) requests, in accordance with the Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule.

Procedure and Surgery Coding

Outpatient procedures coding utilizes the Current Procedural Terminology (CPT-4) schema developed by the American Medical Association (AMA).¹¹ This is different from inpatient diagnoses and procedures, which, since FY1980, are coded using the International Classification of Diseases Ninth Clinical Modification (ICD-9-CM). (Prior to FY1980, the ICD-8-CM coding schema was used.)¹²

Surgical procedures coded with CPT-4 are also collected for a national database by the National Surgical Quality Improvement Program (NSQIP). Staff nurses enter the NSQIP data using a VISTA software application that operates independently of the VISTA Surgery software package. Information about the NSQIP is available at the Web site, <http://nsqip.org/>.

Veteran's Income

The VHA Medical SAS Datasets are not a definitive source of data on patients' incomes. This issue is a good reminder that the information in the VHA Medical SAS Datasets is collected for

administrative, and not research, purposes. Administratively, the issue of patients' income is relevant to establishing eligibility for care for some veterans.

The variable [MEANS](#) (Means Test Indicator) might be seen as a categorical classification of incomes, but it should be examined carefully in light of the researcher's needs. For example, some veterans are eligible for mandatory care regardless of their income and, therefore, do not complete a Means Test. This group includes veterans classified as having 10% or more service-connected disability, former POWs, WWI veterans, and veterans without service-connected disability who are receiving a VA pension. When a Means Test is necessary to establish eligibility for VHA care, household income is used to classify the veteran. The income limits for eligibility categories are set each January 1, so the dollar value associated with a category ("less than ..." or "more than ...") varies by year. Information about eligibility for care is summarized at the Web site, <http://www.va.gov/elig>.

The VHA Medical SAS Datasets include a variable named [INCOME](#), which is an adjusted individual annual income. Adjustments include deductions for payments by the veteran for a wide range of medical expenses. (See the one-page description of the variable [INCOME](#).)

Longitudinal Studies

Significant expansion of variables and file structure changes over the years in the Medical SAS Datasets for outpatient care present special challenges for longitudinal studies. When instituted, the Visit dataset contained only very basic utilization data and almost no patient demographic variables. As noted above, outpatient data were provided in four datasets until creation of the Event dataset in 1997 that combined procedure and surgery information for outpatients.

As noted above, prior to FY1986, there was no variable for Scrambled Social Security Number; the only patient identifiers were real Social Security Numbers. Prior to FY1997, outpatient datasets included no diagnostic information and only minimal procedural information (a small list of special procedures). Beginning with FY1997 data, all ICD-9-CM diagnoses and all CPT-4 procedures for 100% of the ambulatory encounters were mandated for capture (see [VHA Directive 96-057](#), "Ambulatory Care Data Capture"). Once captured, these data elements were added or updated in the national datasets.

Some specific file structure changes are worth noting here. First, Visit datasets between FY1980–1990 contain about one record for every 5 visits. Therefore, programmers need to use the variable BLOWUP to get the true count of visits in FY1980-1990. Beginning with FY1997 data, the Procedure dataset was expanded allowing for the storage of 15 procedural codes per encounter. When the Diagnosis dataset was created, it contained 10 diagnostic variables per encounter, one primary and nine secondary diagnoses codes. Again, the Procedure and Diagnosis datasets were discontinued after FY2001 when all of the variables contained in them began appearing in the associated Event dataset.

Data Quality Issues

The quality of the data in the VHA Medical SAS Datasets is a concern of researchers as well as VHA administrators. Organizationally, the VHA Information Assurance Service plays a central role in ensuring the quality of VA health care utilization data. On the VA Intranet, the service describes its mission as follows:

The Information Assurance Service fosters a collaborative environment to assure the integrity of patient data as well as data management for the National Data Systems, and the Meta Data Repository. ([REDACTED] , accessed January 8, 2003)

Components of the service are responsible for Health Information Management (coding), National Data Systems (including the VHA Medical SAS Datasets), the National Patient Care Database (from which the VHA Medical SAS Datasets are generated), and Data Quality. Researchers interested in the policies, roles, and activities of the Information Assurance Service may want to review the Service's VA Intranet Web site regularly.

Assessments of the quality of VHA data in general have been performed by the Office of Inspector General, the Medical Care Cost Recovery program, and workgroups and committees convened for this purpose. There have been few published studies of data quality by researchers focused on ambulatory care information. Kang and colleagues compared the VHA variables for Agent Orange exposure and for Period of Service with military service records at the National Personnel Records Center and reported a 45% false negative rate for the VHA data.¹³ That report was published more than 10 years ago. In 1998, Kashner and colleagues reported that the reliability of patient demographics, use of care, and diagnoses in the VHA inpatient data was adequate for demographics, length of stay, and selected diagnoses, but less reliable for the treating bed section.¹⁴ Szeto and colleagues reported results of a study at one VA clinic in 2002 in which they found comparison of computerized administrative and clinical data with medical chart information showed good agreement for the diagnoses of interest (e.g., related to hypertension).¹⁵

Changes in the VHA environment can be expected to complement efforts by the Information Assurance Service to provide impetus for data quality in the systems that are the basis for the Medical SAS Outpatient Datasets. For example, the Balanced Budget Act passed by Congress in 1997 gave authority to the Veterans Integrated Service Networks (VISNs) to retain the reimbursement funds that may be collected by local Medical Care Cost Recovery (MCCR). Prior to this legislation, reimbursement funds were directed into a central VHA repository. The ability to retain collected amounts provides incentive for the VISNs to ensure accurate documentation of care. A second environmental support for data quality is the processing of inpatient data in an electronic medical record (EMR). VA policy, consistent with the Joint Commission of the Accreditation of Healthcare Organizations (JCAHO), permits the use of electronic media for recording the legal medical record (see [VA Manuals of Policy M-1, Part 1, Chapter 5](#)). The provider interface tool that allows for the use of EMR in VHA is the Computerized Patient Record System (CPRS). CPRS represents an integrated, comprehensive suite of clinical applications that creates an electronic medical record. CPRS site implementation, which began in 1997, was completed in January 2000 with 172 sites in

production. Studies have reported¹⁴ and professional assessments are consistent^{16,17} that a CPRS improves data quality.

Individual researchers will need to assess the quality of key variables in a given study. For VIREC, studies of data validity, reliability, and positive predictive value are integral to the center's core functions and are an important component of the center's strategic plan for FY2003-2007.

(This page is intentionally left blank.)

V. Variable One-Page Descriptions

(Variable description pages begin on the next page.)

Variable Name: **AGE**

Definition: Patient age in years at the time of visit

Remarks: This variable is calculated from **DOB** (Date of patient's birth) and **VIZDAY** (Date of the outpatient health care encounter). Note that prior to FY1996, year of birth rather than date of birth was used for **AGE** calculation.

Data Type	Numeric
Print Format	None
Label	AGE
Datasets / Fiscal Years	Visit / 1980 – To Date Event / 1997 – To Date
VISTA Data Source	Patient (2) file, DATE OF BIRTH field Outpatient (409.68) Encounter file, ADMIT DATE field

Variable Name: **AGOIND**

Definition: Indicates whether the healthcare encounter was related to exposure to Agent Orange

Remarks: For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Character
Print Format	\$XXYN.
Label	AGENT ORANGE INDICATOR
Datasets / Fiscal Years	Visit / 2002 – To Date Event / 2002 – To Date
VISTA Data Source	Patient (2) file, EXPOSED TO AGENT ORANGE field

AGOIND can assume the following values:

Value	Description
0	Not exposed to Agent Orange
1	Exposed to Agent Orange

Variable Name: **AGOLOC**

Definition: Indicates where the Agent Orange exposure occurred

Remarks: For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Character
Print Format	\$AGOLOC.
Label	AGENT ORANGE LOCATION
Datasets / Fiscal Years	Visit / 2002 – To Date Event / 2002 – To Date
VISTA Data Source	Patient (2) file, AGENT ORANGE EXPOSURE LOCATION field

AGOLOC can assume the following values:

Value	Description
K	Korean Demilitarized Zone
U	Unknown
V	Vietnam Era

Variable Name: **AG8R**

Definition: Categorical recoding of [AGE](#) (Patient age in years at the time of visit) into 8 groupings

Remarks: Despite what the name implies, there are actually nine categories due to the “95+” category which was added in FY1997. For frequency counts of the values for this variable, see the accompanying *VIReC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Numeric
Print Format	AG9RL.
Label	None
Datasets / Fiscal Years	Visit / 1980 – To Date Event / 1997 – To Date
VISTA Data Source	Patient (2) file, DATE OF BIRTH field Outpatient (409.68) Encounter file, ADMIT DATE field

AG8R can assume the following values:

Value	Description
1	Less than 25 years old
2	25 – 34 years old
3	35 – 44 years old
4	45 – 54 years old
5	55 – 64 years old
6	65 – 74 years old
7	75 – 84 years old
8	85 – 94 years old
9	95+ years old

Variable Name: **APPTYP**

Definition: Codes for VA appointment types for scheduling outpatient encounters

Remarks: Appointment type relates to the eligibility under which the patient is seen.

