

National Interagency Aviation Council
3833 South Development Avenue
Boise, Idaho 83705

TO: Chair, Interagency Aerial Supervision Steering Committee
FROM: Chair, NIAC
SUBJECT: Fire Traffic Area Proposal

NIAC has met and reviewed your proposal for a standardized description and representation of the Fire Traffic Area (FTA). We have endorsed the proposal. We request that you work with the appropriate aviation and operations work groups to inform them of this new standard and answer their questions, if any. Include a description of the "n" listed after two of the frequencies listed on the bottom of the page. Please forward to me a final copy of the FTA you will be producing.

A handwritten signature in black ink, appearing to read "Dave Dash".

Dave Dash
