22-Apr-08

This is a DRAFT document of TEP species and the administrative National Forest(s) and/or Grassland(s) where they occur. It is not complete, and may contain errors.

It is intended to assist local FS field unit annual discussions with the FWS and NMFS in developing species-specific measures prior to each fire season to prepare for fire emergency responses.

**TEP species "on" National Forest System lands are:
"Species that occur on National Forest System lands, or are potentially affected by NFS management, and are listed as threatened or endangered or are proposed for listing, pursuant to the Endangered Species Act."**

FWS TEP Species Information

<http://www.fws.gov/endangered/wildlife.html>

NMFS TEP Species Information

<http://www.nmfs.noaa.gov/pr/species/esa/fish.htm>

Forest Service Rare Plant Information

<http://www.fs.fed.us/wildflowers/rareplants/profiles/index.php>

NatureServe Species Information

<http://www.natureserve.org/explorer/>

Forest Service Regions

R1 -Northern Region, Regional Office (RO) in Missoula MT
R2 -Rocky Mountain Region, RO in Denver CO
R3 - Southwestern Region, RO in Albuquerque NM
R4 - Intermountain Region, RO in Ogden UT
R5 - Pacific Southwest Region, RO in Vallejo CA
R6 - Northwest Region, RO in Portland OR
R8 - Southern Region, RO in Atlanta GA
R9 - Eastern Region, RO in Milwaukee WI
R10 - Alaska Region, RO in Juneau AK

Subgroups

Bryophyte, Conifer, Fern/Fern Ally, Fungi, Lichen,
Arachnid, Crustacean, Insect, Mollusc, Other Invertebrate,
Amphibian, Bird, Fish, Mammal, or Reptile

Several species, such as steelhead, coho, and chinook salmon, are listed under the ESA as Evolutionarily Significant Units (ESU) or Distinct Population Segments (DPS).

The ESU or DPS name of the species is given as part of the common name in this document (e.g., "Cal. Central Valley steelhead").