Data Type	Character
Print Format	\$XXAPPT.
Label	APPOINTMENT TYPE CODE
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	Outpatient (409.68) file, ADMISSION TYPE field

APPTYP can assume the following values:

Value	Description
01	Compensation & Pension
02	Class II dental
03	Organ donors
04	Employee
05	Prima facia
06	Research
07	Collateral of Veteran
08	Sharing agreement
09	Regular

Variable Name: **CL**

Definition: Primary clinic stop code

Remarks: This represents the first three characters of the 6-character Decision Support System (DSS) Identifier VHA uses to characterize ambulatory care clinics. The last three characters of the DSS Identifier are captured in the **CLC** (Secondary clinic stop code) variable in the Event dataset. The DSS Identifiers are used to identify the production units or the revenue centers for outpatient care. For more information, see the [VHA Directive 2002-041](#). **CL** can assume the values shown in [Appendix C](#) on page 92. For frequency counts of the values for this variable, see the accompanying *VIReC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Numeric
Print Format	YCLINIC.
Label	PRIMARY CLINIC STOP
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	Outpatient Encounter (409.68) file, CLINIC STOP CODE field (reference file is CLINIC STOP (40.7))

Variable Name: **CL1 – CL15**

Definition: 1st – 15th primary clinic stop codes

Remarks: These variables in the Visit dataset contain the same values captured in the [CL](#) (Primary clinic stop code) variable in the Event dataset. Up to 15 clinic stops are recorded per visit. Note that the Visit dataset does not contain secondary stop codes. **CL1 – CL15** can assume the values of [CL](#) shown in [Appendix C](#) on page 92. For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Numeric
Print Format	YCLINIC.
Label	CLINIC STOP NUMBER 1–15
Datasets / Fiscal Years	Visit / 1980 – To Date
VISTA Data Source	Outpatient Encounter (409.68) file, STOP CODE field (reference file is CLINIC STOP (40.7))

Variable Name: **CLC**

Definition: Secondary clinic stop code

Remarks: This represents the last three characters of the Decision Support System (DSS) Identifier VHA uses to characterize ambulatory care clinics. The first three characters of the DSS Identifier are captured in the [CL](#) (Primary clinic stop code) variable found in the Event dataset. The secondary stop code serves as a modifier to further define the primary work group, and can represent (1) the type of services provided, (2) the type of provider or team, and (3) a specially funded program. For more information, users are referred to the [VHA Directive 2002-041](#). **CLC** can assume the values shown in [Appendix C](#) on page 92.

Data Type	Numeric
Print Format	YCLINIC.
Label	CREDIT CLINIC STOP
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	Outpatient Encounter (409.68) file, last 3 digits of STOP CODE field (reference file is CLINIC STOP (40.7))

Variable Name: **CPT1 – CPT15**

Definition: Services and procedures performed by a provider recorded in Current Procedural Terminology (CPT–4) ambulatory procedure codes

Remarks: These codes refer to descriptive terms for reporting medical services and procedures performed by a provider for medical, surgical, and diagnostic procedures. Until FY1997, only five codes (CPT1–CPT5) were collected.

Data Type	Character
Print Format	None
Label	CPT CODES 1–15
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	File 90000010.18, PROCEDURE CODE field

Variable Name: **DOB**

Definition: Date of patient's birth

Remarks: This variable was added in FY1997, even though it has always been a required field in VISTA.

Data Type	Numeric (SAS Date)
Print Format	DATE9. (DDMMMYYYY)
Label	DATE OF BIRTH
Datasets / Fiscal Years	Visit / 1997 – To Date Event / 1998 – To Date
VISTA Data Source	Patient (2) file, DATE OF BIRTH field

Variable Name: **DXF2–DXF10**

Definition: Secondary ICD-9-CM diagnostic codes for the visit

Remarks: Most providers are documenting only the primary reason for the clinic encounter. Despite what the variable label suggests, the values for these variables are 5 characters wide and do not have an embedded dot after the first three digits.

Data Type	Character
Print Format	None
Label	2 ND –10 TH DX – FULL STAY (ICD9) (6-DIGIT)
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	Outpatient Encounter (409.43), fields DIAGNOSIS CODE and DIAGNOSIS PRIORITY RANKING, reference file ICD DIAGNOSIS (80)

Variable Name: **DXLSF**

Definition: Primary ICD-9-CM diagnosis code for this encounter

Remarks: Diagnoses were not collected for encounters until FY1997. Despite what the variable label suggests, the values for these variables are 5-characters wide and do not have an embedded decimal after the first three digits.

Data Type	Character
Print Format	None
Label	PRIMARY DX – FULL STAY (ICD9) (6-DIGIT)
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	Outpatient Encounter (409.43), fields DIAGNOSIS CODE and DIAGNOSIS PRIORITY RANKING, reference file ICD DIAGNOSIS (80)

Variable Name: **ELIG**

Definition: Indicates veteran and non-veteran eligibility codes

Remarks: Veteran eligibility categories are based on the degree of service-connected disability and degree of impairment. Non-veteran eligibility codes give the non-veteran service category. For more information on the eligibility categories, see <http://www.va.gov/elig/Eligibility.htm>. For frequency counts of the values for this variable, see the accompanying *VIReC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Numeric
Print Format	YELIG.
Label	ELIGIBILITY CODE
Datasets / Fiscal Years	Visit / 1980 – To Date, Event / 1997 – To Date
VISTA Data Source	Outpatient Encounter (409.68) file, ELIGIBILITY CODE field, reference file ELIGIBILITY (8) CODE

ELIG can assume the following values:

Value	Description
-1	Purple Heart
0	Service-connected 0%
1	Service-connected 50% +
2	Aid and attendance - housebound
3	Service connected 40%
4	Not service-connected, pension
5	Not service connected
6	Domiciliary patient
7	Service-connected 30%
8	Service-connected 20%
9	Service-connected 10%
10	Catastrophically disabled
11	CHAMPVA
12	Collateral (pt. associated with veteran)
13	Employee
14	Other federal
15	Allied veteran
16	Humanitarian (non-vet emergency)
17	Sharing
18	Reimbursable Insurance
19	TRICARE / CHAMPUS

Variable Name: **ENV**

Definition: Indicates whether care received was due to exposure to some type of environmental hazard

Remarks:

Data Type	Character
Print Format	None
Label	ENVIRONMENTAL INDICATOR
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	Derived from Outpatient Classification, (409.42) file, OUTPATIENT CLASSIFICATION TYPE field

ENV can assume the following values:

Value	Description
1	Yes
2	No

Variable Name: **HOMECONTY**

Definition: County of patient's residence

Remarks: This variable is based on the Federal Information Processing Standards (FIPS) code. It contains state code in the first two columns and county code, within the state, in the last three columns. State and county codes are available from the Census Bureau. This is the state county (or equivalent) for the patient's home residence. If the patient resides in a domiciliary, that is considered the permanent residence for coding.

Data Type	Numeric
Print Format	COUNTYL.
Label	COUNTY OF RESIDENCE
Datasets / Fiscal Years	Visit / 1980 – To Date Event / 1997 – To Date
VISTA Data Source	Reference file: STATE (5)

Variable Name: **HOMEPSA**

Definition: VHA medical center that identifies the patient's home residence

Remarks: This variable is considered antiquated, and it should not be used. Rather, it has been recommended that primary service area be identified with the preferred facility indicator in the Enrollment Database (see VISN Support Service Center Web site on the VHA Intranet, [REDACTED]) and market areas be identified using the Planning System Support Group's Distributed Population Planning Base model (see PSSG Web site on the VHA Intranet, [REDACTED]). **HOMEPSA** can assume the values of **STA3N**, which can be found in [Appendix C](#) on page 120.

Data Type	Numeric
Print Format	STA3NL.
Label	HOME PRIM. SVC AREA
Datasets / Fiscal Years	Visit / 1985 – To Date Event / 1997 – To Date
VISTA Data Source	Station Number (389.9) file, STATION NUMBER field

Variable Name: **HOMEVISN**

Definition: Veterans Integrated Service Network (VISN) associated with the veteran's primary service area

Remarks: **HOMEVISN** assumes the values of [VISN](#). For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Numeric
Print Format	None
Label	VISN OF RESIDENCE
Datasets / Fiscal Years	Visit / 1995 – To Date Event / 1997 – To Date
VISTA Data Source	Not applicable

Variable Name: **HOMLESS**

Definition: Indicates the homeless status of the veteran

Remarks: This variable is assigned through social work service.

Data Type	Character
Print Format	\$XXYN.
Label	HOMELESS CODE
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	Social Work Case (650) file, HOMELESS INDICATOR field

HOMLESS can assume the following values:

Value	Description
1	Yes
2	No

Variable Name: **HOMSTATE**

Definition: State associated with the patient's residence

Remarks: **HOMSTATE** can assume the values shown in [Appendix C](#) on page 99. For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Numeric
Print Format	STATEL.
Label	STATE OF RESIDENCE
Datasets / Fiscal Years	Visit / 1980 – To Date Event / 1997 – To Date
VISTA Data Source	Patient (2) file, STATE field

Variable Name: **INCOME**

Definition: Calculation of the patient's reported income

Remarks: **INCOME** is a calculation of all reported income minus any deductions for medical expenses. Medical expenses are those actually paid for by the eligible veteran and include fees of physicians, dentists, and other providers of health services; hospital and nursing home fees; medical insurance premiums (including the Medicare premium); drugs and medicines; eyeglasses; any other expenses that are reasonable related to medical care. [Current Policy](#) states that admission data will not be transmitted for patients without a Means Test on record.

Individual income is part of the household income on which the means test is based and includes Social Security (except disability), U.S. Civil Service, U.S. Railroad Retirement, Military Retirement, Other Retirement monies, Unemployment Compensation, Employment Income, Interest, Dividends & Annuities, Workers Comp, or Black Lung. These values may differ from the annual means test that includes income from other family members.

