Welcome

to the Coastal Management Portal

The Coastal Management Portal provides centralized access to information about the Coastal Zone Management Program. It provides access to discussion forums and workgroups to facilitate the exchange of ideas and information within the coastal management community. This site also serves as a gateway to coastal management program guidance, tools, publications, and case studies.

Access to the Coastal Management Portal is currently reserved for staff and partners of the National Coastal Management Program and National Estuarine Research Reserve System. This site allows users to:

- Participate in discussion forums and workgroups
- Manage project data
- Search for CZM projects, data, and products; and
- Learn about news and upcoming events

Requests for accounts should be sent to Laurie.Rounds@noaa.gov.

Question details

1

Number of dollars leveraged by CZMA funds for public access
Enter the number of dollars leveraged (from any source) during your reporting period that are directly related to public access activities funded with CZMA federal or matching funds. Enter whole dollars only. Do not include in-kind services.

Comment -

Next Steps

- The Coastal Management Portal will be available in conjunction with the new OCRM website.
- Send names and email addresses of program staff for a portal account to Laurie.Rounds@noaa.gov
- Limit requests to primary CZM staff
