Oil and Gas Monitoring of CEQ Key FONSI "Intensity Factors" and Other EA Significant Issues
For APD Site-Specific Projects

Project Link to Other Worksheets			40 CFR 1508.27(b)(9) Threatened and Endangered Species or "Critical" Habitat						
Region	Unit	Project Name	If YES, what other actions added to this project's effect on cultural or historic resources?	If YES, what is your reason for determining that these cumulative effects on cultural or historic resources are or are not significant?	Did the project have any effects on threatened and endangered species or its identified "critical" habitat under ESA? (40 CFR 1508.27(b)(9))	If NO, explain how project implementation avoided effects on threatened and endangered species/ critical habitat.	If YES, what threatened and endangered species/ critical habitats were affected?	If YES, describe the bounds of this effect on threatened and endangered species/ critical habitats, both geographically and in time.	If YES, what other actions added to this project's effect on threatened and endangered species/ critical habitats?