Data Type	Numeric
Print Format	COMMA6.
Label	INCOME
Datasets / Fiscal Years	Visit / 1992 – To Date
VISTA Data Source	Individual Annual Income (408.21)

Variable Name: **INS**

Definition: Indicates the type of insurance coverage

Remarks: This can also be used to identify veterans without insurance coverage. The VISTA database holds more than one active record for insurance coverage. At Austin, the presentation of a single value is not in agreement with this and should be considered neither complete nor accurate. For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Character
Print Format	\$INSUR.
Label	INSURANCE COVERAGE
Datasets / Fiscal Years	Visit / 1997 – To Date
VISTA Data Source	File 355.1, TYPE OF INSURANCE field

INS can assume the following values:

Value	Description
0	No insurance
1	Major medical
2	Dental
3	HMO
4	PPO
5	Medicare
6	Medicaid
7	CHAMPUS
8	Workman's comp
9	Indemnity
10	Prescription
11	Medicare supplemental
12	All other

Variable Name: **LOCVIZ**

Definition: Indicates the type of setting where the health encounter occurred

Remarks:

Data Type	Numeric
Print Format	\$XLOCVIZ.
Label	LOCATION OF VISIT
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	HOSPITAL LOCATION field of the Visit (9010110 file)

LOCVIZ can assume the following values:

Value	Description
1	Staff (Regular clinic visit)
2	Fee (Care by non-VA staff)
3	VA + Fee (Both provide care during the visit)
4	Ward (When exam was performed in an area not designated as a clinic)
5	Home-Based Health Care
6	Away from facility, other than patient residence

Variable Name: **MARITAL**

Definition: Marital status of the patient

Remarks: Marital status is elicited from each patient when he or she first applies for medical care. Outpatient encounters that are recorded by hand may update this information. We found that ambulatory care staffs do make changes to the patient record regarding this variable. In a small comparison between the AAC data and a patient survey, we found an 82.7% agreement.¹⁸ For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Character
Print Format	\$MARITAL.
Label	MARITAL STATUS
Datasets / Fiscal Years	Visit / 1997 – To Date Event / 1998 – To Date
VISTA Data Source	Patient (2) file, MARITAL STATUS field

MARITAL can assume the following values:

Value	Description
D	Divorced
M	Married
N	Never Married
S	Separated
U	Unknown
W	Widowed

Variable Name: **MEANS**

Definition: Means Test Indicator Code

Remarks: The Means Test Indicator is used in determining a patient's eligibility to receive care. Based on veteran status and percent service-connected eligibility, the assigned value indicates the necessity of a means test. Veterans classified as having 10 percent or more service-connected disability, former POWs, WWI veterans, and veterans without service-connected disability who are receiving a VA pension is classified for mandatory care. They do not have to complete a Means Test. All other veteran patients (namely, the non-service-connected veterans) are required to complete an annual financial Means Test to determine a financial status against the VA thresholds that are established January 1st of each year. For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Character
Print Format	\$MEANSL.
Label	MEANS TEST INDICATOR
Datasets / Fiscal Years	Visit / 1987 – To Date Event / 1997 – To Date
VISTA Data Source	File 408.31, MEANS TEST INDICATOR field

MEANS can assume the following values:

Value	Description
AN	Category A Veteran is below the Means Test Threshold and is exempt from co-payments.
AS	Category A – Service Connected. Veteran is exempt from co-payments.
C	Category C. Veteran is above the Means Test Threshold and co-payment is required.
N	Indicates outpatient or non-veteran inpatient where Means Test not required.
X	Indicates patient where Means Test not required for care being provided.

Variable Name: **MULTI**

Definition: Indicator that the patient visited a parent station and a substation on the same day

Remarks: The parent station identifier ([STA3N](#)) and the substation identifier ([STA5A](#)) must be different in order for this variable to have an “M” value. For example, a visit to Parent Station 589 (Kansas City) and Substation 589A7 (Wichita) on the same day would turn the **MULTI** indicator value to “M”.

Data Type	Character
Print Format	\$MULTI.
Label	MULTIPLE / SINGLE STATION INDICATOR
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	Not applicable

MULTI can assume the following values:

Value	Description
M	Multiple station
S	Single station

Variable Name: **NCODES**

Definition: Number of CPT-4 procedure codes ([CPT1-CPT15](#)) populated within the record

Remarks: Up to 15 CPT-4 procedure codes can be populated per record (SAS observation).

Data Type	Numeric
Print Format	None
Label	NUMBER OF CPTS THIS SEGMENT
Datasets / Fiscal Years	Event / 1998 – To Date
VISTA Data Source	Not applicable

Variable Name: **NDIAG**

Definition: Number of ICD-9-CM diagnosis codes ([DXLSF](#), [DXF2-DXF10](#)) populated within the record

Remarks: Up to ten ICD-9-CM diagnoses codes can be populated per record (SAS observation).

Data Type	Numeric
Print Format	None
Label	NUMBER OF DIAG CODES
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	Not applicable

Variable Name: **NODEPS**

Definition: Number of dependents for eligible veterans

Remarks: One of the reasons for capturing this data element is that it is a factor in determining the Means Test threshold.

Data Type	Character
Print Format	None
Label	NO. OF DEPENDENTS
Datasets / Fiscal Years	Visit / 1988 – To Date
VISTA Data Source	ANNUAL MEANS (408.31) TEST file, NUMBER OF DEPENDENTS field

Variable Name: **NPROV**

Definition: Number of provider type variables ([PROV1-PROV10](#)) populated within the record

Remarks:

Data Type	Numeric
Print Format	None
Label	NUMBER OF PROV THIS SEGMENT
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	Not applicable

Variable Name: **NPROVID**

Definition: Number of provider identification code variables ([PROVID1-](#)[PROVID10](#)) populated within the record

Remarks:

Data Type	Numeric
Print Format	None
Label	NUMBER OF PROV IDS THIS SEGMENT
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	Not applicable

Variable Name: **NSTOPS**

Definition: Number of clinic stop variables ([CL1-CL15](#)) populated within the record

Remarks: Data are transmitted as encounters from the VISTA Outpatient Encounter (409.68) file. This variable is calculated at the AAC receiving end based on clinic stop, date and station. A problem has been noted for Community-Based Outpatient Clinics (CBOCs) where patients with encounters at the parent station and at the CBOC with the same stop code are losing records. For frequency counts of the values for this variable, see the accompanying *VIReC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Numeric
Print Format	None
Label	NUMBER CLINIC STOPS
Datasets / Fiscal Years	Visit / 1980 – To Date
VISTA Data Source	Not applicable

Variable Name: **NTRENC**

Definition: Indicates whether there was treatment given for nasopharyngeal radium irradiation treatment exposure

Remarks: This variable was added to record eligibility for treatment of cancer of the head or neck associated with a veteran's receipt of nasopharyngeal radium irradiation treatments during active military, naval, or air service. (See [VHA Directive 1301](#), "Ionizing Radiation Registry Program.")

Data Type	Character
Print Format	\$NTRENC.
Label	NOSE THROAT RADIUM TRMT IND
Datasets / Fiscal Years	Event / 2002 – To Date
VISTA Data Source	Derived from Outpatient (409.42) file, OUTPATIENT CLASSIFICATION TYPE and VALUE fields.

NTRENC can assume the following values:

Value	Description
0	This health encounter not related to nose throat radium treatments
1	This health encounter related to nose throat radium treatments
(Other)	Does not claim nose throat radium treatments

Variable Name: **NTRIND**

Definition: Indicates whether the patient claimed nasopharyngeal radium irradiation treatment during active military service

Remarks: This variable was added to record eligibility for treatment of cancer of the head or neck associated with a veteran's receipt of nasopharyngeal radium irradiation treatments during active military, naval, or air service. (See [VHA Directive 1301](#), "Ionizing Radiation Registry Program.") For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Character
Print Format	\$XXYN.
Label	CLAIMED NOSE THROAT RADIUM EXP
Datasets / Fiscal Years	Visit / 2002 – To Date
VISTA Data Source	Derived from Outpatient (409.42) file, OUTPATIENT CLASSIFICATION TYPE and VALUE fields.

NTRIND can assume the following values:

Value	Description
0	No claim of nasopharyngeal radium irradiation treatment
1	Claim of nasopharyngeal radium irradiation treatment

Variable Name: **POS**

Definition: Military period in which the veteran served in

Remarks: This variable is related to the authority under which a patient is eligible for care. This variable is a mixture of type of service (Army, Navy, etc.) if active currently, period of service (Spanish-American War to Desert Storm) if a veteran, and other codes such as workers comp, emergency, CHAMPUS, etc., which are largely for non-veterans. The latest wartime period of service is coded if more than one applies, unless patient is service connected for a condition incurred in a prior war. **POS** can assume the values found in [Appendix C](#) on page 102. For frequency counts of the values for this variable, see the accompanying *VIReC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Character
Print Format	\$XXPDSEV
Label	PERIOD OF SERVICE
Datasets / Fiscal Years	Visit / 1992 – To Date
VISTA Data Source	Patient (2) file, PERIOD OF SERVICE field

Variable Name: **POV**

Definition: Code for the purpose of the healthcare visit

Remarks: The code with the lowest applicable number is used. For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Numeric
Print Format	\$XXPOV.
Label	PURPOSE OF VISIT
Datasets / Fiscal Years	Visit / 1985 – To Date Event / 1997 – To Date
VISTA Data Source	File 2.98, PURPOSE OF VISIT field

POV can assume the following values:

Value	Description
1	Physical examination for compensation and pension eligibility
2	Physical examination for establishing eligibility for VA health benefits (VA Form 10-10EZ)
3	Scheduled appointment
4	Unscheduled appointment

Variable Name: **POW**

Definition: Indicator of whether the patient was a prisoner of war

Remarks: This field is initially entered through patient self-report, which may later be verified through the patient's military service record. The Medical SAS Inpatient Main dataset also contains POW (Prisoner of War status with name of war and location), but it is coded to indicate the name of the war and location. For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Character
Print Format	\$XXPOW
Label	PRISONER OF WAR STATUS
Datasets / Fiscal Years	Visit / 1985 – To Date
VISTA Data Source	Patient (2) file, POW STATUS INDICATED field

POW can assume the following values:

Value	Description
U	Unknown
0	Prisoner of war
1	Not a prisoner of war

Variable Name: **POWLOC**

Definition: Indicator of the period of service and/or location in which the veteran was a prisoner of war

Remarks: For frequency counts of the values for this variable, see the accompanying *VIReC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Character
Print Format	\$POWLOC.
Label	PRISONER OF WAR LOCATION
Datasets / Fiscal Years	Visit / 2001 – To Date
VISTA Data Source	Patient (2) file, PRISONER OF WAR LOCATION field

POWLOC can assume the following values:

Value	Description
A	Persian Gulf War
B	Yugoslavia
4	World War I
5	World War II, Europe
6	World War II, Pacific
7	Korean War
8	Vietnam Era
9	Other

Variable Name: **PROV1 – PROV10**

Definition: 1st – 10th codes for the category of provider

Remarks: The categories are defined by the Center for Medicare and Medicaid Services (CMS) and are used to categorize the area of care associated with this visit. **PROV1 – PROV10** can assume the values shown in [Appendix C](#) on page 103.

Data Type	Numeric
Print Format	XXPROV.
Label	PROVIDER TYPE 1 – 10
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	Outpatient Provider (409.44) file, PROVIDER TYPE CODE field, reference file, PERSON (8932.1) CLASS

Variable Name: **PROVID1 – PROVID10**

Definition: 1st – 10th healthcare provider identification codes associated with this event

Remarks: This is a concatenation of the 3-digit [STA3N](#) (Parent station identifier) variable and the provider ID code ([PROV1 – PROV10](#)).

Data Type	Character
Print Format	None
Label	PROVIDER ID 1 – 10
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	New Person (200) File, ROLE INSTANCE ID field

Variable Name: **PS**

Definition: Recategorization of the **POS** (Military period in which the veteran served in) variable

Remarks: The value is related to the authority under which a patient is eligible for care. This variable is irrespective of type of service (Army, Navy, etc.) and strictly related to date values. The latest wartime period of service is coded if more than one applies, unless patient is service connected for a condition incurred in a prior war. For frequency counts of the values for this variable, see the accompanying *VIReC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Numeric
Print Format	PSRCDL.
Label	PERIOD OF SVC RECODE
Datasets / Fiscal Years	Visit / 1985 – To Date
VISTA Data Source	Patient (2) file, PERIOD OF SERVICE field

PS can assume the following values:

Value	Description
0	Spanish-American War
1	World War I
2	World War II
3	Pre-Korean War
4	Korean War
5	Post-Korean War
6	Vietnam Era
7	Post-Vietnam Era
8	Other
9	Desert Storm (active)
10	Desert Storm (veteran)

Variable Name: **PSEUDO**

Definition: Pseudo-SSN indicator

Remarks: This variable indicates if the patient's Social Security Number (SSN) is recorded as a pseudo-Social Security Number created using numeric equivalents of the patient's initials and birth date. A pseudo-SSN is a temporary identification when the patient has no SSN or the patient's true SSN cannot be determined. The pseudo-SSN will be retained as a permanent identification number when a patient refuses to apply for a Social Security Number or death occurs before an SSN application can be made.

Data Type	Character
Print Format	None
Label	PSEUDO SSN
Datasets / Fiscal Years	Visit / 1995 – To Date Event / 1997 – To Date
VISTA Data Source	Patient (2) file, SOCIAL SECURITY NUMBER field

PSEUDO can assume the following values:

Value	Description
P	Social Security Number recorded is a pseudo-SSN
Blank	Social Security Number recorded is not a pseudo-SSN

Variable Name: **RACE**

Definition: Race or national origin

Remarks: Reporting of race or ethnicity is most frequently extracted from clinical documentation (e.g., discharge summary) and/or observation of administrative staff. For frequency counts of the values for this variable, see the accompanying *VIReC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Numeric
Print Format	RACEL.
Label	RACE CODE
Datasets / Fiscal Years	Visit / 1997 – To Date Event / 1998 – To Date
VISTA Data Source	Patient (2) file, RACE field and ETHNIC GROUP field

RACE can assume the following values:

Value	Description
1	Hispanic, white
2	Hispanic, black
3	American Indian
4	Black
5	Asian
6	White
7	Unknown value
(Other)	Missing value

Variable Name: **RAD**

Definition: Exposure to Ionizing Radiation through nuclear testing or in Japan

Remarks: This variable was added to the dataset in July of FY1982. It is self-reported and is not recorded for non-veterans or for those veterans in service prior to WWII. For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Numeric
Print Format	RADL.
Label	CLAIMED RADIATION EXPOSURE
Datasets / Fiscal Years	Visit / 1983 – To Date Event / 1997 – To Date
VISTA Data Source	Patient (2) file, RADIATION EXPOSURE METHOD field

RAD can assume the following values:

Value	Description
1	No radiation exposure claim
2	Claim of radiation exposure in Japan
3	Claim of radiation exposure in the U.S.
4	Claim of radiation exposure in both Japan and the U.S.

Variable Name: **RELIG**

Definition: Religious preference

Remarks:

Data Type	Character
Print Format	\$RELIG.
Label	RELIGION CODE
Datasets / Fiscal Years	Visit / 1997 – To Date
VISTA Data Source	Patient (2) file, RELIGIOUS PREFERENCE field (reference file is RELIGION (13))

RELIG can assume the following values:

Value	Description
0	Catholic
1	Jewish
2	Eastern Orthodox
3	Baptist
4	Methodist
5	Lutheran
6	Presbyterian
7	United Church of Christ
8	Episcopalian
9	Adventist
10	Assembly of God
11	Brethren
12	Christian Science
13	Church of Christ
14	Church of God
15	Disciples of Christ

Value	Description
16	Evangelical Covenant
17	Friends
18	Jehovah Witness
19	Latter Day Saints
20	Islamic
21	Nazarene
22	Other
23	Pentecostal
24	Protestant, other
25	Protestant, no preference
26	Reformed
27	Salvation Army
28	Unitarian Universalist
29	Unknown, no preference
30	Native American
31	Buddhist

Variable Name: **SCCI**

Definition: Indicator of whether the condition being treated is service-connected

Remarks:

Data Type	Character
Print Format	\$SCCI.
Label	SVC-CON CONDITION INDICATOR
Datasets / Fiscal Years	Event / 1997 – To Date
VISTA Data Source	Derived from Outpatient (409.42) file, OUTPATIENT CLASSIFICATION TYPE field

SCCI can assume the following values:

Value	Description
Blank	Not applicable
0	Treatment not related to service-connected condition
1	Treatment related to service-connected condition

Variable Name: **SCRSSN**

Definition: Scrambled Social Security Number

Remarks: Scrambled Social Security Number was created in FY1986 as a replacement for the patient's real Social Security Number (SSN). It is a formula manipulation of the real SSN and not a randomly generated number. Therefore, **SCRSSN** may be used to identify a patient across fiscal years and datasets.

Data Type	Numeric
Print Format	SSN11. (NNN-NN-NNNN)
Label	SCRAMBLED SOCIAL SECURITY NUMBER
Datasets / Fiscal Years	Visit / 1996 – To Date Event / 1997 – To Date (Note: Real SSN was listed 1980–85)
VISTA Data Source	None (formula manipulation of Patient (2) file real SSN)

Variable Name: **SEX**

Definition: Sex of patient

Remarks: For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Character
Print Format	\$SEXL.
Label	GENDER OF PATIENT
Datasets / Fiscal Years	Visit / 1985 – To Date Event / 1997 – To Date
VISTA Data Source	Patient (2) file, SEX field

SEX can assume the following values:

Value	Description
F	Female
M	Male

Variable Name: **STA3N**

Definition: Parent station identifier

Remarks: This is the 3-digit numeric identification of VAMC facilities. This variable indicates the parent station (VA hospital) or the parent station of a branch at which the patient was treated. Use [STA5A](#) to identify the actual facility at which the patient was treated. If a patient was treated at a VAMC facility, this variable and [STA5A](#) will have the same values. **STA3N** can assume the values shown in [Appendix C](#) on page 120. For frequency counts of the values for this variable, see the accompanying *VIReC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Numeric
Print Format	STA3NL.
Label	PARENT STATION
Datasets / Fiscal Years	Visit / 1991 – To Date Event / 1997 – To Date
VISTA Data Source	Station Number (389.9) file, STATION NUMBER field

Variable Name: **STA5A**

Definition: Five-digit numeric identifier of the VA facility where care was provided

Remarks: This variable identifies the VA substation where the outpatient health encounter occurred. Since this variable can take as many as 1,100 distinct values, they are not listed in this document. Instead, users are referred to the VA Site Tracking (VAST) database, maintained by the Planning Systems Support Group (PSSG) of the Office of Policy and Planning, at [REDACTED]. For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Character
Print Format	\$STA52AL.
Label	STATION WITH SUFFIX
Datasets / Fiscal Years	Visit / 1991 – To Date Event / 1997 – To Date
VISTA Data Source	Station Number (389.9) file, SERVICING FACILITY field

Variable Name: **SVCPCT**

Definition: Patient's percentage (from 0 to 100) of service-connected disability

Remarks: The value recorded in this variable is the percentage of service-connected disability determined as part of establishing a veteran's eligibility for VA health care benefits. This variable does not indicate whether or not a veteran has any service-connected disability, because a veteran may have a service-connected disability and be recorded as 0% service-connected in this variable. For frequency counts of the values for this variable, see the accompanying *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Number
Print Format	None
Label	PERCENT OF SERVICE CONNECTED
Datasets / Fiscal Years	Visit / 1997 – To Date Event / 2000 – To Date
VISTA Data Source	Patient (2) file, SERVICE CONNECTED PERCENTAGE field

Variable Name: **VISN**

Definition: Veterans Integrated Service Network (VISN) where the outpatient visit or event occurred

Remarks: VISNs are VHA organizational business units comprised of multiple medical centers and clinics within a geographic region. For frequency counts of the values for this variable, see the accompanying resource guide, *VIREC Research User Guide: Select Variable Frequencies From The FY2002 VHA Medical SAS Datasets*.

Data Type	Numeric
Print Format	None
Label	VETS INTEGRATED SERVICE NETWORK
Datasets / Fiscal Years	Visit / 1995 – To Date Event / 1997 – To Date
VISTA Data Source	Derived from 389.9 File, SERVICING FACILITY field

VISN can assume the following values:

Value	Description
1	VA New England Healthcare System
2	VA Healthcare Network Upstate New York
3	VA NY / NJ Veterans Healthcare Network
4	VA Stars & Stripes Healthcare Network
5	VA Capitol Health Care Network
6	VA Mid-Atlantic Network
7	The Atlantic Network
8	VA Sunshine Healthcare Network
9	Mid South Veterans Healthcare Network
10	VA Healthcare System of Ohio
11	Veterans In Partnership
12	The Great Lakes Health Care System
15	VA Heartland Network
16	South Central VA Health Care Network
17	VA Heart of Texas Health Care Network
18	VA Southwest Healthcare Network
19	Rocky Mountain Network
20	Northwest Network
21	Sierra Pacific Network
22	Desert Pacific Healthcare Network
23	VA Midwest Health Care Network

Variable Name: **VIZDAY**

Definition: Date of the outpatient health care encounter

Remarks:

Data Type	Numeric (SAS Date)
Print Format	DATE9. (DDMMMYYYY)
Label	DATE OF VISIT
Datasets / Fiscal Years	Visit / 1991 – To Date Event / 1997 – To Date
VISTA Data Source	Outpatient Encounter (409.68), Date/Time of event field

Variable Name: **ZIP**

Definition: Zip code

Remarks: This variable is the 5-digit postal code for the patient's home residence.

Data Type	Numeric
Print Format	Z5.
Label	ZIP CODE
Datasets / Fiscal Years	Visit / 1980 – To Date Event / 1997 – To Date
VISTA Data Source	Patient (2) file, ZIP CODE field

Appendix B: Comprehensive Listing of All Historic Datasets

(The listing begins on the next page.)

VISIT (SF) DATASETS from FY1980 – FY2002

Dataset Name	Fiscal Years	Effective Area	Comment
MDPPRD.MDP.SAS.SFyy	1991–To Date	National	Enter (0) behind yy signifies a request for the most current version when requesting the current fiscal year
MDPPRD.MDP.SAS.SFyy.QTRn	Current Year	National	These datasets store information on a fiscal year quarterly basis (n=1–4).
MDPPRRD.MDP.SAS.REVISED.SFyy	1997–To Date	National	Revised dataset
MDPPRD.MDP.STAFF.Syy	1980–1985	National	20% sample
MDPPRD.MDP.SAS.OPC.FYyy.F	1986–1990	National	
MDPPRD.MDP.SAS.OPC.FYyyRxF	1986–1990	Regional	Enter region number in x. There were 4 regions between FY 1986 –90
MDPPRD.MDP.SAS.SFyyRn	1991–1995	Regional	There were 7 regions between FY 1991–95
MEDPRD.MDP.SAS.SfyyRnd	1991–1995	Regional Division	There were up to 4 divisions per region between FY 1991–95

EVENT (SE) DATASETS from FY1997 – FY2002

Dataset Name	Fiscal Years	Effective Area	Comment
MDPPRD.MDP.SAS.SEyy	1997–To Date	National	This file was stored on tape but is now on DASD (disk) starting in FY 2000.
MDPPRD.MDP.SAS.SEyy.QTRn	Current Year	National	These datasets store information on a fiscal year quarterly basis (n=1–4).
MDPPRRD.MDP.SAS.REVISED.SEyy	1997–To Date	National	Revised dataset

PROCEDURE (SC) DATASETS from FY1990 – FY 2002

Dataset Name	Fiscal Years	Effective Area	Comment
MDPPRD.MDP.SAS.SCyy	1990–2001	National	Enter (0) behind yy signifies a request for the most current version when requesting the current fiscal year
MDPPRD.MDP.SAS.OPC.SCyyRr	1991–2001	Regional	There were 7 regions between FY91-FY95
MEDPRD.MDP.SAS.SCyyRnd	1991–1995	Regional Division	There were up to 4 divisions per region between FY91-FY95
MDPPRD.MDP.SAS.OPC.CP90F	1990	National	

DIAGNOSIS (SG) DATASETS from FY1997 – FY 2002

Dataset Name	Fiscal Year(s)	Effective Area	Comment
MDPPRD.MDP.SAS.SGyy	1997–2001	National	Enter (0) behind yy to signify a request for the most current version when requesting the current fiscal year

(This page is intentionally left blank.)

Appendix C: Values for Selected Variables

(Values and their descriptions begin on the following page.)

CL can assume the following values:*

Value	Description
101+	Emergency unit
102	Admit/screening
103	Telephone triage
104	Pulmonary function
105	X-ray
106	Electroencephalogram or electroencephalograph (EEG)
107	Electrocardiogram or electrocardiograph (EKG) 107473 – Echocardiogram
108	Laboratory
109	Nuclear medicine
115	Ultrasound
116	Respiratory therapy 116329 – respiratory therapy procedures
117	Nursing 117473 – Purified Protein Derivative (PPD) (Tuberculosis) clinic 117710 – Flu shot
118	Home treatment services
119	Community nursing home follow-up
120	Health screening
121	Residential care – non mental health
122	Public health nursing
123	Nutrition/dietetics – individual
124	Nutrition/dietetics – group
125	Social work service
126	Evoked potential
127	Topographical brain mapping
128	Prolonged video-EEG monitoring
144	Radionuclide therapy
145	Pharmacology/physiologic nuclear myocardial perfusion studies
146	Positron emission tomography (PET)
147	Telephone/ancillary 147209 – Telephone visual impairment services team (VIST)
148	Telephone/diagnostic
149	Radiation therapy treatment
150	Computerized tomography (CT)
151	Magnetic resonance imaging (MRI)
152	Angiogram catheterization
153	Interventional radiography
160	Clinical pharmacy
165	Bereavement Counseling
166	Chaplain service – individual
167	Chaplain service – group

Value	Description
168	Chaplain service – collateral
169	Telephone/chaplain
170	Home based primary care (HBPC) – physician
171	HBPC – RN/RNP/PA
172	HBPC – nurse extender
173	HBPC – social worker
174	HBPC – therapist 174202 – HBPC – Recreation therapy 174205 – HBPC – Physical therapy 174206 – HBPC – Occupational therapy
175	HBPC – dietician
176	HBPC – clinical pharmacist
177	HBPC – other 177201 – HBPC – Physical Medicine & rehabilitation service (PM&RS) 177210 – HBPC – Spinal cord injury
178	HBPC – Telephone
179	Tele-home care technology unit
180	Dental
181	Telephone/dental
190	Adult day health care
201	Physical Medicine & rehabilitation service (PM&RS)
202	Recreation therapy service
203	Audiology
204	Speech pathology
205	Physical therapy
206	Occupational therapy
207	PM&RS incentive therapy
208	PM&RS compensated work therapy (CWT) 208466 – Domiciliary (DOM) CWT
209	VIST coordinator 209125 – VIST coordinator by social worker
210	Spinal cord injury (SCI) 210414 – SCI – cystouro 210468 – SCI – RN procedure
211	Amputation follow-up clinic
212	EMG – Electromyogram
213	PM&RS vocational assistance 213466 – Veterans education/training DOM
214	Kinesiotherapy
215	SCI home care program
216	Telephone rehabilitation (REHAB) and support 216203 – Telephone audiology REHAB support service 216204 – Telephone speech REHAB support service 216210 – Spinal cord injury telephone support

Value	Description
217	Blind REHAB outpatient specialist (BROS)
290	Observation medicine
291	Observation surgery
292	Observation psychiatry
293	Observation neurology
294	Observation blind REHAB
295	Observation spinal cord
296	Observation rehabilitation
301	General internal medicine
302	Allergy immunology
303	Cardiology 303201 – Cardiac REHAB
304	Dermatology 304416 – Dermatology photo therapy
305	Endocrinology/metabolism (except diabetes)
306	Diabetes 306117 – Diabetes education
307	Gastroenterology 307117 – Enterostomal clinic 307454 – Liver
308	Hematology
309	Hypertension
310	Infectious disease
311	Pacemaker
312	Pulmonary/chest
313	Renal/nephrology 313457 – Transplant
314	Rheumatology/arthritis
315	Neurology 315456 – Epilepsy 315469 – Movement disorder 315470 – Sleep disorder
316	Oncology/tumor 316419 – Radiology prescription (with oncology medicine service) 316329 – Oncology/tumor procedures
317	Coumadin clinic
318	Geriatric clinic
319	Geriatric evaluation and management (GEM) clinic
320	Alzheimer's and dementia clinic
321	Gastrointestinal endoscopy
322	Women's clinic
323	Primary care/medicine
324	Telephone/medicine
325	Telephone/neurology

Value	Description
326	Telephone/geriatrics
327	Physician (MD) perform invasive operating room procedure (Medical service)
328	Medical surgical day unit (MSDU)
329	Medical procedure unit
330	Chemotherapy procedures unit medicine
331	Pre-bed care – physician (MD) (Medical service)
332	Pre-bed care – RN (Medical service)
333	Cardiac catheterization
334	Cardiac stress test/exercise tolerance test (ETT)
350	Geriatric primary care
401	General surgery
402	Cardiac surgery
403	Ear, nose, and throat (ENT)
404	Gynecology
405	Hand surgery
406	Neurosurgery
407	Ophthalmology
408	Optometry
409	Orthopedics
410	Plastic surgery 410210 – SCI plastic
411	Podiatry
412	Proctology
413	Thoracic surgery
414	Urology 414451 – Impotency 414473 - Urodynamics
415	Vascular surgery 415461 – Aneurysm detection and management (ADAM) clinic
416	Ambulatory surgery evaluation by non-MD
417	Prosthetic, orthotics: evaluation, fitting, and/or measuring 417201 – Major med 417451 – Wheel chair 417452 – Cushion 417455 – Shoe/brace 417473 – Orthotic lab 417474 – Prosthetics lab
418	Amputation clinic
419	Anesthesia pre-operation and/or post-operation consultation
420	Pain clinic
421	Vascular laboratory
422	Cast clinic
423	Prosthetic supply ordering services
424	Telephone/surgery

Value	Description
425	Telephone/prosthetics/orthotics
426	Women's surgery
428	Telephone/optometry
429	Outpatient care in the operating room
430	Cysto room unit for outpatient
431	Chemotherapy procedures unit – surgery
432	Pre-bed care MD (surgical service)
433	Pre-bed care RN (surgical service)
435	Surgical procedure unit
450 [†]	Compensation and pension exam

100328	Physician assistants & advanced practice nursing; clinical nurse specialist; psychiatric/mental health, chronic illness
100329	Physician assistants & advanced practice nursing; clinical nurse specialist; psychiatric/mental health, communi
100330	Physician assistants & advanced practice nursing; clinical nurse specialist; psychiatric/mental health, geropsy

Value	Description
100331	Physician assistants & advanced practice nursing; clinical nurse specialist; rehabilitation
100333	Physician assistants & advanced practice nursing; clinical nurse specialist; school
100335	Physician assistants & advanced practice nursing; clinical nurse specialist; women's health
100400	Physician assistants & advanced practice nursing; midwife, certified
100500	Physician assistants & advanced practice nursing; nurse anesthetist, certified registered
100600	Physician assistants & advanced practice nursing; nurse practitioner
100601	Physician assistants & advanced practice nursing; nurse practitioner; acute care
100602	Physician assistants & advanced practice nursing; nurse practitioner; adult health
100603	Physician assistants & advanced practice nursing; nurse practitioner; community health
100604	Physician assistants & advanced practice nursing; nurse practitioner; critical care medicine
100605	Physician assistants & advanced practice nursing; nurse practitioner; family
100606	Physician assistants & advanced practice nursing; nurse practitioner; gerontology
100607	Physician assistants & advanced practice nursing; nurse practitioner; neonatal
100608	Physician assistants & advanced practice nursing; nurse practitioner; neonatal; critical care
100609	Physician assistants & advanced practice nursing; nurse practitioner; obstetrics & gynecology
100610	Physician assistants & advanced practice nursing; nurse practitioner; occupational health
100612	Physician assistants & advanced practice nursing; nurse practitioner; pediatrics: acute care
100613	Physician assistants & advanced practice nursing; nurse practitioner; pediatrics: critical care
100614	Physician assistants & advanced practice nursing; nurse practitioner; perinatal
100615	Physician assistants & advanced practice nursing; nurse practitioner; primary care
100616	Physician assistants & advanced practice nursing; nurse practitioner; psychiatric/mental health
100617	Physician assistants & advanced practice nursing; nurse practitioner; school
100618	Physician assistants & advanced practice nursing; nurse practitioner; women's health
110000	Physicians (MD and DO); physician/osteopath
110100	Physicians (MD and DO); physician/osteopath; addiction medicine
110200	Physicians (MD and DO); physician/osteopath; allergy

Value	Description
110300	Physicians (MD and DO); physician/osteopath; allergy & immunology
110301	Physicians (MD and DO); physician/osteopath; immunology, cli & lab, allergy & immunology
110400	Physicians (MD and DO); physician/osteopath; anesthesiology
110401	Physicians (MD and DO); physician/osteopath; critical care medicine; anesthesia
110500	Physicians (MD and DO); physician/osteopath; body imaging
110600	Physicians (MD and DO); physician/osteopath; cardiology
110700	Physicians (MD and DO); physician/osteopath; dermatology
110701	Physicians (MD and DO); physician/osteopath; immunology, clin & lab dermatological
110702	Physicians (MD and DO); physician/osteopath; dermatopathology; dermatology
110800	Physicians (MD and DO); physician/osteopath; emergency medicine
110801	Physicians (MD and DO); physician/osteopath; toxicology, medical; emergency medicine
110803	Physicians (MD and DO); physician/osteopath; sports medicine; emergency medicine
110900	Physicians (MD and DO); physician/osteopath; family practice
110901	Physicians (MD and DO); physician/osteopath; geriatric medicine; family practice
110902	Physicians (MD and DO); physician/osteopath; sports medicine; family practice
111000	Physicians (MD and DO); physician/osteopath; general practice
111100	Physicians (MD and DO); physician/osteopath; geriatric medicine; general practice
111200	Physicians (MD and DO); physician/osteopath; hematology & oncology
111300	Physicians (MD) and osteopaths (DO); intern, allopathic
111400	Physicians (MD) and osteopaths (DO); intern, osteopathic
111500	Physicians (MD and DO); physician/osteopath; internal medicine
111501	Physicians (MD and DO); physician/osteopath; adolescent medicine; internal medicine
111502	Physicians (MD and DO); physician/osteopath; cardiac electrophysiology
111503	Physicians (MD and DO); physician/osteopath; cardiovascular disease
111504	Physicians (MD and DO); physician/osteopath; immunology, clin & lab internal medicine
111505	Physicians (MD and DO); physician/osteopath; critical care medicine; internal medicine
111506	Physicians (MD and DO); physician/osteopath; endocrinology, diabetes and metabolism
111507	Physicians (MD and DO); physician/osteopath; gastroenterology
111508	Physicians (MD and DO); physician/osteopath; geriatric medicine; internal medicine

Value	Description
111509	Physicians (MD and DO); physician/osteopath; hematology; internal medicine
111510	Physicians (MD and DO); physician/osteopath; infectious disease
111511	Physicians (MD and DO); physician/osteopath; oncology, medicine
111512	Physicians (MD and DO); physician/osteopath; nephrology
111513	Physicians (MD and DO); physician/osteopath; pulmonary disease
111514	Physicians (MD and DO); physician/osteopath; pulmonary medicine
111515	Physicians (MD and DO); physician/osteopath; rheumatology
111516	Physicians (MD and DO); physician/osteopath; sports medicine; internal medicine
111520	Physicians (MD and DO); physician/osteopath; internal medicine; peripheral vascular
111600	Physicians (MD and DO); physician/osteopath; laboratory medicine
111800	Physicians (MD and DO); physician/osteopath; medical diseases of the chest
111900	Physicians (MD and DO); physician/osteopath; genetics, medical
111903	Physicians (MD and DO); physician/osteopath; cylogenetics, clinical
111904	Physicians (MD and DO); physician/osteopath; genetics, clinical (MD)
111905	Physicians (MD and DO); physician/osteopath; genetics, clinical molecular
112100	Physicians (MD and DO); physician/osteopath; neurology
112200	Physicians (MD and DO); physician/osteopath; neurology, child
112300	Physicians (MD and DO); physician/osteopath; neuroradiology
112400	Physicians (MD and DO); physician/osteopath; nuclear cardiology
112500	Physicians (MD and DO); physician/osteopath; nuclear imaging & therapy
112600	Physicians (MD and DO); physician/osteopath; nuclear medicine
112601	Physicians (MD and DO); physician/osteopath; nuclear medicine, in vivo & vitro
112800	Physicians (MD and DO); physician/osteopath; obstetrics
112900	Physicians (MD and DO); physician/osteopath; obstetrics & gynecology
112901	Physicians (MD and DO); physician/osteopath; critical care medicine; ob/gyn
112902	Physicians (MD and DO); physician/osteopath; oncology, gynecologic
112903	Physicians (MD and DO); physician/osteopath; maternal and fetal medicine
112904	Physicians (MD and DO); physician/osteopath; endocrinology, reproductive
113000	Physicians (MD and DO); physician/osteopath; ophthalmology
113100	Physicians (MD and DO); physician/osteopath
113200	Physicians (MD and DO); physician/osteopath; osteopathic manipulative medicine, special proficiency
113300	Physicians (MD and DO); physician/osteopath; otolaryngology
113301	Physicians (MD and DO); physician/osteopath; otology/neurotology
113302	Physicians (MD and DO); physician/osteopath; pediatric otolaryngology
113400	Physicians (MD and DO); physician/osteopath; otology
113500	Physicians (MD and DO); physician/osteopath; otorhinolaryngology
113600	Physicians (MD and DO); physician/osteopath; surgery, otorhinolaryngology & facial plastic surgery
113700	Physicians (MD and DO); physician/osteopath; pathology

Value	Description
113701	Physicians (MD and DO); physician/osteopath; pathology, anatomic & clinical
113702	Physicians (MD and DO); physician/osteopath; pathology, anatomic
113703	Physicians (MD and DO); physician/osteopath; pathology, anatomic & laboratory medicine
113704	Physicians (MD and DO); physician/osteopath; blood banking/transfusion medicine
113705	Physicians (MD and DO); physician/osteopath; pathology, chemical
113706	Physicians (MD and DO); physician/osteopath; pathology, clinical
113707	Physicians (MD and DO); physician/osteopath; cytopathology
113708	Physicians (MD and DO); physician/osteopath; dermatopathology
113709	Physicians (MD and DO); physician/osteopath; forensic pathology
113710	Physicians (MD and DO); physician/osteopath; hematology: pathology
113711	Physicians (MD and DO); physician/osteopath; immunopathology
113712	Physicians (MD and DO); physician/osteopath; medical microbiology
113713	Physicians (MD and DO); physician/osteopath; neuropathology
114000	Physicians (MD and DO); physician/osteopath; pediatric neurology
114100	Physicians (MD and DO); physician/osteopath; psychiatry, pediatric
114200	Physicians (MD and DO); physician/osteopath; pediatric
114205	Physicians (MD and DO); physician/osteopath; pediatric cardiology
114207	Physicians (MD and DO); physician/osteopath; pediatric emergency medicine
114210	Physicians (MD and DO); physician/osteopath; pediatric hematology and oncology
114212	Physicians (MD and DO); physician/osteopath; pediatric nephrology
114216	Physicians (MD and DO); physician/osteopath; sports medicine: pediatrics
114300	Physicians (MD and DO); physician/osteopath; pediatric radiology
114400	Physicians (MD and DO); physician/osteopath; pharmacology, clinical
114500	Physicians (MD and DO); physician/osteopath; physical medicine & rehabilitation
114600	Physicians (MD and DO); physician/osteopath; preventive medicine, general
114601	Physicians (MD and DO); physician/osteopath; aerospace medicine; preventive medicine
114602	Physicians (MD and DO); physician/osteopath; toxicology, medical; preventive medicine
114603	Physicians (MD and DO); physician/osteopath; occupational medicine; preventive medicine
114604	Physicians (MD and DO); physician/osteopath; occupational medicine
114605	Physicians (MD and DO); physician/osteopath; public health and general preventive medicine
114800	Physicians (MD and DO); physician/osteopath; psychiatry & neurology
114801	Physicians (MD and DO); physician/osteopath; psychiatry addiction
114802	Physicians (MD and DO); physician/osteopath; psychiatry child & adolescent
114803	Physicians (MD and DO); physician/osteopath; neurophysiology clinical

Value	Description
114804	Physicians (MD and DO); physician/osteopath; forensic psychiatry
114805	Physicians (MD and DO); physician/osteopath; psychiatry geriatric
114806	Physicians (MD) and osteopaths (DO); psychiatry and neurology; neurology
114808	Physicians (MD and DO); physician/osteopath; psychiatry
114900	Physicians (MD and DO); physician/osteopath; psychiatry, child
115000	Physicians (MD) and osteopaths (DO); psychoanalysis
115100	Physicians (MD and DO); physician/osteopath; radiation therapy
115200	Physicians (MD and DO); physician/osteopath; pathology, radioisotopic
115300	Physicians (MD and DO); physician/osteopath; radiology
115301	Physicians (MD and DO); physician/osteopath; radiology, diagnostic
115302	Physicians (MD and DO); physician/osteopath; nuclear radiology
115304	Physicians (MD and DO); physician/osteopath; radiation oncology
115305	Physicians (MD and DO); physician/osteopath; radiological physics
115306	Physicians (MD) and osteopaths (DO); radiology; radiology
115307	Physicians (MD and DO); physician/osteopath; radiology, vascular & interventional
115400	Physicians (MD and DO); physician/osteopath; rehabilitation medicine
115500	Physicians (MD) and osteopaths (DO); resident, allopathic
115600	Physicians (MD) and osteopaths (DO); resident, osteopathic
115700	Physicians (MD) and osteopaths (DO); surgery
115701	Physicians (MD and DO); physician/osteopath; surgery, general vascular
115702	Physicians (MD) and osteopaths (DO); surgery; oncology
115704	Physicians (MD and DO); physician/osteopath; surgery, hand
115705	Physicians (MD and DO); physician/osteopath; surgical critical care; surgery
115800	Physicians (MD and DO); physician/osteopath; surgery, cardiovascular
115900	Physicians (MD and DO); physician/osteopath; surgery, colon & rectal surgery
116000	Physicians (MD and DO); physician/osteopath; dermatology micrographic surgery
116100	Physicians (MD and DO); physician/osteopath; surgery, general
116200	Physicians (MD and DO); physician/osteopath; surgery, head & neck
116300	Physicians (MD) and osteopaths (DO); surgery, maxillofacial
116400	Physicians (MD and DO); physician/osteopath; surgery, neurological
116500	Physicians (MD and DO); physician/osteopath; surgery, obstetric & gynecologic
116600	Physicians (MD and DO); physician/osteopath; surgery, orthopedic
116700	Physicians (MD and DO); physician/osteopath; surgery, orthopedic, adult reconstructive
116800	Physicians (MD and DO); physician/osteopath; surgery, hand; orthopedic surgery
116900	Physicians (MD and DO); physician/osteopath; surgery, orthopedic, musculoskeletal oncology
117000	Physicians (MD and DO); physician/osteopath; surgery, orthopedic, pediatric
117100	Physicians (MD and DO); physician/osteopath; surgery, orthopedic, spine

Value	Description
117400	Physicians (MD and DO); physician/osteopath; surgery, plastic
117401	Physicians (MD and DO); physician/osteopath; surgery, hand; plastic surgery
117500	Physicians (MD and DO); physician/osteopath; surgery, plastic & reconstructive
117700	Physicians (MD and DO); physician/osteopath; surgery, thoracic
117800	Physicians (MD and DO); physician/osteopath; surgery, thoracic cardiovascular
117900	Physicians (MD and DO); physician/osteopath; surgery, traumatic
118000	Physicians (MD and DO); physician/osteopath; surgery, urological
118100	Physicians (MD and DO); physician/osteopath; ultrasound, diagnostic
118200	Physicians (MD and DO); physician/osteopath; urology
118302	Physicians (MD and DO); physician/osteopath; adolescent medicine; family practitioner
118304	Physicians (MD and DO); physician/osteopath; allergy & immunology; internal medicine
118307	Physicians (MD and DO); physician/osteopath; age specific, greater than 1 year old
118310	Physicians (MD and DO); physician/osteopath; cardiac electrophysiology, clinical
118313	Physicians (MD and DO); physician/osteopath; endocrinology
118314	Physicians (MD and DO); physician/osteopath; geriatric medicine
118315	Physicians (MD and DO); physician/osteopath; gynecology
118316	Physicians (MD and DO); physician/osteopath; hematology
118318	Physicians (MD and DO); physician/osteopath; immunology, dermatological
118325	Physicians (MD and DO); physician/osteopath; pain medicine
118326	Physicians (MD and DO); physician/osteopath; radiology, angiography & interventional
118327	Physicians (MD and DO); physician/osteopath; radiology, therapeutic
118331	Physicians (MD and DO); physician/osteopath; roentgenology, diagnostic
118337	Physicians (MD and DO); physician/osteopath; occupational medicine
118339	Physicians (MD and DO); physician/osteopath; otorhinolaryngology & head
118340	Physicians (MD and DO); physician/osteopath; otorhinolaryngology & head
120000	Podiatric medicine and surgery
120100	Podiatric medicine and surgery services; assistant, podiatric
120200	Podiatric medicine and surgery services; podiatrist
120202	Podiatric medicine and surgery; podiatrist; foot and ankle orthopaedics/biomechanics
120204	Podiatric medicine and surgery services; podiatrist; surgery, foot & ankle
120205	Podiatric medicine and surgery services; podiatrist; surgery, foot
120206	Podiatric medicine and surgery services; podiatrist; general practice
120208	Podiatric medicine and surgery; podiatrist; podiatric orthopedics
120209	Podiatric medicine and surgery services; podiatrist; primary podiatric medicine
130000	Respiratory, rehabilitative and restorative s

Value	Description
130100	Respiratory, rehabilitative and restorative services; occupational therapist
130101	Respiratory, rehabilitative and restorative services; occupational therapist assistant
130102	Respiratory, rehabilitative and restorative services; occupational therapist; hand
130103	Respiratory, rehabilitative and restorative services; occupational therapist; registered occupational therapist
130104	Respiratory, rehabilitative and restorative services; occupational therapist; case management
130105	Respiratory, rehabilitative and restorative services; occupational therapist; ergonomics
130106	Respiratory, rehabilitative and restorative services; occupational therapist; human factors
130107	Respiratory, rehabilitative and restorative services; occupational therapist; neurorehabilitation
130109	Respiratory, rehabilitative and restorative services; occupational therapist; rehabilitation, driver
130200	Respiratory, rehabilitative and restorative services; other
130201	Respiratory, rehabilitative and restorative services; art therapist
130202	Respiratory, rehabilitative and restorative services; specialist/technologist; athletic trainer
130204	Respiratory, rehabilitative and restorative services; massage therapist
130205	Respiratory, rehabilitative and restorative services; music therapist
130206	Respiratory, rehabilitative and restorative services; specialist/technologist; rehabilitation, blind
130207	Respiratory, rehabilitative and restorative services; orthotics/prosthetics fitter
130208	Respiratory, rehabilitative and restorative services; other; orthotist
130209	Respiratory, rehabilitative and restorative services; recreation therapist
130210	Respiratory, rehabilitative and restorative services; other; rehabilitation coordinator
130212	Respiratory, rehabilitative and restorative services; other; vocational specialist
130213	Respiratory, rehabilitative and restorative services; orthotist
130214	Respiratory, rehabilitative and restorative services; prosthetist
130300	Respiratory, rehabilitative and restorative services; physical therapist
130301	Respiratory, rehabilitative and restorative services; physical therapist; cardiopulmonary
130302	Respiratory, rehabilitative and restorative services; physical therapist; electrophysiology, clinical
130303	Respiratory, rehabilitative and restorative services; physical therapist; geriatric
130304	Respiratory, rehabilitative and restorative services; physical therapist; hand
130305	Respiratory, rehabilitative and restorative services; physical therapist; neurology

Value	Description
130306	Respiratory, rehabilitative and restorative services; physical therapist; orthopaedic
130307	Respiratory, rehabilitative and restorative services; physical therapist; pediatrics
130308	Respiratory, rehabilitative and restorative services; physical therapist assistant
130309	Respiratory, rehabilitative and restorative services; physical therapist; sports
130310	Respiratory, rehabilitative and restorative services; physical therapist; case management
130311	Respiratory, rehabilitative and restorative services; physical therapist; ergonomics
130400	Respiratory, rehabilitative and restorative services; rehabilitation practitioner
130404	Respiratory, rehabilitative and restorative services; rehabilitation counselor
130405	Respiratory, rehabilitative and restorative services; rehabilitation practitioner; rehabilitation intern
130406	Respiratory, rehabilitative and restorative services; rehabilitation counselor; assistive technology practitioner
130407	Respiratory, rehabilitative and restorative services; rehabilitation counselor; assistive technology supplier
130501	Respiratory, rehabilitative and restorative services; respiratory care practitioner; certified respiratory therapy technologist
130504	Respiratory, rehabilitative and restorative services; respiratory care practitioner; inhalation therapist
130506	Respiratory, rehabilitative and restorative services; pulmonary function technologist
130507	Respiratory, rehabilitative and restorative services; respiratory care practitioner; registered respiratory therapist
130508	Respiratory, rehabilitative and restorative services; respiratory therapist
130511	Respiratory, rehabilitative and restorative services; respiratory therapist; perinatal
130513	Respiratory, rehabilitative and restorative services; respiratory therapist
130600	Respiratory, rehabilitative and restorative services; kinesiotherapist
140000	Speech, language and hearing services
140100	Speech, language and hearing services; audiologist
140101	Speech, language and hearing services; audiologist; assistive technology practitioner
140102	Speech, language and hearing services; audiologist; assistive technology supplier
140200	Speech, language and hearing services; audiologist
140300	Speech, language and hearing services; hearing instrument specialist
140400	Speech, language and hearing services; speech and hearing therapist
140500	Speech, language and hearing services; speech
140600	Speech, language and hearing services; specialist/technologist; speech/language assistant

Value	Description
140701	Speech, language and hearing services; specialist/technologist; audiology assistant
150000	Technologists, technicians & other technical
150100	Technologists, technicians & other technical; clinical pathology
150104	Technologists, technicians & other technical; specialist/technologist, pathology; laboratory management, diplomate
150105	Technologists, technicians & other technical; specialist/technologist, pathology; hemapheresis practitioner
150106	Technologists, technicians & other technical; technician, pathology; histology
150107	Technologists, technicians & other technical; specialist/technologist, pathology; histology
150108	Technologists, technicians & other technical; technician, pathology; medical laboratory
150109	Technologists, technicians & other technical; specialist/technologist, pathology; medical technologist
150110	Technologists, technicians & other technical; technician, pathology; phlebotomy
150111	Technologists, technicians & other technical; specialist/technologist, pathology; blood banking
150112	Technologists, technicians & other technical; specialist/technologist, pathology; chemistry
150113	Technologists, technicians & other technical; specialist/technologist, pathology; cytotechnology
150114	Technologists, technicians & other technical; specialist/technologist, pathology; hematology
150115	Technologists, technicians & other technical; specialist/technologist, pathology; microbiology
150119	Technologists, technicians & other technical; specialist/technologist, pathology; immunology
150200	Technologists, technicians & other technical; clinical services
150201	Technologists, technicians & other technical; specialist/technologist, pathology; biomedical engineering
150202	Technologists, technicians & other technical; technician, other; biomedical engineering
150203	Technologists, technicians & other technical; specialist/technologist, cardiology; cardiovascular: invasive technology
150204	Technologists, technicians & other technical; specialist/technologist, cardiology; cardiology
150205	Technologists, technicians & other technical; specialist/technologist, cardiology; cardiopulmonary
150206	Technologists, technicians & other technical; clinical services; cardiothoracic technician
150207	Technologists, technicians & other technical; specialist/technologist, cardiology; perfusionist

Value	Description
150208	Technologists, technicians & other technical; technician, cardiology; ECG
150209	Technologists, technicians & other technical; technician, other; EEG
150210	Technologists, technicians & other technical; specialist/technologist, other; EEG
150211	Technologists, technicians & other technical; specialist/technologist, other; electroneurodiagnostic
150212	Technologists, technicians & other technical; specialist/technologist, other; graphics methods
150214	Technologists, technicians & other technical; specialist/technologist, other; geneticist, medical (PhD)
150215	Technologists, technicians & other technical; clinical services; pulmonary clinician
150216	Technologists, technicians & other technical; technician, other; renal dialysis
150218	Technologists, technicians & other technical; specialist/technologist, other; surgical
150219	Technologists, technicians & other technical; clinical services; ultrasound technologist
150220	Technologists, technicians & other technical; clinical services
150221	Technologists, technicians & other technical; clinical services
150300	Technologists, technicians & other technical; radiologic sciences
150301	Technologists, technicians & other technical; radiologic technologist; cardiovascular
150302	Technologists, technicians & other technical; radiologic sciences; computed tomography technologist
150303	Technologists, technicians & other technical; technician, other; darkroom
150304	Technologists, technicians & other technical; specialist/technologist, cardiology; sonography, diagnostic cardiac
150305	Technologists, technicians & other technical; radiologic sciences; diagnostic imaging operation tech
150306	Technologists, technicians & other technical; radiologic technologist; sonography, diagnostic medical
150307	Technologists, technicians & other technical; radiologic sciences; magnetic resonance technologist
150308	Technologists, technicians & other technical; radiologic technologist; mammography; radiography
150310	Technologists, technicians & other technical; radiologic technologist; nuclear medicine technology
150311	Technologists, technicians & other technical; radiologic technologist; radiation physicist
150312	Technologists, technicians & other technical; radiologic technologist; radiation therapy
150313	Technologists, technicians & other technical; radiologic technologist; radiographer

Value	Description
150314	Technologists, technicians & other technical; radiologic sciences; radiologic technician
150315	Technologists, technicians & other technical; radiologic sciences; radiologic technologist
150316	Technologists, technicians & other technical; radiologic technologist; dosimetrist, medical
150319	Technologists, technicians & other technical; radiologic technologist; computed tomography: radiography
150320	Technologists, technicians & other technical; radiologic technologist; magnetic resonance imaging (MRI):r
150321	Technologists, technicians & other technical; radiologic technologist; magnetic resonance imaging (MRI):r
150323	Technologists, technicians & other technical; radiologic technologist; quality management; radiographer
150324	Technologists, technicians & other technical; radiologic technologist
150403	Technologists, technicians & other technical; specialist/technologist, other; biomedical photographer
150406	Technologists, technicians & other technical; specialist/technologist, other; art, medical
150410	Technologists, technicians & other technical; research; research study specialist
150414	Technologists, technicians & other technical; technician, other; veterinary
150701	Technologists, technicians & other technical; specialist/technologist, cardiology; cardiovascular, noninvasive technologist
150702	Technologists, technicians & other technical; specialist/technologist, cardiology; cardiovascular vascular technologist
150703	Technologists, technicians & other technical; specialist/technologist, cardiology; vascular
150801	Technologists, technicians & other technical; technician, cardiology; cardiographic
150901	Technologists, technicians & other technical; specialist/technologist, health information; coding specialist, hospital
150902	Technologists, technicians & other technical; specialist/technologist, health information; coding specialist, physician
150903	Technologists, technicians & other technical; specialist/technologist, health information; registered record administrator
151000	Technologists, technicians & other technical; specialist/technologist, other
151100	Technologists, technicians & other technical; technician, health information
151101	Technologists, technicians & other technical; technician, health information; assistant record technician
160101	Physicians (other roles); physician/osteopath; laboratory service provider
170100	Nursing service related; Christian science practitioner/nurse
170200	Nursing service related; home health aide
170300	Nursing service related; homemaker

Value	Description
170400	Nursing service related; nurses aide
170500	Nursing service related; nursing home administrator
170600	Nursing service related; technician; personal care attendant
170601	Nursing service related; technician

STA3N can assume the following values:

Value	Description
402	Togus
405	White River Junction
436	Fort Harrison, Montana HCS

693	Wilkes Barre
695	Milwaukee WI

Appendix D: Austin Automation Center Information

Requesting Access to the Datasets

To gain access to the Medical SAS Datasets, an approved ACRS (Automated Customer Registration System) TIME SHARING REQUEST FORM (Form 9957) specifying the appropriate Functional Task Code(s) for the dataset(s) requested must be submitted to the Austin Automation Center (AAC). This is typically done through the Information Resources Management (IRM) department at your site. The AAC can provide you with the IRM contact person at your site. A copy of this form can be obtained through the VIREC web site at <http://www.virec.research.va.gov/TOOLKIT/FORM9957.pdf> or through the VA at <http://www.va.gov/forms/dot/VAF9957.dot>.

Batch Job Service Level Categories

When submitting programs (jobs) in the IBM OS/390 mainframe environment at the Austin Automation Center (AAC), an appropriate service level code is required to allocate the system resources required to complete the job. The AAC currently defines four categories of batch job service and strives to provide corresponding job turnaround, from submission to completion, as shown. An “S322” error occurs when a job exceeds the Central Processing Unit (CPU) time for the service level coded. The number of tape drives and CPU time expected can be determined from step statistics messages. The table below describes the four service level categories and their associated system resource capacity levels. Specific instruction on how to code the batch service level in a job is described in the Job Control Language (JCL) example below.

Service Level Code	CPU Seconds	Tape Drives	Turnaround Time Goal
6	0-10	0	15 minutes
7	10-50	0	30 minutes
8	0-600	1-2	2 hours
9	over 600	over 2	6 hours

JCL Example

```
(1) //yourIDx JOB XXXUNKA $n$ ,yourID,MSGCLASS=I,NOTIFY=&SYSUID
(2) //step1 EXEC SAS,WORK='100,100'
(3) //libref DD DSN=SAS-dataset-name,DISP=SHR
(3) //LIBRARY DD DSN=MDPPRD.MDP.FMTLIB6,DISP=SHR
(3) //SYSIN DD *
```

(1) Job card:

- **yourIDx** – Time Sharing Option (TSO) account user ID plus a one-character job identifier (**x** (A–Z)) (maximum 8 characters)
- **XXXUNKA n** – Batch job service level category (**n**, (6–9) (described in section above))
- **MSGCLASS=x** – supplies the SYSOUT class for the job's system messages (“I”=24 hour retention period, “R”=5 day retention period)
- **NOTIFY=&SYSUID** – notifies user ID when job has completed

(2) Execution statement:

- **step1** – job step name (maximum 8 characters)
- **EXEC SAS** – executes SAS software
- **WORK='p,s'** – primary and secondary work space to be allocated during step execution

(3) Data Definition (DD) statements

- **Libref** – library reference defining a file to be read (maximum 8 characters)
- **DSN= SAS-dataset-name** – defines a SAS dataset
- **DISP=SHR** – allocates dataset as “shared” or read-only
- **LIBRARY DD DSN=MDPPRD.MDP.FMTLIB6** – allocates dataset containing library of permanent SAS formats attached to the variables in the SAS datasets
- **SYSIN DD *** – indicates that SAS program statements follow

Appendix E: Selected Bibliography

This bibliography of articles relative to inpatient data within the Austin Automation Center (AAC) database was constructed using the following strategy.

A PubMed (<http://www.ncbi.nih.gov/entrez/query.fcgi>) search for text words was conducted on 11/22/02, with 468 references resulting from using the parameters of:

(veteran OR veterans) AND (data OR database OR databases) AND ((inpatient OR inpatients OR PTF) OR (outpatient OR outpatients or OPC))

Results were imported into Reference Manager. Each abstract was read and a qualitative judgment was made concerning relevance to the Medical SAS Datasets using the following criteria:

Does the abstract refer to “inpatient”, “outpatient”, or “administrative” data?

Does the abstract refer to “Austin Automation Center” or “AAC” data?

If the answer to both questions was yes, the article was classified as relevant to the Medical SAS Datasets, netting a total of 142 articles.

Relevant articles were retrieved and the full text was read to confirm relevance to the Outpatient Medical SAS Datasets. Of this procedure, 49 articles were found to be relevant.

These 49 relevant articles are sorted by year and alphabetized within each year. A PubMed link to the abstract is provided for each citation.
